

# Handbook 2019

## **Authoritative Handbook**

---

This is the standard reference Handbook for 2019. It contains the final version of course, major and minor structures for the given academic year. Ancillary changes may take place after the Authoritative Handbook is generated (such as to unit offerings) and new courses may be offered; these will be reflected in the online Handbook (and thus appear in any print Handbook generated subsequently). Nonetheless, the Authoritative Handbook remains the reference point for the determination of matters relating to the degree regulations, academic progress, credit and exemptions etc.

## KULBARDI ABORIGINAL CENTRE

### NGOOLARK: BA, BED, BBUS AND BNURS EXTENSION PROGRAM

Curriculum Plus

Course Codes: N1096

**Availability:**

- Murdoch campus (internal)

Kulbardi Aboriginal Centre's Ngoolark program provides tailored learning experiences to support Aboriginal and Torres Strait Islander students in their transition into a Bachelor of Arts (BA), Bachelor of Education (BEd), Bachelor of Business (BBus) or Bachelor of Nursing (BNurs). Assessments and learning experiences contained within the Ngoolark program are designed to complement your assessment and curriculum within your first year core units. This allows you to undertake your first year of studies in a more gradual and supported way.

**Admission Requirements (Onshore):**

This special entry program for Aboriginal and Torres Strait Islander people is based on student results during the K-Track program, and/or a diagnostic test for students who did not undertake the K-Track program.

English competence.

**Course Structure**

KAC101 Ngoolark Special Project 1 - 0 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

KAC201 Ngoolark Special Project 2 - 0 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

their school teaching staff in order to apply.

FlexiTrack provides an alternative entry pathway into Murdoch University for International students who have met the English Language requirements but have missed out on the academic entry requirements by a small margin.

To meet English competence applicants must have:

- . Completed year 11 or year 12 and have achieved 'B' or higher in general English or a 'D' or higher in ATAR English OR
  - . Completed any Certificate IV, any Certificate III or a Certificate II in General Education for Adults OR
  - . Achieved 130 or more for the written component or 125 or more for the multiple choice component of the Special Tertiary Admissions Test (STAT) OR
- If an applicant does not have any of the above qualifications but is willing to undertake a Readiness Evaluation (RES) they may be granted admission dependent upon the outcome of the evaluation.

**Course Structure**

EQU081 Learning Uni Style - 0 points

## UNIVERSITY PREPARATION

### FLEXITRACK

Curriculum Plus

Course Codes: N1095

Duration: 10 weeks intensive, 20 weeks full-time, 40 weeks part-time

**Availability:**

- Some units only: Murdoch campus (external)

FlexiTrack is a university preparation course that qualifies you to apply directly for any undergraduate degree at Murdoch University that has an indicative ATAR of 70 or less. FlexiTrack is a series of four modules designed to develop skills that are relevant to any degree program. Each module is made up of a series of engaging topics, interactive activities and assignments which introduce students to university culture and build on academic skills such as reading and note-making, referencing, essay writing, numeracy and report writing.

**Admission Requirements (Onshore):**

FlexiTrack is suitable for people from the following equity groups: people who can demonstrate educational disruption due to family, financial or social issues; Aboriginal and Torres Strait Islander people; people with disabilities or medical conditions; people living in rural or remote regions. The course also caters for people who have arrived in Australia under a Humanitarian or Refugee program.

In addition, the course offers an opportunity for Year 12 non-TEE students who have experienced disruption to their final year studies due to disability, medical condition or other significant family or social issues. Students in this category will require the support of

### K-TRACK

Curriculum Plus

Course Codes: N1077

Duration: 1 semester full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

K-Track assists people to gain entry to undergraduate study with two entry points depending upon the performance of the student. The course is designed to not only help Indigenous people develop the skills necessary for success at university, but also to have them realise how empowering being a successful student can be.

Following the successful completion of K-Track, students who accept their offer of enrolment, are strongly encouraged to take the K-Track bridging unit over the summer or winter term, which prepares them for the specific undergraduate degree they have enrolled into. If students are unsuccessful in K-Track they will be redirected to the OnTrack enabling course for the following semester.

**Admission Requirements (Onshore):**

This course is available to Aboriginal and Torres Strait Islander people only.

English competence.

## MURDOCH UNIVERSITY EXTENDED FOUNDATION PROGRAM

Curriculum Plus

Course Codes: N1100

Duration: 1 year full-time or part-time equivalent

### Availability:

- Not currently available to new admissions

The Foundation Program bridges the gap between the qualifications students gain at high school and those needed to enter a degree. While completing the Foundation Program, students will study units that prepare them for further studies in the University's degrees. The elective units studied within the Foundation Program will be dependent upon the subsequent degree into which graduates seek to progress: Arts, Media and Communication, Commerce, Information Technology, Engineering or Business Administration. Another stream in Health is also available, but not required at present.

### Admission Requirements (Onshore):

Australian High School Year 11 with 4 passes OR Australian Qualifications Framework (AQF) Certificate III or international equivalent

### Admission Requirements (Offshore):

Australian High School Year 11 with 4 passes OR Australian Qualifications Framework (AQF) Certificate III or international equivalent

Equivalent of an Academic IELTS overall score of 5.0 with no band less than 5.0.

### Special Requirements:

All students must be a minimum of 17 years of age on enrolment in the Foundation Program.

## Course Structure - 36 credit points

### Core Units - 24 credit points

FDN021 Introduction to Academic Communication - 3 points

FDN010 Introduction to Academic Reading and Writing - 3 points

FDN011 Computer Skills - 3 points

On successful completion of the Murdoch University diploma, students can then progress to the related Murdoch University degree, subject to meeting any GPA hurdle requirements, with advanced standing equivalent to 24 credit points towards the degree.

## ONTRACK

Curriculum Plus

Course Codes: N1069

Duration: 1 semester full-time

### Availability:

- Murdoch campus (internal)
- Mandurah campus (internal)
- Rockingham campus (internal)

OnTrack is a 14-week university preparation course that assists you to gain entry into a wide range of undergraduate degrees at Murdoch University.

OnTrack will provide you with:

- \* A supportive, adult learning environment in which to develop effective study habits and learning strategies
- \* The tuition you need to develop your academic skills, knowledge and understandings to an undergraduate level
- \* Assistance to explore an undergraduate degree program that matches your aspirations.
- \* A network of peer and academic support at Murdoch University

### Admission Requirements (Onshore):

OnTrack is suitable for people from the following equity groups: people who can demonstrate educational disruption due to family,

financial or social issues; Aboriginal and Torres Strait Islander people; people with disabilities or medical conditions; people living in rural or remote regions; and women wishing to study in one of the University's Engineering courses. The course also caters for people who have arrived in Australia under a Humanitarian or Refugee program.

In addition, the course offers an opportunity for Year 12 non-TEE students who have experienced disruption to their final year studies due to disability, medical condition or other significant family or social issues. Students in this category will require the support of their school teaching staff in order to apply.

English competence.

### Special Requirements:

Please note that OnTrack is a high demand course with limited places. If by the end of the first week of semester you

- \* have not attended class, or made reasonable efforts to contact the OnTrack Office with a request to keep your enrolment open,
  - \* and have not responded to emails and phone calls
- we reserve the right to cancel your offer to enable someone else the opportunity to take up the place.

### Course Structure

EQU060 OnTrack - 0 points  
MURDOCH: S1-internal, S2-internal  
MANDURAH: S1-internal, S2-internal  
ROCKINGHAM: S1-internal, S2-internal

## ONTRACK SPRINT

Curriculum Plus

Course Codes: N1080

Duration: 4 weeks intensive

### Availability:

- Murdoch campus (internal)

OnTrack Sprint provides an entry pathway into Murdoch University for students who have completed their WACE certificate within the previous 18 months, generated an ATAR between 60-69.5 and are Australian citizens, permanent residents or humanitarian visa holders. Through this intensive, four-week preparatory program students will learn to think critically and complete research at a University level. By participating in tutorials and completing assignments you will open your mind to new ways of thinking and develop skills as independent learners.

### Admission Requirements (Onshore):

OnTrack Sprint is an Enabling Program which:

- \* is offered for the purpose of enabling a non-overseas student to undertake an award program in a student place which is funded either partially or fully by the Commonwealth at the institution or at another institution;
- \* meets Commonwealth guidelines concerning the inclusion in the annual data collection of student load for Enabling Programs;
- \* is specifically designed to meet the needs of students who have completed a WACE certificate within the previous 18 months and have generated an ATAR that is close to, but does not quite meet, the eligibility criteria for direct entry. Specifically they will have generated either an overall ATAR of 60-69.5 or an overall ATAR of 70+ but failed to meet Murdoch University's English competence criteria.

### Course Structure

EQU070 OnTrack Sprint - 0 points  
MURDOCH: SB7-internal

## VETERINARY SCIENCE

### WAARDONG

Veterinary Medicine

Course Codes: N1022

#### Availability:

- Murdoch campus (internal)

Waardong is a special entry and enabling program in the School of Veterinary and Life Sciences for Aboriginal and Torres Strait Islander people who want to become veterinarians. In order to maximise student success, Waardong provides academic, social and cultural support for Aboriginal and Torres Strait Islander students enrolled in Veterinary Science or, as approved by the relevant Academic Chair, other participating Science courses.

Waardong teaches Orientation Chemistry for students without a background in chemistry, and supplementary enabling units for students throughout their veterinary or other science studies.

Students interested in applying for entry should contact the Special Education Officer in the School of Veterinary and Life Sciences. The deadline for submission of applications is 30 September each year; Testing and Selection week is in early December.

#### Admission Requirements (Onshore):

This special entry program for Aboriginal and Torres Strait Islander people is based on student results during the one-week residential Testing and Selection process. Evaluation of student readiness for study involves practical and written exercises throughout the week. Alternate entry may be permitted through K-Track, with approval from the relevant Academic Chair.

English competence.

#### Additional Academic Progress Requirements:

Progress of Waardong students will be assessed by the Board of Examiners on the recommendation of the Special Education Officer and the Chair of the Waardong Committee.

### Program Structure

Students entering Waardong are placed in either one of Non-Chemistry Transition or Transition with Chemistry.

#### Non-Chemistry Transition

Students who do not have a background in chemistry are placed in Non-Chemistry Transition, which provides an intensive Orientation Chemistry and supplementary tutoring in all other units. Students take the first year over two academic years.

#### Transition with Chemistry

Students who have entered their Science major with Year 12 Chemistry are placed in Transition with Chemistry, which provides for supplementary tutoring in all units. These students enrol in the first year full-time.

#### Core Units

Students enrol in the following units throughout their veterinary studies:

EQU011 Orientation Chemistry 1 - 0 points  
MURDOCH: S1-internal

EQU012 Orientation Chemistry 2 - 0 points  
MURDOCH: S2-internal

EQU021 Transition to Biological Science Studies 1 - 0 points  
MURDOCH: S1-internal, S2-internal

## ACCOUNTING

### ACCOUNTING (BBUS)

Economics

*Bachelor of Business (BBus) in Accounting*

Course Codes: B1367

Duration: 3 years available both full-time and part-time

#### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

#### Parent Major:

Bachelor of Business

Accounting is an integral part of the management process in any organisation.

Accounting processes help to evaluate the effectiveness and efficiency of an organisation's operations and performance. The information accountants produce assists organisations to make informed decisions for a variety of purposes, including acquiring or selling shares, lending money, and providing goods on credit.

Accounting also helps managers, owners and investors to look after the assets and investments of an organisation. Capital investment and strategic decisions also use data produced by the accounting process.

A fourth year of study is available in the form of an honours year.

A Bachelor of Business provides a broad understanding of individual, organisational and societal issues. You will have the practical skills to identify business opportunities, analyse problems and implement solutions and you will be able to demonstrate a knowledge of business principles across key functional areas. You will have depth of knowledge in one or more business disciplines: accounting, banking, business law, finance, hospitality and tourism management, human resources management, international business, management and marketing.

English competence.

#### Employment Prospects:

The Accounting major is chosen by students interested in a career as a professionally qualified accountant. Graduates of this major can gain employment with professional accounting firms as an assistant accountant (working with clients in areas such as audit, taxation, and business services), in government, in other private sector firms, and in not-for-profit organisations. If students also successfully complete the Professional Accounting Units, they can apply for full professional membership with CPA and CAANZ.

#### Professional Accreditation:

CPA Australia, Chartered Accountants of Australia and New Zealand (CAANZ) and Institute of Public Accountants (IPA).

#### Professional Recognition:

Students can satisfy the entry requirements for admission to membership of the professional accounting bodies when this major is taken in combination with the Professional Accounting Minor. These include Associate membership of CPA Australia, direct entry into the Chartered Accountants of Australia and New Zealand

Programme, and Associate membership of the Institute of Public Accountants (IPA).

Students who have been granted Advanced Standing must discuss their enrolment and selection of units with the Academic Chair as their

Advanced Standing may affect their ability to satisfy the admission requirements to the professional accounting bodies on completion of their degree.

#### Recommended Double Majors:

Banking; Finance; Global Business and Politics; Hospitality and Tourism Management; Human Resources Management; International Business; Management; Marketing

#### Recommended Minors:

Professional Accounting

#### Excluded Majors:

Accounting

### Course Structure - 72 credit points

- Murdoch campus (external)

**Parent Major:**

Bachelor of Commerce

Accounting is an integral part of the management process in any organisation.

Accounting processes help to evaluate the effectiveness and efficiency of an organisation's operations and performance. The information accountants produce assists organisations to make informed decisions for a variety of purposes, including acquiring or selling shares, lending money, and providing goods on credit.

Accounting also helps managers, owners and investors to look after the assets and investments of an organisation. Capital investment and strategic decisions also use

data produced by the accounting process.  
A fourth year of study is available in the form of an honours year.

A Murdoch Bachelor of Commerce graduate is future enabled with a global mindset. Murdoch's Commerce degree provides you with the knowledge and skills to succeed in an ever changing world. The degree is workplace-focused, enabling you to develop your critical thinking and creative problem solving skills by working on real organisational projects, learning from professionals and through a range of internship opportunities.

The Bachelor of Commerce offers ten majors across a broad range of industry. The course is flexible allowing students to choose up to two majors, a major and a two minors or a major, a minor and a range of electives. Majors include; accounting, banking, business law, finance, hospitality and tourism management, human resources management, international business, management, global business and politics, and marketing.

Students studying a BCom may be eligible to enrol in Murdoch University's MasterClass Program. MasterClass gives students the opportunity to complete a postgraduate qualification whilst studying for an undergraduate degree. To participate in the MasterClass Program students must have completed 1 year of a degree (24 credit points), and maintained a GPA of 3.0 or more (or equivalent). In addition, to the academic requirements students may be required to take part in a competitive selection process.

#### **Admission Requirements (Onshore):**

An Honours qualification of 2A is normally required for admission to higher research degree study.

**Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average in units relating to the planned Honours study and a Distinction average overall. Subject to availability of a suitable supervisor and approval by the Dean of School.

**Admission Requirements (Offshore):**

NA

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Apply Online:**

Applications can be made online at  
<http://goto.murdoch.edu.au/OnlineApplicationsHonours>

**Course Structure - 24 credit points****Coursework - 12 credit points****Core Units - 9 credit points**

MBS516 Advanced Honours Topic A - 3 points  
MURDOCH: S1-internal, S2-internal, Y-internal

**ANIMAL HEALTH****ANIMAL HEALTH (BSC)**

Agricultural Sciences

Bachelor of Science (BSc) in Animal Health

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Students commencing mid-year will require 3.5 years to complete.

**Parent Major:**

Bachelor of Science (Non-IT Majors)

The Animal Health BSc equips students with knowledge of the principles of animal health and disease. Students will develop a scientific understanding relevant to a number of disciplines within the field of animal health with a strong emphasis on application of theory to the health and well-being of domestic animals and wildlife. Students will develop skills required to work in teams to address problems and communicate outcomes related to a number of disciplines within the area of animal health.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements. There are no prerequisites for admission but it is highly desirable for students to have undertaken WACE Chemistry 3A/3B and Mathematics 2C/2D.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Employment Prospects:**

Graduates in Animal Health are strongly placed to pursue careers in a wide range of fields, including agriculture, companion animal industries and wildlife management. Employment opportunities include private industry, public sector (state and federal government), non-government organisations and research and development institutions. Other career options include research or further study in specialised fields (for example, veterinary science).

**Professional Recognition:**

Recognised by Ag Institute Australia. Ag Institute Australia is the peak body representing the interests of Agricultural and Natural Resource Management professionals. Students graduating with Major in Animal Health are eligible for professional membership.

**Recommended Double Majors:**

Animal Science

**Excluded Majors:**

Veterinary Science

**Main Research Areas:**

Applied biochemistry, meat science, animal nutrition, anatomy, physiology, embryology, histology, pathology, microbiology, virology, immunology, parasitology, biosecurity, epidemiology and public health.

**Further Study:**

The BSc with double major in Animal Science and Animal Health is a recommended pathway for students intending to apply for entry into veterinary science.

**Mid-year entry clarification:**

Students enrolling mid-year should note that it is not possible to complete the major in three years, so 3.5 years will be required. International students in particular should take this into account when planning enrolments, visas, and fees.

**Major Prerequisites****Chemistry Background**

Students who achieved a final scaled score of 50 percent or more in Chemistry 3A/3B or Chemistry ATAR within the past three years should seek an exemption from their Academic Chair for CHE140 Fundamentals of Chemistry. Students who have completed previous chemistry not stated above should also consult their Academic Chair for clarification of their enrolment requirements.

**Course Structure - 72 credit points****Part I - 24 credit points****Year 1 - 24 credit points****Transition Unit - 3 credit points**

BSC100 Building Blocks for Science Students - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Breadth Unit for Degree - 3 credit points**

BSC150 What is Science? - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Core Units - 15 credit points**

ANS102 Introduction to the Animal Body - 3 points  
MURDOCH: S1-internal

CHE140 Fundamentals of Chemistry - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

BMS107 Foundations of Vertebrate Form and Function - 3 points  
MURDOCH: S2-internal

BIO152 Cell Biology - 3 points  
MURDOCH: S2-internal

MAS183 Statistical Data Analysis - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**General Electives - 3 credit points**

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Part II - 48 credit points****University-Wide Breadth Units - 6 credit points**

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Year 2 - 21 credit points****Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

**For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC201 Psychology: Measurement, Design and Analysis - 3 points  
MURDOCH: S1-internal

**For Primary Majors in the Health Sciences, as listed**

Primary Major in Chiropractic Science, Exercise Physiology, Movement Science, or Sport and Health Science:

BSC206 Introduction to Research Methodology and Evidence Based Practice - 3 points  
MURDOCH: S2-internal

**For All Other Primary Majors excluding Information Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Core Units - 12 credit points**

VET272 Comparative Mammalian Biochemistry - 3 points  
MURDOCH: S1-internal

VET278 Principles of Infectious Disease II - Veterinary Parasitology - 3 points  
MURDOCH: S2-internal

ANS221 Animal Structure and Function - 3 points  
MURDOCH: S2-internal

VET211 Principles of Infectious Disease I - Veterinary Microbiology - 3 points  
MURDOCH: S2-internal

**General Electives - 6 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Year 3 - 21 credit points****Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

**For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC302 Advanced Quantitative Research Methods - 3 points  
MURDOCH: S2-internal

**For Primary Majors in the Health Sciences, as listed**

Primary major in Chiropractic Science, Movement Science, Sport

and Health Science:

BSC306 Research and Evidence Based Practice - 3 points  
MURDOCH: S1-internal

**For All Other Primary Majors excluding Information Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Core Units - 6 credit points**

ANS313 Pathology and Diseases of Production Animals - 3 points  
MURDOCH: S1-internal

VET392 One Health - 3 points  
MURDOCH: S2-internal

**General Electives - 12 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Recommended General Electives**

ANS301 International Study Tour Opportunities - 3 points  
MURDOCH: S2N-internal

**Research Skills Unit List**

**Animal Health Major**

## **ANIMAL HEALTH HONOURS (BSC(HONS))**

College of Science, Health, Engineering and Education

*Bachelor of Science Honours (BSc(Hons)) in Animal Health*

Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

#### **Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

The aim of the Honours year is to extend the student's grasp of the principles and practice of their subject, to develop ability for independent research, and to facilitate their entry into industry employment.

An Honours qualification of at least 2A is normally required for admission to higher research degree study.

#### **Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Credit average (GPA 2); subject to availability of a suitable supervisor and approval by the School Dean.

Students interested in enrolling in Honours are advised to contact the Academic Chair before application to discuss supervision of their potential research project.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Apply Online:**

Applications can be made online at <http://goto.murdoch.edu.au/OnlineApplicationsHonours>

#### **Employment Prospects:**

The honours degree represents excellent preparation for a career in animal production and the animal research industries. Graduates will find employment in a wide range of agricultural industries from government departments of agriculture, rural supply and stock companies, as farm advisors and consultants, in research funded by

government and industry agencies, in biosecurity and quarantine, and in schools, colleges and universities.

**Main Research Areas:**

A wide range of disciplines are available for study in the context of animal production science, including anatomy, aquaculture, bacteriology, biochemistry, biosecurity, embryology, epidemiology, food quality, histology, immunology, nutrition, parasitology, pathology, pharmacology, physiology, toxicology, and virology.

**Further Study:**

Successful completion of the Honours course is required for admission to higher research degrees (i.e. Masters or PhD degrees).

**Course Structure - 24 credit points**

**Coursework - 3 credit points**

VLS683 Advanced Research Methods for Scientists - 3 points  
MURDOCH: S1S-internal, S1S-external, S2N3-internal, S2N3-external

**Thesis - 21 credit points**

VLS515 Honours Thesis in Animal Health - 21 points

---

**ANIMAL SCIENCE**

---

**ANIMAL SCIENCE (BSC)**

Agricultural Sciences

*Bachelor of Science (BSc) in Animal Science*

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Students commencing mid-year will require 3.5 years to complete.

**Parent Major:**

Bachelor of Science (Non-IT Majors)

The aim of this degree is to train an adaptable animal scientist who will find employment in a wide range of agricultural industries. The degree will be excellent preparation for a career in animal agriculture and the animal research industries.

In the first year, students will be introduced to the major animal production industries and also study chemistry, introductory physiology and anatomy, statistics and cell biology,

During second and third year, students will undertake further study in animal production systems (including scientific writing and communication), biochemistry, physiology and anatomy, statistics, pathology, nutrition, toxicology and genetics.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements. There are no prerequisites for admission but it is highly desirable for students to have studied WACE Chemistry 3A/3B and at least Mathematics 2A/2B.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

Internet access; on-campus attendance for laboratory sessions.

**Employment Prospects:**

Gradlink surveys over the past five years indicate at least 75 per cent full-time employment. About 20 per cent of graduates go on to further full-time study. Agricultural industries employ animal science graduates in a variety of roles such as consultants, technical advisors, and government research officers.

**Professional Recognition:**

Australian Institute of Agricultural Science and Technology (AIAST).

**Recommended Double Majors:**

Animal Health; Crop and Pasture Science

**Main Research Areas:**

Animal Production, Agricultural and Veterinary Biotechnology.

**Mid-year entry clarification:**

Students enrolling mid-year should note that it is not possible to complete the major in three years, so 3.5 years will be required. International students in particular should take this into account when planning enrolments, visas, and fees.

**Major Prerequisites**

**Chemistry Background**

Students who achieved a final scaled score of 50 percent or more in Chemistry 3A/3B or Chemistry ATAR within the past three years should seek an exemption from their Academic Chair for CHE140 Fundamentals of Chemistry. Students who have completed previous chemistry not stated above should also consult their Academic Chair for clarification of their enrolment requirements.

**Course Structure - 72 credit points**

**Part I - 24 credit points**

**Year 1 - 24 credit points**

**Transition Unit - 3 credit points**

BSC100 Building Blocks for Science Students - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Breadth Unit for Degree - 3 credit points**

BSC150 What is Science? - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Core Units - 15 credit points**

ANS101 Introduction to Livestock Science and Genetics - 3 points  
MURDOCH: S2-internal, UA6-internal

BMS107 Foundations of Vertebrate Form and Function - 3 points  
MURDOCH: S2-internal

BIO152 Cell Biology - 3 points  
MURDOCH: S2-internal

MAS183 Statistical Data Analysis - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

CHE140 Fundamentals of Chemistry - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**General Electives - 3 credit points**

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Part II - 48 credit points**

**University-Wide Breadth Units - 6 credit points**

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Year 2 - 21 credit points****Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

**For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC201 Psychology: Measurement, Design and Analysis - 3 points  
MURDOCH: S1-internal

**For Primary Majors in the Health Sciences, as listed**

Primary Major in Chiropractic Science, Exercise Physiology, Movement Science, or Sport and Health Science:

BSC206 Introduction to Research Methodology and Evidence Based Practice - 3 points  
MURDOCH: S2-internal

**For All Other Primary Majors excluding Information Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Core Units - 9 credit points**

VET272 Comparative Mammalian Biochemistry - 3 points  
MURDOCH: S1-internal

ANS230 Animal Production Systems II - 3 points  
MURDOCH: S1-internal

ANS221 Animal Structure and Function - 3 points  
MURDOCH: S2-internal

**General Electives - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Year 3 - 21 credit points****Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

**For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC302 Advanced Quantitative Research Methods - 3 points  
MURDOCH: S2-internal

**For Primary Majors in the Health Sciences, as listed**

Primary major in Chiropractic Science, Movement Science, Sport and Health Science:

BSC306 Research and Evidence Based Practice - 3 points  
MURDOCH: S1-internal

**For All Other Primary Majors excluding Information****Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Core Units - 9 credit points**

VET380 Veterinary Nutrition and Animal Toxicology - 3 points  
MURDOCH: S1-internal

ANS333 Animal Production Systems III - 3 points  
MURDOCH: S1-internal

ANS337 Animal Industry Experience - 3 points  
MURDOCH: S2-internal

**General Electives - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Recommended General Electives**

ANS301 International Study Tour Opportunities - 3 points  
MURDOCH: S2N-internal

## **ANIMAL SCIENCE HONOURS (BSC(HONS))**

College of Science, Health, Engineering and Education

*Bachelor of Science Honours (BSc(Hons)) in Animal Science*

Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

### **Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

The aim of the Honours year is to extend the student's grasp of the principles and practice of their subject, to develop ability for independent research, and to facilitate their entry into industry employment.

An Honours qualification of at least 2A is normally required for admission to higher research degree study.

### **Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Credit average (GPA 2); subject to availability of a suitable supervisor and approval by the School Dean.

Students interested in enrolling in Honours are advised to contact the Academic Chair before application to discuss supervision of their potential research project.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### **Apply Online:**

Applications can be made online at  
<http://goto.murdoch.edu.au/OnlineApplicationsHonours>

### **Special Requirements:**

Internet access, on-campus attendance for laboratory and workshop sessions.

### **Employment Prospects:**

The honours degree represents excellent preparation for a career in

## **ASIAN STUDIES**

### **ASIAN STUDIES HONOURS (BA(HONS))**

College of Arts, Business, Law and Social Sciences

## BACHELOR DEGREES -- GENERAL

---

### BACHELOR OF ARTS (BA)

College of Arts, Business, Law and Social Sciences

*Bachelor of Arts (BA)*

Course Codes: B1356

Duration: 3 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

The Bachelor of Arts at Murdoch is a degree unlike any other in Australia. It embraces new directions in teaching and practice-based learning to train the thinkers and researchers of the 21st century. So many of the biggest and most vital issues we face today are about human society and the human condition. How can we understand who we are, how we want to live, or what kind of society we want to create, without the insights, knowledge and skills provided by the humanities? Our degree is different because we teach our students to put these into practice in a way that is recognised and valued by employers. Our graduates are empowered to be the agile and creative thinkers who will thrive in a rapidly changing world. They are able to think creatively, communicate effectively, manage projects, exercise highly-developed analytical and interpersonal skills, and they possess an in-depth knowledge of contemporary societal issues and trends. These are professional skills which are recognised and valued universally. In short, you can study what you love and get a job too!

#### Admission Requirements (Onshore):

As per normal undergraduate admission requirements.

## **BACHELOR OF COMMERCE (BCOM)**

Economics

*Bachelor of Commerce (BCom)*

Course Codes: B1359

Duration: 3 years full-time or part-time equivalent

#### **Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

A Murdoch Bachelor of Commerce graduate is future enabled with a global mindset. Murdoch's Commerce degree provides you with the knowledge and skills to succeed in an ever changing world. The degree is workplace-focused, enabling you to develop your critical thinking and creative problem solving skills by working on real organisational projects, learning from professionals and through a range of internship opportunities.

The Bachelor of Commerce offers ten majors across a broad range of industry. The course is flexible allowing students to choose up to two majors, a major and a two minors or a major, a minor and a range of electives. Majors include; accounting, banking, business law, finance, hospitality and tourism management, human resources management, international business, management, global business and politics, and marketing.

Students studying a BCom may be eligible to enrol in Murdoch University's MasterClass Program. MasterClass gives students the opportunity to complete a postgraduate qualification whilst studying for an undergraduate degree. To participate in the MasterClass Program students must have completed 1 year of a degree (24 credit points), and maintained a GPA of 3.0 or more (or equivalent). In addition, to the academic requirements students may be required to take part in a competitive selection process.

#### **Admission Requirements (Onshore):**

Minimum ATAR of 70

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Employment Prospects:**

Areas of employment include corporate, government, and not-for-profit organisations. Career opportunities include: accountant, management consultant, financial analyst, human resource adviser, marketing manager and general manager.

#### **Professional Accreditation:**

CPA Australia, Chartered Accountants of Australia and New Zealand (CAANZ) and Institute of Public Accountants (IPA).

#### **Professional Recognition:**

Students can satisfy the entry requirements (when the right combination of core and elective units are selected) for admission to membership of the professional accounting bodies. These include Associate membership of CPA Australia, and direct entry into the Institute of Chartered Accountants in Australia CA Programme and Associate membership of the Institute of Public Accountants (IPA). Students who have been granted Advanced Standing must discuss their enrolment and selection of units with the Academic Chair as their Advanced Standing may affect their ability to satisfy the admission requirements to the professional accounting bodies on completion of their degree.

#### **Main Research Areas:**

Research areas include strategy, business, not-for-profit, business sustainability, accounting, banking, business law, economics, finance, hospitality and tourism management, human resources management, international business, management, and marketing.

#### **Further Study:**

A fourth year of study is available in the form of an honours year.

### **Course Structure - 72 credit points**

## BANKING

### BANKING (BBUS)

Economics

*Bachelor of Business (BBus) in Banking*

Course Codes: B1367

Duration: 3 years available both full-time and part-time

#### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

#### Parent Major:

Bachelor of Business

Contemporary banking is sophisticated and requires people with advanced expertise and ethical judgement. This major equips students with such knowledge and skills, helping them to become successful professionals in financial institutions. Students are exposed to important banking issues such as credit and lending decisions, legal and ethical implications, regulatory frameworks banking capital structures, and credit risk management. They learn how to effectively operate within this complex regulatory sector through the systematic application of research principles and methods that will inform their financial decision-making. A fourth year of study is available in the form of an honours year.

A Bachelor of Business provides a broad understanding of individual, organisational and societal issues. You will have the practical skills to identify business opportunities, analyse problems and implement solutions and you will be able to demonstrate a knowledge of business principles across key functional areas. You will have depth of knowledge in one or more business disciplines: accounting, banking, business law, finance, hospitality and tourism management, human resources management, international business, management and marketing.

English competence.

#### Employment Prospects:

Completion of the banking major will open up employment opportunities for students in all types of financial institutions.

#### Professional Recognition:

Graduates are potentially eligible for associate membership of the Financial Services Institute of Australasia (FINSIA). For advice on specific requirements students should contact FINSIA directly.

#### Recommended Double Majors:

Accounting; Finance; Global Business and Politics; Hospitality and Tourism Management; Human Resources Management; International Business; Management

#### Excluded Majors:

Banking

- Murdoch University Dubai (UAE) ['DUBAI-ISC'] (internal)

### Parent Major:

Bachelor of Business

Traditionally banks have recruited new staff directly from schools. Today they are recruiting more graduates from tertiary institutions. In banking units the student is exposed to the issue of information asymmetry that exists between the borrower and the lender and the need to design contracts that reveal and monitor the quality of the borrower. The units also consider the nature and legal implications of the banker-customer relationship. The high debt that financial institutions have in their capital structure, the interest sensitivity of their assets and the liquidity that depositors demand result in unique interest, credit and liquidity risk management issues. These issues are further complicated by government regulation and directives. A fourth year of study is available in the form of an honours year.

A Bachelor of Business provides a broad understanding of individual, organisational and societal issues. You will have the practical skills to identify business opportunities, analyse problems and implement solutions and you will be able to demonstrate a knowledge of business principles across key functional areas. You will have depth of knowledge in one or more business disciplines: accounting, banking, business law, economics, finance, hospitality and tourism management, human resources management, international business, management, and marketing.

They learn how to effectively operate within this complex regulatory sector through the systematic application of research principles and methods that will inform their financial decision-making. A fourth year of study is available in the form of an honours year.

A Murdoch Bachelor of Commerce graduate is future enabled with a global mindset. Murdoch's Commerce degree provides you with the knowledge and skills to succeed in an ever changing world. The degree is workplace-focused, enabling you to develop your critical thinking and creative problem solving skills by working on real organisational projects, learning from professionals and through a range of internship opportunities.

The Bachelor of Commerce offers ten majors across a broad range of industry. The course is flexible allowing students to choose up to two majors, a major and a two minors or a major, a minor and a range of electives. Majors include; accounting, banking, business law, finance, hospitality and tourism management, human resources management, international business, management, global business and politics, and marketing.

Students studying a BCom may be eligible to enrol in Murdoch University's MasterClass Program. MasterClass gives students the opportunity to complete a postgraduate qualification whilst studying for an undergraduate degree. To participate in the MasterClass Program students must have completed 1 year of a degree (24 credit points), and maintained a GPA of 3.0 or more (or equivalent). In addition, to the academic requirements students may be required to take part in a competitive selection process.

#### Admission Requirements (Onshore):

Minimum ATAR of 75

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### Employment Prospects:

Completion of the banking major will open up employment opportunities for students in all types of financial institutions.

#### Professional Recognition:

Graduates are potentially eligible for associate membership of the Financial Services Institute of Australasia (FINSIA). For advice on specific requirements students should contact FINSIA directly.

#### Recommended Double Majors:

Accounting; Finance; Global Business and Politics; Hospitality and Tourism Management; Human Resources Management; International Business; Management

#### Excluded Majors:

Banking

#### Excluded Minors:

Banking

### Course Structure - 72 credit points

Where a course core unit is listed in a major structure, an elective unit may be required. Please contact your Student Advisor for further advice

### Year 1 - 24 credit points

#### Murdoch Spine: Career Learning - 3 credit points

## BANKING HONOURS (BBUS(HONS))

College of Arts, Business, Law and Social Sciences

Bachelor of Business Honours (BBus(Hons)) in Banking

Course Codes: H1255

Duration: 1 year full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)

The aim of Honours is to extend the student's grasp of the principles and practice of their subject, and to develop the ability for independent research.

An Honours qualification of 2A is normally required for admission to higher research degree study.

#### Admission Requirements (Onshore):

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average in units relating to the planned Honours study and a Distinction average overall. Subject to availability of a suitable supervisor and approval by the Dean of School.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### Apply Online:

Applications can be made online at  
<http://goto.murdoch.edu.au/OnlineApplicationsHonours>

### Course Structure - 24 credit points

#### Coursework - 12 credit points

##### Core Units - 9 credit points

MBS516 Advanced Honours Topic A - 3 points  
MURDOCH: S1-internal, S2-internal, Y-internal

MBS512 Advanced Honours Topic B - 3 points  
MURDOCH: S1-internal, S2-internal, Y-internal

MBS517 Advanced Honours Research Preparation - 3 points  
MURDOCH: S1-internal, S2-internal

##### Specified Electives - 3 credit points

Select from the following:

MBS619 Qualitative Organisational Research - 3 points  
<span data-type="offering" data-unit="MBS619">MURDOCH: S1-internal (closed), S1-external (closed)</span>

MBS659 Quantitative Research for Business - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Thesis - 12 credit points**

MBS519 Honours Thesis - 12 points  
MURDOCH: S1-internal, S2-internal, Y-internal

**BIOLOGICAL SCIENCES****See also:**

Biotechnology  
Conservation and Wildlife Biology  
Molecular Biology

**BIOLOGICAL SCIENCES (BSC)**

Environmental and Conservation Sciences

Bachelor of Science (BSc) in Biological Sciences

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Some units only: Murdoch campus (external)

**Parent Major:**

Bachelor of Science (Non-IT Majors)

The Biological Sciences major aims to produce biologists with wide-ranging training and experience in a broad area of biology. It adopts an integrated approach to the major themes of biology, from the molecular and cellular levels to the whole organism and community levels. This is achieved by examining the common features and differences in the biochemistry, genetics, ecology and behaviour of micro-organisms, plants and animals.

In addition, students may select electives to place emphasis on animal biology, biochemistry, conservation biology, ecology, fisheries science, microbiology and molecular biology.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements. There are no prerequisites for admission but it is highly desirable for students to have undertaken TEE Chemistry or WACE Chemistry 3A/3B and at least TEE Discrete Mathematics or WACE Mathematics 2C/2D.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

Students will not be required to kill any vertebrate animal, although they may be required to work with vertebrate tissues or products. Some collection of invertebrate specimens is required.

**Employment Prospects:**

Graduates find employment with Federal, state and local agencies dealing with nature conservation and the Department of Agriculture and Food, hospitals and medical laboratories, in teaching and in the private sector. Employment prospects are broadened by taking a double major, or a major and one or more minors.

**Professional Recognition:**

Graduates are eligible for admission to a wide range of professional societies.

**Recommended Double Majors:**

Animal Health; Conservation and Wildlife Biology; Environmental

Management and Sustainability; Environmental Science; Genetics and Molecular Biology; Marine Science

**Main Research Areas:**

Animal and plant biology and conservation, molecular biology, plant pathology, microbiology, fisheries biology, plant/fungal interactions, plant tissue culture, behavioural ecology.

**Major Prerequisites****Chemistry Background**

Students who achieved a final scaled score of 50 percent or more in Chemistry 3A/3B or Chemistry ATAR within the past three years should seek an exemption from their Academic Chair for CHE140 Fundamentals of Chemistry. Students who have completed previous chemistry not stated above should also consult their Academic Chair for clarification of their enrolment requirements.

**Course Structure - 72 credit points****Part I - 24 credit points****Year 1 - 24 credit points****Transition Unit - 3 credit points**

BSC100 Building Blocks for Science Students - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Breadth Unit for Degree - 3 credit points**

BSC150 What is Science? - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Core Units - 15 credit points**

BIO103 Environmental Biology - 3 points  
MURDOCH: S1-internal, S1-external

CHE140 Fundamentals of Chemistry - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

BIO152 Cell Biology - 3 points  
MURDOCH: S2-internal

CHE144 Foundations of Chemistry - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

MAS183 Statistical Data Analysis - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**General Electives - 3 credit points**

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Part II - 48 credit points****University-Wide Breadth Units - 6 credit points**

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Year 2 - 21 credit points****Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

**For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC201 Psychology: Measurement, Design and Analysis - 3 points  
MURDOCH: S1-internal

**For Primary Majors in the Health Sciences, as listed**

Primary Major in Chiropractic Science, Exercise Physiology, Movement Science, or Sport and Health Science:

BSC206 Introduction to Research Methodology and Evidence Based Practice - 3 points  
MURDOCH: S2-internal

**For All Other Primary Majors excluding Information Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Core Units - 12 credit points**

BIO245 Plant Evolution, Radiation and Adaptation - 3 points  
MURDOCH: S1-internal

BIO244 Animal Diversity - 3 points  
MURDOCH: S2-internal

Plus two of the following three units:

BIO246 Microbiology - 3 points  
MURDOCH: S1-internal

BIO247 Biochemistry - 3 points  
MURDOCH: S2-internal

ENV241 Ecology - 3 points  
MURDOCH: S2-internal, S2-external

**General Electives - 6 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Year 3 - 21 credit points****Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

**For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC302 Advanced Quantitative Research Methods - 3 points  
MURDOCH: S2-internal

**For Primary Majors in the Health Sciences, as listed**

Primary major in Chiropractic Science, Movement Science, Sport and Health Science:

BSC306 Research and Evidence Based Practice - 3 points  
MURDOCH: S1-internal

**For All Other Primary Majors excluding Information Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Core Units - 6 credit points**

BIO356 Genetics and Evolution - 3 points  
MURDOCH: S1-internal

BIO379 Evolutionary Analysis - 3 points

MURDOCH: S2-internal

**General Electives - 12 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

## **BIOLOGICAL SCIENCES HONOURS (BSC(HONS))**

College of Science, Health, Engineering and Education

*Bachelor of Science Honours (BSc(Hons)) in Biological Sciences*

Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

### **Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

The aim of Honours is to extend the student's grasp of the principles and practice of the subject, and to develop ability for independent research, and to facilitate their entry into industry employment.

An Honours qualification of 2A is normally required for admission to higher research degree study.

### **Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Credit average (GPA 2); subject to availability of a suitable supervisor and approval by the School Dean.

Students interested in enrolling in Honours are advised to contact the Academic Chair before application to discuss supervision of their potential research project.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### **Apply Online:**

Applications can be made online at  
<http://goto.murdoch.edu.au/OnlineApplicationsHonours>

## **Course Structure - 24 credit points**

### **Coursework - 3 credit points**

VLS683 Advanced Research Methods for Scientists - 3 points  
MURDOCH: S1S-internal, S1S-external, S2N3-internal, S2N3-external

### **Thesis - 21 credit points**

VLS560 Honours Thesis in Biological Sciences - 21 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external, Y-internal, Y-external

---

## **BIOMEDICAL SCIENCE**

### **See also:**

Forensic Biology

---

## **BIOMEDICAL SCIENCE (BSC)**

Forensic Science

*Bachelor of Science (BSc) in Biomedical Science*

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

### **Availability:**

- Murdoch campus (internal)

### **Parent Major:**

Bachelor of Science (Non-IT Majors)

Biomedical Science applies the principles of cellular and molecular biology to the understanding of normal function and disease in humans.

The Biomedical Science major provides students with an opportunity to focus their training and experience in human and medical biology. It integrates the major themes of biomedical sciences at the molecular, cellular and whole-body level and addresses the remarkable advances being made by biomedical research. Knowledge from the fundamental disciplines of anatomy, physiology, biochemistry, histology and cell biology is integrated with, and applied to, knowledge in the paraclinical disciplines of pathology, microbiology, immunology, and molecular genetics, with the option of electives such as parasitology, pharmacology, histopathology and haematology. Teaching of these fundamental subjects is carried out in a systematic way with theoretical instruction backed up with extensive practical laboratory training within each discipline.

The major also prepares students for dealing with the impact and ethics of the scientific approach used in biomedical sciences. The material within this major provides pre- and paraclinical training and is excellent preparation for a career in medical research and related areas, or entry to a graduate medical degree.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

### **Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### **Special Requirements:**

Students are required to participate in practical work involving animals and/or fresh tissues from dead animals throughout the major.

### **Employment Prospects:**

Biomedical scientists find employment in hospitals, medical research institutes, universities, government agencies and the private biotechnology sector where they are in demand as Medical Researchers, Medical Technologists, Biopharmaceutical Scientists, Health Department Administrators, Patent Attorneys, Medical Sales and Marketing Professionals, Biostatisticians and Teachers/Academics.

### **Recommended Double Majors:**

Clinical Laboratory Science; Forensic Biology and Toxicology; Genetics and Molecular Biology; Mathematics and Statistics

### **Excluded Minors:**

Biomedical Science

### **Main Research Areas:**

Improvement of the understanding, treatment, prevention and diagnosis of human diseases including infectious diseases, cancer, genetic disease and complex diseases such as Alzheimer's, asthma and diabetes.

### **Chemistry Background:**

Students may need to complete one prerequisite depending on

their background in chemistry and their final scaled score in Chemistry: ATAR within the past three years.

Chemistry: ATAR with a final scaled score of 50 percent or more

OR

CHE140 Fundamentals of Chemistry --3pts  
Murdoch : S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous chemistry not stated above should consult the Academic Chair for clarification of their enrolment requirements.

## Major Prerequisites

### Chemistry Background

Students who achieved a final scaled score of 50 percent or more in Chemistry 3A/3B or Chemistry ATAR within the past three years should seek an exemption from their Academic Chair for CHE140 Fundamentals of Chemistry. Students who have completed previous chemistry not stated above should also consult their Academic Chair for clarification of their enrolment requirements.

## Course Structure - 72 credit points

### Part I - 24 credit points

#### Year 1 - 24 credit points

##### Transition Unit - 3 credit points

BSC100 Building Blocks for Science Students - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

##### Breadth Unit for Degree - 3 credit points

BSC150 What is Science? - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

##### Core Units - 15 credit points

BMS101 Introduction to the Human Body - 3 points  
MURDOCH: S1-internal

CHE140 Fundamentals of Chemistry - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

MAS183 Statistical Data Analysis - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

BMS107 Foundations of Vertebrate Form and Function - 3 points  
MURDOCH: S2-internal

BIO152 Cell Biology - 3 points  
MURDOCH: S2-internal

##### General Electives - 3 credit points

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

### Part II - 48 credit points

#### University-Wide Breadth Units - 6 credit points

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

#### Year 2 - 21 credit points

##### Research Skills Unit - 3 credit points

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

#### For Primary Major in Cognitive Neuroscience and Health Psychology

BSC201 Psychology: Measurement, Design and Analysis - 3 points  
MURDOCH: S1-internal

#### For Primary Majors in the Health Sciences, as listed

Primary Major in Chiropractic Science, Exercise Physiology, Movement Science, or Sport and Health Science:

BSC206 Introduction to Research Methodology and Evidence Based Practice - 3 points  
MURDOCH: S2-internal

#### For All Other Primary Majors excluding Information Technology

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

#### Core Units - 12 credit points

BMS206 Biomedical Physiology - 3 points  
MURDOCH: S1-internal

BIO247 Biochemistry - 3 points  
MURDOCH: S2-internal

BMS211 Medical Immunology and Molecular Genetics - 3 points  
MURDOCH: S2-internal

BMS212 Medical Microbiology - 3 points  
MURDOCH: S1-internal

OR

BMS316 Parasitology: People, Pets and Wildlife - 3 points  
MURDOCH: S2-internal

#### General Electives - 6 credit points

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

#### Year 3 - 21 credit points

##### Research Skills Unit - 3 credit points

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

#### For Primary Major in Cognitive Neuroscience and Health Psychology

BSC302 Advanced Quantitative Research Methods - 3 points  
MURDOCH: S2-internal

#### For Primary Majors in the Health Sciences, as listed

Primary major in Chiropractic Science, Movement Science, Sport and Health Science:

BSC306 Research and Evidence Based Practice - 3 points  
MURDOCH: S1-internal

#### For All Other Primary Majors excluding Information Technology

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited

towards course completion requirements.

#### **Core Units - 6 credit points**

BMS314 Pathological Basis of Disease - 3 points  
MURDOCH: S1-internal

BMS315 Advances in Medical Science - 3 points  
MURDOCH: S2-internal

#### **General Electives - 12 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

## **BIOMEDICAL SCIENCE HONOURS (BSC(HONS))**

College of Science, Health, Engineering and Education

*Bachelor of Science Honours (BSc(Hons)) in Biomedical Science*

Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

### **Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

The aim of the Honours year is to extend the student's grasp of the principles and practice of their subject, to develop ability for independent research, and to facilitate their entry into industry employment.

An Honours qualification of at least 2A is normally required for admission to higher research degree study.

### **Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Credit average (GPA 2); subject to availability of a suitable supervisor and approval by the School Dean.

Students interested in enrolling in Honours are advised to contact the Academic Chair before application to discuss supervision of their potential research project.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### **Apply Online:**

Applications can be made online at

<http://goto.murdoch.edu.au/OnlineApplicationsHonours>

## **Course Structure - 24 credit points**

### **Coursework - 3 credit points**

VLS683 Advanced Research Methods for Scientists - 3 points

MURDOCH: S1S-internal, S1S-external, S2N3-internal,

S2N3-external

### **Thesis - 21 credit points**

VLS525 Honours Thesis in Biomedical Science - 21 points

MURDOCH: S1-internal, S1-external, S2-internal, S2-external,

Y-internal, Y-external

## BUSINESS

### BACHELOR OF BUSINESS (BBUS)

Business

*Bachelor of Business (BBus)*

Course Codes: B1367

Duration: 3 years available both full-time and part-time

#### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

A Bachelor of Business provides a broad understanding of individual, organisational and societal issues. You will have the practical skills to identify business opportunities, analyse problems and implement solutions and you will be able to demonstrate a

knowledge of business principles across key functional areas. You will have depth of knowledge in one or more business disciplines: accounting, banking, business law, finance, hospitality and tourism management, human resources management, international business, management and marketing.

#### Admission Requirements (Onshore):

ATAR of 70

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### Employment Prospects:

Government, Private and Not-for-profit

#### Professional Recognition:

Students can satisfy the entry requirements for admission to membership of the professional accounting bodies when this major is taken in combination with the Professional Accounting Minor. These include Associate membership of CPA Australia, direct entry into the Chartered Accountants of Australia and New Zealand Programme, and Associate membership of the Institute of Public Accountants (IPA).

#### Main Research Areas:

Graduates can go on to research across a range of business and governance disciplines.

### Course Structure - 72 credit points

Where a course core unit is listed in a major structure, an elective unit may be required. Please contact your Student Advisor for further advice.

#### Year 1 - 24 credit points

## COMMERCE + ENTREPRENEURSHIP AND INNOVATION [COMBINED] (BCOM+BEI)

Accounting

Bachelor of Commerce (BCom) + Bachelor of Entrepreneurship and Innovation (BEI)

Course Codes: B1364

Duration: 4 years available both full-time and part-time

#### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

The Bachelor of Commerce and Bachelor of Entrepreneurship and Innovation (BCom/BEI) is a uniquely structured combined-degree that grounds undergraduates with the fundamental knowledge to practice in organisations, and then builds and refines that knowledge to allow them to develop their own entrepreneurial venture. Students will learn to use tools to foster creativity so as to innovate within an existing organisation or create their own business venture. They will graduate understanding the ramifications of their choices on the individual, society and business.

#### Admission Requirements (Onshore):

As per normal undergraduate admission requirements

## DIPLOMA OF BUSINESS

Business

Course Codes: A1000

Duration: 1 year full-time or part-time equivalent

#### Availability:

- Murdoch University Dubai (UAE) ['DUBAI-ISC'] (internal)

The Diploma of Business is designed to provide students with a broad introduction to business in a supportive, student-centred learning environment. It will prepare students for further study or for a professional business career. Students will explore a broad range of disciplines including business mathematics, marketing, management and governance, accounting, economics and business law. They will also have a better understanding of career planning and management, as well as develop literacy skills that will enhance their academic and business communication and language capabilities. The knowledge and skills gained through completing the Diploma will be directly transferable to either entry-level employment/work settings and/or to further learning in an academic setting.

#### Admission Requirements (Onshore):

Successful completion of Year 12 with minimum ATAR of 50 or Foundation Program or AQF Certificate IV

#### Admission Requirements (Offshore):

Successful completion of GCE A levels with 2 passes (E or better)  
International Baccalaureate - Aggregate score of 21 or above  
Other - successful completion of one of the following:  
. A recognised post-secondary (post high school course);  
. University preparation (foundation) studies;  
. One year of study at a recognised tertiary or higher education institute;  
. 2 units completed at an Australian University or Open University Australia (OUA).  
Full list of country specific academic entry requirements can be provided.

IELTS 5.5 (no band less than 5.5)  
TOEFL Ibt 60 (no band less than 18)  
PTE 46 (writing no less than 46)

#### Additional Academic Progress Requirements:

Students need to successfully complete 24 credit points comprising 5 core units and 3 specified elective units

### Course Structure - 24 credit points

#### Course Core - 15 credit points

## BUSINESS INFORMATION SYSTEMS

#### See also:

Information Technology

---

### BUSINESS INFORMATION SYSTEMS (BSC)

Information Technology

Bachelor of Science (BSc) in Business Information Systems

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)
- Kaplan Higher Education Institute and Kaplan Higher Education Academy (Singapore) ['KAPLAN-SGP'] (internal) (language of

instruction: English)

- Murdoch University Dubai (UAE) ['DUBAI-ISC'] (internal) (language of instruction: English)

**Parent Major:**

Bachelor of Science (IT Majors)

Information Systems is the study of information generation, communication, storage, and application in the context of organised human activity. The increasing penetration of information technology into everyday organisational activity means that professionals in many areas, from management to engineering, increasingly need an understanding of information systems. The contribution of information systems to the functioning of organisations, the design and management of such systems and the development of systems to assist in other professional roles is emphasised in the Business Information Systems degree.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

There may be a reduction in choice of units if completing this course in the external mode. Individual units may require access to specific nominated software.

**Employment Prospects:**

Graduates typically find employment as business analysts. Graduates combining Business Information Systems with another major will experience enhanced employment prospects in that area.

**Professional Recognition:**

This course is accredited at the Professional level with the Australian Computer Society.

**Recommended Double Majors:**

Computer Science; Cyber Security and Forensics; Internetworking and Network Security

**Course Structure - 72 credit points**

**Part I - 24 credit points**

**Year 1 - 24 credit points**

**Transition Unit - 3 credit points**

BSC100 Building Blocks for Science Students - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

OR (for Kaplan and Dubai students only)

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

There may be a reduction in choice of units if completing this course in the external mode. Individual units may require access to specific nominated software.

**Employment Prospects:**

Graduates typically find employment as business analysts. Graduates combining Business Information Systems with another major will experience enhanced employment prospects in that area.

**Professional Recognition:**

Eligible for membership of the Australian Computer Society at the Professional Level.

**Recommended Double Majors:**

Computer Science; Cyber Forensics, Information Security and Management

**Course Structure - 72 credit points**

Units in this structure may no longer be available at all course locations and, where appropriate, alternative units have been provided. Students are required to satisfy the total credit point value of both the degree and the major in order to graduate; this may require that additional units are taken, either as part of the major or as General Electives. To accommodate students impacted by this change, up to 2 credit points from the total credit point value of the degree (incorporating the major) may be waived. For further information, see [https://myanswers.custhelp.com/app/answers/detail/a\\_id/1017/](https://myanswers.custhelp.com/app/answers/detail/a_id/1017/)

**Part I - 24 credit points****Foundation Unit - 3 credit points**

From 2014, Foundation units will no longer be offered at the Murdoch Campus. Students who have not yet successfully completed a Foundation unit will be required to enrol in the following Transition Unit.

BSC100 Building Blocks for Science Students - 3 points  
 MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students enrolled at the Dubai or Kaplan campus will enrol in:

FDN107 Next Life - 3 points  
 Not available this year

**Core Units - 12 credit points**

ICT102 Introduction to Computer Science - 3 points  
 Not available this year

ICT103 Introduction to Data Communications - 3 points  
 Not available this year

ICT107 Principles of Information Systems - 3 points  
 Not available this year

ICT108 Introduction to Internet and Mobile Technologies - 3 points  
 Not available this year

**Specified Electives - 3 credit points**

Select from the following:

MAS180 Introduction to Statistics - 3 points  
 MURDOCH: S2-external

MAS183 Statistical Data Analysis - 3 points  
 MURDOCH: S1-internal, S1-external, S2-internal, S2-external

The following unit is no longer available - contact the Academic Chair for advice:

MAS167 Computational Mathematics - 3 points  
 DUBAI-ISC: TMD-internal

OR

MAS162 Foundations of Discrete Mathematics - 3 points  
 MURDOCH: S1-internal, S1-external, S2-internal, S2-external  
 DUBAI-ISC: TJD-internal, TSD-internal

BUS170 Foundations of Accounting - 3 points  
 DUBAI-ISC: TJD-internal, TSD-internal

**General Electives - 6 credit points**

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Part II - 48 credit points****Core Units - 24 credit points**

ICT231 Systems Analysis and Design - 4 points  
Not available this year

ICT353 Advanced Business Analysis and Design - 4 points  
Not available this year

ICT218 Databases - 4 points  
Not available this year

ICT333 Information Technology Project - 4 points  
DUBAI-ISC: TJD-internal

ICT208 Business Intelligence Tools and Techniques - 4 points  
Not available this year

ICT256 Knowledge Management Techniques - 4 points

**General Electives - 24 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

---

**BUSINESS INFORMATION SYSTEMS HONOURS (BSC(HONS))**

College of Science, Health, Engineering and Education

*Bachelor of Science Honours (BSc(Hons)) in Business Information Systems*

Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)

The aim of Honours is to provide training in research and the development of higher-level skills. The student's grasp of the principles and practice of their subject will be extended and they will develop ability for independent research.

**Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average; subject to availability of a suitable supervisor and approval by the Associate Dean (Learning and Teaching) of the School.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Apply Online:**

Applications can be made online at <http://goto.murdoch.edu.au/OnlineApplicationsHonours>

**Course Structure - 24 credit points****Coursework - 12 credit points**

ICT615 Information Technology Research Methods - 3 points  
MURDOCH: S1-internal

ICT576 Information Technology Literature Review - 3 points  
MURDOCH: S1-internal, S2-internal

Plus two 500-level IT units approved by the Academic Chair - 3

points each

**Thesis - 12 credit points**

ICT520 Honours Thesis in Business Information Systems - 12 points  
MURDOCH: S1-internal, S2-internal, Y-internal

---

**BUSINESS LAW**

---

**BUSINESS LAW (BBUS)**

Criminology

*Bachelor of Business (BBus) in Business Law*

Course Codes: B1367

Duration: 3 years available both full-time and part-time

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

**Parent Major:**

Bachelor of Business

The Business Law major equips students with knowledge and legal problem solving skills relevant to handling legal issues in business. Students investigate the regulatory environment of business in Australia, acquiring a broad understanding of areas of regulation that they may become involved in as business professionals. Areas covered include finance law, workplace law, company law, marketing law and alternative dispute resolution.

A Bachelor of Business provides a broad understanding of individual, organisational and societal issues. You will have the practical skills to identify business opportunities, analyse problems and implement solutions and you will be able to demonstrate a knowledge of business principles across key functional areas. You will have depth of knowledge in one or more business disciplines: accounting, banking, business law, finance, hospitality and tourism management, human resources management, international business, management and marketing.

English competence.

**Employment Prospects:**

Management, Legal Compliance, Government, Human Resource Management, Financial Reporting

**Recommended Double Majors:**

Accounting; Banking; Finance; Hospitality and Tourism Management; Human Resources Management; Management; Marketing

**Excluded Majors:**

Business Law

**Excluded Minors:**

Business Law

**Course Structure - 72 credit points**

Where a course core unit is listed in a major structure, an elective unit may be required. Please contact your Student Advisor for further advice.

**Year 1 - 24 credit points****Murdoch Spine: Career Learning - 3 credit points**

MSP100 Career Learning: Managing Your Career - 3 points

MURDOCH: S1-internal, S1-external

## **BUSINESS LAW (BBUS)**

Criminology

Bachelor of Business (BBus) in Business Law

Course Codes: B1318

Duration: 3 years full-time or part-time equivalent

### **Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)
- Kaplan Higher Education Institute and Kaplan Higher Education Academy (Singapore) ['KAPLAN-SGP'] (internal) (language of instruction: English)

### **Parent Major:**

Bachelor of Business

The Business Law major complements majors in accounting, finance, management and other business disciplines. The major also supplements legal studies that are not business oriented. Whether students are interested in government or private enterprise work, completion of the major will allow for an appreciation of relevant legal principles applicable to many areas of business. Increasing regulation of business activity means professionals need legal knowledge that equips them to make informed decisions and to recognise the need for further specific legal services. The major includes the study of contemporary business law for this use. The legal environment of business is exposed with a focus on skill development in legal problem solving.

A fourth year of study is available in the form of an honours year.

A Bachelor of Business provides a broad understanding of individual, organisational and societal issues. You will have the practical skills to identify business opportunities, analyse problems and implement solutions and you will be able to demonstrate a knowledge of business principles across key functional areas. You will have depth of knowledge in one or more business disciplines: accounting, banking, business law, economics, finance, hospitality and tourism management, human resources management, international business, management, and marketing.

### **Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Employment Prospects:**

Prospective employers would include government agencies and medium to large corporations.

**Recommended Double Majors:**

Accounting; Finance; Human Resources Management; Management; Marketing

**Excluded Majors:**

Law; Law + Business [Combined]; Law - Graduate Entry

**Excluded Minors:**

Business Law

**Main Research Areas:**

Business law; Business regulation.

**Course Structure - 72 credit points****Year 1 - 24 credit points****Murdoch Spine: Career Learning - 3 credit points**

BBS100 Academic Skills for Business - 3 points  
MURDOCH: S1-internal, S1-external

**Breadth Unit for Degree - 3 credit points**

Select from the following:

BBS150 Transforming Business - 3 points

MSP100 Career Learning: Managing Your Career - 3 points  
MURDOCH: S1-external, S2-external

**Core Units - 12 credit points**

KAPLAN-SGP: TMA-internal

**General Electives - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**BUSINESS LAW (BCOM)**

Business Law

*Bachelor of Commerce (BCom) in Business Law*

Course Codes: B1359

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

**Parent Major:**

Bachelor of Commerce

The Business Law major equips students with knowledge and legal problem solving skills relevant to handling legal issues in business. Students investigate the regulatory environment of business in Australia, acquiring a broad understanding of areas of regulation that they may become involved in as business professionals. Areas covered include finance law, workplace law, company law, marketing law and alternative dispute resolution.

A Murdoch Bachelor of Commerce graduate is future enabled with a global mindset. Murdoch's Commerce degree provides you with the knowledge and skills to succeed in an ever changing world. The degree is workplace-focused, enabling you to develop your critical thinking and creative problem solving skills by working on real organisational projects, learning from professionals and through a range of internship opportunities.

The Bachelor of Commerce offers ten majors across a broad range of industry. The course is flexible allowing students to choose up to two majors, a major and a two minors or a major, a minor and a range of electives. Majors include; accounting, banking, business law, finance, hospitality and tourism management, human resources management, international business, management, global business and politics, and marketing.

Students studying a BCom may be eligible to enrol in Murdoch University's MasterClass Program. MasterClass gives students the opportunity to complete a postgraduate qualification whilst studying for an undergraduate degree. To participate in the MasterClass Program students must have completed 1 year of a degree (24 credit points), and maintained a GPA of 3.0 or more (or equivalent). In addition, to the academic requirements students may be required to take part in a competitive selection process.

#### **Admission Requirements (Onshore):**

As per normal undergraduate admission requirements, minimum ATAR of 70 is required

#### **Admission Requirements (Offshore):**

As per normal undergraduate admission requirements

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Employment Prospects:**

Management, Legal Compliance, Government, Human Resource Management, Financial Reporting

#### **Recommended Double Majors:**

Accounting; Banking; Finance; Hospitality and Tourism Management; Human Resources Management; Management; Marketing

#### **Excluded Majors:**

Business Law

## **BUSINESS LAW HONOURS (BBus(HONS))**

College of Arts, Business, Law and Social Sciences

*Bachelor of Business Honours (BBus(Hons)) in Business Law*

Course Codes: H1255

Duration: 1 year full-time or part-time equivalent

### **Availability:**

- Murdoch campus (internal)

The aim of Honours is to extend the student's grasp of the principles and practice of their subject, and to develop the ability for independent research.

An Honours qualification of 2A is normally required for admission to higher research degree study.

### **Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average in units relating to the planned Honours study and a Distinction average overall. Subject to availability of a suitable supervisor and approval by the Dean of School.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### **Apply Online:**

Applications can be made online at  
<http://goto.murdoch.edu.au/OnlineApplicationsHonours>

### **Employment Prospects:**

Prospective employers would include government agencies and medium to large corporations.

### **Main Research Areas:**

Business Law

## **Course Structure - 24 credit points**

### **Coursework - 12 credit points**

MBS516 Advanced Honours Topic A - 3 points  
MURDOCH: S1-internal, S2-internal, Y-internal

MBS512 Advanced Honours Topic B - 3 points  
MURDOCH: S1-internal, S2-internal, Y-internal

MBS517 Advanced Honours Research Preparation - 3 points  
MURDOCH: S1-internal, S2-internal

Any Masters unit (500-level) from a Law discipline - 3 points

### **Thesis - 12 credit points**

MBL519 Honours Thesis in Business Law - 12 points  
MURDOCH: S1-internal, S2-internal

## **CHEMISTRY**

### **CHEMISTRY (BSC)**

Chemistry

*Bachelor of Science (BSc) in Chemistry*

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

### **Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

### **Parent Major:**

Bachelor of Science (Non-IT Majors)

A knowledge of chemical concepts is applicable to all areas of science and has many industrial and engineering applications. Chemists play leading roles in fighting disease (in humans, animals and agriculture), criminal investigations, discovery and utilisation of natural resources, developing sustainable industrial processes, and creating novel nano-materials.

The Chemistry major has been designed to provide students with a thorough understanding of chemistry whilst retaining the flexibility to study complementary areas of interest.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

### **Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

It is recommended that students entering this major have completed Chemistry ATAR, Physics ATAR and Mathematics Specialist ATAR.

Applicants with other backgrounds will be considered for admission, but may need to undertake bridging units in first year.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### **Special Requirements:**

Students enrolling in units that have a practical component must make allowance for on-campus attendance to complete the practical work. The on-campus sessions for external students are generally held in a one-week block for each unit; the dates are published in each unit guide.

### **Employment Prospects:**

The employment situation for graduates with a Chemistry degree is bright, especially for those who combine chemistry with other disciplines. Opportunities for chemists are not limited to Australia, and the skills and knowledge acquired in a chemistry degree are valued around the world. The skills learned whilst studying chemistry can take graduates on to a satisfying career in numerous fields both in and out of the lab anywhere in the world. Chemists are found in roles within law and accounting firms, NGOs, government policy positions at the local and international level, and the art world. Creativity, passion, logical thinking, problem solving, and the ability to analyse complex situations are all skills at the top of any employer's list of desirable attributes. Chemists have these abilities in abundance. That's why chemists can be found at the forefront of research, teaching, the arts, and business.

### **Professional Accreditation:**

Accredited by the Royal Australian Chemical Institute (RACI).

### **Professional Recognition:**

With an appropriate choice of units, graduates are eligible for membership of the professional organisation for chemists, the Royal Australian Chemical Institute (RACI).

### **Recommended Double Majors:**

Environmental Science; Forensic Biology and Toxicology; Genetics and Molecular Biology; Mathematics and Statistics; Mineral Science; Physics and Nanotechnology

### **Recommended Minors:**

Applied Statistics; Biomedical Science; Ecosystem Management; Environmental Issues; Forensic Biology; Marine Biology; Molecular Biology; Neuroscience; Resource Management; Security, Terrorism and Counterterrorism

**Excluded Minors:**

Organic and Biological Chemistry

**Main Research Areas:**

Solution chemistry, energy storage, hydrometallurgical chemistry, chemical analysis, advanced materials, bioprocessing, natural products chemistry and organic chemistry.

**Major Prerequisites****Chemistry Background**

Students may need to complete prerequisite units depending upon their background in chemistry and their final scaled score in Chemistry ATAR within the past three years.

Chemistry ATAR with a final scaled score of 50 percent or more

OR

CHE140 Fundamentals of Chemistry - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous chemistry not stated above should consult their Academic Chair for clarification of their enrolment requirements.

**Mathematics Background**

Students may need to complete prerequisite units depending on their background in mathematics and their final scaled score in Mathematic Methods ATAR (or Mathematics 3C/3D) or Mathematics Specialist ATAR (or Mathematics: Specialist 3C/3D) within the past three years.

Students who have not achieved a final scaled score of 55 percent or higher in Mathematics Methods ATAR (or Mathematics (3C/3D)) need to complete as a bridging unit:

MAS164 Fundamentals of Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous mathematics not stated above should consult the Academic Chair for clarification of their enrolment requirements.

**Physics Background**

Students may need to complete prerequisite units depending on their background in physics and their final scaled score in Physics 3A/3B within the past three years.

Physics 3A/3B with a final scaled score of 60 percent or more

OR

PEN120 General Physics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous physics studies not stated above should consult the Academic Chair for clarification of their enrolment requirements.

**Course Structure - 72 credit points****Part I - 24 credit points****Year 1 - 24 credit points****Transition Unit - 3 credit points**

BSC100 Building Blocks for Science Students - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Breadth Unit for Degree - 3 credit points**

BSC150 What is Science? - 3 points

MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Core Units - 15 credit points**

CHE144 Foundations of Chemistry - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

CHE145 Introduction to Chemical Concepts - 3 points  
MURDOCH: S2-internal, S2-external

PEN152 Principles of Physics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

MAS182 Applied Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

MAS161 Calculus and Matrix Algebra - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**General Electives - 3 credit points**

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Part II - 48 credit points****University-Wide Breadth Units - 6 credit points**

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Year 2 - 21 credit points****Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

**For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC201 Psychology: Measurement, Design and Analysis - 3 points  
MURDOCH: S1-internal

**For Primary Majors in the Health Sciences, as listed**

Primary Major in Chiropractic Science, Exercise Physiology, Movement Science, or Sport and Health Science:

BSC206 Introduction to Research Methodology and Evidence Based Practice - 3 points  
MURDOCH: S2-internal

**For All Other Primary Majors excluding Information Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Core Units - 9 credit points**

CHE202 Physical Chemistry I - 3 points  
MURDOCH: S1-internal, S1-external

CHE205 Organic and Biological Chemistry I - 3 points  
MURDOCH: S2-internal, S2-external

CHE207 Chemical Analysis - 3 points  
MURDOCH: S1-internal, S1-external

**General Electives - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

### **Year 3 - 21 credit points**

#### **Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

#### **For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC302 Advanced Quantitative Research Methods - 3 points  
MURDOCH: S2-internal

#### **For Primary Majors in the Health Sciences, as listed**

Primary major in Chiropractic Science, Movement Science, Sport and Health Science:

BSC306 Research and Evidence Based Practice - 3 points  
MURDOCH: S1-internal

#### **For All Other Primary Majors excluding Information Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

#### **Core Units - 9 credit points**

CHE304 Materials Chemistry - 3 points  
MURDOCH: S2-internal, S2-external

CHE308 Organic and Biological Chemistry II - 3 points  
MURDOCH: S1-internal, S1-external

CHE347 Physical Chemistry II - 3 points  
MURDOCH: S2-internal, S2-external

#### **General Electives - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Additional Professional Accreditation Requirements**

Students seeking RACI accreditation must complete at least two Part I subjects in Physics or Mathematics, or a combination of the two at an appropriate level. For example, successful completion of:

- PEN152 Principles of Physics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external
- MAS182 Applied Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**CHEMISTRY HONOURS (BSC(HONS))**

College of Science, Health, Engineering and Education

*Bachelor of Science Honours (BSc(Hons)) in Chemistry*

Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)

The Honours year is used to extend a student's grasp of the

principles and practice of chemistry by undertaking a rigorous, research-based project. Mentoring by a member of staff enables Honours students to develop the ability for creative, independent research. Students are expected to be involved in the entire research process from concept through to writing and presenting the data obtained, along the way developing skills in advanced chemical technique, project management, high-level problem solving, and communication of research findings to peers.

Successful completion of the Honours course is required for admission to research degrees (i.e. Masters or PhD degrees).

**Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average; subject to availability of a suitable supervisor and approval by the Associate Dean (Learning and Teaching) of the School.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Apply Online:**

Applications can be made online at <http://goto.murdoch.edu.au/OnlineApplicationsHonours>

**Employment Prospects:**

Graduates can expect to find employment in a range of disciplines where research and problem solving skills are in demand. Honours graduates are favourably looked upon by employers as successful completion of a year long project provides concrete evidence of chemical, project management, problem solving, and communication skills.

**Professional Recognition:**

Graduates may be eligible for full membership of the Royal Australian Chemical Institute.

**Course Structure - 24 credit points**

**Coursework - 6 credit points**

CHE576 Literature Review - 3 points  
MURDOCH: S1-internal, S2-internal

VLS683 Advanced Research Methods for Scientists - 3 points  
MURDOCH: S1S-internal, S1S-external, S2N3-internal, S2N3-external

**Thesis - 18 credit points**

CHE500 Honours Thesis in Chemistry - 18 points  
MURDOCH: H-internal, Y-internal

---

**CHIROPRACTIC**

**See also:**

Exercise Physiology  
Sports Science

---

**CHIROPRACTIC SCIENCE + CLINICAL CHIROPRACTIC (BSC+BCLINCHIRO)**

Chiropractic

Bachelor of Science (BSc) in Chiropractic Science + Bachelor of Clinical Chiropractic (BClinChiro)

Course Codes: B1331 B1361

Duration: 5 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)

Restriction: Enrolment is subject to restriction due to constraints on unit enrolments.

The Chiropractic Science major within the Bachelor of Science provides specialised knowledge enabling students to understand the fundamental elements of human anatomy, immunology, genetics, and microbiology. The major also includes a thorough understanding of chiropractic skills including physical examination, diagnosis with an emphasis on clinical orthopaedics and neurology. The major will provide skills to allow students to progress to the Bachelor of Clinical Chiropractic which prepares graduates for registration as Chiropractors within Australia and New Zealand.

The Bachelor of Clinical Chiropractic aims to build on the BSc (Chiropractic Science) to produce registrable graduates who have the evidence based practice skills to diagnose, treat and prevent pain and disability of the spine and musculoskeletal system. Graduates become proficient in manual and other therapies, physical rehabilitation and general well-being. As primary contact practitioners graduates will also be able to recognise signs and symptoms of a wide variety of other conditions and where appropriate refer to other health providers.

The Bachelor of Science (Chiropractic Science) degree is conferred following successful completion of the first three years of study. The Bachelor of Clinical Chiropractic degree is awarded following the successful completion of the final two years of study. Both degrees are essential for registration and clinical practice.

This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements. Highly recommended subjects: Physics 3A/3B, Chemistry 3A/3B, Mathematics and Human Biological Science 3A/3B.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

Immunisation: Students should note that immunisation is required for Chiropractic according to Category A, Schedule 1 of the University policy on Immunisation seen here:

<https://policy.murdoch.edu.au/docview/?docid=1536&public=true>  
Other vaccinations may be required when treating special populations.

**Professional Accreditation:**

This course is accredited by the Council on Chiropractic Education Australasia (CCEA). Graduates are eligible for registration with the Chiropractic Board of Australia and are also eligible for registration in New Zealand. Graduates from CCE (Council on Chiropractic Education) accredited educational institutions may be eligible to sit registration examinations in the United States, the United Kingdom, Europe and other parts of the world in accordance with the laws and requirements of each individual country and/or jurisdiction.

**Additional Academic Progress Requirements:**

Students who fail more than two core units per level (100, 200, 300, 400, 500), as well as students who fail a core unit a second time, will be excluded from the course for a period of no less than one teaching period following the teaching period in which the unit was failed, after a mandatory interview process with the Academic Chair. They may apply for readmission to the course after this time.

**Course Structure - 120 credit points**

**Part I - 24 credit points**

**Year 1 - 24 credit points**

**Transition Unit - 3 credit points**

BSC100 Building Blocks for Science Students - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Breadth Unit for Degree - 3 credit points**

BSC150 What is Science? - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

### Core Units - 18 credit points

CHI109 Introduction to Chiropractic - 3 points  
MURDOCH: S1-internal, S2-internal

CHI168 Introduction to Musculoskeletal Human Anatomy - 3 points  
MURDOCH: S1-internal

BMS107 Foundations of Vertebrate Form and Function - 3 points  
MURDOCH: S2-internal

BIO152 Cell Biology - 3 points  
MURDOCH: S2-internal

CHI108 Human Anatomy I - 3 points  
MURDOCH: S2-internal

CHE140 Fundamentals of Chemistry - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

## Part II - 96 credit points

### Year 2 - 24 credit points

#### Research Skills Unit - 3 credit points

BSC206 Introduction to Research Methodology and Evidence Based Practice - 3 points  
MURDOCH: S2-internal

#### Core Units - 21 credit points

CHI255 Human Anatomy II - 3 points  
MURDOCH: S1-internal

BMS206 Biomedical Physiology - 3 points  
MURDOCH: S1-internal

CHI205 Immunology, Genetics and Microbiology - 3 points  
MURDOCH: S1-internal

BIO247 Biochemistry - 3 points  
MURDOCH: S2-internal

CHI234 Human Anatomy III - 3 points  
MURDOCH: S2-internal

CHI293 Physical Examination - 3 points  
MURDOCH: S2-internal

CHI247 Clinical Biomechanics - 3 points  
MURDOCH: S1-internal

### Year 3 - 24 credit points

#### Research Skills Unit - 3 credit points

BSC306 Research and Evidence Based Practice - 3 points  
MURDOCH: S1-internal

#### Core Units - 21 credit points

CHI391 Processes in Human Disease - 3 points  
MURDOCH: S1-internal

CHI354 Chiropractic Skills - 3 points  
MURDOCH: S1-internal

CHI335 Diagnosis I - 3 points  
MURDOCH: S1-internal

CHI336 Diagnosis II - 3 points  
MURDOCH: S2-internal

CHI337 Diagnosis III - 3 points  
MURDOCH: S2-internal

CHI338 Technique I - 3 points  
MURDOCH: S2-internal

CHI339 Technique II - 3 points  
MURDOCH: S2-internal

### Year 4 - 24 credit points

#### Core Units - 24 credit points

CHI440 Clinical Radiology - 3 points  
MURDOCH: S1-internal

CHI456 Differential Diagnosis - 3 points  
MURDOCH: S1-internal

CHI459 Pharmacology and Nutrition - 3 points  
MURDOCH: S2-internal

CHI485 Preclinical Practicum 1 - 3 points  
MURDOCH: S1-internal

CHI486 Preclinical Practicum 2 - 3 points  
MURDOCH: S2-internal

CHI457 Clinical Biomechanics - 3 points  
MURDOCH: S1-internal

CHI448 Rehabilitation and Physical Therapy I - 3 points  
MURDOCH: S2-internal

CHI441 Radiography: Principles and Positioning - 3 points  
MURDOCH: S2-internal

### Year 5 - 24 credit points

#### Core Units - 24 credit points

CHI449 Rehabilitation and Physical Therapy II - 3 points  
MURDOCH: S1-internal

CHI466 Mental Health Issues in Chiropractic Care and Applied Nutrition - 3 points  
MURDOCH: S1-internal

CHI499 Clinical Practicum - 12 points  
MURDOCH: YU5-placement

CHI467 Ethics, Jurisprudence and Professional Practice Management - 3 points  
MURDOCH: S2-internal

CHI458 Public Health and Nutrition III - 3 points  
MURDOCH: S2-internal

### Additional Academic Progress Requirements

Students who fail more than two core units per level (100, 200, 300, 400, 500), as well as students who fail a core unit a second time, will be excluded from the course for a period of no less than one teaching period following the teaching period in which the unit was failed, after a mandatory interview process with the Academic Chair. They may apply for readmission to the course after this time.

## CHIROPRACTIC HONOURS (BSC(HONS))

College of Science, Health, Engineering and Education

Bachelor of Science Honours (BSc(Hons)) in Chiropractic

Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

This course allows students to gain knowledge in the field of research specifically addressing research components and epidemiology. Students acquire an appreciation of the research process and an understanding of terminology needed to critically read literature. A 3 point unit involving a writing exercise will be required allowing the student to develop their research protocol.

#### Admission Requirements (Onshore):

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a credit average; subject to

availability of a suitable supervisor and approval by the Associate Dean (Learning and Teaching) of the School.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Apply Online:**

Applications can be made online at <http://goto.murdoch.edu.au/OnlineApplicationsHonours>

#### **Special Requirements:**

Immunisation: Honours students should note that immunisation is required according to Category A, Schedule 1 of the University policy on Immunisation seen here:

<https://policy.murdoch.edu.au/docview/?docid=1536&public=true>  
Other vaccinations may be required when treating special populations.

#### **Employment Prospects:**

Research assistant in clinical research.

#### **Main Research Areas:**

Chiropractic clinical research.

## **Course Structure - 24 credit points**

### **Coursework - 3 credit points**

VLS683 Advanced Research Methods for Scientists - 3 points  
MURDOCH: S1S-internal, S1S-external, S2N3-internal, S2N3-external

### **Thesis - 21 credit points**

CHI560 Honours Thesis in Chiropractic - 21 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external, Y-internal, Y-external

## **COMMUNICATION**

### **COMMUNICATION + CREATIVE MEDIA [COMBINED] (BCRMEDIA+BCOMMUN)**

Creative Media, Arts and Design

*Bachelor of Creative Media (BCrMedia) + Bachelor of Communication (BCommun)*

Course Codes: B1344

Duration: 4 years full-time or part-time equivalent

#### **Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

This combined degree program offers a complete practical and theoretical preparation for employment across both Communication and Creative Media industries. In the Bachelor of Communication you will learn how modern communication works across the globe and be able to apply that knowledge to seek employment in this field. In the Bachelor of Creative Media you will develop a broad understanding of your field and the skills you need to be successful in the creative media industries.

As a Communication graduate, you will be able to write and present professionally, take a global perspective on issues, argue effectively, act ethically and work cooperatively. You will be introduced to key concepts and practices in communication, and will develop digital media skills and critical thinking skills that you can apply as a professional communicator. As a Creative Media graduate, you will understand the commercial context and changing nature of the creative industries, and your role as a creative professional within them. You will have the opportunity to build a portfolio of creative works throughout your degree, and

showcase your creative potential.

#### **Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

English competence.

#### **Apply Online:**

Applications can be made online at <http://goto.murdoch.edu.au/OnlineApplicationsHonours>

## **Course Structure - 96 credit points**

### **Year 1 - 24 credit points**

## **DIPLOMA OF COMMUNICATION**

Communications

Course Codes: A1001

Duration: 1 year full-time or part-time equivalent

#### **Availability:**

- Murdoch University Dubai (UAE) ['DUBAI-ISC'] (internal)

The Diploma of Communication is designed to provide students with a broad introduction to communication in a supportive, student-centred learning environment. It will prepare students for further study or for a professional communication career. Students will explore a broad range of discipline areas including, web and social media literacy; digital media and screen production and analysis; news gathering and reporting. They will also have a better understanding of career planning and management, as well as develop literacy skills that will enhance their academic and professional communication and language capabilities. The knowledge and skills gained through completing the Diploma will be directly transferable to either entry-level employment/work settings and/or to further learning in an academic setting.

#### **Admission Requirements (Onshore):**

Successful completion of Year 12 with minimum ATAR of 50 or Foundation Program or AQF Certificate IV

#### **Admission Requirements (Offshore):**

Successful completion of GCE A levels with 2 passes (E or better) International Baccalaureate - Aggregate score of 21 or above  
Other - successful completion of one of the following:

- . A recognised post-secondary (post high school course);
- . University preparation (foundation) studies;
- . One year of study at a recognised tertiary or higher education institute;
- . 2 units completed at an Australian University or Open University Australia (OUA).

Full list of country specific academic entry requirements can be provided.

IELTS 5.5 (no band less than 5.5)

TOEFL Ibt 60 (no band less than 18)

PTE 46 (writing no less than 46)

#### **Additional Academic Progress Requirements:**

Students need to successfully complete 24 credit points comprising 8 core units.

### **Course Structure - 24 credit points**

#### **Course Core - 24 credit points**

MFP1001 Language Enhancement - 3 points

DUBAI-ISC: TMD-internal, TSD-internal

MSP1001 Career Learning: Managing Your Career - 3 points  
DUBAI-ISC: TSD-internal

BBS1001 Academic Skills for Business - 3 points

### Additional Academic Progress Requirements

Students need to successfully complete 24 credit points comprising 8 core units.

## COMMUNICATION HONOURS (BCOMMUN(HONS))

Creative Media, Arts and Design

*Bachelor of Communication Honours (BCommun(Hons))*

Course Codes: H1269

Duration: 1 year full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)

The aim of Honours is to extend the student's grasp of the principles and practice of their subject, and to develop the ability for independent research.

An Honours qualification of 2A is normally required for admission to higher research degree study.

#### Admission Requirements (Onshore):

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average; subject to availability of a suitable supervisor and approval by the Associate Dean (Learning and Teaching) of the School.

English competence. Students demonstrating English competence via IELTS need an overall score of 6.0 with no individual band less than 6.0.

#### Apply Online:

Applications can be made online at  
<http://goto.murdoch.edu.au/OnlineApplicationsHonours>

#### Employment Prospects:

Media units in Government, NGOs and private enterprise; Policy units in Government, NGOs and private enterprise; Content producers in traditional news media and digital and social media; Freelance writers, producers and strategic consultants

#### Main Research Areas:

Communication Studies, Media Studies, Creative Industries, Communication Policy, Media Audiences, Global Media; Media law & ethics, storytelling, Journalism practice

### Course Structure - 24 credit points

#### Coursework - 12 credit points

ART604 Advanced Research Methods - 3 points

MURDOCH: S1-internal, S1-external, S2-internal, S2-external

ART503 Honours Seminar in Arts - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

ART555 Honours Topic - 6 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

#### Thesis - 12 credit points

COM512 Honours Thesis in Communication B - 12 points  
MURDOCH: S1-internal, S2-internal

## COMMUNICATION AND MEDIA STUDIES

### COMMUNICATION AND MEDIA STUDIES (BA)

Creative Media, Arts and Design

*Bachelor of Arts (BA) in Communication and Media Studies*

Course Codes: B1316 B1316A

Duration: 3 years full-time or part-time equivalent

#### Availability:

- Kaplan Higher Education Institute and Kaplan Higher Education Academy (Singapore) ['KAPLAN-SGP'] (internal) (language of instruction: English)

#### Parent Major:

Bachelor of Arts

This major provides students with skills and expertise for work in contemporary communication, media and cultural industries characterised by rapid change, digitalisation and technological innovation. Students are equipped with the knowledge base and skills for analysing and producing both traditional and new media texts, as well as understanding communication and cultural processes in the emerging creative industries. As the units in this major cover a wide range of critical communication issues, cultural theory and media concepts, students completing this course are well placed to embark on a research career in the industry or enrol for further studies at Honours and/or graduate level.

In the Bachelor of Arts you will develop a broad understanding of your field and proficiency in producing written and oral arguments and creative artefacts in response to social, human and natural phenomena. You will also develop a critical appreciation of the perspectives of others. As an Arts graduate you will be able to think critically and creatively, apply knowledge and information, and communicate effectively. These are professional skills which are critical across a range of industries. You will also be able to pursue further study in the fields of social research, the humanities and/or the creative arts.

#### Admission Requirements (Onshore):

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### Employment Prospects:

Graduates can expect to find employment in a wide range of fields, from the creative industries (new media, public relations, advertising, journalism, radio, television, music and print) to management, administration, government, public policy, media research, academia and teaching.

#### Recommended Double Majors:

Journalism; Law; Public Relations

#### Recommended Minors:

Gender Studies; International Aid and Development; Sustainable Development

**Excluded Minors:**

Social Justice in Contemporary Culture

**Main Research Areas:**

Communication Studies, Media Studies, Creative Industries, Communication Policy, Media Audiences, Global Media.

**Course Structure - 72 credit points****Part I - 24 credit points****Year 1 - 24 credit points****Transition Unit - 3 credit points**

BAR100 Academic Learning Skills - 3 points

**Breadth Unit for Degree - 3 credit points**

BAR150 Ideas and Identity - 3 points

**Core Units - 9 credit points**

CMS100 Introduction to Communication - 3 points

CMS101 Introduction to Media Studies - 3 points

CMS102 Contemporary Culture - 3 points

**General Electives - 9 credit points**

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Part II - 48 credit points****University-Wide Breadth Units - 6 credit points**

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Year 2 - 21 credit points****Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

**For Primary Major in Social and Developmental Psychology**

BSC201 Psychology: Measurement, Design and Analysis - 3 points  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

**For All Other Primary Majors**

BAR200 Developing Research Skills and Methods - 3 points  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

**Core Units - 9 credit points**

CMS201 Screen: Small, Medium and Large - 3 points  
KAPLAN-SGP: TMA-internal

CMS202 Old Media, New Media - 3 points  
KAPLAN-SGP: TMA-internal

CMS203 Audiences, Users and Participants - 3 points  
KAPLAN-SGP: TJA-internal, TSA-internal

**General Electives - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Year 3 - 21 credit points****Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

**For Primary Major in Social and Developmental Psychology**

BSC302 Advanced Quantitative Research Methods - 3 points  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

**For All Other Primary Majors**

BAR300 Advanced Research in the Arts - 3 points  
KAPLAN-SGP: TMA-internal

**Core Units - 9 credit points**

CMS304 Communicating Global Issues - 3 points  
KAPLAN-SGP: TJA-internal, TSA-internal

CMS305 Media Governance and the Public Sphere - 3 points  
KAPLAN-SGP: TJA-internal, TSA-internal

CMS306 Critical Topics in Communication and Media Studies - 3 points  
KAPLAN-SGP: TMA-internal

**General Electives - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**GLOBAL MEDIA AND COMMUNICATION (BCOMMUN)**

Communications

Bachelor of Communication (BCommun) in Global Media and Communication

Course Codes: B1342

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)

**Parent Major:**

Bachelor of Communication

This major provides students with skills and expertise for work in contemporary communication, media and cultural industries characterised by rapid change, digitalisation and technological innovation. Students are equipped with the knowledge base and skills for analysing and producing both traditional and new media texts, as well as understanding communication and cultural processes in the emerging creative industries. As the units in this major cover a wide range of critical communication issues, cultural theory and media concepts, students completing this course are well placed to embark on a research career in the industry or enrol for further studies at Honours and/or graduate level.

In the Bachelor of Communication you will learn how modern communication works across the globe and be able to apply that knowledge to seek employment in this field. You will be introduced to key concepts and practices in communication, and will develop digital media skills and critical thinking skills that you can apply as a professional communicator. You will be able to write and present professionally, take a global perspective on issues, argue effectively, act ethically and work cooperatively. Students can choose to concentrate on majors in Global Media and Communication, Strategic Communication or Journalism (or a combination). These fields offer you the opportunity to create media productions, deal with clients, tackle communication issues and work with industry.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

English competence. Students demonstrating English competence via IELTS need an overall score of 6.0 with no individual band less than 6.0.

**Employment Prospects:**

Graduates will have research, communication and professional skills and can expect to find careers in the media or as freelance writers and producers in a wide range of fields, from the creative industries (new media, public relations, advertising, journalism, radio, television, music and print) to management, administration, government, public policy, media research, academia and teaching.

COM303 Media Audiences - 3 points  
MURDOCH: S2-internal, S2-external

**General Electives or Second Major - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

## COMMUNITY DEVELOPMENT

### COMMUNITY DEVELOPMENT (BA)

Global Studies

Bachelor of Arts (BA) in Community Development

Course Codes: B1356

Duration: 3 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

#### Parent Major:

Bachelor of Arts

Working with community is often complex and demands sophisticated skills and 'artfulness'. Success comes to those who possess a combination of wisdom, high-end knowledge of relationships, considerable diplomacy, tenderness and 'smarts'. Often we need to balance a clear head, soft heart, kindness, emotional and social maturity and ethical strength. Although many think that working with community comes naturally there is much to learn and good practitioners are in great demand.

This course takes you to 'living' examples of community development, introduces you to other people's ideas about what works and has you thinking and talking about what you see and read. The Community Development major gives you the chance to undertake an internship in a community-based setting, and encourages you to extend your repertoire and build your imagination for how things could be different for communities around the globe. This major is for people seeking to work with community in a range of settings including local government, not-for-profit organisations, Aboriginal Community controlled groups, community arts centres, social service organisations, and the resources sector.

The Bachelor of Arts at Murdoch is a degree unlike any other in Australia. It embraces new directions in teaching and practice-based learning to train the thinkers and researchers of the 21st century. So many of the biggest and most vital issues we face today are about human society and the human condition. How can we understand who we are, how we want to live, or what kind of society we want to create, without the insights, knowledge and skills provided by the humanities? Our degree is different because we teach our students to put these into practice in a way that is recognised and valued by employers. Our graduates are empowered to be the agile and creative thinkers who will thrive in a rapidly changing world. They are able to think creatively, communicate effectively, manage projects, exercise highly-developed analytical and interpersonal skills, and they possess an in-depth knowledge of contemporary societal issues and trends. These are professional skills which are recognised and valued universally. In short, you can study what you love and get a job too!

#### Admission Requirements (Onshore):

As per normal undergraduate admission requirements.

English competence.

#### Special Requirements:

Required short work placement or practice project component

#### Employment Prospects:

Careers in local government, community services, remote area education, Indigenous community development, resource industry community relations, community arts and cultural development, overseas aid work, sustainable development, welfare and human services, disability services, urban planning, social policy and regional development.

#### Recommended Double Majors:

Sustainable Development

#### Recommended Minors:

Asian Studies; Australian Indigenous Studies; Public Policy

#### Excluded Minors:

Community Development

#### Main Research Areas:

Indigenous community development, regional and rural development, local government, arts and cultural development, youth work, humanitarian work, narrative work, mentoring, alternative education

#### Other Information:

Students majoring in Community Development have the option of selecting COD3xx Internship or Community-based Project (6 points) in place of the Year 2 and Year 3 units for the Murdoch University spine component of the BA degree.

## COMMUNITY DEVELOPMENT HONOURS (BA(HONS))

College of Arts, Business, Law and Social Sciences

Bachelor of Arts Honours (BA(Hons)) in Community Development

Course Codes: H1256

Duration: 1 year full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)

The aim of Honours is to extend the student's grasp of the principles and practice of their subject, and to develop ability for independent research.

An Honours qualification of 2A is normally required for admission to higher research degree study.

#### Admission Requirements (Onshore):

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average; subject to availability of a suitable supervisor and approval by the Associate Dean (Learning and Teaching) of the School.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### Apply Online:

Applications can be made online at  
<http://goto.murdoch.edu.au/OnlineApplicationsHonours>

## Course Structure - 24 credit points

### Coursework - 12 credit points

ART604 Advanced Research Methods - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

ART503 Honours Seminar in Arts - 3 points

ART555 Honours Topic - 6 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

### Thesis - 12 credit points

COD569 Honours Thesis in Community Development - 12 points  
MURDOCH: S1-internal, S2-internal, Y-internal

## COMPUTER SCIENCE

#### See also:

Information Technology

### COMPUTER SCIENCE (BSC)

Information Technology

Bachelor of Science (BSc) in Computer Science

Course Codes: B1205 B1205A

Duration: 3 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal) (no new admissions from 2015 at this location for first-year commencing students)
- Murdoch campus (external) (no new admissions from 2015 at this location for first-year commencing students)
- Murdoch University Dubai (UAE) ['DUBAI-ISC'] (internal) (language of instruction: English)

The Computer Science major is designed to provide students with a thorough understanding of the theory, methods and systems used by the information technology industry. Required units cover the major areas of software development, computer technology, systems applications and software engineering.

#### Admission Requirements (Onshore):

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### Special Requirements:

There may be a reduction in choice of units if completing this course in the external mode. Individual units may require access to specific nominated software.

#### Employment Prospects:

Excellent opportunities in business, industry and government as programmers, systems analysts, database administrators, computer systems and network managers, user support officers and software engineers.

#### Professional Recognition:

Eligible for membership of the Australian Computer Society at the Professional Level.

## Course Structure - 72 credit points

Units in this structure may no longer be available at all course locations and, where appropriate, alternative units have been provided. Students are required to satisfy the total credit point value of both the degree and the major in order to graduate; this may require that additional units are taken, either as part of the major or as General Electives. To accommodate students impacted by this change, up to 2 credit points from the total credit point

value of the degree (incorporating the major) may be waived. For further information, see [https://myanswers.custhelp.com/app/answers/detail/a\\_id/1017/](https://myanswers.custhelp.com/app/answers/detail/a_id/1017/)

### Part I - 24 credit points

#### Foundation Unit - 3 credit points

From 2014, Foundation units will no longer be offered at the Murdoch Campus. Students who have not yet successfully completed a Foundation unit will be required to enrol in the following Transition Unit.

BSC100 Building Blocks for Science Students - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students enrolled at the Dubai or Kaplan campus will enrol in:

FDN107 Next Life - 3 points  
Not available this year

#### Core Units - 15 credit points

ICT102 Introduction to Computer Science - 3 points  
Not available this year

ICT103 Introduction to Data Communications - 3 points  
Not available this year

ICT104 Principles of Computer Science - 3 points  
Not available this year

ICT106 Fundamentals of Computer Systems - 3 points  
Not available this year

The following unit is no longer available - contact the Academic Chair for advice:

MAS167 Computational Mathematics - 3 points  
DUBAI-ISC: TMD-internal

OR

MAS162 Foundations of Discrete Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external  
DUBAI-ISC: TJD-internal, TSD-internal

#### General Electives - 6 credit points

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

### Part II - 48 credit points

#### Core Units - 24 credit points

ICT209 Data Structures and Abstractions - 4 points  
Not available this year

ICT218 Databases - 4 points  
Not available this year

ICT231 Systems Analysis and Design - 4 points  
Not available this year

ICT306 Software Architectures - 4 points  
Not available this year

ICT310 Operating Systems and Systems Programming - 4 points  
Not available this year

ICT333 Information Technology Project - 4 points  
DUBAI-ISC: TJD-internal

#### General Electives - 24 credit points

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and

minors will be included in the major's description.

## COMPUTER SCIENCE (BSC)

Information Technology

Bachelor of Science (BSc) in Computer Science

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)
- Kaplan Higher Education Institute and Kaplan Higher Education Academy (Singapore) ['KAPLAN-SGP'] (internal) (language of instruction: English)
- Murdoch University Dubai (UAE) ['DUBAI-ISC'] (internal) (language of instruction: English)

#### Parent Major:

Bachelor of Science (IT Majors)

The Computer Science major is designed to provide students with a thorough understanding of the theory, methods and systems used by the information technology industry. Required units cover the major areas of software development, computer technology, systems applications and software engineering.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

#### Admission Requirements (Onshore):

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### Special Requirements:

There may be a reduction in choice of units if completing this course in the external mode. Individual units may require access to specific nominated software.

#### Employment Prospects:

Excellent career opportunities exist for Computer Science graduates in business, industry and government as programmers, systems analysts, database administrators, software architects, computer systems and network managers, user support officers and software engineers.

#### Professional Recognition:

This course is accredited at the Professional level with the Australian Computer Society.

#### Recommended Double Majors:

Business Information Systems; Cyber Security and Forensics; Games Technology; Internetworking and Network Security; Mobile and Web Application Development

### Course Structure - 72 credit points

#### Part I - 24 credit points

 KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

### **General Electives - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

## **COMPUTER SCIENCE HONOURS (BSC(HONS))**

College of Science, Health, Engineering and Education

*Bachelor of Science Honours (BSc(Hons)) in Computer Science*

Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

#### **Availability:**

- Murdoch campus (internal)

The aim of Honours is to provide training in research and the development of higher-level skills. The student's grasp of the principles and practice of their subject will be extended and they will develop ability for independent research.

Successful completion of the Honours course is required for admission to research degrees (i.e. Masters or PhD degrees).

#### **Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average; subject to availability of a suitable supervisor and approval by the Associate Dean (Learning and Teaching) of the School.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Apply Online:**

Applications can be made online at  
<http://goto.murdoch.edu.au/OnlineApplicationsHonours>

**Course Structure - 24 credit points****Coursework - 12 credit points**

ICT615 Information Technology Research Methods - 3 points  
 MURDOCH: S1-internal

ICT576 Information Technology Literature Review - 3 points  
 MURDOCH: S1-internal, S2-internal

Plus another two 500-level IT units approved by the Academic Chair  
 - 3 points each

**Thesis - 12 credit points**

ICT510 Honours Thesis in Computer Science - 12 points  
 MURDOCH: S1-internal, S2-internal, Y-internal

## 4

**CONSERVATION AND WILDLIFE BIOLOGY****See also:**

Biological Sciences

**CONSERVATION AND WILDLIFE BIOLOGY (BSC)**

Environmental and Conservation Sciences

*Bachelor of Science (BSc) in Conservation and Wildlife Biology*

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Some units only: Murdoch campus (external)

**Parent Major:**

Bachelor of Science (Non-IT Majors)

Conservation Biology is concerned with the study and protection of biological diversity. It requires a detailed understanding of biology as well as of the social, political and economic context in which conservation policy is developed and implemented. It is therefore an excellent interdisciplinary major embracing aspects of science and the social sciences. The core of the degree is a solid grounding in a range of biological disciplines and their application to the conservation of biota. This is supplemented by required material covering law and policy.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements. There are no prerequisites for admission but it is highly desirable for students to have undertaken TEE Chemistry or WACE Chemistry 3A/3B and at least Mathematics 2C/2D.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

Students undertaking units in Conservation Biology will not be required to kill any vertebrate animal but they will be required to work with fresh tissue from dead animals in certain units.

**Employment Prospects:**

Federal, state and local agencies dealing with nature conservation; the interdisciplinary breadth of the course is also well suited to teaching careers.

**Professional Recognition:**

Eligible to seek membership of the Ecological Society of Australia and other relevant professional bodies.

**Recommended Double Majors:**

Animal Health; Biological Sciences; Environmental Management and Sustainability; Environmental Science; Genetics and Molecular Biology; Marine Science

**Excluded Minors:**

Marine Biology; Wildlife Conservation

**Main Research Areas:**

Conservation of endemic Western Australian flora and fauna, impacts of plant disease on the conservation of local communities, sustainable fisheries.

**Major Prerequisites****Chemistry Background**

Students who achieved a final scaled score of 50 percent or more in Chemistry 3A/3B or Chemistry ATAR within the past three years should seek an exemption from their Academic Chair for CHE140 Fundamentals of Chemistry. Students who have completed previous chemistry not stated above should also consult their Academic Chair for clarification of their enrolment requirements.

**Course Structure - 72 credit points****Part I - 24 credit points****Year 1 - 24 credit points****Transition Unit - 3 credit points**

BSC100 Building Blocks for Science Students - 3 points  
 MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Breadth Unit for Degree - 3 credit points**

BSC150 What is Science? - 3 points  
 MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Core Units - 15 credit points**

 MURDOCH: S1-internal, S1-external

CHE140 Fundamentals of Chemistry - 3 points  
 MURDOCH: S1-internal, S1-external, S2-internal, S2-external

MAS183 Statistical Data Analysis - 3 points  
 MURDOCH: S1-internal, S1-external, S2-internal, S2-external

ENV102 Foundations of the Environment - 3 points  
 MURDOCH: S2-internal, S2-external

BIO152 Cell Biology - 3 points  
 MURDOCH: S2-internal

**General Electives - 3 credit points**

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Part II - 48 credit points****University-Wide Breadth Units - 6 credit points**

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30

credit points at Part I may be credited towards course completion requirements.

### **Year 2 - 21 credit points**

#### **Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

#### **For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC201 Psychology: Measurement, Design and Analysis - 3 points  
MURDOCH: S1-internal

#### **For Primary Majors in the Health Sciences, as listed**

Primary Major in Chiropractic Science, Exercise Physiology, Movement Science, or Sport and Health Science:

BSC206 Introduction to Research Methodology and Evidence Based Practice - 3 points  
MURDOCH: S2-internal

#### **For All Other Primary Majors excluding Information Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

#### **Core Units - 9 credit points**

BIO257 Australian Biodiversity - 3 points  
MURDOCH: S2-internal

BIO249 Fish and Wildlife Populations - 3 points  
MURDOCH: S1-internal

ENV241 Ecology - 3 points  
MURDOCH: S2-internal, S2-external

#### **General Electives - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

### **Year 3 - 21 credit points**

#### **Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

#### **For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC302 Advanced Quantitative Research Methods - 3 points  
MURDOCH: S2-internal

#### **For Primary Majors in the Health Sciences, as listed**

Primary major in Chiropractic Science, Movement Science, Sport and Health Science:

BSC306 Research and Evidence Based Practice - 3 points  
MURDOCH: S1-internal

#### **For All Other Primary Majors excluding Information Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note

that no more than 30 credit points at Part I may be credited towards course completion requirements.

#### **Core Units - 9 credit points**

## CONSERVATION AND WILDLIFE BIOLOGY HONOURS (BSC(HONS))

College of Science, Health, Engineering and Education

*Bachelor of Science Honours (BSc(Hons)) in Conservation and Wildlife Biology*

Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

The aim of the Honours year is to extend the student's grasp of the principles and practice of their subject, to develop ability for independent research, and to facilitate their entry into industry employment.

An Honours qualification of at least 2A is normally required for admission to higher research degree study.

### Admission Requirements (Onshore):

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Credit average (GPA 2); subject to availability of a suitable supervisor and approval by the School Dean.

Students interested in enrolling in Honours are advised to contact the Academic Chair before application to discuss supervision of their potential research project.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### Apply Online:

Applications can be made online at  
<http://goto.murdoch.edu.au/OnlineApplicationsHonours>

## Course Structure - 24 credit points

### Coursework - 3 credit points

VLS683 Advanced Research Methods for Scientists - 3 points  
MURDOCH: S1S-internal, S1S-external, S2N3-internal, S2N3-external

### Thesis - 21 credit points

VLS540 Honours Thesis in Conservation and Wildlife Biology - 21 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external, Y-internal, Y-external

## CREATIVE MEDIA

### CREATIVE MEDIA HONOURS (BCRMEDIA(HONS))

Creative Media, Arts and Design

*Bachelor of Creative Media Honours (BCrMedia(Hons))*

Course Codes: H1270

Duration: 1 year full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)

The aim of Honours is to extend the student's grasp of the principles and practice of their subject, and to develop the ability for independent research.

An Honours qualification of 2A is normally required for admission to higher research degree study.

### Admission Requirements (Onshore):

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average; subject to availability of a suitable supervisor and approval by the Associate Dean (Learning and Teaching) of the School.

English competence.

### Apply Online:

Applications can be made online at  
<http://goto.murdoch.edu.au/OnlineApplicationsHonours>

### Employment Prospects:

Design studios, photojournalism, advertising, music venues, music studios, game studios, freelancing, client consultation, government agencies, NGOs, not-for-profit organisations, community groups, galleries

### Main Research Areas:

Practice based research relevant to: screen production, sound, graphic design, photography and photographic culture, games art and design, games theory, sound technology, music technology, interactive media, media studies; Australian indigenous media; creative industries; film; cinema; television; sound; new media; digital video; documentary

## Course Structure - 24 credit points

### Coursework - 12 credit points

ART604 Advanced Research Methods - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

ART503 Honours Seminar in Arts - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

ART555 Honours Topic - 6 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

### Thesis - 12 credit points

CRE569 Honours Thesis in Creative Media - 12 points  
MURDOCH: S1-internal, S2-internal, Y-internal

## CRIMINOLOGY

### CRIME SCIENCE (BCRIM)

Business Law

Bachelor of Criminology (BCrim) in Crime Science

Course Codes: B1345

Duration: 3 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)

#### Parent Major:

Bachelor of Criminology

In this major, you will learn about the rapidly developing area of crime science. It focuses on the immediate causes of burgeoning crime rates in which crime scientists are concerned with why, where, when, by whom, and how a particular offence was committed. The Crime Science major provides opportunities to engage with areas of science that impact on the solving and prevention of crime. It develops an appreciation of the need for multi-disciplinary problem solving in this area. As part of your studies, you will examine approaches used to identify crime hotspots and how patterns of crime have changed over time. You will examine criminal cases and learn how to critically evaluate police procedures, the judicial process and the interpretation of the forensic evidence. You can combine this major with Criminal Behaviour or Legal Studies to add depth and breadth to your understanding of Criminology. You may also combine this major with studies in another area such as Forensic Biology and Toxicology.

#### Admission Requirements (Onshore):

As per normal university admission requirements

English competence. Students demonstrating English competence via IELTS need an overall score of 6.0 with no individual band less than 6.0.

#### Employment Prospects:

Suitable for employment opportunities within the court and corrections, police services, youth work, community groups and government departments, criminal forensics

#### Recommended Double Majors:

Criminal Behaviour; Forensic Biology and Toxicology; Legal Studies

#### Recommended Minors:

Computer Forensics and Computer Security; Computer Forensics and Information Security Policy; Law and Justice; Neuroscience; Social and Developmental Psychology

#### Excluded Minors:

Crime Science

#### Main Research Areas:

Criminal Behaviour, Legal Studies, Criminology, Crime Science

### Course Structure - 72 credit points

#### Year 1 - 24 credit points

##### Murdoch Spine: Career Learning - 3 credit points

MSP100 Career Learning: Managing Your Career - 3 points  
MURDOCH: S1-external, S2-external

##### Major Units - 9 credit points

Refer to Major structure - Major List below

##### Major Core Units - 9 credit points

CRM120 Criminological Research Methods - 3 points

MURDOCH: S1-internal, S1-external

CRM100 Introduction to Criminology - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

CHE103 Introduction to Forensic Science - 3 points  
MURDOCH: S1-internal

#### Options - 12 credit points

Major 2/Co-major/Minor/General Electives

#### Year 2 - 24 credit points

##### Murdoch Spine: Career Learning - 3 credit points

Select from the following:

MSP200 Building Enterprise Skills - 3 points  
MURDOCH: S1-external, S2-external

MSP201 Real World Learning - 3 points  
MURDOCH: S1-external, S2-external, SUM-external, W-external, Y-external

##### Course Specified Electives - 3 credit points

Select from the Course Specified Elective List below.

##### Major Units - 9 credit points

Refer to Major structure - Major List below

##### Major Core Units - 9 credit points

BMS213 Forensic Anatomy and Anthropology - 3 points  
MURDOCH: S1-internal

CRM203 Criminal Behaviour - 3 points  
MURDOCH: S2-internal, S2-external

CRM201 Policing and Crime Prevention - 3 points  
MURDOCH: S1-internal, S1-external

#### Options - 9 credit points

Major 2/Co-major/Minor/General Electives

#### Year 3 - 24 credit points

##### Murdoch Spine: Career Learning - 3 credit points

Select from the following:

MSP200 Building Enterprise Skills - 3 points  
MURDOCH: S1-external, S2-external

MSP201 Real World Learning - 3 points  
MURDOCH: S1-external, S2-external, SUM-external, W-external, Y-external

##### Course Core Units - 6 credit points

CRM307 Culture, Diversity and Crime - 3 points  
MURDOCH: S1-internal, S1-external

CRM306 Advanced Criminology - 3 points  
MURDOCH: S2-internal, S2-external

##### Course Specified Electives - 3 credit points

Select from the Course Specified Elective List below.

##### Major Units - 6 credit points

Refer to Major structure - Major List below

##### Major Core Units - 6 credit points

BIO388 Forensic Science and Miscarriages of Justice - 3 points  
MURDOCH: W-internal

CRM301 Crime Science - 3 points  
MURDOCH: SS5-internal

##### Specified Elective List for Second Major

Students undertaking Crime Science as a second major should choose units from the Specified Elective list below to replace any

units they have already completed as part of their first major. A maximum of 30 points at 100 level can be completed.

CRM388 Treatment of Criminal Behaviour - 3 points  
<span data-type="offering" data-unit="CRM388">MURDOCH: UA4-internal (quota of 30 places)</span>

CRM310 CRM Internships (WIL) - 3 points  
MURDOCH: H-placement, US1-placement, WU3-placement

CRM202 Corrections - 3 points  
MURDOCH: S1-internal, S1-external

CRM389 Psychology and Law - 3 points  
MURDOCH: S1-internal, S1-external

CRM302 Children and Crime - 3 points  
MURDOCH: S2-internal, S2-external

CRM219 International and Transnational Crimes - 3 points  
MURDOCH: S2-internal, S2-external

LEG323 Social and Welfare Law - 3 points  
MURDOCH: S2-internal, S2-external

LEG391 Alternative Dispute Resolution - 3 points  
MURDOCH: S2K-internal, S2K-external

BRD205 Crime through the Ages - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

LEG203 Indigenous Peoples, Law and Society - 3 points  
MURDOCH: S1-internal, S1-external

BSL165 Foundations of Business Law - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

BJU150 Law in Context - 3 points  
MURDOCH: S1-internal, S1-external

LEG100 Law, Justice and Social Policy - 3 points  
MURDOCH: S2-internal, S2-external

#### Options - 6 credit points

Major 2/Co-major/Minor/General Electives

#### Major List

Crime Science  
Criminal Behaviour  
Legal Studies  
White Collar and Corporate Crime

#### Course Specified Elective List

## CRIMINAL BEHAVIOUR (BCRIM)

Criminology

Bachelor of Criminology (BCrim) in Criminal Behaviour

Course Codes: B1345

Duration: 3 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

#### Parent Major:

Bachelor of Criminology

In the Criminal Behaviour major, you will learn about onset and maintenance of criminal behaviour. Students will critically examine punishment as a solution to crime in light of theories of criminal behaviour. This major considers the role of treatment as a response to criminal behaviour, the importance of reintegration, as well as exploring mechanisms of the prevention of antisocial behaviour. During your studies, you will learn to challenge common perceptions of crime with insights into why people commit offences, how to reduce or prevent crime, and how to help both victims and offenders involved in the criminal justice system. Criminal behaviour students will be provided with the opportunity to gain both the skills and knowledge required to work in this rewarding field.

#### Admission Requirements (Onshore):

As per normal university admission requirements

English competence. Students demonstrating English competence via IELTS need an overall score of 6.0 with no individual band less than 6.0.

#### Employment Prospects:

Suitable for employment opportunities within the court and corrections, police services, youth work, community groups and government departments, criminal forensics Community Correction Officer, Criminologist, Juvenile Justice Officer, Research Officer

#### Recommended Double Majors:

Crime Science; Legal Studies; Psychology

#### Recommended Minors:

Applied Statistics; Australian Indigenous Studies; Critical and Human Security; Law and Justice; Neuroscience; Security, Terrorism and Counterterrorism; Social and Developmental Psychology

#### Excluded Minors:

Criminological Psychology

#### Main Research Areas:

Criminal Behaviour, Legal Studies, Criminology, Crime Science

## Course Structure - 72 credit points

### Year 1 - 24 credit points

#### Murdoch Spine: Career Learning - 3 credit points

MSP100 Career Learning: Managing Your Career - 3 points  
MURDOCH: S1-external, S2-external

#### Major Units - 9 credit points

Refer to Major structure - Major List below

### Major Core Units - 9 credit points

- BJU150 Law in Context - 3 points  
MURDOCH: S1-internal, S1-external
- CRM100 Introduction to Criminology - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external
- CRM120 Criminological Research Methods - 3 points  
MURDOCH: S1-internal, S1-external

### Options - 12 credit points

Major 2/Co-major/Minor/General Electives

## Year 2 - 24 credit points

### Murdoch Spine: Career Learning - 3 credit points

Select from the following:

- MSP200 Building Enterprise Skills - 3 points  
MURDOCH: S1-external, S2-external
- MSP201 Real World Learning - 3 points  
MURDOCH: S1-external, S2-external, SUM-external, W-external, Y-external

### Course Specified Electives - 3 credit points

Select from the Course Specified Elective List below.

### Major Units - 9 credit points

Refer to Major structure - Major List below

### Major Core Units - 9 credit points

- CRM201 Policing and Crime Prevention - 3 points  
MURDOCH: S1-internal, S1-external
- CRM202 Corrections - 3 points  
MURDOCH: S1-internal, S1-external
- CRM203 Criminal Behaviour - 3 points  
MURDOCH: S2-internal, S2-external

### Options - 9 credit points

Major 2/Co-major/Minor/General Electives

## Year 3 - 24 credit points

### Murdoch Spine: Career Learning - 3 credit points

Select from the following:

- MSP200 Building Enterprise Skills - 3 points  
MURDOCH: S1-external, S2-external
- MSP201 Real World Learning - 3 points  
MURDOCH: S1-external, S2-external, SUM-external, W-external, Y-external

### Course Core Units - 6 credit points

- CRM307 Culture, Diversity and Crime - 3 points  
MURDOCH: S1-internal, S1-external
- CRM306 Advanced Criminology - 3 points  
MURDOCH: S2-internal, S2-external

### Course Specified Electives - 3 credit points

Select from the Course Specified Elective List below.

### Major Units - 6 credit points

Refer to Major structure - Major List below

### Major Core Units - 6 credit points

- CRM302 Children and Crime - 3 points  
MURDOCH: S2-internal, S2-external
- CRM389 Psychology and Law - 3 points  
MURDOCH: S1-internal, S1-external

### Specified Elective List for Second Major

Students undertaking Criminal Behaviour as a second major should choose units from the specified elective list below to replace any units they have already completed as part of their first major.

A maximum of 30 points at 100 level can be completed

CRM388 Treatment of Criminal Behaviour - 3 points  
<span data-type="offering" data-unit="CRM388">MURDOCH: UA4-internal (quota of 30 places)</span>

CRM310 CRM Internships (WIL) - 3 points  
MURDOCH: H-placement, US1-placement, WU3-placement

CRM219 International and Transnational Crimes - 3 points  
MURDOCH: S2-internal, S2-external

CRM301 Crime Science - 3 points  
MURDOCH: SS5-internal

LEG323 Social and Welfare Law - 3 points  
MURDOCH: S2-internal, S2-external

LEG391 Alternative Dispute Resolution - 3 points  
MURDOCH: S2K-internal, S2K-external

BRD205 Crime through the Ages - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

LEG203 Indigenous Peoples, Law and Society - 3 points  
MURDOCH: S1-internal, S1-external

BSL165 Foundations of Business Law - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

LEG100 Law, Justice and Social Policy - 3 points  
MURDOCH: S2-internal, S2-external

### Options - 6 credit points

Major 2/Co-major/Minor/General Electives

### Major List

Crime Science  
Criminal Behaviour  
Legal Studies  
White Collar and Corporate Crime

### Course Specified Elective List

CRM388 Treatment of Criminal Behaviour - 3 points  
<span data-type="offering" data-unit="CRM388">MURDOCH: UA4-internal (quota of 30 places)</span>

## **CRIMINOLOGY + GLOBAL SECURITY [COMBINED] (BCRIM+BGS)**

Criminology

*Bachelor of Criminology (BCrim) + Bachelor of Global Security (BGS)*

Course Codes: B1366

Duration: 4 years full-time or part-time equivalent

### **Availability:**

- Murdoch campus (internal)
- Some units only: Murdoch campus (external) (Note: Not all units in the Crime Science Major in the BCrim are available externally)

Murdoch offers the opportunity for students to complete combined degrees in Criminology and Global Security in an integrated course of study. The combined degree offers disciplinary depth and breadth greater than is achievable in either of the individual degrees or through double majors in either the Bachelor of Criminology or the Bachelor of Global Security.

### **Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

English competence.

### **Employment Prospects:**

The skill set of a graduate of the combined Bachelor of Criminology / Bachelor of Global Security will be particularly attractive to police services at both State and Commonwealth level both as officers and as professional staff - increasingly significant proportion of police and security forces (such as the Australian Federal Police and the Australian Border Force), intelligence organisations (such as the Office of National Assessments) and the defence forces consist of analysts, strategists, forensic specialists, IT specialists, negotiators and the like. Such organisations are actively engaged in seeking a wide range of graduates with particular forms of expertise able to analyse the world; anticipate change; and strengthen outcomes for Australia. (See the ONA at <https://www.ona.gov.au/>) There are also career opportunities with State government Attorneys General / Justice agencies, corrections and parole agencies, Commonwealth

public sector departments such as Attorney General, the Department of Foreign Affairs and Trade, and also business, journalism and the media.

## CRIMINOLOGY + PSYCHOLOGY [COMBINED] (BCRIM+BA)

Counselling

Bachelor of Criminology (BCrim) + Bachelor of Arts (BA) in Psychology  
Course Codes: B1347

Duration: 4 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)

### Admission Requirements (Onshore):

As per normal undergraduate admission requirements

English competence. International students demonstrating English competence via IELTS need a score of 6.5, with no individual band less than 6.5.

### Employment Prospects:

A combined degree Bachelor of Criminology/ BA (Psychology) will be of special interest not only to those desiring to enter the psychology profession but also students envisaging a career as a criminologist or who wish to work in a field associated with criminal justice.

### Professional Recognition:

The minimum academic standard for provisional registration as a psychologist in Australia is a 4 year accredited sequence of study in psychology. The three year psychology course that is within this combined degree structure is accredited by the Australian Psychology Accreditation Council (APAC), this degree may be built upon by students seeking professional recognition by the Psychology Board of Australia.

**LEGAL STUDIES (BCRIM)**

Criminology

Bachelor of Criminology (BCrim) in Legal Studies

Course Codes: B1345

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

**Parent Major:**

Bachelor of Criminology

In the Legal Studies major, you will explore the legal system and how it shapes our society. The major will include units in Criminology and units that broaden your understanding of the role and operation of law. You will complete units that explain the structure of the Australian legal system and develop your understanding of case law and legislation. You will examine the interaction between the law and various other disciplines and social groupings. As part of your studies, you will explore a range of issues including human trafficking, crimes against humanity and social and welfare law. You will learn about dispute resolution and have the opportunity to develop some dispute resolution skills of your own. The major provides a range of elective choices so you can tailor your major to suit your areas of interest.

**Admission Requirements (Onshore):**

As per normal university admission requirements

English competence.

**Employment Prospects:**

Suitable for employment opportunities within the court and

corrections, police services, youth work, community groups and government departments.

**Recommended Double Majors:**

Crime Science; Criminal Behaviour; Journalism; Psychology

**Recommended Minors:**

Australian Indigenous Studies; Business Law; Crime Science; Criminological Psychology; Critical and Human Security; Global Politics; Security, Terrorism and Counterterrorism

**Excluded Majors:**

Law; Law + Criminology [Combined]

**Excluded Minors:**

Law and Justice

**Main Research Areas:**

Criminal Behaviour, Legal Studies, Criminology, Crime Science

## WHITE COLLAR AND CORPORATE CRIME (BCRIM)

Business Law

*Bachelor of Criminology (BCrim) in White Collar and Corporate Crime*

Course Codes: B1345

Duration: 3 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

### Parent Major:

Bachelor of Criminology

In this Criminology major, you will develop a broad understanding of theories of crime with a particular focus on the areas white collar and corporate crime. Through case studies you will examine crimes such as insider trading and environmental crimes perpetrated by corporations. You will learn about the causes, interventions and prevention of criminal behaviour and the role of cyber forensics in detecting criminal activity. You will conduct case research and carry out practical investigation of a digital crime scene.

### Admission Requirements (Onshore):

As per normal university undergraduate admission requirements

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### Employment Prospects:

Suitable for employment opportunities within the criminal justice system, business and government departments.

### Main Research Areas:

Criminology

### **CRIMINOLOGY HONOURS (BCRIM(HONS))**

Business Law

*Bachelor of Criminology Honours (BCrim(Hons))*

Course Codes: H1271

Duration: 1 year full-time or part-time equivalent

#### **Availability:**

- Murdoch campus (internal)

The aim of Honours is to extend the student's grasp of the

principles and practice of their subject, and to develop the ability for independent research.

An Honours qualification of 2A is normally required for admission to higher research degree study.

#### **Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average; subject to availability of a suitable supervisor and approval by the Dean of the School. Students interested in Honours enrolment are advised to contact the Law School Office before application to discuss supervision of their potential research.

English competence.

#### **Apply Online:**

Applications can be made online at  
<http://goto.murdoch.edu.au/OnlineApplicationsHonours>

#### **Employment Prospects:**

Criminologist, policy analyst

### **Course Structure - 24 credit points**

#### **Coursework - 9 credit points**

##### **Core Units - 9 credit points**

## **CROP AND PASTURE SCIENCE**

### **CROP AND PASTURE SCIENCE (BSC)**

Agricultural Sciences

*Bachelor of Science (BSc) in Crop and Pasture Science*

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

#### **Availability:**

- Murdoch campus (internal)
- Some units only: Murdoch campus (external)

#### **Parent Major:**

Bachelor of Science (Non-IT Majors)

This Major will use a systems perspective to provide a sound understanding of the factors that affect the growth of plants used for food and forage production. It will demonstrate how plant growth can be manipulated through various interventions. The farm business operating environment will be considered in terms of government policies, markets and the value chain. Embedded throughout will be consideration of the role of new technologies in improving the yield, profitability and sustainability of food production systems.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements. There are no prerequisites for admission but it is highly desirable for students to have studied WACE Chemistry 3A/3B and at least Mathematics 2A/2B.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Employment Prospects:**

Graduates will be able to pursue careers in agriculture, agribusiness, and government, acting in policy, technical, research and administrative roles. This will be with State and Australian Government Departments of Agriculture, agribusiness, other private industry and natural resource management groups.

**Recommended Double Majors:**

Animal Science

**Excluded Majors:**

Veterinary Science

**Main Research Areas:**

Crop and pasture production, agricultural biotechnology, food production, biosecurity, agribusiness, natural resource management.

**Major Prerequisites****Chemistry Background**

Students who achieved a final scaled score of 50 percent or more in Chemistry 3A/3B or Chemistry ATAR within the past three years should seek an exemption from their Academic Chair for CHE140 Fundamentals of Chemistry. Students who have completed previous chemistry not stated above should also consult their Academic Chair for clarification of their enrolment requirements.

**Course Structure - 72 credit points****Part I - 24 credit points****Year 1 - 24 credit points****Transition Unit - 3 credit points**

BSC100 Building Blocks for Science Students - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

MURDOCH: S2-internal

BMS107 Foundations of Vertebrate Form and Function - 3 points  
MURDOCH: S2-internal

**General Electives - 3 credit points**

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Part II - 48 credit points****University-Wide Breadth Units - 6 credit points**

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Year 2 - 21 credit points****Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

**For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC201 Psychology: Measurement, Design and Analysis - 3 points  
MURDOCH: S1-internal

**For Primary Majors in the Health Sciences, as listed**

Primary Major in Chiropractic Science, Exercise Physiology, Movement Science, or Sport and Health Science:

BSC206 Introduction to Research Methodology and Evidence Based Practice - 3 points  
MURDOCH: S2-internal

**For All Other Primary Majors excluding Information Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Core Units - 9 credit points**

ENV243 Water and Earth Science - 3 points  
MURDOCH: S1-internal, S1-external

ANS207 Crop and Pasture Science - 3 points  
MURDOCH: S2-internal

ANS208 Crop Protection and Plant Biosecurity - 3 points  
MURDOCH: S2-internal

**General Electives - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Year 3 - 21 credit points****Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

**For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC302 Advanced Quantitative Research Methods - 3 points  
MURDOCH: S2-internal

**For Primary Majors in the Health Sciences, as listed**

Primary major in Chiropractic Science, Movement Science, Sport and Health Science:

BSC306 Research and Evidence Based Practice - 3 points  
MURDOCH: S1-internal

**For All Other Primary Majors excluding Information**

**Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Core Units - 9 credit points**

ANS309 Agricultural Markets, Economics and Policy - 3 points  
MURDOCH: S1-internal, S1-external

ANS311 Agricultural and Environmental Technologies - 3 points  
MURDOCH: S2-internal, S2-external

ANS312 Advanced Crop and Pasture Science - 3 points  
MURDOCH: S2-internal

**General Electives - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

## **CROP AND PASTURE SCIENCE HONOURS (BSC(HONS))**

College of Science, Health, Engineering and Education

*Bachelor of Science Honours (BSc(Hons)) in Crop and Pasture Science*

Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

### **Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

The aim of the Honours year is to extend the student's grasp of the principles and practice of their subject, and to develop ability for independent research.

An Honours qualification of 2A is normally required for admission to higher research degree study.

### **Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Credit average (GPA 2); subject to availability of a suitable supervisor and approval by the School Dean.

Students interested in enrolling in Honours are advised to contact the Academic Chair before application to discuss supervision of their potential research project.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### **Apply Online:**

Applications can be made online at <http://goto.murdoch.edu.au/OnlineApplicationsHonours>

### **Employment Prospects:**

The Crop and Pasture Science Honours degree represents excellent preparation for a career in agriculture and agribusiness industries. Graduates will find employment in a wide range of agricultural industries from agribusiness, government departments of agriculture, rural supply and stock companies, as farm advisors and consultants, in research funded by government and industry agencies, in biosecurity and quarantine, and in schools, colleges and universities.

### **Main Research Areas:**

A wide range of disciplines are available for study including crop and pasture management, soil science and hydrology, biotechnology, food security, biosecurity, agricultural technologies, plant pathology

### Course Structure - 24 credit points

#### Coursework - 3 credit points

VLS683 Advanced Research Methods for Scientists - 3 points  
MURDOCH: S1S-internal, S1S-external, S2N3-internal, S2N3-external

#### Thesis - 21 credit points

VLS565 Honours Thesis in Crop and Pasture Science - 21 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external, Y-internal, Y-external

## CYBER FORENSICS, INFORMATION SECURITY AND MANAGEMENT

#### See also:

Information Technology

### CYBER SECURITY AND FORENSICS (BSC)

Information Technology

Bachelor of Science (BSc) in Cyber Security and Forensics

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)
- Kaplan Higher Education Institute and Kaplan Higher Education Academy (Singapore) ['KAPLAN-SGP'] (internal) (language of instruction: English)
- Murdoch University Dubai (UAE) ['DUBAI-ISC'] (internal)

#### Parent Major:

Bachelor of Science (IT Majors)

Increasingly, government and corporate organisations need to identify information security risks and interdependencies between business functions. Escalating security threats to organisations' information assets and increasing needs for organisations to comply with governance of information management have resulted in organisations requiring well-trained ICT professionals capable of addressing three key issues: managing information; protecting information; and forensic investigation of information security incidents. Graduates of this major will be well suited to meet these important industry demands.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

#### Admission Requirements (Onshore):

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### Employment Prospects:

Graduates may expect to take up appointment in a broad range of employment areas, including: Computer Information Consultant; Computer Intelligence Officer; Computer Support Officer; Cyber Forensic Investigator; Database Developer/Administrator; Forensic

Auditor; Help Desk Officer; Internet Security Officer; IT Consultant; Systems Administrator; Systems/Business Analyst.

#### Professional Recognition:

This course is accredited at the Professional level with the Australian Computer Society.

#### Recommended Double Majors:

Computer Science; Internetworking and Network Security

#### Excluded Minors:

Computer Forensics and Computer Security; Computer Forensics and Information Security Policy

### Course Structure - 72 credit points

#### Part I - 24 credit points

##### Year 1 - 24 credit points

##### Transition Unit - 3 credit points

BSC100 Building Blocks for Science Students - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

OR (for Kaplan and Dubai students only)

BBS100 Academic Skills for Business - 3 points

MURDOCH: S1-internal, S1-external

DUBAI-ISC: TJD-internal, TMD-internal, TSD-internal

##### Breadth Unit for Degree - 3 credit points

Select from the following:

BSC150 What is Science? - 3 points

MURDOCH: S1-internal, S1-external, S2-internal, S2-external

MSP100 Career Learning: Managing Your Career - 3 points

MURDOCH: S1-external, S2-external

DUBAI-ISC: TJD-internal, TMD-internal, TSD-internal

##### Core Units - 15 credit points

ICT171 Introduction to Server Environments and Architectures - 3 points

MURDOCH: S1-internal, S1-external

DUBAI-ISC: TJD-internal, TSD-internal

ICT159 Foundations of Programming - 3 points

MURDOCH: S1-internal, S1-external

DUBAI-ISC: TJD-internal, TMD-internal, TSD-internal

ICT169 Foundations of Data Communications - 3 points

MURDOCH: S2-internal, S2-external

DUBAI-ISC: TJD-internal, TSD-internal

MAS162 Foundations of Discrete Mathematics - 3 points

MURDOCH: S1-internal, S1-external, S2-internal, S2-external

DUBAI-ISC: TJD-internal, TSD-internal

ICT170 Foundations of Computer Systems - 3 points

MURDOCH: S2-internal, S2-external

DUBAI-ISC: TMD-internal

##### General Electives - 3 credit points

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

#### Part II - 48 credit points

##### University-Wide Breadth Unit - 3 credit points

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30

credit points at Part I may be credited towards course completion requirements.

### Year 2 - 21 credit points

#### Research Skills Unit - 3 credit points

BSC203 Introduction to ICT Research Methods - 3 points  
MURDOCH: S1-internal, S1-external  
DUBAI-ISC: TSD-internal  
KAPLAN-SGP: TJA-internal, TSA-internal

#### Core Units - 9 credit points

ICT284 Systems Analysis and Design - 3 points  
MURDOCH: S1-internal, S1-external  
DUBAI-ISC: TJD-internal, TSD-internal  
KAPLAN-SGP: TJA-internal, TSA-internal

ICT287 Computer Security - 3 points  
MURDOCH: S1-internal, S1-external  
DUBAI-ISC: TMD-internal  
KAPLAN-SGP: TMA-internal

ICT285 Databases - 3 points  
MURDOCH: S2-internal, S2-external  
DUBAI-ISC: TMD-internal  
KAPLAN-SGP: TMA-internal

#### General Electives - 9 credit points

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

### Year 3 - 24 credit points

#### Research Skills Unit - 3 credit points

BSC301 Applied Research Skills in ICT - 3 points  
MURDOCH: S1-internal, S1-external  
KAPLAN-SGP: TMA-internal

#### Core Units - 12 credit points

ICT378 Cyber Forensics and Information Technology - 3 points  
MURDOCH: S1-internal, S1-external  
DUBAI-ISC: TSD-internal  
KAPLAN-SGP: TJA-internal, TSA-internal

ICT379 Security Architectures and Systems Administration - 3 points  
MURDOCH: S2-internal, S2-external  
DUBAI-ISC: TSD-internal  
KAPLAN-SGP: TJA-internal, TSA-internal

ICT380 Information Security Policy and Governance - 3 points  
MURDOCH: S1-internal, S1-external  
DUBAI-ISC: TMD-internal  
KAPLAN-SGP: TMA-internal

ICT302 IT Professional Practice Project - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external  
DUBAI-ISC: TMD-internal, TSD-internal  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

#### General Electives - 9 credit points

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

## CYBER SECURITY AND FORENSICS HONOURS (BSC(HONS))

College of Science, Health, Engineering and Education

Bachelor of Science Honours (BSc(Hons)) in Cyber Forensics and Information Security

Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)

The aim of Honours is to provide training in research and the development of higher-level skills. The student's grasp of the principles and practice of their subject will be extended and they will develop ability for independent research.

Successful completion of the Honours course is required for admission to research degrees (i.e. Masters or PhD degrees).

#### Admission Requirements (Onshore):

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average; subject to availability of a suitable supervisor and approval by the Associate Dean (Learning and Teaching) of the School.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### Apply Online:

Applications can be made online at <http://goto.murdoch.edu.au/OnlineApplicationsHonours>

## Course Structure - 24 credit points

### Coursework - 12 credit points

ICT615 Information Technology Research Methods - 3 points  
MURDOCH: S1-internal

ICT576 Information Technology Literature Review - 3 points  
MURDOCH: S1-internal, S2-internal

Plus another two 500-level IT units approved by the Academic Chair - 3 points each

### Thesis - 12 credit points

ICT530 Honours Thesis in Cyber Forensics, Information Security and Management - 12 points  
MURDOCH: H-internal, H-external, S1-internal, S1-external, S2-internal, S2-external, Y-internal, Y-external

## ECONOMICS

### ECONOMICS HONOURS (BBUS(HONS))

College of Arts, Business, Law and Social Sciences

Bachelor of Business Honours (BBus(Hons)) in Economics

Course Codes: H1255

Duration: 1 year full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)

The aim of Honours is to extend the student's grasp of the principles and practice of their subject, and to develop the ability for independent research.

An Honours qualification of 2A is normally required for admission to higher research degree study.

**Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average in units relating to the planned Honours study and a Distinction average overall. Subject to availability of a suitable supervisor and approval by the Dean of School.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Apply Online:**

Applications can be made online at  
<http://goto.murdoch.edu.au/OnlineApplicationsHonours>

**Course Structure - 24 credit points****Coursework - 12 credit points****Core Units - 9 credit points**

MBS545 Advanced Economic Analysis: Honours - 3 points  
MURDOCH: S2-internal

MBS597 Contemporary Advances in Economics: Theory and Applications - Honours - 3 points  
MURDOCH: S1-internal

MBS500 Advanced Honours Topic in Economics - 3 points  
Not available this year

**Elective Unit - 3 credit points**

Any 500-level unit - 3 points

**Thesis - 12 credit points**

MBS505 Honours Thesis in Economics - 12 points  
MURDOCH: H-internal, S1-internal, S2-internal, Y-internal

**EDUCATION****See also:**

Tertiary and Adult Education

**ADVANCED MATHEMATICS MAJOR TEACHING AREA (BED(SEC))**

Education

*Bachelor of Education (Secondary Teaching) (BEd(Sec)) in Advanced Mathematics Major Teaching Area*

Course Codes: B1368

Duration: 4 years Full-time or part-time equivalent. Mid year commencement may result in a longer duration due to unit availability.

**Availability:**

- Murdoch campus (internal)
- Some units only: Murdoch campus (external)

**Parent Major:**

Bachelor of Education (Secondary Teaching)

As a result of undertaking this major area of study students will develop a detailed and coherent body of knowledge and skills. Learning outcomes access an understanding of principles and concepts for the professional practice as a teacher of ATAR Mathematics.

Upon successfully completing the B.Ed (Secondary Teaching), graduates may apply for registration to teach a Major teaching area and a Minor Teaching area at the secondary school level. Students will study both areas concurrently within the Bachelor of Education. The Bachelor of Education course learning outcomes address both AQF Level 7 and the Graduate Teacher Standards established by the Australian Institute for Teaching and School Leadership (AITSL), the professional standards for initial registration as a teacher in

Australia.

As a result of this course students will develop a broad and coherent body of knowledge and skills, an underlying understanding of principles and concepts for their professional practice as a teacher and/or for another professional role in education.

Selection of Major Teaching Area and Minor Teaching Area options are limited to the following areas/subjects in secondary schools:

**Major Teaching Areas:**

English  
Humanities and Social Sciences (Geography and Economics; History; OR Politics)  
Mathematics (Advanced Mathematics OR Mathematics)  
Physical Education (Must be combined with Health Education Minor Teaching area)

Science (Biology and Environmental Science, Biology and Human Biology, Chemistry (must be combined with Mathematics Minor Teaching area), Earth and Environmental Science, Physics (must be combined with Mathematics Minor Teaching area)

**Minor Teaching Areas:**

English

Health Education (Must be combined with Physical Education Major Teaching area)

Humanities and Social Sciences  
Mathematics Science, Biological Science, Chemistry, Earth and Environmental Science, Physics)

Advice about suitable teaching areas/subjects may be obtained from the Academic Chair (Secondary).

Professional Experience: There are 80 days of mentored teaching practice in this course.

This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

**Admission Requirements (Onshore):**

As per normal undergraduate requirements

English competence.

**Excluded Majors:**

Biology and Environmental Science Major Teaching Area; Biology and Human Biology Major Teaching Area; Chemistry Major Teaching Area; Earth and Environmental Science Major Teaching Area; English Major Teaching Area; Geography and Economics (HASS) Major Teaching Area; History (HASS) Major Teaching Area; Mathematics Major Teaching Area; Physical Education Major Teaching Area; Physics Major Teaching Area; Politics (HASS) Major Teaching Area

**Additional Academic Progress Requirements:**

Enrolment in the Bachelor of Education (Secondary Teaching (BEd (Sec)) (B1368).

**Main Research Areas:**

Education

**Recommended Co-Majors:**

Biological Science Minor Teaching Area  
Chemistry Minor Teaching Area

Earth and Environmental Science Minor Teaching Area  
 English Minor Teaching Area  
 Humanities and Social Sciences Minor Teaching Area  
 Physics Minor Teaching Area  
 Health Education Minor Teaching Area

**Excluded Co-Majors:**

Health Education Minor Teaching Area  
 Mathematics Minor Teaching Area

### Additional Academic Progress Requirements

Enrolment in the Bachelor of Education (Secondary Teaching) (BEd (Sec)) (B1368).

---

## BACHELOR OF EDUCATION (SECONDARY TEACHING) (BED(SEC))

Education

*Bachelor of Education (Secondary Teaching) (BEd(Sec))*

Course Codes: B1368

*Duration: 4 years Full-time or part-time equivalent. Mid year commencement may result in a longer duration due to unit availability.*

### Availability:

- Murdoch campus (internal)
- Some units only: Murdoch campus (external)
- International students must commence in Semester 1 only.

Upon successfully completing the B.Ed (Secondary Teaching), graduates may apply for registration to teach a Major teaching area and a Minor Teaching area at the secondary school level. Students will study both areas concurrently within the Bachelor of Education. The Bachelor of Education course learning outcomes address both AQF Level 7 and the Graduate Teacher Standards established by the Australian Institute for Teaching and School Leadership (AITSL), the professional standards for initial registration as a teacher in Australia.

As a result of this course students will develop a broad and coherent body of knowledge and skills, an underlying understanding of principles and concepts for their professional practice as a teacher and/or for another professional role in education.

Selection of Major Teaching Area and Minor Teaching Area options are limited to the following areas/subjects in secondary schools:

Major Teaching Areas:

English  
Humanities and Social Sciences (Geography and Economics; History; OR Politics)  
Mathematics (Advanced Mathematics OR Mathematics)  
Physical Education (Must be combined with Health Education Minor Teaching area)

Science (Biology and Environmental Science, Biology and Human Biology, Chemistry (must be combined with Mathematics Minor Teaching area), Earth and Environmental Science, Physics (must be combined with Mathematics Minor Teaching area)

Minor Teaching Areas:

English  
Health Education (Must be combined with Physical Education Major Teaching area)

Humanities and Social Sciences  
Mathematics Science, Biological Science, Chemistry, Earth and Environmental Science, Physics)

Advice about suitable teaching areas/subjects may be obtained from the Academic Chair (Secondary).

Professional Experience: There are 80 days of mentored teaching practice in this course.

This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

### Admission Requirements (Onshore):

As per normal undergraduate admission requirements.

English competence.

### Special Requirements:

Enrolment is subject to restriction due to professional recognition requirements.

Prior to placement in any school for Professional Experience, it is mandatory that pre-service teachers complete or obtain several forms and clearances. Information and forms regarding these mandatory requirements can be accessed via the Professional Experience website:  
<http://www.murdoch.edu.au/School-of-Education/Professional-Experience-Completion> and submission of these mandatory requirements is essential before placements can be arranged.

A maximum of 25% of total Professional Experience days in the course may be taken overseas.

Please note the following requirements for Teacher Registration in Australia: Students admitted to Initial Teacher Education programs on the basis of an International English Language Testing System (IELTS) assessment, or an equivalent English language proficiency assessment, must have attained an overall IELTS (or equivalent) score of 7.5 (with no score below 7 in any of the four skills areas, and a score of no less than 8 in speaking and listening), either on entry to or on graduation from the program.

All students who commence an Initial Teacher Education Course from 2017 onwards are required to complete Literacy and Numeracy Tests for Initial Teacher Education (LANTITE), administered by the Australian Council for Educational Research (ACER). Further information is available on the School of Education website.

All students commencing an initial teacher education course from 2019 onwards will be required to successfully complete the SimLab Screening Evaluation to demonstrate that they meet the 'Fit for Profession' accreditation requirement. Further information is available on the School of Education website.

### Employment Prospects:

Murdoch graduates are employed in government and non-government schools and other education-related occupations.

### Professional Accreditation:

Australian Institute for Teaching and School Leadership (AITSL)  
Teacher Registration Board of WA (TRBWA)  
<http://www.trb.wa.gov.au/>

### Professional Recognition:

On completion of the Bachelor of Education, students have a widely accepted qualification from a recognised university and are eligible for registration by the Teacher Registration Board of W.A.

### Main Research Areas:

Education, teaching, curriculum

### Student Load:

Please note that students are required to undertake the unit EDN451 Adolescent Family and Community Health as a summer offering.

**External Study:**

Not all required units in these majors are offered externally.

**Credit/Exemptions:**

Students seeking exemptions must be able to provide documentary evidence in support of their application.

Students who have had at least two years of full-time recent relevant and satisfactory teaching experience in an Australian school context may seek partial exemption from some Professional Experience unit/s. While Murdoch recognises that some students may have prior and/or current teaching experience, it requires that a student's classroom competence be assessed before exemptions from Professional Experience can be given.

Students who have been employed as a teacher and have had at least one year of full-time equivalent recent, relevant and satisfactory teaching experience in an Australian school context may seek exemption from BED150 Understanding Teachers' Work.

Students cannot receive exemption from the Final Professional Experience (1 & 2): Secondary Teaching units.

If seeking un-credentialed credit students must submit a case in writing, with supporting documentary evidence to explain how the outcomes of units have already been achieved through prior experience. All applications for exemption and credit must be directed to the Accreditation Officer.

**Additional Academic Progress Requirements**

Enrolment in the Bachelor of Education (Secondary Teaching (BE (Sec))) (B1368).

**BIOLOGY AND HUMAN BIOLOGY MAJOR TEACHING AREA (BED(SEC))**

Education

*Bachelor of Education (Secondary Teaching) (BE(SEC)) in Biology and Human Biology Major Teaching Area*

Course Codes: B1368

Duration: 4 years Full-time or part-time equivalent. Mid year commencement may result in a longer duration due to unit availability.

**Availability:**

- Murdoch campus (internal)
- Some units only: Murdoch campus (external)

**Parent Major:**

Bachelor of Education (Secondary Teaching)

As a result of undertaking this major area of study students will develop a detailed and coherent body of knowledge and skills. Learning outcomes access an understanding of principles and concepts for the professional practice as a teacher of ATAR Science (Biology and Human Biology)

Upon successfully completing the B.Ed (Secondary Teaching), graduates may apply for registration to teach a Major teaching area and a Minor Teaching area at the secondary school level. Students will study both areas concurrently within the Bachelor of Education. The Bachelor of Education course learning outcomes address both AQF Level 7 and the Graduate Teacher Standards established by the Australian Institute for Teaching and School Leadership (AITSL), the professional standards for initial registration as a teacher in Australia.

As a result of this course students will develop a broad and coherent body of knowledge and skills, an underlying understanding of principles and concepts for their professional practice as a teacher and/or for another professional role in education.

Selection of Major Teaching Area and Minor Teaching Area options

are limited to the following areas/subjects in secondary schools:

Major Teaching Areas:

English  
Humanities and Social Sciences (Geography and Economics;  
History; OR Politics)  
Mathematics (Advanced Mathematics OR Mathematics)  
Physical Education (Must be combined with Health Education Minor  
Teaching area)

Science (Biology and Environmental Science, Biology and Human  
Biology, Chemistry (must be combined with Mathematics Minor  
Teaching area), Earth and Environmental Science, Physics (must be  
combined with Mathematics Minor Teaching area)

Minor Teaching Areas:

English

Health Education (Must be combined with Physical Education Major  
Teaching area)

Humanities and Social Sciences  
Mathematics Science, Biological Science, Chemistry, Earth  
and Environmental Science, Physics)

Advice about suitable teaching areas/subjects may be obtained  
from the Academic Chair (Secondary).

Professional Experience: There are 80 days of mentored teaching  
practice in this course.

This course requires students to undertake work-based training  
through a compulsory work-based placement as part of their  
studies.

**Admission Requirements (Onshore):**

As per normal undergraduate requirements

English competence.

**Excluded Majors:**

Advanced Mathematics Major Teaching Area; Biology and  
Environmental Science Major Teaching Area; Chemistry Major  
Teaching Area; Earth and Environmental Science Major Teaching  
Area; Geography and Economics (HASS) Major Teaching Area;  
Physical Education Major Teaching Area; Physics Major Teaching  
Area; English Major Teaching Area; History (HASS) Major Teaching  
Area; Mathematics Major Teaching Area; Politics (HASS) Major  
Teaching Area

**Additional Academic Progress Requirements:**

Enrolment in the Bachelor of Education (Secondary Teaching (BE  
(Sec)) (B1368).

**Main Research Areas:**

Education

**Recommended Co-Majors:**

## EARLY CHILDHOOD AND PRIMARY TEACHING (BED)

Education

*Bachelor of Education (BEd) in Early Childhood and Primary Teaching*

Course Codes: B1319

*Duration: 4 years full-time or part-time equivalent; mid-year commencement may result in a longer duration due to unit availability*

#### Availability:

- Murdoch campus (internal)
- Murdoch campus (external) (Except for one two week school experience (EDN2104), and a one week intensive (EDN248 and EDN236).)

*Restriction: Enrolment is subject to restriction due to professional recognition requirements.*

#### Parent Major:

Bachelor of Education (Early Childhood and Primary Teaching Major)

The Bachelor of Education (Early Childhood and Primary Teaching) will prepare graduates to be educators in Early Childhood Education and Care settings and to teach in a classroom from Kindergarten to Year 6. Students will study general primary curriculum as well as that specific to early childhood education and will be placed in both early childhood and primary classrooms for their Professional Experiences. Graduates will be eligible to teach children aged birth to primary school Year 6 (children aged 11/12 years).

Professional Experience: There are 90 days of mentored teaching practice in this course.

The Bachelor of Education enables students to develop the knowledge, skills and capabilities to become a teacher. Students are supported in becoming effective educators with a strong grounding in learning, teaching and curriculum. Professional Experience is a key component of the degree, providing students with opportunities to engage with schools and the broader community and to apply their knowledge and skills in a range of school settings. Murdoch Education graduates develop the understanding and capacity to be a teacher as researcher, an agent for change and a socially just practitioner. The degree provides a foundation for lifelong learning through continued professional development and/or further study.

This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

#### Admission Requirements (Onshore):

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 7.0 with no band less than 7.0.

#### Special Requirements:

Prior to placement in any school for Professional Experience, it is mandatory that pre-service teachers complete or obtain several forms and clearances. Information and forms regarding these mandatory requirements can be accessed via the Professional Experience website: <http://www.murdoch.edu.au/School-of-Education/Professional-Experience-Completion> and submission of these mandatory requirements is essential before placements can be arranged.

A maximum of 25% of total Professional Experience days in the course may be taken overseas.

Please note the following requirements for Teacher Registration in Australia: Students admitted to Initial Teacher Education programs on the basis of an International English Language Testing System (IELTS) assessment, or an equivalent English language proficiency assessment, must have attained an overall IELTS (or equivalent) score of 7.5 (with no score below 7 in any of the four skills areas, and a score of no less than 8 in speaking and listening), either on entry to or on graduation from the program.

All students who commence an Initial Teacher Education Course from 2017 onwards are required to complete Literacy and Numeracy Tests for Initial Teacher Education (LANTITE), administered by the Australian Council for Educational Research (ACER). Further information is available on the School of Education website.

#### Employment Prospects:

Murdoch graduates are employed in government and non-government schools and other education-related occupations.

#### Professional Accreditation:

Teacher Registration Board of WA (TRBWA)  
<http://www.trb.wa.gov.au/>  
Australian Children's Education and Care Quality Authority (ACECQA)  
<http://www.acecqa.gov.au/>

#### Professional Recognition:

On completion of the Bachelor of Education, students have a widely accepted qualification from a recognised university and are eligible to apply for registration with the Teacher Registration Board of WA (or other appropriate state registration boards), and the Australian Children's Education and Care Quality Authority (ACECQA).

**Excluded Majors:**

Education Studies; Primary Teaching; Primary, 1-10 Health and Physical Education

**Main Research Areas:**

Education, teaching

**External Study:**

Not all required units in these majors are offered completely externally. Some are offered as intensive session's on-campus or in Perth metropolitan schools. Every effort is made to combine these units to enable students to arrange one on-campus session to complete these requirements.

a) External students must undertake the placement component for EDN2104 Professional Experience: English in Practice in a Perth metropolitan school and under the guidance of a Murdoch University Moderator. Subject to satisfactory completion of this unit, students may arrange, in consultation with the School of Education Professional Experience Office, to complete their subsequent professional experience in a school other than in metropolitan Perth.

b) On-campus attendance is required for a one-week intensive workshop that will cover content for both EDN248 Teaching Health and Physical Education in Early Childhood and Primary and EDN236 Teaching The Arts in Early Childhood and Primary.

**Alternative Entry Pathway:**

An alternative entry pathway exists via the Primary Teaching Combination from Challenger Institute of Technology to the Bachelor of Education (Early Childhood and Primary Teaching). This pathway provides applicants with advanced standing once they enter the University.

**Exemptions/Credit:**

Students seeking exemptions must be able to provide documentary evidence in support of their application. Students who have had at least two years of full-time recent relevant and satisfactory teaching experience in an Australian school context may seek partial exemption from some Professional Experience unit/s. While Murdoch recognises that some students may have prior and/or current teaching experience, it requires that a student's classroom competence be assessed before exemptions from Professional Experience can be given. Students who have been employed as a teacher and have had at least one year of full-time equivalent recent, relevant and satisfactory teaching experience in an Australian school context may seek exemption from BED150 Understanding Teachers' Work. Students cannot receive exemptions from the Final Professional Experience (1 & 2): Early Childhood Teaching units. If seeking un-credentialed credit students must submit a case in writing, with supporting documentary evidence to explain how the outcomes of units have already been achieved through prior experience. All applications for exemption and credit must be directed to the Accreditation Officer.

**Major Prerequisites****Mathematics Background**

Students who have not completed Mathematics Essential level (previously known as Stage 2) or above of Year 12 Mathematics may need to complete:

EDN110 Mathematics for Teaching - 3 points

EDN4100 Professional Experience: Programming Across the Curriculum - 3 points  
<span data-type="offering" data-unit="EDN4100">MURDOCH: UA7-internal (closed), UA7-external (closed)</span>

Students must have completed 87 credit points and all Core Units (excluding the units below) prior to undertaking their final semester of study.

EDN434 Final Professional Experience 1: Early Childhood Teaching (K - PP) - 3 points  
MURDOCH: ST2-placement, ST3-placement

EDN435 Final Professional Experience 2: Early Childhood Teaching (K - PP) - 6 points  
MURDOCH: ST2-placement, ST3-placement

## EARTH AND ENVIRONMENTAL SCIENCE MAJOR TEACHING AREA (BED(SEC))

Education

*Bachelor of Education (Secondary Teaching) (BEd(Sec)) in Earth and Environmental Science Major Teaching Area*

Course Codes: B1368

Duration: 4 years Full-time or part-time equivalent. Mid year commencement may result in a longer duration due to unit availability.

#### Availability:

- Murdoch campus (internal)
- Some units only: Murdoch campus (external)

#### Parent Major:

Bachelor of Education (Secondary Teaching)

As a result of undertaking this major area of study students will develop a detailed and coherent body of knowledge and skills. Learning outcomes access an understanding of principles and concepts for the professional practice as a teacher of ATAR Science (Earth and Environmental Science)

Upon successfully completing the B.Ed (Secondary Teaching), graduates may apply for registration to teach a Major teaching area and a Minor Teaching area at the secondary school level. Students will study both areas concurrently within the Bachelor of Education. The Bachelor of Education course learning outcomes address both AQF Level 7 and the Graduate Teacher Standards established by the Australian Institute for Teaching and School Leadership (AITSL), the professional standards for initial registration as a teacher in Australia.

As a result of this course students will develop a broad and coherent body of knowledge and skills, an underlying understanding of principles and concepts for their professional practice as a teacher and/or for another professional role in education.

Selection of Major Teaching Area and Minor Teaching Area options are limited to the following areas/subjects in secondary schools:

#### Major Teaching Areas:

English  
Humanities and Social Sciences (Geography and Economics; History; OR Politics)  
Mathematics (Advanced Mathematics OR Mathematics)  
Physical Education (Must be combined with Health Education Minor Teaching area)

Science (Biology and Environmental Science, Biology and Human Biology, Chemistry (must be combined with Mathematics Minor Teaching area), Earth and Environmental Science, Physics (must be combined with Mathematics Minor Teaching area)

#### Minor Teaching Areas:

English  
Health Education (Must be combined with Physical Education Major Teaching area)  
Humanities and Social Sciences  
Mathematics Science, Biological Science, Chemistry, Earth and Environmental Science, Physics)

Advice about suitable teaching areas/subjects may be obtained from the Academic Chair (Secondary).

Professional Experience: There are 80 days of mentored teaching practice in this course.

This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

**Admission Requirements (Onshore):**

As per normal undergraduate requirements

English competence.

**Recommended Double Majors:**

English Major Teaching Area

**Excluded Majors:**

Advanced Mathematics Major Teaching Area; Chemistry Major Teaching Area; Geography and Economics (HASS) Major Teaching Area; Physical Education Major Teaching Area; Physics Major Teaching Area; Biology and Environmental Science Major Teaching Area; Biology and Human Biology Major Teaching Area; History (HASS) Major Teaching Area; Mathematics Major Teaching Area; Politics (HASS) Major Teaching Area

**Additional Academic Progress Requirements:**

Enrolment in the Bachelor of Education (Secondary Teaching (BE) (Sec)) (B1368).

**Main Research Areas:**

Education

**Recommended Co-Majors:**

English Minor Teaching Area  
Humanities and Social Sciences Minor Teaching Area  
Mathematics Minor Teaching Area

**Excluded Co-Majors:**

Biological Science Minor Teaching Area  
Chemistry Minor Teaching Area  
Earth and Environmental Science Minor Teaching Area  
Health Education Minor Teaching Area  
Physics Minor Teaching Area

Select from the following:

HIS212 Vision Splendid: An Alternative History of Australia - 3 points

HIS301 Age of Extremes, 1929-1968 - 3 points  
MURDOCH: S2-internal, S2-external

### Co-Major - 21 credit points

Choose one of the Minor Teaching Areas:

CJ-BESM Biological Science Minor Teaching Area  
CJ-CHEM Chemistry Minor Teaching Area  
CJ-EESM Earth and Environmental Science Minor Teaching Area  
CJ-ENGM English Minor Teaching Area  
CJ-HEEM Health Education Minor Teaching Area  
CJ-HSSM Humanities and Social Studies (HASS) Minor Teaching Area  
CJ-MATM Mathematics Minor Teaching Area  
CJ-PHSM Physics Minor Teaching Area

### Additional Academic Progress Requirements

Enrolment in the Bachelor of Education (Secondary Teaching) (BEd (Sec)) (B1368).

## MATHEMATICS MAJOR TEACHING AREA (BED(SEC))

Education

*Bachelor of Education (Secondary Teaching) (BEd(Sec)) in Mathematics Major Teaching Area*

Course Codes: B1368

Duration: 4 years Full-time or part-time equivalent. Mid year commencement may result in a longer duration due to unit availability.

#### Availability:

- Murdoch campus (internal)
- Some units only: Murdoch campus (external)

#### Parent Major:

Bachelor of Education (Secondary Teaching)

As a result of undertaking this major area of study students will develop a detailed and coherent body of knowledge and skills. Learning outcomes access an understanding of principles and concepts for the professional practice as a teacher of ATAR Mathematics.

Upon successfully completing the B.Ed (Secondary Teaching), graduates may apply for registration to teach a Major teaching area and a Minor Teaching area at the secondary school level. Students will study both areas concurrently within the Bachelor of Education. The Bachelor of Education course learning outcomes address both AQF Level 7 and the Graduate Teacher Standards established by the Australian Institute for Teaching and School Leadership (AITSL), the professional standards for initial registration as a teacher in Australia.

As a result of this course students will develop a broad and coherent body of knowledge and skills, an underlying understanding of principles and concepts for their professional practice as a teacher and/or for another professional role in education.

Selection of Major Teaching Area and Minor Teaching Area options are limited to the following areas/subjects in secondary schools:

Major Teaching Areas:

English  
Humanities and Social Sciences (Geography and Economics; History; OR Politics)  
Mathematics (Advanced Mathematics OR Mathematics)  
Physical Education (Must be combined with Health Education Minor Teaching area)

Science (Biology and Environmental Science, Biology and Human Biology, Chemistry (must be combined with Mathematics Minor Teaching area), Earth and Environmental Science, Physics (must be combined with Mathematics Minor Teaching area)

Minor Teaching Areas:

English

Health Education (Must be combined with Physical Education Major Teaching area)

Humanities and Social Sciences  
Mathematics Science, Biological Science, Chemistry, Earth and Environmental Science, Physics)

Advice about suitable teaching areas/subjects may be obtained from the Academic Chair (Secondary).

Professional Experience: There are 80 days of mentored teaching practice in this course.

This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

#### **Admission Requirements (Onshore):**

As per normal undergraduate requirements

English competence.

#### **Excluded Majors:**

Advanced Mathematics Major Teaching Area; Biology and Environmental Science Major Teaching Area; Biology and Human Biology Major Teaching Area; Chemistry Major Teaching Area; Earth and Environmental Science Major Teaching Area; English Major Teaching Area; Geography and Economics (HASS) Major Teaching Area; Physical Education Major Teaching Area; Physics Major Teaching Area; History (HASS) Major Teaching Area; Politics (HASS) Major Teaching Area

#### **Additional Academic Progress Requirements:**

Enrolment in the Bachelor of Education (Secondary Teaching (BED (Sec)) (B1368).

#### **Main Research Areas:**

Education

#### **Recommended Co-Majors:**

Biological Science Minor Teaching Area  
Chemistry Minor Teaching Area  
Earth and Environmental Science Minor Teaching Area  
English Minor Teaching Area  
Humanities and Social Sciences Minor Teaching Area  
Physics Minor Teaching Area

#### **Excluded Co-Majors:**

Mathematics Minor Teaching Area  
Health Education Minor Teaching Area

### Co-Major - 21 credit points

Choose one of the Minor Teaching Areas:  
CJ-BESM Biological Science Minor Teaching Area  
CJ-CHEM Chemistry Minor Teaching Area  
CJ-EESM Earth and Environmental Science Minor Teaching Area  
CJ-ENGM English Minor Teaching Area  
CJ-HEEM Health Education Minor Teaching Area  
CJ-HSSM Humanities and Social Studies (HASS) Minor Teaching Area  
CJ-MATM Mathematics Minor Teaching Area  
CJ-PHSM Physics Minor Teaching Area

### Additional Academic Progress Requirements

Enrolment in the Bachelor of Education (Secondary Teaching) (BEd (Sec)) (B1368), and co-enrolment in the Mathematics Minor Teaching Area

## **POLITICS (HASS) MAJOR TEACHING AREA (BED(SEC))**

Education

*Bachelor of Education (Secondary Teaching) (BEd(Sec)) in Politics (HASS) Major Teaching Area*

Course Codes: B1368

Duration: 4 years Full-time or part-time equivalent. Mid year commencement may result in a longer duration due to unit availability.

### **Availability:**

- Murdoch campus (internal)
- Some units only: Murdoch campus (external)

### **Parent Major:**

Bachelor of Education (Secondary Teaching)

As a result of undertaking this major area of study students will develop a detailed and coherent body of knowledge and skills. Learning outcomes access an understanding of principles and concepts for the professional practice as a teacher of ATAR Humanities and Social Sciences (Politics)

Upon successfully completing the B.Ed (Secondary Teaching), graduates may apply for registration to teach a Major teaching area and a Minor Teaching area at the secondary school level. Students will study both areas concurrently within the Bachelor of Education. The Bachelor of Education course learning outcomes address both AQF Level 7 and the Graduate Teacher Standards established by the Australian Institute for Teaching and School Leadership (AITSL), the professional standards for initial registration as a teacher in Australia.

As a result of this course students will develop a broad and coherent body of knowledge and skills, an underlying understanding of principles and concepts for their professional practice as a teacher and/or for another professional role in education.

Selection of Major Teaching Area and Minor Teaching Area options are limited to the following areas/subjects in secondary schools:

Major Teaching Areas:

English  
Humanities and Social Sciences (Geography and Economics; History; OR Politics)  
Mathematics (Advanced Mathematics OR Mathematics)  
Physical Education (Must be combined with Health Education Minor Teaching area)

Science (Biology and Environmental Science, Biology and Human Biology, Chemistry (must be combined with Mathematics Minor Teaching area), Earth and Environmental Science, Physics (must be combined with Mathematics Minor Teaching area)

Minor Teaching Areas:

English  
Health Education (Must be combined with Physical Education Major Teaching area)  
Humanities and Social Sciences  
Mathematics Science, Biological Science, Chemistry, Earth and Environmental Science, Physics)

Advice about suitable teaching areas/subjects may be obtained from the Academic Chair (Secondary).

Professional Experience: There are 80 days of mentored teaching practice in this course.

This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

### **Admission Requirements (Onshore):**

As per normal undergraduate requirements

English competence.

### **Excluded Majors:**

Advanced Mathematics Major Teaching Area; Biology and Environmental Science Major Teaching Area; Biology and Human Biology Major Teaching Area; Chemistry Major Teaching Area; Earth and Environmental Science Major Teaching Area; English Major Teaching Area; Geography and Economics (HASS) Major Teaching Area; History (HASS) Major Teaching Area; Mathematics Major Teaching Area; Physical Education Major Teaching Area; Physics Major Teaching Area

### **Additional Academic Progress Requirements:**

Enrolment in the Bachelor of Education (Secondary Teaching (BEd (Sec)) (B1368).

### **Main Research Areas:**

Education

### **Recommended Co-Majors:**

Biological Science Minor Teaching Area

### Additional Academic Progress Requirements

Enrolment in the Bachelor of Education (Secondary Teaching (BEd (Sec)) (B1368).

## PRIMARY, 1-10 HEALTH AND PHYSICAL EDUCATION (BED)

Education

*Bachelor of Education (BEd) in Primary, 1-10 Health and Physical Education*

Course Codes: B1319

*Duration: 4 years full-time or part-time equivalent; mid-year commencement may result in a longer duration due to unit availability*

#### Availability:

- Murdoch campus (internal)
- Some units only: Murdoch campus (external)

*Restriction: Enrolment is subject to restriction due to professional recognition requirements.*

#### Parent Major:

Bachelor of Education (Primary, 1-10 Health and Physical Education Major)

This course will prepare graduates to teach in a primary classroom from Years 1 to 6. In addition the graduates will specialise in Health and Physical Education (HPE) thus enabling them to be Curriculum Leaders in this learning area and to lead extracurricular activities. Students will study general primary curriculum as well as that specific to the teaching of HPE for Years 1 to 10. Professional Experience: There are 95 days of moderated teaching practice in this course.

The Bachelor of Education enables students to develop the knowledge, skills and capabilities to become a teacher. Students are supported in becoming effective educators with a strong grounding in learning, teaching and curriculum. Professional Experience is a key component of the degree, providing students with opportunities to engage with schools and the broader community and to apply their knowledge and skills in a range of school settings. Murdoch Education graduates develop the understanding and capacity to be a teacher as researcher, an agent for change and a socially just practitioner. The degree provides a foundation for lifelong learning through continued professional development and/or further study.

This course requires students to undertake work-based training through a compulsory work-based placement as part of their

studies.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 7.0 with no band less than 7.0.

**Special Requirements:**

Prior to placement in any school for Professional Experience, it is mandatory that pre-service teachers complete or obtain several forms and clearances. Information and forms regarding these mandatory requirements can be accessed via the Professional Experience website:

<http://www.murdoch.edu.au/School-of-Education/Professional-Experience/Completion> and submission of these mandatory requirements is essential before placements can be arranged.

A maximum of 25% of total Professional Experience days in the course may be taken overseas.

Please note the following requirements for Teacher Registration in Australia: Students admitted to Initial Teacher Education programs on the basis of an International English Language Testing System (IELTS) assessment, or an equivalent English language proficiency assessment, must have attained an overall IELTS (or equivalent) score of 7.5 (with no score below 7 in any of the four skills areas, and a score of no less than 8 in speaking and listening), either on entry to or on graduation from the program.

All students who commence an Initial Teacher Education Course from 2017 onwards are required to complete Literacy and Numeracy Tests for Initial Teacher Education (LANTITE), administered by the Australian Council for Educational Research (ACER). Further information is available on the School of Education website.

All students commencing an initial teacher education course from 2019 onwards will be required to successfully complete the SimLab Screening Evaluation to demonstrate that they meet the 'Fit for Profession' accreditation requirement. Further information is available on the School of Education website.

**Employment Prospects:**

Primary schools; K-12 schools; district high schools; Health.

**Professional Accreditation:**

This course is accredited by the Teacher Registration Board of WA (TRBWA)  
<http://www.trb.wa.gov.au/>

**Professional Recognition:**

On completion of the Bachelor of Education, students have a widely accepted qualification from a recognised university and are eligible to apply for registration with the Teacher Registration Board of WA (or other appropriate state registration boards).

**Excluded Majors:**

Early Childhood and Primary Teaching; Primary Teaching; Education Studies

**Main Research Areas:**

Education, teaching

**Study Options:**

This course is offered in internal mode only. Some general education units may be available in external mode but HPE specific units require on-campus participation as part of their assessment.

**Alternative Entry Pathway:**

An alternative entry pathway exists via the Primary Teaching Combination from Challenger Institute of Technology to the

Bachelor of Education (Primary, 1-10 Health and Physical Education). This pathway provides applicants with advanced standing once they enter the University.

**Exemptions/Credit:**

Students seeking exemptions must be able to provide documentary evidence in support of their application. Students who have had at least two years of full-time recent, relevant and satisfactory teaching experience in an Australian school context may seek partial exemption from some Professional Experience unit/s. While Murdoch recognises that some students may have prior and/or current teaching experience, it requires that a student's classroom competence be assessed before exemptions from Professional Experience can be given. Students who have been employed as a teacher and have had at least one year of full-time equivalent recent, relevant and satisfactory teaching experience in an Australian school context may seek exemption from BED150 Understanding Teachers' Work. Students cannot receive exemption from the Professional Experience component of EDN4302 Final Professional Experience 1: Primary Teaching, and EDN4300 Final Professional Experience 2: Primary Teaching. Those who are currently employed in relevant teaching positions may seek permission to complete one Primary Professional Experience in their school. Students must contact the School of Education Professional Experience Office. If seeking un-credentialed credit students must submit a case in writing, with supporting documentary evidence to explain how the outcomes of units have already been achieved through prior experience. All applications for exemption and credit must be directed to the Accreditation Officer.

**Major Prerequisites**

**Mathematics Background**

Students may need to complete EDN110 Mathematics for Teaching - 3 points [MURDOCH: S1E-internal, S1E-external] if they have not completed Mathematics Essential level (previously known as Stage 2) or above of Year 12 Mathematics.

The degree provides a foundation for lifelong learning through continued professional development and/or further study.

This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

#### **Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 7.0 with no band less than 7.0.

#### **Special Requirements:**

Prior to placement in any school for Professional Experience, it is mandatory that pre-service teachers complete or obtain several forms and clearances. Information and forms regarding these mandatory requirements can be accessed via the Professional Experience website: <http://www.murdoch.edu.au/School-of-Education/Professional-Experience/Completion> and submission of these mandatory requirements is essential before placements can be arranged.

A maximum of 25% of total Professional Experience days in the course may be taken overseas.

Please note the following requirements for Teacher Registration in Australia: Students admitted to Initial Teacher Education programs on the basis of an International English Language Testing System (IELTS) assessment, or an equivalent English language proficiency assessment, must have attained an overall IELTS (or equivalent) score of 7.5 (with no score below 7 in any of the four skills areas, and a score of no less than 8 in speaking and listening), either on entry to or on graduation from the program.

All students who commence an Initial Teacher Education Course from 2017 onwards are required to complete Literacy and Numeracy Tests for Initial Teacher Education (LANTITE), administered by the Australian Council for Educational Research (ACER). Further information is available on the School of Education website.

All students commencing an initial teacher education course from 2019 onwards will be required to successfully complete the SimLab Screening

Evaluation to demonstrate that they meet the 'Fit for Profession' accreditation requirement. Further information is available on the School of Education website

#### **Employment Prospects:**

Murdoch teacher education graduates are employed in government

and non-government schools and other education-related occupations.

#### **Professional Accreditation:**

This course is accredited by the Teacher Registration Board of WA (TRBWA) <http://www.trb.wa.gov.au/>

#### **Professional Recognition:**

On completion of the Bachelor of Education, students have a widely accepted qualification from a recognised university and are eligible to apply for registration with the Teacher Registration Board of WA (or other appropriate state registration boards).

#### **Recommended Minors:**

English and Literacy Education; Inclusive Education; Mathematics and Numeracy Education; Teaching Indonesian in Primary Schools; Teaching Japanese in Primary Schools

#### **Excluded Majors:**

Early Childhood and Primary Teaching; Education Studies; Primary, 1-10 Health and Physical Education

#### **Main Research Areas:**

Education, teaching.

#### **External Study:**

Not all required units in these majors are offered completely externally. Some are offered as intensive sessions on-campus or in Perth metropolitan schools. Every effort is made to combine these units to enable students to arrange one on-campus session to complete these requirements.

a) External students must undertake the placement component for EDN2104 Professional Experience: English in Practice in a Perth metropolitan school and under the guidance of a Murdoch University Moderator. Subject to satisfactory completion of this unit, students may arrange, in consultation with the School of Education Professional Experience Office, to complete their subsequent professional experience in a school other than in metropolitan Perth..

b) On-campus attendance is required for a one-week intensive workshop covering both EDN248 Teaching Health and Physical Education in Early Childhood and Primary AND EDN236 Teaching The Arts in Early Childhood and Primary.

#### **Alternative Entry Pathway:**

An alternative entry pathway exists via the Primary Teaching Combination from Challenger Institute of Technology to the Bachelor of Education (Primary Teaching). This pathway provides applicants with advanced standing once they enter the University.

#### **Exemptions/Credit:**

Students seeking exemptions must be able to provide documentary evidence in support of their application. Students who have had at least two years of full-time recent, relevant and satisfactory teaching experience in an Australian school context may seek partial exemption from a Professional Experience unit. While Murdoch recognises that some students may have prior and/or current teaching experience, it requires that a student's classroom competence be assessed before exemptions from School Experience can be given. Students who have been employed as a teacher and have had at least one year of full-time equivalent recent, relevant and satisfactory teaching experience in an Australian school context may seek exemption from BED150 Understanding Teachers' Work. Students cannot receive exemption from Final Professional Experience (1 & 2): Primary Teaching units. If seeking un-credentialed credit students must submit a case in writing, with supporting documentary evidence to explain how the outcomes of units have already been achieved through prior experience. All applications for exemption and credit must be directed to the Accreditation Officer.

**Major Prerequisites****Mathematics Background**

Students who have not completed Mathematics Essential level (previously known as Stage 2) or above of Year 12 Mathematics may need to complete:

EDN110 Mathematics for Teaching - 3 points  
MURDOCH: S1E-internal, S1E-external

**Course Structure - 96 credit points****Part I - 24 credit points****Year 1 - 24 credit points****Transition Unit - 3 credit points**

BED100 Ideas in Education - 3 points  
MURDOCH: S1E-internal, S1E-external, S2E-internal, S2E-external

MURDOCH: S1E-external, SP2-external, SS2-external

EDN221 Learning and Teaching - 3 points  
MURDOCH: S1E-internal, S1E-external

EDN235 Teaching English and Literacy in Early Childhood and Primary - 3 points  
MURDOCH: S1E-internal, S1E-external

EDN358 Creating and Managing Effective Learning Environments - 3 points  
MURDOCH: S1E-internal, S1E-external

EDN236 Teaching The Arts in Early Childhood and Primary - 3 points  
MURDOCH: S2E-internal, S2E-external

EDN248 Teaching Health and Physical Education in Early Childhood and Primary - 3 points  
MURDOCH: S2E-internal, S2E-external

EDN2104 Professional Experience: English in Practice - 3 points  
MURDOCH: S2E-external

**Year 3 - 24 credit points****Research Skills Unit - 3 credit points**

BED300 Schooling and Society - Research Skills - 3 points  
MURDOCH: S1E-internal, S1E-external

**Core Units - 15 credit points**

Students must have completed EDN2104 Professional Experience: English in Practice and must have successfully completed EDN351 Teaching Mathematics in Early Childhood and Primary before enrolment in EDN3102 Professional Experience: Mathematics in Practice.

EDN351 Teaching Mathematics in Early Childhood and Primary - 3 points  
MURDOCH: S1E-internal, S1E-external

EDN353 Country, Cultures, Peoples: Aboriginal and Torres Strait Islander Perspectives Across the Curriculum - 3 points  
MURDOCH: S1E-internal, S1E-external

EDN332 Children, Families and Communities - 3 points  
MURDOCH: S2E-internal, S2E-external

EDN449 Inclusive Education - 3 points  
MURDOCH: S2E-internal, S2E-external

EDN3102 Professional Experience: Mathematics in Practice - 3 points  
MURDOCH: S2E-internal, S2E-external

**Specified Electives - 6 credit points**

Select 200- or 300-level units from the Specified Electives Unit List below. Students who have completed at least 36 points at second year and above may enrol in a 400-level unit.

OR

Consider using Specified Elective points to meet the requirements of an Education minor. Any recommended minor will be included in the major's description.

**Year 4 - 24 credit points**

**Core Units - 18 credit points**

EDN441 Teaching Humanities and Social Sciences in Early Childhood and Primary - 3 points  
MURDOCH: S1E-internal, S1E-external

EDN442 Teaching Science in Early Childhood and Primary - 3 points  
MURDOCH: S1E-internal, S1E-external

EDN4100 Professional Experience: Programming Across the Curriculum - 3 points  
<span data-type="offering" data-unit="EDN4100">MURDOCH: UA7-internal (closed), UA7-external (closed)</span>

Prior to commencing the Final Professional Experience units students must have successfully completed all other requirements of the course. EDN4302 Final Professional Experience 1: Primary Teaching and EDN4300 Final Professional Experience 2: Primary Teaching are taken in the final semester of the course.

EDN4302 Final Professional Experience 1: Primary Teaching - 3 points  
MURDOCH: ST2-placement, ST3-placement

EDN4300 Final Professional Experience 2: Primary Teaching - 6 points  
MURDOCH: ST2-placement, ST3-placement

**Specified Electives - 6 credit points**

Select 200- or 300-level units from the Specified Electives Unit List below. Students who have completed at least 36 points at second year and above may enrol in a 400-level unit.

OR

Consider using Specified Elective points to meet the requirements of an Education minor. Any recommended minor will be included in the major's description.

**Specified Elective Unit List**

EDN231 Introduction to Catholic Education - 3 points  
MURDOCH: SB2-internal

EDN232 Creed and Sacraments in Catholic Schools - 3 points  
Not available this year

EDN233 Prayer and Morality in Catholic Schools - 3 points  
Not available this year

EDN206 ICT in the Classroom - 3 points  
MURDOCH: S2E-external

EDN308 Children's Literature in the Classroom - 3 points

EDN359 Integrating robotics into the primary classroom - 3 points  
Not available this year

EDN328 Teaching English and Literacy to Students with Learning Difficulties and Disabilities - 3 points  
MURDOCH: S1E-internal, S1E-external

EDN329 Teaching Mathematics and Numeracy to Students with Learning Difficulties - 3 points  
MURDOCH: S2E-internal, S2E-external

EDN330 Teaching Students with High Incidence Disabilities - 3 points

**ELECTRICAL POWER ENGINEERING HONOURS (BE(HONS))**

Chemical and Metallurgical Engineering

*Bachelor of Engineering Honours (BE(Hons)) in Electrical Power Engineering*

Course Codes: H1264

Duration: 4 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)

Electrical Power Engineering concerns the study of power system elements including power generators, transmissions and distribution systems components. At the completion of this course graduates will have gained a good understanding of power systems analysis, operation and control. Particular emphasis is also placed on system stability, safety and protection issues.

This course requires students to undertake work-based training

through a compulsory work-based placement as part of their studies.

#### **Admission Requirements (Onshore):**

As per normal undergraduate admission requirements. It is recommended that students have completed the equivalent of WACE Mathematics 3C/3D, Mathematics: Specialist 3C/3D, Physics 3A/3B and Chemistry 3A/3B. Students who do not have the necessary Mathematical and Physics prerequisite knowledge may take an extra semester to complete their studies.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Special Requirements:**

All students will undertake at least 500 hours of approved work experience, plus complete a report outlining the experience gained, in order to complete the requirements of the degree. This work experience must be in a suitable engineering-related area and be approved by the Engineering Academic Chair.

#### **Employment Prospects:**

An extremely wide range of opportunities are available in both the commercial and industrial sectors covering information technology, manufacturing, medical, mining, processing, energy supply, communications, electronics, computer systems and defence-related industries to name a few.

#### **Professional Recognition:**

Graduates of accredited engineering courses are eligible for graduate membership of Engineers Australia. Full Chartered Professional Engineer status can then be achieved after a further three to five years of work experience in the engineering profession.

### **Course Prerequisites**

#### **Mathematics Background**

Students may need to complete one prerequisite unit depending on their background in mathematics with either a C grade in Mathematics Specialist ATAR (or Mathematics: Specialist 3C/3D) or a final scaled score of 60 percent or more in Mathematics Methods ATAR (or Mathematics 3C/3D). Students without this background will need to complete:

MAS164 Fundamentals of Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous mathematics not stated above should consult the Academic Chair for clarification of their enrolment requirements.

#### **Physics Background**

Students may need to complete one prerequisite unit depending on their background in physics and their final scaled score in Physics 3A/3B (or equivalent) within the past three years.

Physics 3A/3B with a final scaled score of 60 percent or more

OR

PEN120 General Physics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous physics not stated above should consult the Academic Chair for clarification of their enrolment requirements.

### **Course Structure - 96 credit points**

#### **Part I - 24 credit points**

##### **Year 1 - 24 credit points**

##### **Transition Unit - 3 credit points**

BEN100 Transitioning into Engineering - 3 points  
MURDOCH: S1-internal, S2-internal

##### **Breadth Unit for Degree - 3 credit points**

BEN150 Design Concepts in Engineering - 3 points  
MURDOCH: S1-internal

##### **Core Units - 18 credit points**

PEN152 Principles of Physics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

MAS182 Applied Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

ENG192 Energy, Mass and Flow - 3 points  
MURDOCH: S2-internal, S2-external

ENG109 Engineering Computing Systems - 3 points  
MURDOCH: S2-internal

MAS161 Calculus and Matrix Algebra - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

ENG125 Circuits and Systems I - 3 points  
MURDOCH: S2-internal

#### **Part II - 72 credit points**

##### **University-Wide Breadth Unit - 3 credit points**

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

##### **Year 2 - 21 credit points**

##### **Research Skills Unit - 3 credit points**

The following unit is no longer available - contact the Academic Chair for advice:

BEN200 Scientific Method in Engineering - 3 points

##### **Core Units - 18 credit points**

ENG298 Principles of Process Engineering - 3 points  
MURDOCH: S1-internal

ENG297 Circuits and Systems II - 3 points  
MURDOCH: S1-internal

MAS220 Mathematical Methods - 3 points  
MURDOCH: S1-internal, S1-external

ENG294 Discrete Time Systems - 3 points  
MURDOCH: S2-internal, SUM-internal

ENG207 Principles of Electronic Instrumentation - 3 points  
MURDOCH: S2-internal, W-internal

ENG299 Control Systems and Process Dynamics - 3 points  
MURDOCH: S2-internal

##### **Year 3 - 24 credit points**

All Engineering students will undertake at least 500 hours of approved work experience, plus complete a report outlining the experience gained, in order to complete the requirements of the degree. This work experience must be in a suitable engineering-related area and must be approved by the Engineering Academic Chair.

##### **Research Skills Unit - 3 credit points**

BEN300 Innovation and Ethics in Engineering - 3 points  
MURDOCH: S1-internal

##### **Core Units - 12 credit points**

ENG317 Electromechanical Energy Conversion - 3 points  
MURDOCH: S1-internal

ENG318 Power Electronic Converters and Systems - 3 points  
MURDOCH: S1-internal

ENG323 Power Transmission and Distribution Networks - 3 points  
MURDOCH: S2-internal

ENG336 Engineering Finance, Management and Law - 3 points  
MURDOCH: S2-internal

#### **Specified Electives - 9 credit points**

In order to obtain professional accreditation, students must take units that are acceptable to Engineers Australia. Select from units at Part II from the other Engineering majors or other Part II units with permission of the Engineering Academic Chair.

#### **Year 4 - 24 credit points**

##### **Core Units - 18 credit points**

ENG449 Electrical Power Systems Design - 3 points  
MURDOCH: S1-internal

ENG451 Power Systems Protection and Control - 3 points  
MURDOCH: S1-internal

ENG470 Engineering Honours Thesis - 12 points  
MURDOCH: H-internal, US1-internal, WU3-internal, Y-internal

##### **Specified Electives - 6 credit points**

In order to obtain professional accreditation, students must take units that are acceptable to Engineers Australia. Select from units at Part II from the other Engineering majors or other Part II units with permission of the Engineering Academic Chair.

## **ENVIRONMENTAL ENGINEERING HONOURS (BE(HONS))**

Chemical and Metallurgical Engineering

*Bachelor of Engineering Honours (BE(Hons)) in Environmental Engineering*

Course Codes: H1264

Duration: 4 years full-time or part-time equivalent

#### **Availability:**

- Murdoch campus (internal)
- Some units only: Murdoch campus (external)

Environmentally sound engineered systems are of increasing interest in our society.

This major will equip graduates with the discipline knowledge and problem-solving skills to design water, energy, shelter and primary production systems underpinned by ecological knowledge. Graduates can be employed by engineering firms, land developers, utilities, international development and government agencies to design and manage engineered systems. Graduates will have a global perspective and ethical approach to sustainable development.

This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

#### **Admission Requirements (Onshore):**

As per normal undergraduate admission requirements. Students who do not have the necessary background in WACE Chemistry, Mathematics and Physics may take longer than four years to complete this course. Articulation from TAFE is encouraged.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Special Requirements:**

All students will undertake at least 500 hours of approved work experience, plus complete a report outlining the experience gained, in order to complete the requirements of the degree. This work experience must be in a suitable engineering-related area and be approved by the Engineering Academic Chair.

#### **Employment Prospects:**

Graduates will be in high demand in energy and water utilities, and in companies and consulting agencies servicing this sector. Moreover, government departments are significant employers of graduates.

#### **Professional Recognition:**

Graduates of accredited engineering courses are eligible for Graduate Membership of Engineers Australia. Full Chartered Professional Engineer status can then be achieved after a further three to five years of work experience in the engineering profession.

#### **Main Research Areas:**

Total water cycle management, energy efficiency, permaculture, sustainable construction, organic waste management.

## **Course Prerequisites**

### **Chemistry Background**

Students may need to complete one prerequisite unit depending on their background in chemistry and their final scaled score in Chemistry within the past three years.

Chemistry 3A/3B or Chemistry ATAR with a final scaled score of 50 percent or more

OR

CHE140 Fundamentals of Chemistry - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous chemistry not stated above should consult the Academic Chair for clarification of their enrolment requirements.

### **Mathematics Background**

Students may need to complete one prerequisite unit depending on their background in mathematics with either a C grade in Mathematics Specialist ATAR (or Mathematics: Specialist 3C/3D) or a final scaled score of 60 percent or more in Mathematics Methods ATAR (or Mathematics 3C/3D) within the past three years.

Students without this background will need to complete:

MAS164 Fundamentals of Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous mathematics not stated above should consult the Academic Chair for clarification of their enrolment requirements.

### **Physics Background**

Students may need to complete one prerequisite unit depending on their background in physics and their final scaled score in Physics within the past three years.

WACE Physics 3A/3B with a final scaled score of 60 percent or more

OR

PEN120 General Physics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous physics not stated above should consult the Academic Chair for clarification of their enrolment requirements.

## INDUSTRIAL COMPUTER SYSTEMS ENGINEERING HONOURS (BE(HONS))

Chemical and Metallurgical Engineering

Bachelor of Engineering Honours (BE(Hons)) in Industrial Computer Systems Engineering

Course Codes: H1264

Duration: 4 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)

Industrial Computer Systems Engineering is concerned with the use and application of computing technologies (hardware and software) in the operation of modern industrial plants, manufacturing processes and material processing industries, particularly computer based measurement and control. This course provides a graduate with a unique blend of skills in computing and software development, and the skills to design, commission and test complex

industrial control systems.

This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

#### **Admission Requirements (Onshore):**

As per normal undergraduate admission requirements. It is recommended that students have completed the equivalent of WACE Mathematics 3C/3D, WACE Mathematics: Specialist 3C/3D, WACE Physics 3A/3B and WACE Chemistry 3A/3B. Students who do not have the necessary Mathematical and Physics prerequisite knowledge may take an extra semester to complete their studies.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Special Requirements:**

All students will undertake at least 500 hours of approved work experience, plus complete a report outlining the experience gained, in order to complete the requirements of the degree. This work experience must be in a suitable engineering-related area and be approved by the Engineering Academic Chair.

#### **Employment Prospects:**

An extremely wide range of opportunities are available in both the commercial and industrial sectors covering information technology, manufacturing, medical, mining, processing, energy supply, communications, electronics, computer systems and defence-related industries to name a few.

#### **Professional Recognition:**

Graduates of accredited engineering courses are eligible for graduate membership of Engineers Australia. Full Chartered Professional Engineer status can then be achieved after a further three to five years of work experience in the engineering profession.

### **Major Prerequisites**

#### **Mathematics Background**

Students may need to complete one prerequisite unit depending on their background in mathematics with either a C grade in Mathematics Specialist ATAR (or Mathematics: Specialist 3C/3D) or a final scaled score of 60 percent or more in Mathematics Methods ATAR (or Mathematics 3C/3D). **INSTRUMENTATION AND CONTROL ENGINEERING HONOURS (BE(HONS))**

Chemical and Metallurgical Engineering

*Bachelor of Engineering Honours (BE(Hons)) in Instrumentation and Control Engineering*

Course Codes: H1264

Duration: 4 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)

Instrumentation and Control Engineering is concerned with the design, construction, testing and management of tools and equipment for monitoring, control and performance assessment of a wide range of manufacturing and industrial processes. Areas of application will cover virtually all processes that require specialised control and monitoring systems. Often, such automation systems are computer based. Particular emphasis is placed on applications in mining, chemical and mineral processing industries and in other processing sectors.

This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements. It is recommended that students have completed the equivalent of WACE Mathematics 3C/3D, WACE Mathematics: Specialist 3C/3D, WACE Physics 3A/3B and WACE Chemistry 3A/3B. Students who do not have the necessary Mathematical and Physics prerequisite knowledge may take an extra semester to complete their studies.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

All students will undertake at least 500 hours of approved work experience, plus complete a report outlining the experience gained, in order to complete the requirements of the degree. This work experience must be in a suitable engineering-related area and be approved by the Engineering Academic Chair.

**Employment Prospects:**

An extremely wide range of opportunities are available in both the commercial and industrial sectors covering information technology, manufacturing, medical, mining, processing, energy supply, communications, electronics, computer systems and defence-related industries to name a few.

**Professional Recognition:**

Graduates of accredited engineering courses are eligible for graduate membership of Engineers Australia. Full Chartered Professional Engineer status can then be achieved after a further three to five years of work experience in the engineering profession.

**Major Prerequisites****Mathematics Background**

Students may need to complete one prerequisite unit depending on their background in mathematics with either a C grade in Mathematics Specialist ATAR or (Mathematics: Specialist 3C/3D) or a final scaled score of 60 percent or more in Mathematics Methods ATAR (or Mathematics 3C/3D). Students without this background will need to complete:

MAS164 Fundamentals of Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous mathematics not stated above should consult the Academic Chair for clarification of their enrolment requirements.

**Physics Background**

Students may need to complete one prerequisite unit depending on their background in physics and their final scaled score in Physics 3A/3B (or equivalent) within the past three years.

Physics 3A/3B with a final scaled score of 60 percent or more

OR

PEN120 General Physics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous physics not stated above should consult the Academic Chair for clarification of their enrolment requirements.

**Course Structure - 96 credit points****Part I - 24 credit points****Year 1 - 24 credit points****Transition Unit - 3 credit points**

BEN100 Transitioning into Engineering - 3 points  
MURDOCH: S1-internal, S2-internal

**Breadth Unit for Degree - 3 credit points**

BEN150 Design Concepts in Engineering - 3 points  
MURDOCH: S1-internal

**Core Units - 18 credit points**

PEN152 Principles of Physics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

MAS182 Applied Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

ENG109 Engineering Computing Systems - 3 points  
MURDOCH: S2-internal

MAS161 Calculus and Matrix Algebra - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

ENG125 Circuits and Systems I - 3 points  
MURDOCH: S2-internal

ENG192 Energy, Mass and Flow - 3 points  
MURDOCH: S2-internal, S2-external

## Part II - 72 credit points

### University-Wide Breadth Unit - 3 credit points

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

### Year 2 - 21 credit points

#### Research Skills Unit - 3 credit points

The following unit is no longer available - contact the Academic Chair for advice:

BEN200 Scientific Method in Engineering - 3 points

#### Core Units - 18 credit points

ENG298 Principles of Process Engineering - 3 points  
MURDOCH: S1-internal

ENG297 Circuits and Systems II - 3 points  
MURDOCH: S1-internal

MAS220 Mathematical Methods - 3 points  
MURDOCH: S1-internal, S1-external

ENG294 Discrete Time Systems - 3 points  
MURDOCH: S2-internal, SUM-internal

ENG207 Principles of Electronic Instrumentation - 3 points  
MURDOCH: S2-internal, W-internal

ENG299 Control Systems and Process Dynamics - 3 points  
MURDOCH: S2-internal

### Year 3 - 24 credit points

All Engineering students will undertake at least 500 hours of approved work experience, plus complete a report outlining the experience gained, in order to complete the requirements of the degree. This work experience must be in a suitable engineering-related area and must be approved by the Engineering Academic Chair.

#### Research Skills Unit - 3 credit points

BEN300 Innovation and Ethics in Engineering - 3 points  
MURDOCH: S1-internal

#### Core Units - 12 credit points

ENG308 Advanced Process and Instrumentation Engineering - 3 points  
MURDOCH: S1-internal

ENG309 Process Control Engineering I - 3 points  
MURDOCH: S1-internal

ENG322 Process Control Engineering II - 3 points  
MURDOCH: S2-internal

ENG336 Engineering Finance, Management and Law - 3 points  
MURDOCH: S2-internal

#### Specified Electives - 9 credit points

In order to obtain professional accreditation, students must take units that are acceptable to Engineers Australia. Select from units

at Part II from the other Engineering majors or other Part II units with permission of the Engineering Academic Chair.

### Year 4 - 24 credit points

#### Core Units - 18 credit points

ENG445 Instrumentation and Control Systems Design - 3 points  
MURDOCH: S1-internal

ENG446 Process Control and Safety Systems - 3 points  
MURDOCH: S1-internal

ENG470 Engineering Honours Thesis - 12 points  
MURDOCH: H-internal, US1-internal, WU3-internal, Y-internal

#### Specified Electives - 6 credit points

In order to obtain professional accreditation, students must take units that are acceptable to Engineers Australia. Select from units at Part II from the other Engineering majors or other Part II units with permission of the Engineering Academic Chair.

## RENEWABLE ENERGY ENGINEERING HONOURS (BE(HONS))

Engineering and Energy

Bachelor of Engineering Honours (BE(Hons)) in Renewable Energy Engineering

Course Codes: H1264

Duration: 4 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)

Renewable Energy Engineering focuses on the use of sources of energy which do not result in long term reduction, or loss, of our earth's resources. It is concerned with developing efficient means of tapping these energy sources and transforming the energy into useful forms that can be easily used for the full range of domestic and industrial applications. Graduates will be expected to design, commission and test a wide range of renewable energy systems, including solar thermal, photovoltaic, wind based and biomass systems.

The course requires an in-depth study of a range of mathematics, computing and engineering fundamentals, combined with a full range of studies in the necessary specialist subject areas. This is complemented by studies in management, accounting, economics and law.

This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

#### Admission Requirements (Onshore):

As per normal undergraduate admission requirements. It is recommended that students have completed the equivalent of Mathematics 3C/3D, Mathematics: Specialist 3C/3D, Physics 3A/3B and Chemistry 3A/3B. Students who do not have the necessary Mathematical and Physics prerequisite knowledge may take an extra semester to complete their studies.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### Special Requirements:

All students will undertake at least 500 hours of approved work experience, plus complete a report outlining the experience gained, in order to complete the requirements of the degree. This work experience must be in a suitable engineering-related area and be approved by the Engineering Academic Chair.

#### Employment Prospects:

An extremely wide range of opportunities are available in both the commercial and industrial sectors covering information technology,

manufacturing, medical, mining, processing, energy supply, communications, electronics, computer systems and defence-related industries to name a few.

#### **Professional Recognition:**

Graduates of accredited engineering courses are eligible for graduate membership of Engineers Australia. Full Chartered Professional Engineer status can then be achieved after a further three to five years of work experience in the engineering profession.

### **Course Prerequisites**

#### **Mathematics Background**

Students may need to complete one prerequisite unit depending on their background in mathematics with either a C grade in Mathematics Specialist ATAR (or Mathematics: Specialist 3C/3D) or a final scaled score of 60 percent or more in Mathematics Methods ATAR (or Mathematics 3C/3D). ## **ENGINEERING TECHNOLOGY**

**See also:**  
Engineering

### **ENGINEERING TECHNOLOGY (BSC)**

Chemical and Metallurgical Engineering

*Bachelor of Science (BSc) in Engineering Technology*

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

#### **Availability:**

- Murdoch campus (internal)

#### **Parent Major:**

Bachelor of Science (Non-IT Majors)

The approach of the technologist is, wherever possible, to use and adapt 'off the shelf' building blocks and components to create and/or modify the required software and/or hardware. In this degree students are free to choose from a range of units; however, there are four key areas of study:

**Industrial Computer Systems:** concerned with the specification, design, implementation and commissioning of industrial control systems. It is a combination of both computer hardware and software to meet the requirements of the industrial measurement and control application.

**Instrumentation and Control:** concerned with instrumentation installation, specification, systems monitoring and operational control of a wide range of manufacturing and process oriented industries.

**Electrical Power:** associated with power system elements including power generators, transmission and distribution system components as well as power system analysis, operation and control.

**Renewable Energy Systems:** concerned with the study and use of renewable energy technologies and energy sources with an emphasis on electrical generation.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

#### **Admission Requirements (Onshore):**

As per normal undergraduate admission requirements. It is recommended that students have completed the equivalent of WACE Mathematics 3C/3D, Mathematics: Specialist 3C/3D and WACE Physics 3A/3B. Students who do not have the necessary Mathematical and Physics prerequisite knowledge may take an extra semester to complete their studies.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Employment Prospects:**

This degree offers study suitable for graduates to enter a wide

range of engineering and applied science careers as Engineering Technologists. Depending on the specific units chosen, graduates may pursue careers in industries associated with computing and information technology, industrial computer systems, instrumentation and control.

#### **Advanced Standing:**

This major is designed to admit students either through direct entry to the University, or via TAFE. Students who have completed appropriate TAFE qualifications may be admitted directly into the second year of the major.

Upon successful completion of this course, it is possible with one further year of study to upgrade to a Bachelor of Engineering Honours degree. It should be noted that if a sufficient level of performance is achieved in the first year, it is also possible to transfer into the Engineering course in the second year of study.

### **Major Prerequisites**

#### **Mathematics Background**

Students may need to complete one prerequisite unit depending on their background in mathematics with either a C grade in Mathematics Specialist ATAR (or Mathematics: Specialist 3C/3D) or a final scaled score of 60 percent or more in Mathematics Methods ATAR (or Mathematics 3C/3D). Students without this background will need to complete:

MAS164 Fundamentals of Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous mathematics not stated above should consult the Academic Chair for clarification of their enrolment requirements.

#### **Physics Background**

Students may need to complete one prerequisite unit depending on their background in physics and their final scaled score in Physics 3A/3B (or equivalent) within the past three years.

Physics 3A/3B with a final scaled score of 60 percent or more

OR

PEN120 General Physics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous physics not stated above should consult the Academic Chair for clarification of their enrolment requirements.

### **Course Structure - 72 credit points**

#### **Part I - 24 credit points**

##### **Year 1 - 24 credit points**

##### **Transition Unit - 3 credit points**

BSC100 Building Blocks for Science Students - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

##### **Breadth Unit for Degree - 3 credit points**

BSC150 What is Science? - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

##### **Core Units - 9 credit points**

ENG192 Energy, Mass and Flow - 3 points  
MURDOCH: S2-internal, S2-external

MAS182 Applied Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

ENG125 Circuits and Systems I - 3 points  
MURDOCH: S2-internal

**General Electives - 9 credit points**

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Part II - 48 credit points****University-Wide Breadth Units - 6 credit points**

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Year 2 - 21 credit points****Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

**For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC201 Psychology: Measurement, Design and Analysis - 3 points  
MURDOCH: S1-internal

**For Primary Majors in the Health Sciences, as listed**

Primary Major in Chiropractic Science, Exercise Physiology, Movement Science, or Sport and Health Science:

BSC206 Introduction to Research Methodology and Evidence Based Practice - 3 points  
MURDOCH: S2-internal

**For All Other Primary Majors excluding Information Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Core Units - 12 credit points**

ENG207 Principles of Electronic Instrumentation - 3 points  
MURDOCH: S2-internal, W-internal

Plus one unit from each of the following Groups.

**Group 1**

ENG297 Circuits and Systems II - 3 points  
MURDOCH: S1-internal

ENG298 Principles of Process Engineering - 3 points  
MURDOCH: S1-internal

**Group 2**

MAS221 Mathematical Modelling - 3 points  
MURDOCH: S2-internal, S2-external

MAS220 Mathematical Methods - 3 points  
MURDOCH: S1-internal, S1-external

**Group 3**

ENG299 Control Systems and Process Dynamics - 3 points  
MURDOCH: S2-internal

ENG294 Discrete Time Systems - 3 points  
MURDOCH: S2-internal, SUM-internal

**General Electives - 6 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Year 3 - 21 credit points****Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

**For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC302 Advanced Quantitative Research Methods - 3 points  
MURDOCH: S2-internal

**For Primary Majors in the Health Sciences, as listed**

Primary major in Chiropractic Science, Movement Science, Sport and Health Science:

BSC306 Research and Evidence Based Practice - 3 points  
MURDOCH: S1-internal

**For All Other Primary Majors excluding Information Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Core Units - 6 credit points**

Select one unit from Group 4 and one unit from Group 5.

**Group 4**

ENG308 Advanced Process and Instrumentation Engineering - 3 points  
MURDOCH: S1-internal

ENG311 PLC Systems - 3 points  
MURDOCH: S1-internal

ENG317 Electromechanical Energy Conversion - 3 points  
MURDOCH: S1-internal

ENG309 Process Control Engineering I - 3 points  
MURDOCH: S1-internal

ENG318 Power Electronic Converters and Systems - 3 points  
MURDOCH: S1-internal

ENG337 Applied Photovoltaics - 3 points  
MURDOCH: S2-internal

**Group 5**

ENG323 Power Transmission and Distribution Networks - 3 points  
MURDOCH: S2-internal

ENG319 Real Time and Embedded Systems - 3 points  
MURDOCH: S2-internal

ENG339 Wind and Hydro Power Systems - 3 points  
MURDOCH: S2-internal

ENG338 Energy Supply and Management - 3 points  
MURDOCH: S1-internal

ENG321 Instrument and Communication Systems - 3 points  
MURDOCH: S2-internal

ENG322 Process Control Engineering II - 3 points  
MURDOCH: S2-internal

**General Electives - 12 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

## ENGLISH AND CREATIVE WRITING

### ENGLISH AND CREATIVE WRITING (BA)

Creative Media, Arts and Design

*Bachelor of Arts (BA) in English and Creative Writing*

Course Codes: B1356

Duration: 3 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

#### Parent Major:

Bachelor of Arts

The English and Creative Writing major rests on the idea of the centrality of literature as a living cultural practice. Our focus is on the global significance of text as a literary form, broadly understood to include all its variants, from the short story, to the sonnet, from the blog to the bildungsroman, and from pastoral to performance poetry. Understanding the intimate relationship between the literary and the creative, students study English literature while at the same time developing knowledge, skills in critical and creative reflection, and writing practice. Students are therefore required to read, view, listen and write critically, professionally and creatively in response to a wide range of written, visual and other texts.

The Bachelor of Arts at Murdoch is a degree unlike any other in Australia. It embraces new directions in teaching and practice-based learning to train the thinkers and researchers of the 21st century. So many of the biggest and most vital issues we face today are about human society and the human condition. How can we understand who we are, how we want to live, or what kind of society we want to create, without the insights, knowledge and skills provided by the humanities? Our degree is different because we teach our students to put these into practice in a way that is recognised and valued by employers. Our graduates are empowered to be the agile and creative thinkers who will thrive in a rapidly changing world. They are able to think creatively, communicate effectively, manage projects, exercise highly-developed analytical and interpersonal skills, and they possess an in-depth knowledge of contemporary societal issues and trends. These are professional skills which are recognised and valued universally. In short, you can study what you love and get a job too!

#### Admission Requirements (Onshore):

As per normal undergraduate admission requirements.

English competence.

#### Special Requirements:

There may be a reduction of choice of units if completing this course in the external mode.

#### Employment Prospects:

Graduates in English and Creative Writing will be well prepared for employment in several of the following professions: advertising, design, teaching, public administration, journalism, publishing, computer arts, and many fields of business.

#### Excluded Minors:

Creative Writing; Literature

#### Languages:

English and Creative Writing students are strongly encouraged to

consider studying a language other than English, with Indonesian and Japanese available at Murdoch within the Bachelor of Arts.

## **ENGLISH AND CREATIVE WRITING HONOURS (BA(HONS))**

College of Arts, Business, Law and Social Sciences

*Bachelor of Arts Honours (BA(Hons)) in English and Creative Writing*

Course Codes: H1256

Duration: 1 year full-time or part-time equivalent

###### **Availability:**

- Murdoch campus (internal)

The aim of Honours is to extend the student's grasp of the theoretical, conceptual and practical framework of their discipline, and to develop skills for independent research.

An Honours qualification of 2A is normally required for admission to higher research degree study.

###### **Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average; subject

to availability of a suitable supervisor and approval by the Associate Dean (Learning and Teaching) of the School.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Apply Online:**

Applications can be made online at <http://goto.murdoch.edu.au/OnlineApplicationsHonours>

**Course Structure - 24 credit points**

**Coursework - 12 credit points**

ART604 Advanced Research Methods - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

ART503 Honours Seminar in Arts - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

ART555 Honours Topic - 6 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Thesis - 12 credit points**

EGL599 Honours Thesis in English and Creative Writing - 12 points  
MURDOCH: S1-internal, S2-internal, Y-internal

**ENVIRONMENTAL MANAGEMENT**

**See also:**

Environmental Science

**ENVIRONMENTAL MANAGEMENT AND SUSTAINABILITY (BSC)**

Conservation Science

*Bachelor of Science (BSc) in Environmental Management and Sustainability*

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

*Restriction: Enrolment is subject to restriction due to constraints on unit enrolments.*

**Parent Major:**

Bachelor of Science (Non-IT Majors)

The Environmental Management and Sustainability major explores the complex interactions between humans and their environment. The major not only integrates the environmental sciences and their human dimensions, but also translates that science into practical and effective management actions, to improve local, regional and global sustainability. This major emphasises multi-disciplinary problem solving and practical experience to tackle current and future environmental management and sustainability challenges.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements. There are no prerequisites for admission but it is highly desirable for students to have undertaken WACE Chemistry 3A/3C and Mathematics 2C/2D.

Equivalent of an Academic IELTS overall score of 6.0 with no band

less than 6.0.

**Special Requirements:**

This course can be completed internally or externally. External students will be required to attend classes on-campus for some units.

**Employment Prospects:**

Environmental Management and Sustainability graduates have a wide range of employment opportunities in the public and private sectors from mining rehabilitation to consulting, urban planning, eco-tourism, parks and wildlife management, sustainable development, land and water management, waste and environmental services, science education and communication. Employment opportunities are likely to be enhanced for graduates who continue into either Research Honours or the Graduate Certificate in Environmental Assessment and Management or Graduate Certificate or Diploma in Environmental Science.

**Recommended Double Majors:**

Conservation and Wildlife Biology; Environmental Science; Marine Science

**Recommended Minors:**

Ecosystem Management; Marine Biology; Sustainability, Ecosystems and Community Development; Sustainable Development; Waste and Water Management

**Excluded Minors:**

Environmental Issues; Resource Management

**Main Research Areas:**

Ecosystem management and restoration, technologies and policies for sustainable development.

**Course Structure - 72 credit points**

**Part I - 24 credit points**

**Year 1 - 24 credit points**

**Transition Unit - 3 credit points**

BSC100 Building Blocks for Science Students - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Breadth Unit for Degree - 3 credit points**

BSC150 What is Science? - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Core Units - 12 credit points**

BIO103 Environmental Biology - 3 points  
MURDOCH: S1-internal, S1-external

ENV102 Foundations of the Environment - 3 points  
MURDOCH: S2-internal, S2-external

SUS100 Introduction to Sustainable Development - 3 points

MAS183 Statistical Data Analysis - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**General Electives - 6 credit points**

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Part II - 48 credit points**

**University-Wide Breadth Units - 6 credit points**

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the

unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

### **Year 2 - 21 credit points**

#### **Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

#### **For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC201 Psychology: Measurement, Design and Analysis - 3 points  
MURDOCH: S1-internal

#### **For Primary Majors in the Health Sciences, as listed**

Primary Major in Chiropractic Science, Exercise Physiology, Movement Science, or Sport and Health Science:

BSC206 Introduction to Research Methodology and Evidence Based Practice - 3 points  
MURDOCH: S2-internal

#### **For All Other Primary Majors excluding Information Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

#### **Core Units - 6 credit points**

ENV246 Protected Area Management and Planning - 3 points  
MURDOCH: S1-internal, S1-external

ENV245 Global and Regional Sustainability - 3 points  
MURDOCH: S2-internal, S2-external

#### **General Electives - 12 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

### **Year 3 - 21 credit points**

#### **Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

#### **For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC302 Advanced Quantitative Research Methods - 3 points  
MURDOCH: S2-internal

#### **For Primary Majors in the Health Sciences, as listed**

Primary major in Chiropractic Science, Movement Science, Sport and Health Science:

BSC306 Research and Evidence Based Practice - 3 points  
MURDOCH: S1-internal

#### **For All Other Primary Majors excluding Information Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

### **Core Units - 12 credit points**

ENV328 Environmental Policy and Law - 3 points  
MURDOCH: S1-internal, S1-external

## **ENVIRONMENTAL MANAGEMENT AND SUSTAINABILITY HONOURS (BSC(HONS))**

College of Science, Health, Engineering and Education

*Bachelor of Science Honours (BSc(Hons)) in Environmental Management and Sustainability*

Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

### **Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

The aim of the Honours year is to extend the student's grasp of the principles and practice of their subject, to develop ability for independent research, and to facilitate their entry into industry employment.

An Honours qualification of at least 2A is normally required for admission to higher research degree study.

### **Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Credit average (GPA 2); subject to availability of a suitable supervisor and approval by the School Dean.

Students interested in enrolling in Honours are advised to contact the Academic Chair before application to discuss supervision of their potential research project.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### **Apply Online:**

Applications can be made online at <http://goto.murdoch.edu.au/OnlineApplicationsHonours>

## **Course Structure - 24 credit points**

### **Coursework - 3 credit points**

VLS683 Advanced Research Methods for Scientists - 3 points

MURDOCH: S1S-internal, S1S-external, S2N3-internal, S2N3-external

### **Thesis - 21 credit points**

VLS545 Honours Thesis in Environmental Management and Sustainability - 21 points

MURDOCH: S1-internal, S1-external, S2-internal, S2-external, Y-internal, Y-external

## **ENVIRONMENTAL SCIENCE**

### **See also:**

Environmental Management

Marine Science

## **ENVIRONMENTAL SCIENCE (BSC)**

Conservation Science

*Bachelor of Science (BSc) in Environmental Science*

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

### **Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

### **Parent Major:**

Bachelor of Science (Non-IT Majors)

Environmental Science is a multidisciplinary field that seeks to understand the interrelationships between air, land, water, plants, animals and human society. This understanding is essential to develop successful management strategies and address the challenges arising from interactions between humans and their environment. You will develop capacity in scientific method, knowledge, and problem solving which will enable you to identify and resolve current and future environmental issues. This major emphasises hands-on experience through field work, laboratory and research training, and policy and management.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

### **Admission Requirements (Onshore):**

As per normal undergraduate admission requirements. There are no prerequisites for admission but it is highly desirable for students to have undertaken WACE Chemistry 3A/3C and Mathematics 2C/2D.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### **Special Requirements:**

This course can be completed internally or externally. External students will be required to attend classes on-campus for some units.

### **Employment Prospects:**

Environmental Science graduates have a wide range of employment opportunities in the areas of climate change, restoration, natural resource management and development, environmental education, policy and planning in consulting firms, government or industry both in Australia and overseas. Employment opportunities are likely to be enhanced for graduates who continue into either Research Honours or the Graduate Certificate in Environmental Assessment and Management or Graduate Certificate or Diploma in Environmental Science.

**Recommended Double Majors:**

Conservation and Wildlife Biology; Environmental Management and Sustainability; Marine Science

**Recommended Minors:**

Environmental Issues; Marine Biology; Resource Management; Waste and Water Management

**Excluded Minors:**

Ecosystem Management

**Major Prerequisites****Chemistry Background**

Students who achieved a final scaled score of 50 percent or more in Chemistry 3A/3B or Chemistry ATAR within the past three years should seek an exemption from their Academic Chair for CHE140 Fundamentals of Chemistry. Students who have completed previous chemistry not stated above should also consult their Academic Chair for clarification of their enrolment requirements.

**Course Structure - 72 credit points****Part I - 24 credit points****Year 1 - 24 credit points****Transition Unit - 3 credit points**

BSC100 Building Blocks for Science Students - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Breadth Unit for Degree - 3 credit points**

BSC150 What is Science? - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Core Units - 15 credit points**

BIO103 Environmental Biology - 3 points  
MURDOCH: S1-internal, S1-external

CHE140 Fundamentals of Chemistry - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

ENV102 Foundations of the Environment - 3 points  
MURDOCH: S2-internal, S2-external

MAS183 Statistical Data Analysis - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

CHE144 Foundations of Chemistry - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**General Electives - 3 credit points**

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Part II - 48 credit points****University-Wide Breadth Units - 6 credit points**

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Year 2 - 21 credit points****Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

**For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC201 Psychology: Measurement, Design and Analysis - 3 points  
MURDOCH: S1-internal

**For Primary Majors in the Health Sciences, as listed**

Primary Major in Chiropractic Science, Exercise Physiology, Movement Science, or Sport and Health Science:

BSC206 Introduction to Research Methodology and Evidence Based Practice - 3 points  
MURDOCH: S2-internal

**For All Other Primary Majors excluding Information Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Core Units - 9 credit points**

ENV242 Atmospheric Science - 3 points  
MURDOCH: S1-internal, S1-external

ENV241 Ecology - 3 points  
MURDOCH: S2-internal, S2-external

ENV243 Water and Earth Science - 3 points  
MURDOCH: S1-internal, S1-external

**General Electives - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Year 3 - 21 credit points****Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

**For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC302 Advanced Quantitative Research Methods - 3 points  
MURDOCH: S2-internal

**For Primary Majors in the Health Sciences, as listed**

Primary major in Chiropractic Science, Movement Science, Sport and Health Science:

BSC306 Research and Evidence Based Practice - 3 points  
MURDOCH: S1-internal

**For All Other Primary Majors excluding Information Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Core Units - 9 credit points**

ENV328 Environmental Policy and Law - 3 points  
MURDOCH: S1-internal, S1-external

ENV331 Environmental Management - 3 points  
MURDOCH: S2-internal, S2-external

ENV332 Managing Wetlands and Water - 3 points  
MURDOCH: S2-internal, S2-external

**General Electives - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

## **ENVIRONMENTAL SCIENCE HONOURS (BSC(HONS))**

College of Science, Health, Engineering and Education

*Bachelor of Science Honours (BSc(Hons)) in Environmental Science*

Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

#### **Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

The aim of the Honours year is to extend the student's grasp of the principles and practice of their subject, to develop ability for independent research, and to facilitate their entry into industry employment.

An Honours qualification of at least 2A is normally required for admission to higher research degree study.

#### **Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Credit average (GPA 2); subject to availability of a suitable supervisor and approval by the Dean of School. Students interested in enrolling in Honours are advised to contact the Academic Chair before application to discuss supervision of their potential research project.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Apply Online:**

Applications can be made online at <http://goto.murdoch.edu.au/OnlineApplicationsHonours>

### **Course Structure - 24 credit points**

#### **Coursework - 3 credit points**

VLS683 Advanced Research Methods for Scientists - 3 points

MURDOCH: S1S-internal, S1S-external, S2N3-internal, S2N3-external

#### **Thesis - 21 credit points**

VLS550 Honours Thesis in Environmental Science - 21 points

MURDOCH: S1-internal, S1-external, S2-internal, S2-external, Y-internal, Y-external

---

## **EXERCISE PHYSIOLOGY**

#### **See also:**

Sports Science

---

## **SPORT AND EXERCISE SCIENCE + CLINICAL EXERCISE PHYSIOLOGY (BSPORTEXSC+GRADDIPCLINEXPHYS)**

Chiropractic

*Bachelor of Sport and Exercise Science (BSpportExSc) + Graduate Diploma in Clinical Exercise Physiology (GradDipClinExPhys)*

Course Codes: B1349

Duration: 4 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- This course is not available to International students studying in Australia. Students may be eligible for a packaged offer consisting of B1348 Bachelor of Sport and Exercise Science and G1073 Graduate Diploma in Clinical Exercise Physiology.

*Restriction: Enrolment is subject to restriction due to constraints on unit enrolments.*

Exercise Physiology is an allied health profession that focuses on the delivery of exercise, lifestyle, and behavioural modification programs for the prevention and management of chronic disease and injury. Graduates will also possess the skills required to work within Sports Medicine teams to rehabilitate athletes of all levels. Throughout the first three years of your degree you will develop both theoretical and practical skills within exercise physiology, biomechanics, skill acquisition, sport and exercise psychology as well as exercise programming and prescription. Within your final year you will refine these skills to enable you to provide physical activity and behavioural programs for clients with conditions as diverse as cardiovascular disease, diabetes, osteoporosis, depression, cancer, arthritis, respiratory disease and many others. Clinical skills are taught through evidence-based lecture and tutorials and applied in real life clinical settings.

The Murdoch Clinical Exercise Physiology program allows students to graduate with both an undergraduate (Bachelor of Sport and Exercise Science) and postgraduate (Graduate Diploma in Clinical Exercise Physiology) degree in four years following a single entry point. This program aligns with our currently accredited four-year undergraduate Exercise Physiology degree which allows accreditation through Exercise and Sports Science Australia as both an Accredited Exercise Scientist as well as an Accredited Exercise Physiologist.

This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

English competence.

**Employment Prospects:**

Health setting: hospitals and medical clinics. Private employment: self-employed practitioner

**Professional Accreditation:**

Exercise and Sports Science Australia (ESSA): Exercise Physiology

**Professional Recognition:**

Accredited Exercise Physiologist

**Additional Academic Progress Requirements:**

In order to continue in the integrated award (B SportExSci + Grad Dip Clinical Exercise Physiology), students must maintain a minimum GPA of 2.0 or course weighted average of 60. This will be reviewed following each semester after completing the first 24 points of study. Students failing to maintain a GPA > 2.0 or course weighted average of 60 will be transferred into B1348 Bachelor of Sport and Exercise Science.

**Main Research Areas:**

Exercise Physiology; Rehabilitation: Metabolic, Cardiovascular, Musculoskeletal, Neuromuscular

---

### **SPORT AND EXERCISE SCIENCE + PSYCHOLOGY (BSPORTEXSC+BSC)**

Chiropractic

Bachelor of Sport and Exercise Science (BSportExSc) + Bachelor of Science (BSc) in Psychology

Course Codes: B1352

Duration: 4 years full-time or part-time equivalent

#### **Availability:**

- Murdoch campus (internal)

Exercise Science and Psychology are complementary disciplines and the skills and knowledge within both will set up students to be successful in either discipline. For students who go on to work in Exercise Science area, the addition of Psychology will support them in implementing interventions with both individuals and groups. The combined degree also sets up students for progression through further study to become a registered Sport and Exercise Psychologist. As exercise has been found to be beneficial for many psychological conditions, students progressing onto other aspect of Psychology will be able to draw on their knowledge to improve their practice.

Throughout your studies in Bachelor of Sport and Exercise Science, you will develop skills and knowledge in exercise physiology, biomechanics, motor control and sport and exercise psychology. This will allow you to develop industry-relevant knowledge and skills to turn your passion for sport, exercise and health into a career that contributes to a healthier community. You will become competent in prescribing exercise, as well as assessing and improving the movement of both athletes the general population. In your third year, you will apply your knowledge and skills while gaining hands-on experience by participating in an industry practicum. Students in the combined degree will be provided an opportunity to gain skills directly related to Sports Psychology practice.

The Bachelor of Science in Psychology will equip students with broad theoretical and practical knowledge of psychology as well as job-ready skills in analysis, writing, research, communication, and teamwork. Psychology is a varied discipline encompassing many aspects of human behaviour from individual differences such as personality and cognitive ability, to emotions, motivations, memory, and social influences. The course will provide the foundations for a professional career as a Psychologist, but also offers a range of additional career options including health, and rehabilitation, community work, marketing, counselling, human resources, and research, to name just a few. At Murdoch, we teach the established basis of psychological knowledge and methods integrated with the latest developments and exciting new trends in the field.

#### **Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

English competence.

#### **Employment Prospects:**

Sports Teams, Gymnasiums, Peak Sports Bodies, Health Promotion, Local Government, Private Practice (with further study).

#### **Professional Accreditation:**

The course will be accredited by Exercise and Sports Science Australia at the level of Accredited Exercise Scientist.

The course will be accredited by the Australian Psychology Accreditation Council (APAC).

#### **Professional Recognition:**

The minimum qualification for provisional registration as a psychologist with the Psychology Board of Australia is a 4-year accredited sequence of study in psychology. This course is accredited by the Australian Psychology Accreditation Council and graduates will be eligible to apply for the BSc(Psychology) Honours or the Graduate Diploma in Psychology to obtain their 4th year. To be able to utilise the title of Sport and Exercise Psychologist students will be required to undertake a minimum of 2 additional years of study.

Graduates will be able to register with Exercise and Sports Science Australia as an Accredited Exercise Scientist. They will also be eligible to enter the Graduate Diploma in Clinical Exercise Physiology to become registered as an Accredited Exercise Psychologist.

## EXERCISE SCIENCE

### BACHELOR OF SPORT AND EXERCISE SCIENCE (BSPORTXSC)

Counselling

Bachelor of Sport and Exercise Science (BSPORTXSC)

Course Codes: B1348

Duration: 3 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)

Sport, and in particular Exercise Science, is a growing discipline within Australia and worldwide. You will develop skills and knowledge in exercise physiology, biomechanics, motor control and sport and exercise psychology. This will allow you to develop industry-relevant knowledge and skills to turn your passion for sport, exercise and health into a career that contributes to a healthier community. You will become competent in prescribing exercise, as well as assessing and improving the movement of both athletes the general population. In your third year, you will apply your knowledge and skills while gaining hands-on experience by participating in an industry practicum. Placements range from community gymnasiums to Professional sporting teams. This program aligns with our currently accredited three year undergraduate Exercise Science sequence which allows accreditation through Exercise and Sports Science Australia as an Accredited Exercise Scientist.

This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

#### Admission Requirements (Onshore):

As per normal undergraduate admission requirements.

English competence.

#### Employment Prospects:

Health setting: hospitals and medical clinics. Private employment:

self-employed practitioner

**Professional Accreditation:**

Exercise and Sports Science Australia (ESSA): Accredited Exercise Scientist

**Professional Recognition:**

Accredited Exercise Scientist

**Main Research Areas:**

Exercise Science, Biomechanics, Motor Control, Exercise Physiology, Sport Psychology, Sport Science

**SPORT AND EXERCISE SCIENCE HONOURS (BSPORTXSC(HONS))**

Chiropractic

Bachelor of Sport and Exercise Science Honours (BSPortExSc(Hons))

Course Codes: H1272

Duration: 1 year full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)

The aim of Honours is to extend the student's grasp of the principles and practice of their subject, and to develop the ability for independent research.

An Honours qualification of 2A is normally required for admission to higher research degree study.

**Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Credit average; subject to availability of a suitable supervisor and approval by the Dean of School.

English competence.

**Apply Online:**

Applications can be made online at <http://goto.murdoch.edu.au/OnlineApplicationsHonours>

## EXTRACTIVE METALLURGY

**See also:**  
Mineral Science

### CHEMICAL AND METALLURGICAL ENGINEERING HONOURS (BE(HONS))

Chemical and Metallurgical Engineering

*Bachelor of Engineering Honours (BE(Hons)) in Chemical and Metallurgical Engineering*

Course Codes: H1264

Duration: 4 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)
- Some units only: Murdoch campus (external)

Extractive Metallurgists are expected to understand the fundamental science of mineral extraction processes and engineering aspects, and operate in an engineering environment, working in the design, commissioning and operation of metallurgical plants.

This course provides training in the core areas of extractive metallurgy: mineral processing, pyrometallurgy, hydrometallurgy and process mineralogy. Units in process control and instrumentation, modelling and simulation, financial management and process economics, and environmental and operational management are included in this course.

This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

#### Admission Requirements (Onshore):

As per normal undergraduate admission requirements.

It is recommended that students entering this major to have completed WACE Chemistry 3A/3B, Physics 3A/3B and Mathematics: Specialist 3C/3D.

Applicants having other backgrounds will be considered for admission, but may need make-up units in first year, and therefore may need more than one year to complete Part I.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### Special Requirements:

Students enrolling in units that have a practical component must make allowance for on-campus attendance to complete the practical work. The on-campus sessions for external students are generally held in a one-week block for each unit; the dates are published in each unit guide.

All students will undertake at least 500 hours of approved work experience, plus complete a report outlining the experience gained, in order to complete the requirements of the degree. This work experience must be in a suitable engineering-related area and be approved by the Chemical and Metallurgical Engineering Academic Chair.

#### Employment Prospects:

The degree will allow graduates to work in the mineral resources and allied industries including oil and gas, broader chemical engineering field, mineral processing and process consulting. Specific job opportunities include Extractive/General Metallurgist; Mineral Processing Engineer; Hydrometallurgist; Pyrometallurgist;

Consulting Metallurgy/Mineral Processing; Research Metallurgy/Mineral Processing; Chemical/Process Engineer.

#### Professional Accreditation:

Recognised by the Australasian Institute of Mining and Metallurgy. Provisional accreditation by Engineers Australia.

#### Professional Recognition:

Graduates are eligible for professional membership of the Australasian Institute of Mining and Metallurgy.

#### Main Research Areas:

Hydrometallurgy, mineral processing, pyrometallurgy, process mineralogy, minerals chemistry.

### Course Prerequisites

#### Chemistry Background

Students may need to complete prerequisite units depending on their background in chemistry and their final scaled score in Chemistry ATAR within the past three years.

Chemistry ATAR with a final scaled score of 50 percent or more

OR

CHE140 Fundamentals of Chemistry - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous chemistry not stated above should consult the Academic Chair for clarification of their enrolment requirements.

#### Mathematics Background

Students may need to complete one prerequisite unit depending on their background in mathematics with either a final scaled score of 60 percent or more in Mathematics Methods ATAR (or Mathematics 3C/3D) or a C grade in Mathematics Specialist ATAR (or Mathematics: Specialist 3C/3D) within the past three years.

Students without this background will need to complete as a bridging unit:

MAS164 Fundamentals of Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous mathematics not stated above should consult the Academic Chair for clarification of their enrolment requirements.

#### Physics Background

Students may need to complete prerequisite units depending on their background in physics and their final scaled score in Physics 3A/3B within the past three years.

Physics 3A/3B with a final scaled score of 60 percent or more

OR

PEN120 General Physics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous physics studies not stated above should consult the Academic Chair for clarification of their enrolment requirements.

### Course Structure - 96 credit points

#### Part I - 24 credit points

##### Year 1 - 24 credit points

**FINANCE****FINANCE (BBUS)**

Business

*Bachelor of Business (BBus) in Finance*

Course Codes: B1318

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Kaplan Higher Education Institute and Kaplan Higher Education Academy (Singapore) ['KAPLAN-SGP'] (internal) (language of instruction: English)
- Murdoch University Dubai (UAE) ['DUBAI-ISC'] (internal) (language of instruction: English)

**Parent Major:**

Bachelor of Business

Students doing the Finance major will cover a broad range of areas in corporate finance, treasury management, investment analysis and international finance. These are designed to equip them with the necessary skills to obtain employment in such areas as stockbroking, insurance and banking as well as preparing them with the skills for careers in finance in public and private sector organisations.

Many issues relevant to the corporate financial manager will be examined including capital investment decisions, cost of capital, sources of funds, dividend policy, working capital management, efficient capital markets, portfolio management, the use of options, futures, forward exchange contracts and other derivative financial instruments. Students will also receive an introduction to international finance. A fourth year of study is available in the form of an honours year.

A Bachelor of Business provides a broad understanding of individual, organisational and societal issues. You will have the practical skills to identify business opportunities, analyse problems and implement solutions and you will be able to demonstrate a

knowledge of business principles across key functional areas. You will have depth of knowledge in one or more business disciplines: accounting, banking, business law, economics, finance, hospitality and tourism management, human resources management, international business, management, and marketing.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

**Admission Requirements (Offshore):**

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Employment Prospects:**

Murdoch Business graduates are equipped with the necessary skills to obtain employment in such areas as stockbroking, insurance and banking. They will also acquire skills for careers in finance in public and private sector organisations.

**Professional Recognition:**

Graduates are potentially eligible for associate membership of the Financial Services Institute of Australasia (FINSIA). For advice on specific requirements students should contact FINSIA directly.

**Recommended Double Majors:**

Accounting; Banking; Hospitality and Tourism Management; Human Resources Management; International Business; Management; Marketing

## FINANCE (BBUS)

Economics

Bachelor of Business (BBus) in Finance

Course Codes: B1367

Duration: 3 years available both full-time and part-time

### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

### Parent Major:

Bachelor of Business

Finance is a key part of an organisation's success. Finance is required to get businesses started, maintain business processes, and improve and expand a business through strategic use of financial instruments. This major equips students with the knowledge and skills needed to become an effective professional in the finance sector. It exposes them to important financial concepts in the broad areas of corporate finance, treasury management, investment analysis and international finance, focusing on issues relevant to financial managers such as capital investment decisions, dividend policy, portfolio management and derivative financial instruments. These financial concepts will be taught through a range of perspectives including the social, ethical, environmental and global, providing students with essential skills in critical thinking and principled judgment. Equipped with these skills and understandings, students will be prepared for careers in areas such as stockbroking, insurance, banking and finance departments of organisations. A fourth year of study is available in the form of an honours year.

A Bachelor of Business provides a broad understanding of individual, organisational and societal issues. You will have the practical skills to identify business opportunities, analyse problems and implement solutions and you will be able to demonstrate a knowledge of business principles across key functional areas. You will have depth of knowledge in one or more business disciplines: accounting, banking, business law, finance, hospitality and tourism management, human resources management, international business, management and marketing.

English competence.

### Employment Prospects:

## FINANCE (BCOM)

Business

*Bachelor of Commerce (BCom) in Finance*

Course Codes: B1359

Duration: 3 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

#### Parent Major:

Bachelor of Commerce

Finance is a key part of an organisation's success. Finance is required to get businesses started, maintain business processes, and improve and expand a business through strategic use of financial instruments. This major equips students with the knowledge and skills needed to become an effective professional in the finance sector. It exposes them to important financial concepts in the broad areas of corporate finance, treasury management, investment analysis and international finance, focusing on issues relevant to financial managers such as capital investment decisions, dividend policy, portfolio management and derivative financial instruments. These financial concepts will be taught through a range of perspectives including the social, ethical, environmental and global,

providing students with essential skills in critical thinking and principled judgment. Equipped with these skills and understandings, students will be prepared for careers in areas such as stockbroking, insurance, banking and finance departments of organisations. A fourth year of study is available in the form of an honours year.

A Murdoch Bachelor of Commerce graduate is future enabled with a global mindset. Murdoch's Commerce degree provides you with the knowledge and skills to succeed in an ever changing world. The degree is workplace-focused, enabling you to develop your critical thinking and creative problem solving skills by working on real organisational projects, learning from professionals and through a range of internship opportunities.

The Bachelor of Commerce offers ten majors across a broad range of industry. The course is flexible allowing students to choose up to two majors, a major and a two minors or a major, a minor and a range of electives. Majors include; accounting, banking, business law, finance, hospitality and tourism management, human resources management, international business, management, global business and politics, and marketing.

Students studying a BCom may be eligible to enrol in Murdoch University's MasterClass Program. MasterClass gives students the opportunity to complete a postgraduate qualification whilst studying for an undergraduate degree. To participate in the MasterClass Program students must have completed 1 year of a degree (24 credit points), and maintained a GPA of 3.0 or more (or equivalent). In addition, to the academic requirements students may be required to take part in a competitive selection process.

#### Admission Requirements (Onshore):

Minimum ATAR of 75

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### Employment Prospects:

Murdoch Business graduates are equipped with the necessary skills to obtain employment in such areas as stockbroking, insurance and banking. They will also acquire skills for careers in finance in public and private sector organisations.

#### Professional Recognition:

Graduates are potentially eligible for associate membership of the Financial Services Institute of Australasia (FINSIA). For advice on specific requirements students should contact FINSIA directly.

#### Recommended Double Majors:

Accounting; Banking; Business Law; Global Business and Politics; Hospitality and Tourism Management; Human Resources Management; International Business; Management; Marketing

#### Excluded Majors:

Finance

### Course Structure - 72 credit points

Where a course core unit is listed in a major structure, an elective unit may be required. Please contact your Student Advisor for further advice

**FINANCE HONOURS (BBus(HONS))**

College of Arts, Business, Law and Social Sciences

Bachelor of Business Honours (BBus(Hons)) in Finance

Course Codes: H1255

Duration: 1 year full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)

The aim of Honours is to extend the student's grasp of the principles and practice of their subject, and to develop the ability for independent research.

An Honours qualification of 2A is normally required for admission to higher research degree study.

**Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average in units relating to the planned Honours study and a Distinction average overall. Subject to availability of a suitable supervisor and approval by the Dean of School.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Apply Online:**

Applications can be made online at  
<http://goto.murdoch.edu.au/OnlineApplicationsHonours>

**Course Structure - 24 credit points****Coursework - 12 credit points****Core Units - 9 credit points**

## FORENSIC BIOLOGY

### See also:

Biomedical Science  
Molecular Biology

## FORENSIC BIOLOGY AND TOXICOLOGY (BSC)

Forensic Science

*Bachelor of Science (BSc) in Forensic Biology and Toxicology*

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Some units only: Murdoch campus (external)

### Parent Major:

Bachelor of Science (Non-IT Majors)

Forensic Biology and Toxicology is concerned with the application of the techniques of molecular biology, biochemistry and analytical chemistry to the fight against crime. This major provides in-depth study of modern molecular genetics, including practical exposure to the techniques associated with human DNA profiling. The major also provides hands-on experience in modern analytical techniques relevant to the detection of legal and illicit drugs, alcohol and homicidal poisons. Illustrative case histories are used extensively throughout the course.

Training is provided by forensic science professionals in forensic pathology; the role of forensic anthropology in human identification; witness imaging; forensic toxicology and in forensic botany with an emphasis on the gathering of forensic evidence and its presentation in Court. Students will receive instruction in the preparation of expert testimony reports relevant to a murder trial. They will be required to deliver the testimony in a moot court and be subjected to cross-examination by Barristers from the DPP.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

### Admission Requirements (Onshore):

As per normal undergraduate admission requirements. There are no prerequisites for admission but it is highly desirable for students to have undertaken ATAR: Chemistry or WACE: Chemistry 3A/3B and at least ATAR: Mathematics Applications or TEE: Discrete Mathematics or WACE: Mathematics 2C/2D. Students not undertaking these recommended subjects will need to take additional units in their first year at university.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### Special Requirements:

Students undertaking units in Forensic Biology and Toxicology will not be required to kill any vertebrate animal but they will be required to work with fresh tissues from dead animals in certain units. Students will also be exposed to graphic images of homicidal injuries and to human cadavers.

### Employment Prospects:

The establishment of a national DNA database and the increasing emphasis on the monitoring of blood and urine samples for residual alcohol and drugs has seen a significant increase in employment opportunities for forensic biologists and toxicologists, particularly in government Health Departments and in analytical laboratories. The techniques of genetic analysis and analytical

chemistry are highly transportable and graduates can also expect to obtain employment in hospitals, research organisations such as the CSIRO and in medical research centres, agriculture departments, food processing companies or in the pharmaceutical industry. Graduates have found employment as Crime Scene Officers with Police services and as Forensic Biologists with Health Departments. For those wishing to become Crime Scene Officers or Forensic Investigators with police jurisdictions, graduates are strongly recommended to progress to the Master of Forensic Science (Professional Practice) after completion of the Bachelor degree.

### Professional Recognition:

Students are encouraged to combine Forensic Biology and Toxicology with another major such as Biomedical Science, Clinical Laboratory Science, Molecular Biology, Criminology or Chemistry so as to complete a double major. Students who complete the double major in Forensic Biology and Toxicology and Chemistry are eligible for membership of the Royal Australian Chemical Institute (RACI).

### Recommended Double Majors:

Biomedical Science; Chemistry; Clinical Laboratory Science; Genetics and Molecular Biology

### Excluded Minors:

Forensic Biology; Molecular Biology

### Main Research Areas:

Medical, forensic and agricultural genetic analysis; wildlife forensics; ancient DNA reconstruction; crime scene contamination; forensic entomology; molecular toxicology and drug analysis; blood pattern analysis and fingerprinting.

## Major Prerequisites

### Chemistry Background

Students who achieved a final scaled score of 50 percent or more in Chemistry 3A/3B or Chemistry ATAR within the past three years should seek an exemption from their Academic Chair for CHE140 Fundamentals of Chemistry. Students who have completed previous chemistry not stated above should also consult their Academic Chair for clarification of their enrolment requirements.

## Course Structure - 72 credit points

### Part I - 24 credit points

#### Year 1 - 24 credit points

##### Transition Unit - 3 credit points

BSC100 Building Blocks for Science Students - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

##### Breadth Unit for Degree - 3 credit points

BSC150 What is Science? - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

##### Core Units - 15 credit points

CHE103 Introduction to Forensic Science - 3 points  
MURDOCH: S1-internal

CHE140 Fundamentals of Chemistry - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

BIO152 Cell Biology - 3 points  
MURDOCH: S2-internal

CHE144 Foundations of Chemistry - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

MAS183 Statistical Data Analysis - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

##### General Electives - 3 credit points

Select from any 100-level units offered by the University, subject

to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

## Part II - 48 credit points

### University-Wide Breadth Units - 6 credit points

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

### Year 2 - 21 credit points

#### Research Skills Unit - 3 credit points

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

#### For Primary Major in Cognitive Neuroscience and Health Psychology

BSC201 Psychology: Measurement, Design and Analysis - 3 points  
MURDOCH: S1-internal

#### For Primary Majors in the Health Sciences, as listed

Primary Major in Chiropractic Science, Exercise Physiology, Movement Science, or Sport and Health Science:

BSC206 Introduction to Research Methodology and Evidence Based Practice - 3 points  
MURDOCH: S2-internal

#### For All Other Primary Majors excluding Information Technology

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

### Core Units - 9 credit points

BIO282 Molecular Biology - 3 points  
MURDOCH: S1-internal

BIO247 Biochemistry - 3 points  
MURDOCH: S2-internal

BMS213 Forensic Anatomy and Anthropology - 3 points  
MURDOCH: S1-internal

### General Electives - 9 credit points

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

### Year 3 - 21 credit points

#### Research Skills Unit - 3 credit points

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

#### For Primary Major in Cognitive Neuroscience and Health Psychology

BSC302 Advanced Quantitative Research Methods - 3 points  
MURDOCH: S2-internal

#### For Primary Majors in the Health Sciences, as listed

Primary major in Chiropractic Science, Movement Science, Sport

and Health Science:

BSC306 Research and Evidence Based Practice - 3 points  
MURDOCH: S1-internal

#### For All Other Primary Majors excluding Information Technology

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

### Core Units - 9 credit points

BIO315 Bodies of Evidence - 3 points  
MURDOCH: S2-internal

BIO359 Forensic DNA Analysis - 3 points  
MURDOCH: S1-internal

BIO367 Forensic Toxicology - 3 points  
MURDOCH: S2-internal

### General Electives - 9 credit points

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

## FORENSIC BIOLOGY AND TOXICOLOGY HONOURS (BSC(HONS))

College of Science, Health, Engineering and Education

*Bachelor of Science Honours (BSc(Hons)) in Forensic Biology and Toxicology*

Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

The aim of the Honours year is to extend the student's grasp of the principles and practice of their subject, to develop ability for independent research, and to facilitate their entry into industry employment.

An Honours qualification of at least 2A is normally required for admission to higher research degree study.

### Admission Requirements (Onshore):

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Credit average (GPA 2); subject to availability of a suitable supervisor and approval by the School Dean.

Students interested in enrolling in Honours are advised to contact the Academic Chair before application to discuss supervision of their potential research project.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### Apply Online:

Applications can be made online at <http://goto.murdoch.edu.au/OnlineApplicationsHonours>

## Course Structure - 24 credit points

### Coursework - 3 credit points

VLS683 Advanced Research Methods for Scientists - 3 points

MURDOCH: S1S-internal, S1S-external, S2N3-internal, S2N3-external

### Thesis - 21 credit points

VLS520 Honours Thesis in Forensic Biology and Toxicology - 12 points

MURDOCH: S1-internal, S1-external, S2-internal, S2-external, Y-internal, Y-external

## GAMES ART AND DESIGN

### GAMES ART AND DESIGN (BCRMEDIA)

Communications

*Bachelor of Creative Media (BCrMedia) in Games Art and Design*

Course Codes: B1343

Duration: 3 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)

### Parent Major:

Bachelor of Creative Media

The Bachelor of Creative Media in Games Art and Design combines creative processes and concepts with the latest industry standard tools, techniques, and workflows to create games for a growing global market. The course is based on industry best-practices and work-related learning experiences that enable graduates to work across a broad range of disciplines within the international games industry. Taught by international games production experts, the course provides students with multiple pathways to a games industry career: Production Art for 3D modelling, animation, and texture painting; Concept Art for 2D illustration and character design; and Game Design for virtual world construction, level design, and high-concept gameplay development.

In the Bachelor of Creative Media you will develop a broad understanding of your field and the skills you need to be successful in the creative media industries. The degree blends study in the creative disciplines with work-integrated learning. As a creative media graduate, you will understand the commercial context and changing nature of the creative industries, and your role as a creative professional within them. You will have the opportunity to build a portfolio of creative works throughout your degree, and showcase your creative potential.

### Admission Requirements (Onshore):

As per normal undergraduate admission requirements.

English competence. Students demonstrating English competence via IELTS need an overall score of 6.0 with no individual band less than 6.0.

### Employment Prospects:

Concept Artist, Technical Artist, Animator, Character Modeller, Game Designer, Environment Modeller, Production Artist, Matte and Texture Painter, Game-Play Tester, Lighting Artist, Level Designer.

### Recommended Double Majors:

Graphic Design

### Main Research Areas:

Games Art and Design, Games Theory, Graphic Design

## Course Structure - 72 credit points

### Year 1 - 24 credit points

**Murdoch Spine: Career Learning - 3 credit points**

MSP100 Career Learning: Managing Your Career - 3 points  
MURDOCH: S1-external, S2-external

### **Course Core Unit - 3 credit points**

CRE100 Foundation in Creative Media - 3 points  
MURDOCH: S1-internal, S2-internal

### **Course Specified Electives - 6 credit points**

Specified electives list indicating recommendations for particular majors where appropriate. Choose two units from this list:

### **Course Specified Electives - 6 credit points**

Choose two units from this list, excluding those units in your major:

SCR102 Introduction to Documentary - 3 points  
MURDOCH: S2-internal  
(recommended for Screen Production)

RAD105 Introduction to Radio - 3 points  
MURDOCH: S2-internal  
(recommended for Screen Production or Sound)

COM104 Digital Newsgathering and Reporting - 3 points  
MURDOCH: S2-internal  
(recommended for Screen Production)

COM109 Introduction to Digital Media Skills - 3 points  
MURDOCH: S1-internal, S2-internal  
(recommended for Graphic Design)

GAD172 Drawing - 3 points  
MURDOCH: S1-internal, S2-internal  
(recommended for Games Art and Design)

SCR100 Introduction to the Screen - 3 points  
MURDOCH: S1-internal

SCR101 Screen Production 1 - 3 points  
MURDOCH: S1-internal, S2-internal

SOU169 Introduction to Sound Studies - 3 points  
MURDOCH: S1-internal

SOU101 Introduction to Audio Production - 3 points  
MURDOCH: S2-internal

PHO101 Digital Imaging - 3 points  
MURDOCH: S2-internal

GRD118 Introduction to Graphic Design - 3 points  
MURDOCH: S2-internal

GAD154 Introduction to Games Art and Design - 3 points  
MURDOCH: S1-internal, S2-internal

GAD164 3D Modelling - 3 points  
MURDOCH: S1-internal, S2-internal

### **Major Core Units - 6 credit points**

GAD154 Introduction to Games Art and Design - 3 points  
MURDOCH: S1-internal, S2-internal

GAD164 3D Modelling - 3 points  
MURDOCH: S1-internal, S2-internal

### **General Electives or Second Major - 6 credit points**

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

## **Year 2 - 24 credit points**

### **Murdoch Spine: Career Learning - 3 credit points**

Select from the following:

MSP200 Building Enterprise Skills - 3 points

MURDOCH: S1-external, S2-external

MSP201 Real World Learning - 3 points  
MURDOCH: S1-external, S2-external, SUM-external, W-external, Y-external

COM203 Consulting and Freelancing - 3 points  
MURDOCH: S2-internal

CRE301 Client Consultancy - 3 points  
MURDOCH: H-internal, H-external, S1-internal, S1-external, S2-internal, S2-external, SUM-internal, SUM-external, W-internal, W-external, Y-internal, Y-external

CRE325 Creative Media Professional Placement - 3 points  
MURDOCH: S1-internal, S2-internal, SUM-internal, W-internal

COM313 Campus Radio - 3 points  
MURDOCH: S1-internal

### **Course Specified Electives - 3 credit points**

Specified electives list indicating recommendations for particular majors where appropriate.  
Choose one unit from this list in either year 2 or year 3:

SCR222 Directing and Producing - 3 points  
<span data-type="offering" data-unit="SCR222">MURDOCH: S2-internal (closed)</span>  
(recommended for Screen Production)

RAD374 Popular Music - 3 points  
MURDOCH: S2-internal  
(recommended for Screen Production; recommended for Sound)

PHO202 Photo Documentary - 3 points  
MURDOCH: S2-internal  
(recommended for Screen Production)

GAD232 Critical Games, Play and Design - 3 points  
MURDOCH: S2-internal  
(recommended for Graphic Design)

GAD261 Games Art - 3 points  
MURDOCH: S1-internal

GAD241 Animation - 3 points  
MURDOCH: S1-internal

GAD210 Technical Art and Games Engine Scripting - 3 points  
MURDOCH: S2-internal

GRD263 Web Design - 3 points  
MURDOCH: S1-internal

GRD201 Publication Design - 3 points  
MURDOCH: S2-internal

GRD202 Brand and Identity Design - 3 points  
MURDOCH: S1-internal

PHO203 Photography 2 - 3 points  
MURDOCH: S1-internal

PHO204 Visual Literacy - 3 points  
MURDOCH: S1-internal

SCR200 Writing for the Screen - 3 points  
MURDOCH: S1-internal

SCR201 Screen Production 2 - 3 points  
MURDOCH: S1-internal

SCR204 Documentary Production - 3 points  
MURDOCH: S2-internal

### **Major Core Units - 6 credit points**

GAD261 Games Art - 3 points  
MURDOCH: S1-internal

GAD232 Critical Games, Play and Design - 3 points  
MURDOCH: S2-internal

**Major Specified Elective - 3 credit points**

Select from the following:

**Concept Art AND Modelling and Animation Streams**

GAD241 Animation - 3 points  
MURDOCH: S1-internal

**Games Design Stream**

GAD210 Technical Art and Games Engine Scripting - 3 points  
MURDOCH: S2-internal

**General Electives or Second Major - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Year 3 - 24 credit points****Murdoch Spine: Career Learning - 3 credit points**

Select from the following:

MSP201 Real World Learning - 3 points  
MURDOCH: S1-external, S2-external, SUM-external, W-external, Y-external

CRE312 Creative Media Projects 2 - 3 points  
MURDOCH: S2-internal

**Course Core Units - 3 credit points**

CRE311 Creative Media Projects 1 - 3 points  
MURDOCH: S1-internal

**Major Core Units - 3 credit points**

GAD361 VR, Platforms, and Publishing - 3 points  
MURDOCH: S2-internal

**Major Specified Electives - 6 credit points**

Select all units from one of the streams below:

**Concept Art Stream**

GAD373 Concept Design and Illustration - 3 points  
MURDOCH: S2-internal

GAD374 Digital Painting - 3 points  
MURDOCH: S1-internal

**Games Design Stream**

GAD375 Games Design and Prototyping - 3 points  
MURDOCH: S1-internal

GRD379 Mobile App and Interaction Design - 3 points  
MURDOCH: S1-internal

**Modelling and Animation Stream**

GAD363 3D Sculpting - 3 points  
MURDOCH: S1-internal

GAD365 Advanced 3D Character Animation - 3 points  
MURDOCH: S2-internal

**General Electives or Second Major - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**GAMES SOFTWARE DESIGN AND PRODUCTION****See also:**

Information Technology

**GAMES SOFTWARE DESIGN AND PRODUCTION (BSC)**

Information Technology

Bachelor of Science (BSc) in Games Software Design and Production

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)
- Kaplan Higher Education Institute and Kaplan Higher Education Academy (Singapore) ['KAPLAN-SGP'] (internal) (language of instruction: English)

**Parent Major:**

Bachelor of Science (IT Majors)

The Games Software Design and Production major prepares and provides students with a thorough understanding of the theory of games software design, development and processes involved in the production of computer, mobile and video games. The required topics include but are not limited to games software design, games mechanics, games software development and production, and interaction design. Students will gain practical experience in the games design and development processes using games development tools.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

There may be some reduction in choice of units if completing this course in the external mode. Individual units may require access to specific nominated software.

**Employment Prospects:**

The major equips students with a range of problem solving and professional skills which are essential for working in the games (or visualisation) industry. The outcomes of the major can be aligned with Software & Apps Programmer, Systems Analyst, and Analyst Programmer roles listed in the ACS Common ICT Job Profiles & Indicators of Skills Mobility document.

**Professional Recognition:**

This course is accredited at the Professional level with the Australian Computer Society.

**Recommended Double Majors:**

Business Information Systems; Computer Science; Cyber Security and Forensics; Games Technology; Internetworking and Network Security; Mobile and Web Application Development

**Excluded Minors:**

Games Design

## Course Structure - 72 credit points

### Part I - 24 credit points

#### Year 1 - 24 credit points

##### Transition Unit - 3 credit points

BSC100 Building Blocks for Science Students - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

OR (for Kaplan and Dubai students only)  
BBS100 Academic Skills for Business - 3 points  
MURDOCH: S1-internal, S1-external

##### Breadth Unit for Degree - 3 credit points

Select from the following:

BSC150 What is Science? - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

MSP100 Career Learning: Managing Your Career - 3 points  
MURDOCH: S1-external, S2-external

##### Core Units - 15 credit points

ICT167 Principles of Computer Science - 3 points  
MURDOCH: S2-internal, S2-external  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

ICT159 Foundations of Programming - 3 points  
MURDOCH: S1-internal, S1-external

ICT169 Foundations of Data Communications - 3 points  
MURDOCH: S2-internal, S2-external

MAS162 Foundations of Discrete Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

ICT170 Foundations of Computer Systems - 3 points  
MURDOCH: S2-internal, S2-external

##### General Electives - 3 credit points

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

##### Recommended General Electives

ICT101 Introduction to 3D Graphics and Animation - 3 points  
MURDOCH: S2-internal, S2-external

OR

ICT105 Introduction to Information Technology - 3 points  
Not available this year

### Part II - 48 credit points

#### University-Wide Breadth Unit - 3 credit points

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

#### Year 2 - 21 credit points

##### Research Skills Unit - 3 credit points

BSC203 Introduction to ICT Research Methods - 3 points  
MURDOCH: S1-internal, S1-external  
KAPLAN-SGP: TJA-internal, TSA-internal

##### Core Units - 9 credit points

ICT284 Systems Analysis and Design - 3 points  
MURDOCH: S1-internal, S1-external

KAPLAN-SGP: TJA-internal, TSA-internal

ICT288 Virtual Realities and Games Software Design - 3 points

MURDOCH: S1-internal, S1-external  
KAPLAN-SGP: TJA-internal, TSA-internal

ICT285 Databases - 3 points  
MURDOCH: S2-internal, S2-external  
KAPLAN-SGP: TMA-internal

##### General Electives - 9 credit points

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

#### Year 3 - 24 credit points

##### Research Skills Unit - 3 credit points

BSC301 Applied Research Skills in ICT - 3 points  
MURDOCH: S1-internal, S1-external  
KAPLAN-SGP: TMA-internal

##### Core Units - 12 credit points

ICT396 User Interface Design - 3 points  
MURDOCH: S1-internal, S1-external  
KAPLAN-SGP: TMA-internal

ICT367 Virtual Realities and Games Software Production - 3 points  
KAPLAN-SGP: TSA-internal

ICT365 Software Development Frameworks - 3 points  
MURDOCH: S2-internal, S2-external  
KAPLAN-SGP: TMA-internal

ICT302 IT Professional Practice Project - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

##### General Electives - 9 credit points

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

##### Recommended General Electives

ICT319 Intelligent Systems - 3 points  
MURDOCH: S2-internal, S2-external  
KAPLAN-SGP: TMA-internal

## GAMES SOFTWARE DESIGN AND PRODUCTION HONOURS (BSC(HONS))

College of Science, Health, Engineering and Education

Bachelor of Science Honours (BSc(Hons)) in Games Software Design and Production

Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

##### Availability:

- Murdoch campus (internal)

The aim of Honours is to provide training in research and the development of higher-level skills. The student's grasp of the principles and practice of their subject will be extended and they will develop ability for independent research.

Successful completion of the Honours course is required for admission to research degrees (i.e. Masters or PhD degrees).

**Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average; subject to availability of a suitable supervisor and approval by the Associate Dean (Learning and Teaching) of the School.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Apply Online:**

Applications can be made online at <http://goto.murdoch.edu.au/OnlineApplicationsHonours>

**Course Structure - 24 credit points****Coursework - 12 credit points**

ICT615 Information Technology Research Methods - 3 points  
MURDOCH: S1-internal

ICT576 Information Technology Literature Review - 3 points  
MURDOCH: S1-internal, S2-internal

Plus another two 500-level IT units approved by the Academic Chair - 3 points each

**Thesis - 12 credit points**

ICT550 Honours Thesis in Games Software Design and Production - 12 points

MURDOCH: H-internal, H-external, S1-internal, S1-external, S2-internal, S2-external, Y-internal, Y-external

**GAMES TECHNOLOGY****See also:**

Information Technology

**GAMES TECHNOLOGY (BSC)**

Information Technology

*Bachelor of Science (BSc) in Games Technology*

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

**Parent Major:**

Bachelor of Science (IT Majors)

The Games Technology major prepares and provides students with a thorough understanding of the theory, design and programming techniques required for developing games, simulation and visualisation software applications. The required topics include but are not limited to introduction to programming; advanced programming; game engine design and construction; game mechanics; graphics programming; virtual environments; mobile application and multi-user game development; advanced game production using software development tools.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band

less than 6.0.

**Employment Prospects:**

The major equips students with a broad range of technical, problem solving and professional skills which are essential for working in not just in the games (or visual simulations) but the wider Information Technology industry. The outcomes of the major are aligned with Software & Apps Programmer, Systems Analyst, Analyst Programmer, ICT Consultant, ICT Architect and Software Engineer roles listed in the Australian Computer Society's Common ICT Job Profiles & Indicators of Skills Mobility document.

**Professional Recognition:**

This course is accredited at the Professional level with the Australian Computer Society.

**Recommended Double Majors:**

Business Information Systems; Computer Science; Cyber Security and Forensics; Games Software Design and Production; Internetworking and Network Security; Mobile and Web Application Development

**Course Structure - 72 credit points****Part I - 24 credit points****Year 1 - 24 credit points****Transition Unit - 3 credit points**

BSC100 Building Blocks for Science Students - 3 points

MURDOCH: S1-internal, S1-external, S2-internal, S2-external

OR (for Kaplan and Dubai students only)

BBS100 Academic Skills for Business - 3 points

MURDOCH: S1-internal, S1-external

**Breadth Unit for Degree - 3 credit points**

Select from the following:

BSC150 What is Science? - 3 points

MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

#### Recommended General Electives

ICT319 Intelligent Systems - 3 points  
MURDOCH: S2-internal, S2-external

## GAMES TECHNOLOGY HONOURS (BSC(HONS))

College of Science, Health, Engineering and Education

Bachelor of Science Honours (BSc(Hons)) in Games Technology

Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)

The aim of Honours is to provide training in research and the development of higher-level skills. The student's grasp of the principles and practice of their subject will be extended and they will develop ability for independent research.

Successful completion of the Honours course is required for admission to research degrees (i.e. Masters or PhD degrees).

#### Admission Requirements (Onshore):

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average; subject to availability of a suitable supervisor and approval by the Associate Dean (Learning and Teaching) of the School.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### Apply Online:

Applications can be made online at  
<http://goto.murdoch.edu.au/OnlineApplicationsHonours>

## Course Structure - 24 credit points

### Coursework - 12 credit points

ICT615 Information Technology Research Methods - 3 points  
MURDOCH: S1-internal

ICT576 Information Technology Literature Review - 3 points  
MURDOCH: S1-internal, S2-internal

Plus another two 500-level IT units approved by the Academic Chair - 3 points each

### Thesis - 12 credit points

ICT570 Honours Thesis in Games Technology - 12 points  
MURDOCH: H-internal, H-external, S1-internal, S1-external, S2-internal, S2-external, Y-internal, Y-external

## GLOBAL POLITICS AND POLICY

### GLOBAL BUSINESS AND POLITICS (BCOM)

Global Studies

Bachelor of Commerce (BCom) in Global Business and Politics

Course Codes: B1359

Duration: 3 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

#### Parent Major:

Bachelor of Commerce

An understanding of business and its interaction with domestic and global political environments is essential in preparing business graduates with the knowledge and skills to manage the complex challenges of a globalised economy. In this major, students will explore how global and domestic politics and public policy shape the decisions and strategies of actors in the business and non-profit sectors. Students will gain specialised knowledge of domestic and transnational business and its political economic environment along with international management and negotiation practices. The major equips students with specialised analytical skills, create evidence-based arguments, and the knowledge to think and operate across diverse social, cultural, political and business contexts.

A Murdoch Bachelor of Commerce graduate is future enabled with

a global mindset. Murdoch's Commerce degree provides you with the knowledge and skills to succeed in an ever changing world. The degree is workplace-focused, enabling you to develop your critical thinking and creative problem solving skills by working on real organisational projects, learning from professionals and through a range of internship opportunities.

The Bachelor of Commerce offers ten majors across a broad range of industry. The course is flexible allowing students to choose up to two majors, a major and a two minors or a major, a minor and a range of electives. Majors include; accounting, banking, business law, finance, hospitality and tourism management, human resources management, international business, management, global business and politics, and marketing.

Students studying a BCom may be eligible to enrol in Murdoch University's MasterClass Program. MasterClass gives students the opportunity to complete a postgraduate qualification whilst studying for an undergraduate degree. To participate in the MasterClass Program students must have completed 1 year of a degree (24 credit points), and maintained a GPA of 3.0 or more (or equivalent). In addition, to the academic requirements students may be required to take part in a competitive selection process.

#### **Admission Requirements (Onshore):**

As per normal undergraduate admission requirements, minimum ATAR of 70 is required.

#### **Admission Requirements (Offshore):**

As per normal undergraduate admission requirements

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Employment Prospects:**

Business (Domestic and Global); Political and Policy (Domestic and Global); Business Consultancies; Foreign Affairs and International Governmental Organisations

#### **Excluded Majors:**

Global Politics and Policy

#### **Main Research Areas:**

Business, Business Governance, Business Ethics, Political Science, Public Policy, Public Administration, Global Governance, International Management, International Negotiations.

#### **Mobility:**

The Major offers the potential for a number of mobility options. Existing programs include the ACICIS Professional Practicums (offered in Summer) and ACICIS semester long programs such as those in International Relations (Bandung) and Indonesian Business, Law and Society (Yogyakarta) - all of which are eligible for New Colombo Plan funding. Together, these options strengthen the regional expertise which is a distinctive feature of the major, and which is a highly sought after graduate attribute of key employers, such as the Australian Federal Police.

## GLOBAL POLITICS AND POLICY (BA)

Global Studies

*Bachelor of Arts (BA) in Global Politics and Policy*

Course Codes: B1356

Duration: 3 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Some units only: Murdoch campus (external)

### Parent Major:

Bachelor of Arts

The Global Politics and Policy major is for students who want to actively participate in shaping the local and global forces that affect political institutions and the policies they produce. This major will enable students to take up effective roles in local, state, national and international political institutions by developing their deep understanding of how local and global forces affect political institutions, and encouraging them to apply their knowledge to real-world political and policy issues.

The Bachelor of Arts at Murdoch is a degree unlike any other in Australia. It embraces new directions in teaching and practice-based learning to train the thinkers and researchers of the 21st century. So many of the biggest and most vital issues we face today are about human society and the human condition. How can we understand who we are, how we want to live, or what kind of society we want to create, without the insights, knowledge and skills provided by the humanities? Our degree is different because we teach our students to put these into practice in a way that is recognised and valued by employers. Our graduates are empowered to be the agile and creative thinkers who will thrive in a rapidly changing world. They are able to think creatively, communicate effectively, manage projects, exercise highly-developed analytical and interpersonal skills, and they possess an in-depth knowledge of contemporary societal issues and trends. These are professional skills which are recognised and valued universally. In short, you can study what you love and get a job too!

### Admission Requirements (Onshore):

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### Special Requirements:

There may be a reduction in choice of units if completing this course in the external mode.

### Employment Prospects:

Working as or Advising Ministers, Members of Parliament, Officeholders in Political Parties, Political Candidates, Lobbying, Policymaking, Policy Consultancies (public and private), Aid and Non-governmental Organisations

### Excluded Majors:

Global Business and Politics

### Excluded Minors:

Global Politics; Public Policy

**GRAPHIC DESIGN****GRAPHIC DESIGN (BCRMEDIA)**

Creative Media, Arts and Design

*Bachelor of Creative Media (BCrMedia) in Graphic Design*

Course Codes: B1343

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)

**Parent Major:**

Bachelor of Creative Media

The Bachelor of Creative Media in Graphic Design is an industry focused program that integrates innovative design strategy with practical skills for a range of print, digital media and service-contexts. Taught by staff with extensive industry experience, the course promotes design thinking and provides a strong work-related learning experience that prepares students for a range of print (branding and publication design), digital (web, mobile app,) human centred design (user experience and service design) sectors. In the first year students will engage core hands on skills in visual problem solving and authentic graphic design production techniques through a range of industry relevant projects. Second year focuses on professional projects that extend graphic design skills in the context of commercial standards and expectations. In the final year students will engage a range of client driven work in order to develop a portfolio encompassing both print, digital and service centred design environments, for a dynamic and rapidly changing global industry.

In the Bachelor of Creative Media you will develop a broad understanding of your field and the skills you need to be successful in the creative media industries. The degree blends study in the creative disciplines with work-integrated learning. As a creative media graduate, you will understand the commercial context and changing nature of the creative industries, and your role as a creative professional within them. You will have the opportunity to build a portfolio of creative works throughout your degree, and showcase your creative potential.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

English competence. Students demonstrating English competence via IELTS need an overall score of 6.0 with no individual band less

than 6.0.

**Employment Prospects:**

Graduates are particularly suited for careers in all aspects of Graphic Design including publication and prepress design, branding and identity design, information design, digital design, web design and/or development, mobile app design, interaction design, user experience design, interface design, and digital content development and service design.

**Professional Accreditation:**

Games Art and Design  
Strategic Communication

**Professional Recognition:**

Graduates are eligible to apply for Associate Status with the Design Institute of Australia (DIA) and the Australian Graphic Design Association (AGDA).

**Recommended Double Majors:**

Photography; Screen Production

**Main Research Areas:**

Graphic Design, print design, web design, mobile app design, visual communication, multimedia design, interaction design, interface design, branding and identity design, information design, digital design, service design.

#### Parent Major:

Bachelor of Arts

History is central to any meaningful understanding of the present political, social and moral world, and is therefore vital in a democratic and open society. If we are to understand the political structures, other institutions, concepts, myths and practices upon which modern societies are based, we need to know how they have developed. Study of History provides students with a mental map, stretching back across time, enabling them to situate themselves in the world in which they live. History also contributes techniques of source analysis and develops skills of writing and comprehension to a degree that few other disciplines can match, providing graduates with valuable assets in the marketplace.

The Bachelor of Arts at Murdoch is a degree unlike any other in Australia. It embraces new directions in teaching and practice-based learning to train the thinkers and researchers of the 21st century. So many of the biggest and most vital issues we face today are about human society and the human condition. How can we understand who we are, how we want to live, or what kind of society we want to create, without the insights, knowledge and skills provided by the humanities? Our degree is different because we teach our students to put these into practice in a way that is recognised and valued by employers. Our graduates are empowered to be the agile and creative thinkers who will thrive in a rapidly changing world. They are able to think creatively, communicate effectively, manage projects, exercise highly-developed analytical and interpersonal skills, and they possess an in-depth knowledge of contemporary societal issues and trends. These are professional skills which are recognised and valued universally. In short, you can study what you love and get a job too!

There may be a reduction of choice of units if completing the course in the external mode

#### Employment Prospects:

The study of history promotes generic and applied skills (literary, analytical and communicative) appropriate to a broad range of careers in both public and private sectors of the economy.

#### Recommended Double Majors:

English and Creative Writing; Games Art and Design; Global Media and Communication; Graphic Design; Journalism; Photography; Sound; Strategic Communication; Sustainable Development

#### Recommended Minors:

Community Development; Creative Writing

#### Excluded Minors:

Modern History

#### Main Research Areas:

Asian, Imperial and Post-Colonial, European and American history

in the modern period

#### Languages and Writing Skills:

History students are strongly encouraged to include a writing unit in their selection of a secondary area of study. It is also recommended that students consider studying a language other than English, with Indonesian and Japanese available at Murdoch within the Bachelor of Arts.

**HOSPITALITY AND TOURISM MANAGEMENT****HOSPITALITY AND TOURISM MANAGEMENT (BBUS)**

Accounting

*Bachelor of Business (BBus) in Hospitality and Tourism Management*  
Course Codes: B1318

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Kaplan Higher Education Institute and Kaplan Higher Education Academy (Singapore) ['KAPLAN-SGP'] (internal) (language of instruction: English)

**Parent Major:**

Bachelor of Business

A Bachelor of Business (Hospitality and Tourism Management) will provide students with a body of knowledge that includes the understanding of business management principles and contemporary developments in Hospitality and Tourism Management. This degree provides students with core business skills in business management, and the legal framework of business, combined with a broad knowledge base of the contemporary issues within the hospitality and tourism industry.

Students will have knowledge of how research principles and methods inform business decision-making after completing this degree. Graduates will demonstrate the application of knowledge and skills via the planning and completion of significant research-based or scholarship-centred projects.

A Bachelor of Business provides a broad understanding of individual, organisational and societal issues. You will have the practical skills to identify business opportunities, analyse problems and implement solutions and you will be able to demonstrate a knowledge of business principles across key functional areas. You will have depth of knowledge in one or more business disciplines: accounting, banking, business law, economics, finance, hospitality and tourism management, human resources management, international business, management, and marketing.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

**Admission Requirements (Offshore):**

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Employment Prospects:**

Tourism industry such as tour operators, accommodation outlets and resorts; travel wholesalers and retailers, NGOs and government agencies.

**Recommended Double Majors:**

Accounting; Banking; Finance; Human Resources Management; International Business; Management; Marketing

**Excluded Minors:**

Human Resources Management

**Main Research Areas:**

Management, tourism.

## HOSPITALITY AND TOURISM MANAGEMENT (BCOM)

Accounting

Bachelor of Commerce (BCom) in Hospitality and Tourism Management

Course Codes: B1359

Duration: 3 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

### Parent Major:

Bachelor of Commerce

Tourism and hospitality industries are becoming increasingly sophisticated and are growing rapidly. The Hospitality and Tourism Management major prepares students to meet the challenges of this exciting industry by providing them with core knowledge and skills in both the areas of business and tourism. Students will gain an understanding of business management principles and contemporary developments in hospitality and tourism management through the study of management principles, sustainable tourism and destination management. They will apply their knowledge and skills through the planning and completion of a significant project.

A Murdoch Bachelor of Commerce graduate is future enabled with a global mindset. Murdoch's Commerce degree provides you with the knowledge and skills to succeed in an ever changing world. The degree is workplace-focused, enabling you to develop your critical thinking and creative problem solving skills by working on real organisational projects, learning from professionals and through a range of internship opportunities.

The Bachelor of Commerce offers ten majors across a broad range of industry. The course is flexible allowing students to choose up to two majors, a major and a two minors or a major, a minor and a range of electives. Majors include; accounting, banking, business law, finance, hospitality and tourism management, human resources management, international business, management, global business and politics, and marketing.

Students studying a BCom may be eligible to enrol in Murdoch University's MasterClass Program. MasterClass gives students the opportunity to complete a postgraduate qualification whilst studying for an undergraduate degree. To participate in the MasterClass Program students must have completed 1 year of a degree (24 credit points), and maintained a GPA of 3.0 or more (or equivalent). In addition, to the academic requirements students may be required to take part in a competitive selection process.

### Admission Requirements (Onshore):

Minimum ATAR of 75

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**HUMAN RESOURCES MANAGEMENT (BBUS)**

Economics

Bachelor of Business (BBus) in Human Resources Management

Course Codes: B1367

Duration: 3 years available both full-time and part-time

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

**Parent Major:**

Bachelor of Business

The major in Human Resources Management (HRM) will enable students to develop the knowledge and skills to support, motivate and lead employees to improve business effectiveness. Students will learn how to attract, develop, motivate and retain people in different ways to meet different organisational requirements. They will graduate with a major in HRM which opens the door to employability options that include; Human Resource Advisor, Human Resource Coordinator, Recruitment Consultant, or Management Consultant.

A Bachelor of Business provides a broad understanding of individual, organisational and societal issues. You will have the practical skills to identify business opportunities, analyse problems and implement solutions and you will be able to demonstrate a knowledge of business principles across key functional areas. You will have depth of knowledge in one or more business disciplines: accounting, banking, business law, finance, hospitality and tourism management, human resources management, international business, management and marketing.

English competence.

**Employment Prospects:**

All sectors of industry, for profit, non-profit, and government organisations.

**Recommended Double Majors:**

Accounting; Banking; Business Law; Finance; Global Business and Politics; Hospitality and Tourism Management; International Business; Marketing

**Excluded Majors:**

Human Resources Management

**Excluded Minors:**

Human Resources Management

**Course Structure - 72 credit points**

Where a course core unit is listed in a major structure, an elective unit may be required. Please contact your Student Advisor for further advice.

## HUMAN RESOURCES MANAGEMENT (BCOM)

Business

Bachelor of Commerce (BCom) in Human Resources Management

Course Codes: B1359

Duration: 3 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

### Parent Major:

Bachelor of Commerce

The major in Human Resources Management (HRM) will enable students to develop the knowledge and skills to support, motivate and lead employees to improve business effectiveness. Students will learn how to attract, develop, motivate and retain people in different ways to meet different organisational requirements. They will graduate with a major in HRM which opens the door to employability options that include; Human Resource Advisor, Human Resource Coordinator, Recruitment Consultant, or Management Consultant.

A Murdoch Bachelor of Commerce graduate is future enabled with a global mindset. Murdoch's Commerce degree provides you with the knowledge and skills to succeed in an ever changing world. The degree is workplace-focused, enabling you to develop your critical thinking and creative problem solving skills by working on real organisational projects, learning from professionals and through a range of internship opportunities.

The Bachelor of Commerce offers ten majors across a broad range of industry. The course is flexible allowing students to choose up to two majors, a major and a two minors or a major, a minor and a range of electives. Majors include; accounting, banking, business law, finance, hospitality and tourism management, human resources management, international business, management, global business and politics, and marketing.

Students studying a BCom may be eligible to enrol in Murdoch University's MasterClass Program. MasterClass gives students the opportunity to complete a postgraduate qualification whilst studying for an undergraduate degree. To participate in the MasterClass Program students must have completed 1 year of a degree (24 credit points), and maintained a GPA of 3.0 or more (or equivalent). In addition, to the academic requirements students may be required to take part in a competitive selection process.

### Admission Requirements (Onshore):

Minimum ATAR of 75

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### Employment Prospects:

All sectors of industry, for profit, non-profit, and government organisations.

**Recommended Double Majors:**

Accounting; Banking; Business Law; Finance; Global Business and Politics; Hospitality and Tourism Management; International Business; Marketing

**INDONESIAN****INDONESIAN (BA)**

Global Studies

Bachelor of Arts (BA) in Indonesian

Course Codes: B1356

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Not currently available to new admissions

**Parent Major:**

Bachelor of Arts

Indonesia is a dynamic and rapidly industrialising region of tremendous cultural, economic and political importance to Australia. The Indonesian Major is designed to provide students with advanced skills in the Indonesian language. This major, which is available for beginners and those with some knowledge of the language, consists of three years of interactive Indonesian language study including speaking, listening, reading, writing and cultural understanding. Students wishing to specialise in Indonesian are encouraged to undertake a semester of study in Indonesia through the national Australian Consortium for 'In-Country' Indonesian Studies (ACICIS), or equivalent, as part of the degree.

The Bachelor of Arts at Murdoch is a degree unlike any other in Australia. It embraces new directions in teaching and practice-based learning to train the thinkers and researchers of the 21st century. So many of the biggest and most vital issues we face today are about human society and the human condition. How can we understand who we are, how we want to live, or what kind of society we want to create, without the insights, knowledge and skills provided by the humanities? Our degree is different because we teach our students to put these into practice in a way that is recognised and valued by employers. Our graduates are empowered to be the agile

and creative thinkers who will thrive in a rapidly changing world. They are able to think creatively, communicate effectively, manage projects, exercise highly-developed analytical and interpersonal skills, and they possess an in-depth knowledge of contemporary societal issues and trends. These are professional skills which are recognised and valued universally. In short, you can study what you love and get a job too!

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

English competence.

**Special Requirements:**

The course is open to beginners as well as those with language competency based on previous study. Students with language competency will be granted exemption (preclusion) from lower level language units and will be placed at the level of study appropriate to their level of competence. Such students would be required to incorporate in-country study or substitute approved units in lieu of precluded language units to satisfy the 24-point major requirement.

**Employment Prospects:**

Indonesian language skills are highly valued in particular employment areas, particularly in foreign affairs, security, defence, media, international development, and teaching and education.

**Professional Accreditation:**

It is possible to gain accreditation as an interpreter and translator through separate application and testing by NAATI (National Accreditation Authority for Translators and Interpreters).

**Professional Recognition:**

Some employers (e.g. Departments of Defence, Foreign Affairs and Trade) pay additional salary loadings for high levels of Indonesian language competence.

**Recommended Double Majors:**

Global Media and Communication; History; Japanese; Journalism; Law; Sustainable Development

**Recommended Minors:**

Anthropology; Asian Studies; Global Politics; Law and Justice

**Excluded Minors:**

Indonesian

**Other Information:**

Indonesian language units must be completed in sequence, normally from IND 101 Indonesian 1, which is designed for beginning learners. Students with some knowledge of the Indonesian language from previous studies through secondary and/or tertiary education or other programs will be advised from which unit they should enter, after being assessed by the Academic Chair. In cases where students are advised to start with a higher level unit, preclusion (exemption without credit points) for those with secondary studies, or advanced standing (with credit points) for those with previous tertiary studies, will be granted accordingly.

Students are encouraged to incorporate in-country study at an Indonesian university. A wide range of scholarship opportunities and financial assistance are available. Please seek advice from the Academic Chair.

Students who are granted exemptions from lower-level units such as IND101 and IND102 after being assessed by the Language Coordinator are strongly encouraged to consider integrating in-country study units for up to two semesters in their 3rd year. Typical enrolment plans include:

Year 1 - IND201 and IND202 in Semester 1; IND203 in Semester 2  
Year 2 - IND301 in Semester 1; IND303 in Semester 2  
Year 3 - IND4xx Semester in Indonesia (12 points) in Semester 1;

IND4xx Semester in Indonesia (12 points) in Semester 2

As in this case above, where the total credit points of Indonesian units exceed 24 points, the balance is counted as General Electives. Students should consult the Academic Chair for their enrolment plan. Students with advanced standing in Indonesian who do not undertake in-country studies will incorporate non-language Asian studies units to complete the 24 point major requirement with the approval of the Academic Chair.

**INFORMATION TECHNOLOGY****See also:**

Internetworking and Network Security

**DIPLOMA OF INFORMATION TECHNOLOGY**

Information Technology

Course Codes: A1002

Duration: 1 year full-time or part-time equivalent

**Availability:**

- Murdoch University Dubai (UAE) ['DUBAI-ISC'] (internal)

The Diploma of Information Technology is designed to provide students with a broad introduction to information technology in a supportive, student-centred learning environment. It will prepare students for further study or for entry-level employment in the informational technology sector. Students will explore a broad range of information technology areas including foundations of computer systems, information systems, discrete mathematics, programming, and server environments and architecture. They will also have a better understanding of career planning and management, as well as develop literacy skills that will enhance their academic and business communication and language capabilities. The knowledge and skills gained through completing the Diploma will be directly transferable to either entry-level employment/work settings and/or to further learning in an academic setting.

**Admission Requirements (Onshore):**

Successful completion of Year 12 with minimum ATAR of 50 or Foundation Program or AQF Certificate IV

**Admission Requirements (Offshore):**

Successful completion of GCE A levels with 2 passes (E or better) International Baccalaureate - Aggregate score of 21 or above  
Other - successful completion of one of the following:  
 . A recognised post-secondary (post high school course);  
 . University preparation (foundation) studies;  
 . One year of study at a recognised tertiary or higher education institute;  
 . 2 units completed at an Australian University or Open University Australia (OUA).  
 Full list of country specific academic entry requirements can be provided.

IELTS 5.5 (no band less than 5.5)

TOEFL Ibt 60 (no band less than 28)

PTE 46 (writing no less than 46)

Global Studies

Bachelor of Arts (BA) in International Aid and Development

Course Codes: B1356

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

**Parent Major:**

Bachelor of Arts

This course explores the challenges and the changing approaches to international aid by government, multilateral organisations and non-government aid agencies. It focuses on key issues such as poverty reduction, governance, capacity building, and participatory approaches. It will equip students to be effective development practitioners in international and cross-cultural settings. The emphasis is on community-level engagement and tools and skills for project management and participatory development practice.

The Bachelor of Arts at Murdoch is a degree unlike any other in Australia. It embraces new directions in teaching and practice-based learning to train the thinkers and researchers of the 21st century. So many of the biggest and most vital issues we face today are about

human society and the human condition. How can we understand who we are, how we want to live, or what kind of society we want to create, without the insights, knowledge and skills provided by the humanities? ### INTERNATIONAL BUSINESS (BBUS)

Economics

*Bachelor of Business (BBus) in International Business*

Course Codes: B1367

Duration: 3 years available both full-time and part-time

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

**Parent Major:**

Bachelor of Business

The major in International Business (IB) will enable students to develop the technical and cultural competencies required to work in an increasingly globalised world. The major includes a range of business units from multiple

disciplines to support the development of a broad international business perspective and the skills appropriate to understanding and interacting with people with diverse cultural backgrounds. These skills are critical to a successful career in a global environment.

A Bachelor of Business provides a broad understanding of individual, organisational and societal issues. You will have the practical skills to identify business opportunities, analyse problems and implement solutions and you will be able to demonstrate a knowledge of business principles across key functional areas. You will have depth of knowledge in one or more business disciplines: accounting, banking, business law, finance, hospitality and tourism management, human resources management, international business, management and marketing.

English competence.

#### **Employment Prospects:**

Areas of employment include government, private and not-for-profit organisations

#### **Recommended Double Majors:**

Accounting; Banking; Business Law; Finance; Global Business and Politics; Hospitality and Tourism Management; Human Resources Management; Management; Marketing

#### **Excluded Majors:**

International Business

### **Course Structure - 72 credit points**

Where a course core unit is listed in a major structure, an elective unit may be required. Please contact your Student Advisor for further advice.

## **INTERNATIONAL BUSINESS (BBUS)**

Accounting

Bachelor of Business (BBus) in International Business

Course Codes: B1318

Duration: 3 years full-time or part-time equivalent

#### **Availability:**

- Kaplan Higher Education Institute and Kaplan Higher Education Academy (Singapore) ['KAPLAN-SGP'] (internal) (language of instruction: English)

**Parent Major:**

Bachelor of Business

International Business is an integrated degree with a strong basis in international commerce and economics, as well as interdisciplinary links with Asian studies areas. Students are exposed to a selection of units that will develop their knowledge of the global business environment and related political and social factors in some of the largest and most dynamic economies of the world.

The major is designed to enable students to acquire skills needed for employment in an international environment. Business core units provide the foundation for a broad international business perspective and skills appropriate to understanding and dealing with a range of cultures in an increasingly globalised world.

A Bachelor of Business provides a broad understanding of individual, organisational and societal issues. You will have the practical skills to identify business opportunities, analyse problems and implement solutions and you will be able to demonstrate a knowledge of business principles across key functional areas. You will have depth of knowledge in one or more business disciplines; accounting, banking, business law, economics, finance, hospitality and tourism management, human resources management, international business, management, and marketing.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

**Admission Requirements (Offshore):**

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Employment Prospects:**

Areas of employment include government, private and not-for-profit organisations

**Recommended Double Majors:**

Accounting; Banking; Business Law; Finance; Hospitality and Tourism Management; Human Resources Management; International Aid and Development (OUA); Management; Marketing

**Excluded Majors:**

International Business

**Course Structure - 72 credit points****Year 1 - 24 credit points****Murdoch Spine: Career Learning - 3 credit points**

BBS100 Academic Skills for Business - 3 points

## INTERNATIONAL BUSINESS (BCOM)

Business

Bachelor of Commerce (BCom) in International Business

Course Codes: B1359

Duration: 3 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

### Parent Major:

Bachelor of Commerce

The major in International Business (IB) will enable students to develop the technical and cultural competencies required to work in an increasingly globalised world. The major includes a range of business units from multiple disciplines to support the development of a broad international business perspective and the skills appropriate to understanding and interacting with people with diverse cultural backgrounds. These skills are critical to a successful career in a global environment.

A Murdoch Bachelor of Commerce graduate is future enabled with a global mindset. Murdoch's Commerce degree provides you with the knowledge and skills to succeed in an ever changing world. The degree is workplace-focused, enabling you to develop your critical thinking and creative problem solving skills by working on real organisational projects, learning from professionals and through a range of internship opportunities.

The Bachelor of Commerce offers ten majors across a broad range of industry. The course is flexible allowing students to choose up to two majors, a major and a two minors or a major, a minor and a range of electives. Majors include; accounting, banking, business law, finance, hospitality and tourism management, human resources management, international business, management, global business and politics, and marketing.

Students studying a BCom may be eligible to enrol in Murdoch University's MasterClass Program. MasterClass gives students the opportunity to complete a postgraduate qualification whilst studying for an undergraduate degree. To participate in the MasterClass Program students must have completed 1 year of a degree (24 credit points), and maintained a GPA of 3.0 or more (or equivalent). In addition, to the academic requirements students may be required to take part in a competitive selection process.

### Admission Requirements (Onshore):

Minimum ATAR of 75

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### Employment Prospects:

Areas of employment include government, private and not-for-profit organisations

### Recommended Double Majors:

Accounting; Banking; Business Law; Finance; Global Business and Politics; Hospitality and Tourism Management; Human Resources Management; Management; Marketing

### Excluded Majors:

International Business

## Course Structure - 72 credit points

**INTERNATIONAL BUSINESS (BIB)**

Accounting

Bachelor of International Business (BIB)

Course Codes: B1350

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

The Bachelor of International Business is a 3-year degree that equips students with the knowledge and skills needed to succeed in the exciting and challenging world of international business.

In this degree, you will learn how International Business operates. You will be introduced to its key concepts and practices, and will develop the essential strategic decision-making and cross-cultural skills required for a successful career in International Business. You will be knowledgeable about broad aspects of International Business, as well as be able to adopt a global mindset, negotiate effectively, communicate professionally, work collaboratively with people from diverse backgrounds, and act ethically to become a dynamic and versatile professional who is able to work overseas, or in multinational organisations that are based in Australia.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements. A minimum ATAR of 70 is required.[]

**Admission Requirements (Offshore):**

As per normal undergraduate admission requirements.[]

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

Students should be willing to study abroad for at least 1 semester. The international experience is a core component of this degree. Special arrangement for students who are unable to study overseas, due to equity issues.

**Employment Prospects:**

Areas of employment include government, private and not-for-profit organisations in particular multinational companies that operate across international boundaries.

Information Technology

**MOBILE AND WEB APPLICATION DEVELOPMENT (BSC)**

Information Technology

Bachelor of Science (BSc) in Mobile and Web Application Development

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)
- Kaplan Higher Education Institute and Kaplan Higher Education Academy (Singapore) ['KAPLAN-SGP'] (internal) (language of instruction: English)

**Parent Major:**

Bachelor of Science (IT Majors)

This major is designed to provide students with specialisation in the field of programming and mobile application development. The main areas covered include: the design and management of web based computing systems and mobile applications, the development and maintenance of applications for the Internet and mobile devices including multimedia, databases, software development and multi-platform development.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

There may be a reduction in choice of units if completing this course in the external mode. Individual units may require access to specific nominated software.

**Employment Prospects:**

Excellent career opportunities exist for Mobile and Web Application Development graduates in business, industry and government as web system developers, mobile application developers, programmers, systems analysts, database administrators, computer systems and network administrators, user support officers and

software engineers.

**Professional Recognition:**

This course is accredited at the Professional level with the Australian Computer Society.

**Recommended Double Majors:**

Computer Science; Cyber Security and Forensics; Games Software Design and Production; Games Technology

**Excluded Minors:**

Web Development

**Parent Major:**

Bachelor of Science (IT Majors)

This major provides the knowledge and skills required to manage the complexity of the Internet of tomorrow, integrating voice, wireless, and security into the network. It is designed in consultation with industry to meet the growing need for networking specialists with skills in security and converged voice and data networks.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

Internet access is required for all students.

**Employment Prospects:**

This major prepares students for a career in computer networking for business, industry or government. The major also offers training towards the excellent Cisco Certification useful in a number of areas such as Network Engineer and System Administrator that are considered very desirable by potential employers across a large range of enterprises.

**Professional Recognition:**

Graduates receive professional membership of the Australian Computing Society (ACS) and are eligible to sit for the following industry certification exams: Cisco Certified Network Associate (CCNA), Cisco Certified Network Professional (CCNP); Managing Securing Networks with Cisco Routers and Switches (SNRS), Securing Networks with ASA Foundation (SNAF), Securing Networks with ASA Advanced (SNA).

**Recommended Double Majors:**

Business Information Systems; Mobile and Web Application Development

**Excluded Minors:**

Network Design; Network Security

**Main Research Areas:**

Communication standards, electronic commerce, high speed networks and distance education.

MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**General Electives - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**INTERNETWORKING AND NETWORK SECURITY HONOURS (BSC(HONS))**

College of Science, Health, Engineering and Education  
*Bachelor of Science Honours (BSc(Hons)) in Internetworking*  
Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)

The aim of Honours is to provide training in research and the development of higher-level skills. The student's grasp of the principles and practice of their subject will be extended and they will develop ability for independent research.

Successful completion of the Honours course is required for admission to research degrees (i.e. Masters or PhD degrees).

#### **Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average; subject to availability of a suitable supervisor and approval by the Associate Dean (Learning and Teaching) of the School.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Apply Online:**

Applications can be made online at  
<http://goto.murdoch.edu.au/OnlineApplicationsHonours>

### **Course Structure - 24 credit points**

#### **Coursework - 12 credit points**

ICT615 Information Technology Research Methods - 3 points  
MURDOCH: S1-internal

ICT576 Information Technology Literature Review - 3 points  
MURDOCH: S1-internal, S2-internal

Plus another two 500-level IT units approved by the Academic Chair - 3 points each

#### **Thesis - 12 credit points**

ICT590 Honours Thesis in Internetworking - 12 points  
MURDOCH: H-internal, H-external, S1-internal, S1-external, S2-internal, S2-external, Y-internal, Y-external

## **JAPANESE**

### **JAPANESE (BA)**

Global Studies

*Bachelor of Arts (BA) in Japanese*

Course Codes: B1356

Duration: 3 years full-time or part-time equivalent

#### **Availability:**

- Murdoch campus (internal)

#### **Parent Major:**

Bachelor of Arts

The Japanese language is a key to understanding dramatic social and cultural change in modern Japan. The Japanese major, which is open to beginners and those with some knowledge of the language, consists of three years of interactive Japanese language study on the Perth campus, with a choice of including, upon successful application, one or more semesters at a Japanese partner institution. This course provides students with rigorous linguistic and socio-cultural training to become Japan specialists in their chosen careers.

The Bachelor of Arts at Murdoch is a degree unlike any other in Australia. It embraces new directions in teaching and practice-based learning to train the thinkers and researchers of the 21st century. So many of the biggest and most vital issues we face today are about human society and the human condition. How can we understand who we are, how we want to live, or what kind of society we want to create, without the insights, knowledge and skills provided by the humanities? Our degree is different because we teach our students to put these into practice in a way that is recognised and valued by employers. Our graduates are empowered to be the agile and creative thinkers who will thrive in a rapidly changing world. They are able to think creatively, communicate effectively, manage

projects, exercise highly-developed analytical and interpersonal skills, and they possess an in-depth knowledge of contemporary societal issues and trends. These are professional skills which are recognised and valued universally. In short, you can study what you love and get a job too!

#### **Admission Requirements (Onshore):**

As per normal undergraduate admissions requirements

English competence.

#### **Special Requirements:**

The course is open to beginners as well as those with some Japanese language competency. Students with language competency may be granted exemption from lower level language units and be placed at the level appropriate to their level of competency. Such students may be required to take alternative units to replace the lower-level language units.

#### **Employment Prospects:**

A variety of employment in business, teaching, hospitality, media and other specialist positions in Australia and elsewhere, engaging with Japanese people or companies, and in Japan, particularly in the private business and education sectors.

#### **Professional Accreditation:**

Separate professional accreditation as an interpreter and/or translator is available through application to and testing by NAATI (National Accreditation Authority for Translators and Interpreters).

#### **Recommended Double Majors:**

Games Art and Design; History

#### **Recommended Minors:**

Asian Studies

#### **Excluded Minors:**

Japanese

#### **Credits and Exemptions:**

Japanese language units must be completed in sequence, normally from JPN101 Japanese 1, which is designed for beginning learners. Students with some knowledge of the Japanese language from previous studies through secondary and/or tertiary education or other programs will be advised from which unit they should start, after being assessed by the Academic Chair. In cases where students are advised to start with a higher unit than JPN101, preclusion (exemption without credit points) or advanced standing with credit points will be granted accordingly.

#### **In-Country Study Units:**

Students in this major are strongly encouraged to consider integrating the in-country study units on offer through the Japanese program into their course. A wide range of scholarship opportunities and financial assistance are available. Please seek advice from the Academic Chair. Note that students who take the 12-point unit to study in Japan may require up to 27 points of study to complete the full major.

Students granted exemptions from lower-level units such as JPN101 and JPN102 after being assessed by the Academic Chair or delegate are strongly encouraged to consider integrating in-country study units for up to two semesters in their 3rd year. Typical enrolment plans include:

Year 1 - JPN201 and JPN202 in Semester 1; JPN203 in Semester 2  
Year 2 - JPN301 and JPN302 in Semester 1; JPN303 in Semester 2  
Year 3 - JPN4xx Semester in Japan (III) - 12 points in Semester 1; JPN4xx Semester in Japan (IV) - 12 points in Semester 2

As in the case above, where the total credit points of Japanese units exceed 24 pts, the balance is counted as General Electives. Students should consult the Academic Chair for their enrolment plan.

**JOURNALISM (BA)**

Communications

*Bachelor of Arts (BA) in Journalism*

Course Codes: B1316 B1316A

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Kaplan Higher Education Institute and Kaplan Higher Education Academy (Singapore) ['KAPLAN-SGP'] (internal)

**Parent Major:**

Bachelor of Arts

This major provides students with the skill set to operate in the digital era of news. You will learn practical reporting, writing and producing skills in journalism and it investigates the ethical, legal and cultural contexts of the news media. The major gives students the opportunity to work in an online newsroom. Students learn about the news media industry and about the influence of journalism on society.

In the Bachelor of Arts you will develop a broad understanding of your field and proficiency in producing written and oral arguments and creative artefacts in response to social, human and natural phenomena. You will also develop a critical appreciation of the perspectives of others. As an Arts graduate you will be able to think

critically and creatively, apply knowledge and information, and communicate effectively. These are professional skills which are critical across a range of industries. You will also be able to pursue further study in the fields of social research, the humanities and/or the creative arts.

#### **Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Employment Prospects:**

Graduates may follow careers in the media or as freelance writers and producers. Graduates also will have research, communication and professional skills that are useful in many corporate and public sector settings.

#### **Recommended Double Majors:**

Communication and Media Studies; Public Relations; Web Communication

#### **Main Research Areas:**

Media law, ethics, storytelling. Journalism practice.

## **Course Structure - 72 credit points**

Creative Media, Arts and Design

Bachelor of Communication (BCommun) in Journalism

Course Codes: B1342

Duration: 3 years full-time or part-time equivalent

#### **Availability:**

- Murdoch campus (internal)
- Murdoch University Dubai (UAE) ['DUBAI-ISC'] (internal)

#### **Parent Major:**

Bachelor of Communication

This major provides students with the skillset to operate in the digital era of news. Students will learn practical reporting, writing and producing skills in journalism and it investigates the ethical, legal and cultural contexts of the news media. The major gives students the opportunity to work in an online newsroom. Students learn about the news media industry and about the influence of

journalism on society.

In the Bachelor of Communication you will learn how modern communication works across the globe and be able to apply that knowledge to seek employment in this field. You will be introduced to key concepts and practices in communication, and will develop digital media skills and critical thinking skills that you can apply as a professional communicator. You will be able to write and present professionally, take a global perspective on issues, argue effectively, act ethically and work cooperatively. Students can choose to concentrate on majors in Global Media and Communication, Strategic Communication or Journalism (or a combination). These fields offer you the opportunity to create media productions, deal with clients, tackle communication issues and work with industry.

#### **Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

English competence. Students demonstrating English competence via IELTS need an overall score of 6.0 with no individual band less than 6.0.

#### **Employment Prospects:**

Graduates may follow careers in the media or as freelance writers and producers. Graduates also will have research, communication and professional skills that are useful in many corporate and public sector settings.

#### **Recommended Double Majors:**

Global Media and Communication; Strategic Communication

**LABORATORY MEDICINE (BSC/BLABMED)**

Biomedical Science

*Bachelor of Science/Bachelor of Laboratory Medicine (BSc/BLabMed) in Laboratory Medicine*

Course Codes: B1337

Duration: 4 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)

Restriction: Enrolment is subject to restriction due to constraints on unit enrolments.

**Parent Major:**

Bachelor of Science/Bachelor of Laboratory Medicine

Medical laboratory scientists routinely perform diagnostic tests using human or veterinary clinical specimens that may include blood, cellular aspirates, tissue biopsies, stool or urine. They are employed in both the public and private sectors at hospitals and pathology laboratories. They have a broad knowledge of disease processes and are skilled in the handling of patient material, clinical testing and the analysis of results in specific discipline areas such as biochemistry, haematology, immunology, microbiology, histopathology, diagnostic genomics and transfusion science.

This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band

less than 6.0.

**Additional Academic Progress Requirements:**

In order to commence the fourth year of the Bachelor of Science/Bachelor of Laboratory Medicine students must have achieved a minimum GPA of 2.0 (out of 4.0) over their second and third year units.

**Major Prerequisites**

Students who achieved a final scaled score of 50 percent or more in Chemistry 3A/3B or Chemistry ATAR within the past three years should seek an exemption from their Academic Chair for CHE140 Fundamentals of Chemistry. Students who have completed previous chemistry not stated above should also consult their Academic Chair for clarification of their enrolment requirements.

BMS314 Pathological Basis of Disease - 3 points  
MURDOCH: S1-internal

Select one unit from below to be studied in Year 3 with the remaining two units to be studied in Year 4.

BMS322 Clinical Immunology - 3 points  
<span data-type="offering" data-unit="BMS322">MURDOCH:  
S2-internal (quota of 25 places)</span>

BMS325 Histopathology - 3 points  
<span data-type="offering" data-unit="BMS325">MURDOCH:  
S2-internal (quota of 20 places)</span>

BMS327 Diagnostic Genomics - 3 points  
<span data-type="offering" data-unit="BMS327">MURDOCH:  
S2-internal (quota of 30 places)</span>

#### Specified Electives - 6 credit points

Select from the following:

BMS323 Clinical Biochemistry I - 3 points  
<span data-type="offering" data-unit="BMS323">MURDOCH:  
S2-internal (quota of 25 places)</span>

BMS324 Clinical Microbiology I - 3 points  
<span data-type="offering" data-unit="BMS324">MURDOCH:  
S2-internal (quota of 48 places)</span>

BMS326 Clinical Haematology I - 3 points  
<span data-type="offering" data-unit="BMS326">MURDOCH:  
S2-internal (quota of 25 places)</span>

#### Required Additional Study Area - 6 to 9 credit points

Select units from one of the following majors, which must be the same as the area chosen for Year 2 units.

#### Biomedical Science Major - 6 credit points

BMS314 Pathological Basis of Disease - 3 points  
MURDOCH: S1-internal

BMS315 Advances in Medical Science - 3 points  
MURDOCH: S2-internal

#### Forensic Biology and Toxicology Major - 9 credit points

BIO315 Bodies of Evidence - 3 points  
MURDOCH: S2-internal

BIO359 Forensic DNA Analysis - 3 points  
MURDOCH: S1-internal

BIO367 Forensic Toxicology - 3 points  
MURDOCH: S2-internal

#### Genetics and Molecular Biology Major - 9 credit points

BIO356 Genetics and Evolution - 3 points  
MURDOCH: S1-internal

BIO394 Genetic Engineering - 3 points  
MURDOCH: S1-internal

BIO378 Systems Biology - 3 points  
MURDOCH: S2-internal

**General Electives - 0 to 3 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Year 4 - 24 credit points****Core Units - 18 credit points**

BMS431 Laboratory Medicine Practice I - 6 points  
MURDOCH: UW1-placement

BMS432 Laboratory Medicine Practice II - 6 points  
MURDOCH: UW1-placement

Select one unit from below to be studied in Year 3 with the remaining two units to be studied in Year 4.

BMS322 Clinical Immunology - 3 points  
<span data-type="offering" data-unit="BMS322">MURDOCH: S2-internal (quota of 25 places)</span>

BMS325 Histopathology - 3 points  
<span data-type="offering" data-unit="BMS325">MURDOCH: S2-internal (quota of 20 places)</span>

BMS327 Diagnostic Genomics - 3 points  
<span data-type="offering" data-unit="BMS327">MURDOCH: S2-internal (quota of 30 places)</span>

**Specified Electives - 6 credit points**

Select from the following:

BMS423 Clinical Biochemistry II - 3 points  
MURDOCH: S2-internal

BMS424 Clinical Microbiology II - 3 points  
MURDOCH: S2-internal

BMS426 Clinical Haematology II - 3 points  
MURDOCH: S2-internal

**Additional Academic Progress Requirements**

In order to commence the fourth year of the Bachelor of Science/Bachelor of Laboratory Medicine students must have achieved a minimum GPA of 2.0 (out of 4.0) over their second and third year units.

---

**LABORATORY SCIENCE**

---

**CLINICAL LABORATORY SCIENCE (BSC)**

Biomedical Science

*Bachelor of Science (BSc) in Clinical Laboratory Science*

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)

Restriction: Enrolment is subject to restriction due to constraints on unit enrolments.

**Parent Major:**

Bachelor of Science (Non-IT Majors)

Clinical Laboratory Science provides a foundation for a career in medical diagnosis or other health-related fields. The major builds on a general introduction to human biology, cell biology and human molecular genetics to cover a range of clinical laboratory disciplines including haematology, immunology, histopathology and diagnostic genomics. Students will obtain a broad knowledge of disease processes as well as technical skills in the handling of patient material, clinical testing and the analysis and

troubleshooting of results. The major provides extensive exposure to the underlying principles involved in the measurement of clinical parameters.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Employment Prospects:**

Clinical laboratory scientists find employment in hospitals, medical research institutes, universities, government agencies and the private sector as Medical Researchers, Medical Technologists, Biopharmaceutical Scientists, Health Department Administrators, Patent Attorneys, Medical Sales and Marketing Professionals, and Teachers/Academics.

**Recommended Double Majors:**

Biomedical Science; Forensic Biology and Toxicology; Genetics and Molecular Biology

**Recommended Minors:**

Biomedical Science; Forensic Biology; Molecular Biology

**Excluded Minors:**

Molecular Biology

**Further Study and Surrender of Degree:**

Subject to academic performance requirements, students completing Clinical Laboratory Science as a double major with either Biomedical Science, Molecular Biology or Forensic Biology and Toxicology, can gain entry into a fourth year of study incorporating clinical practicum experiences leading to a full qualification in Laboratory Medicine. Students continuing on to the four year Bachelor of Laboratory Medicine must surrender their three year Bachelor of Science degree.

Clinical Laboratory Science is also excellent preparation for graduate studies in the health and medical fields, such as Medicine or Pharmacy.

**Major Prerequisites****Chemistry Background**

Students who achieved a final scaled score of 50 percent or more in Chemistry 3A/3B or Chemistry ATAR within the past three years should seek an exemption from their Academic Chair for CHE140 Fundamentals of Chemistry. Students who have completed previous chemistry not stated above should also consult their Academic Chair for clarification of their enrolment requirements.

**Course Structure - 72 credit points****Part I - 24 credit points****Year 1 - 24 credit points****Transition Unit - 3 credit points**

BSC100 Building Blocks for Science Students - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Breadth Unit for Degree - 3 credit points**

BSC150 What is Science? - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Core Units - 15 credit points**

BMS101 Introduction to the Human Body - 3 points

MURDOCH: S1-internal

MAS183 Statistical Data Analysis - 3 points

MURDOCH: S1-internal, S1-external, S2-internal, S2-external

BMS107 Foundations of Vertebrate Form and Function - 3 points

MURDOCH: S2-internal

BIO152 Cell Biology - 3 points

MURDOCH: S2-internal

CHE144 Foundations of Chemistry - 3 points

MURDOCH: S1-internal, S1-external, S2-internal, S2-external

### General Electives - 3 credit points

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

## Part II - 48 credit points

### University-Wide Breadth Units - 6 credit points

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

### Year 2 - 21 credit points

#### Research Skills Unit - 3 credit points

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

#### For Primary Major in Cognitive Neuroscience and Health Psychology

BSC201 Psychology: Measurement, Design and Analysis - 3 points

MURDOCH: S1-internal

#### For Primary Majors in the Health Sciences, as listed

Primary Major in Chiropractic Science, Exercise Physiology, Movement Science, or Sport and Health Science:

BSC206 Introduction to Research Methodology and Evidence Based Practice - 3 points

MURDOCH: S2-internal

#### For All Other Primary Majors excluding Information Technology

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

### Core Units - 9 credit points

BMS218 Haematology - 3 points

<span data-type="offering" data-unit="BMS218">MURDOCH: S2-internal (quota of 80 places) (closed)</span>

BIO282 Molecular Biology - 3 points

MURDOCH: S1-internal

BMS211 Medical Immunology and Molecular Genetics - 3 points

MURDOCH: S2-internal

### General Electives - 9 credit points

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to

consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

### Year 3 - 21 credit points

#### Research Skills Unit - 3 credit points

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

#### For Primary Major in Cognitive Neuroscience and Health Psychology

BSC302 Advanced Quantitative Research Methods - 3 points

MURDOCH: S2-internal

#### For Primary Majors in the Health Sciences, as listed

Primary major in Chiropractic Science, Movement Science, Sport and Health Science:

BSC306 Research and Evidence Based Practice - 3 points

MURDOCH: S1-internal

#### For All Other Primary Majors excluding Information Technology

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

### Core Unit - 3 credit points

BMS321 Histology - 3 points

<span data-type="offering" data-unit="BMS321">MURDOCH: S1-internal (quota of 50 places)</span>

### Specified Electives - 6 credit points

Select from the following:

BMS322 Clinical Immunology - 3 points

<span data-type="offering" data-unit="BMS322">MURDOCH: S2-internal (quota of 25 places)</span>

BMS323 Clinical Biochemistry I - 3 points

<span data-type="offering" data-unit="BMS323">MURDOCH: S2-internal (quota of 25 places)</span>

BMS324 Clinical Microbiology I - 3 points

<span data-type="offering" data-unit="BMS324">MURDOCH: S2-internal (quota of 48 places)</span>

BMS325 Histopathology - 3 points

<span data-type="offering" data-unit="BMS325">MURDOCH: S2-internal (quota of 20 places)</span>

BMS326 Clinical Haematology I - 3 points

<span data-type="offering" data-unit="BMS326">MURDOCH: S2-internal (quota of 25 places)</span>

BMS327 Diagnostic Genomics - 3 points

<span data-type="offering" data-unit="BMS327">MURDOCH: S2-internal (quota of 30 places)</span>

### General Electives - 9 credit points

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

## LAW

### See also:

Migration Law

## LAW (LLB/LLB(HONS))

Business Law

*Bachelor of Laws Honours (LLB(Hons)) in Law; Bachelor of Laws (LLB) in Law*

Course Codes: B1321 H1247

Duration: 4 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Some units only: University of Macerata (Macerata, Italy) ['IMACERATA'] (internal) (language of instruction: English) (some Specified Electives only)
- Some units only: Geneva (Geneva, Switzerland) (internal) (language of instruction: English) (some Specified Electives only)

*Restriction: Enrolment is subject to restriction due to competitive admission requirements.*

### Parent Major:

Bachelor of Laws

Students in the Murdoch Law degree include both candidates who enter it directly from matriculation, and mature-age students. In keeping with its character as a professional preparation, a significant proportion of the Law degree is obligatory. This gives all students a basic understanding of the legal system and an introduction to the abilities demanded by the professional practice of law. At the same time, students will be provided with opportunities to practise these abilities in simulated professional settings such as the Law School's Clinical Education Centre at Rockingham.

Students will build on this foundation through advanced unit offerings in such areas as corporate and commercial law, environmental law, family law, international law, alternative dispute resolution and human rights law.

Students in the degree may study on a part-time basis. It should be noted that, in some circumstances, enrolment in less than 12 points in a semester may mean that students will not meet the formal prerequisite requirements for units which they may wish to study in subsequent semesters.

Note: Only students admitted to the Law degree (or to a joint degree with Law or Juris Doctor qualification) are permitted to enrol in units in the Law degree. Students not admitted to the Law degree who would like to undertake legal study should refer to the Law, Business & Society major (BA) or Business Law major (BBus).

### Admission Requirements (Onshore):

90 ATAR or equivalent; and  
Students who have successfully complete the Murdoch Institute of Technology Foundation Studies Course with a minimum average mark of 78% or higher; or  
Students who complete the Phoenix Academy Certificate IV of Business with a minimum average grade of 80%.

Equivalent of an Academic IELTS overall score of 6.5 with no band less than 6.5.

### Special Requirements:

European Summer Program in Law and International Human Rights Program:

The School of Law is offering a selection of specified elective units as part of its European Summer Program in Law, hosted at the University of Macerata, Italy, and its International Human Rights

Program in Geneva, Switzerland. These programs will be run subject to sufficient enrolments.

Enrolment in these programs is by application to the Program Director. Students are required to pay an application fee when submitting their application. Students enrolling in the program are responsible for their own airfares, accommodation, meals and incidental expenses during the program. Students are also required to pay a fee for course materials and access to the library, Internet and other facilities at the host location.

Students in the program must possess a passport valid for at least six months from the date of departure from Perth, with eligibility for a visa to enter the host country; Permanent Residents may also require a visa for re-entry into Australia.

Students are covered by Murdoch University for travel insurance. Students are advised to be aware of Australian Department of Foreign Affairs and Trade (DFAT) travel advisories prior to their departure via the following website:

<http://www.smartraveller.gov.au/>

All students must complete the University's online Travel Register prior to departure.

Students interested in the European Summer Program or the International Human Rights programs are encouraged to contact the School of Law office for further information.

Part-time Study:

Students in the degree may study on a part-time basis. It should be noted that, in some circumstances, enrolment in less than 12 points in a semester may mean that students will not meet the formal prerequisite requirements for units which they may wish to study in subsequent semesters.

#### **Professional Recognition:**

The Murdoch Bachelor of Laws satisfies the University education requirements for the practice of law of the governing bodies of the legal profession of Western Australia. As is the pattern in the rest of Australia, before a candidate may be admitted to the practice of law in this State, certain additional requirements must be satisfied after completion of this formal university training.

#### **Excluded Majors:**

Business Law; Legal Studies

#### **Award of Bachelor of Laws with Honours (LLB(Hons)):**

Students must apply for entry into Honours immediately prior to commencing their final 24 points of study. The award of Honours is available on the basis of distinguished achievement in LLB580 Honours Thesis in Law, considered together with overall performance in LLB582 Legal Research Methods for Honours, and LLB452 Corporations Law, LLB450 Civil Procedure, LLB468 Ethics and Professional Responsibility and LLB580 Honours Thesis in Law completed in the Honours year. Students must have achieved a specified WGPA in Murdoch Law units before they may be permitted to enrol in LLB580 and enrol in the Honours award. Students should seek advice and further information from the Honours Chair for Law.

#### **Award with Distinction:**

Graduation with Distinction or High Distinction is awarded on the basis of a high level of academic performance in Murdoch University Law units of LLB. The Award of Distinction and High Distinction is not available to students who achieve Honours.

#### **Graduate Entry to Bachelor of Laws:**

Students with a completed undergraduate degree will be given advanced standing of 24 credit points for graduate entry into the Bachelor of Laws, including preclusion from the two Breadth units where the undergraduate degree is sufficiently different from the Law degree. This will require completion of 72 credit points of Law

units including the Bachelor of Laws Transition unit and Research Skills units.

Students who have completed the equivalent of 48 credit points of a \*\*Law degree will be given Advanced Standing of 48 credit points, comprising a maximum of 15 credit points at 100 level (Part I) and 33 credit points at 200 to 400 level (Part II), for entry into the Bachelor of Laws (LLB).

\*\*Law degree refers to 'being a Law degree that would, once conferred, satisfy the academic requirements of practicing law in that jurisdiction'.

## **Course Structure - 96 credit points**

### **Part I - 24 credit points**

#### **Year 1 - 24 credit points**

##### **Transition Unit - 3 credit points**

BJU100 Australian Legal System - 3 points  
MURDOCH: S1-internal, S2-internal

### Award with Distinction

Students who have completed the four-year Bachelor of Laws at a high standard may be awarded their degree with Distinction or High Distinction.

### Honours

The award of Honours is available on the basis of distinguished achievement in LLB580 Honours Thesis in Law considered together with overall performance in the student's honours programme of study. Students must have achieved a specified WGPA in Murdoch Law units before they may be permitted to enrol in the Honours award.

LLB580 Honours Thesis in Law - 12 points  
MURDOCH: H-internal, Y-internal

LLB582 Legal Research Methods for Honours - 3 points  
MURDOCH: H-internal, Y-internal

Students must complete the following units to count as part of their Honours program of study. Note that all three units are compulsory and must be completed as part of the degree.

LLB450 Civil Procedure - 3 points  
MURDOCH: S1-internal

LLB452 Corporations Law - 3 points  
MURDOCH: S1-internal

LLB468 Ethics and Professional Responsibility - 3 points  
MURDOCH: S1-internal, S2-internal

competence via IELTS need a score of 6.5, with no individual band less than 6.5.

### Employment Prospects:

Areas of employment include government, corporations, law firms, private and not for profit organisations

### Professional Accreditation:

The Australian Legal Practice Board, plus the Ministry of Law in Singapore and the Malaysian and Indian Bar Council accredits the Murdoch LLB

### Professional Recognition:

The Murdoch Bachelor of Laws satisfies the University education requirements for the practice of law of the governing bodies of the legal profession of Western Australia. As is the pattern in the rest of Australia, before a candidate may be admitted to the practice of law in this State, certain additional requirements must be satisfied after completion of this formal university training.

### Main Research Areas:

Graduates may go on to research in Law or a range of Arts disciplines.

### Award of Bachelor of Laws with Honours (LLB(Hons)):

Students must apply for entry into Honours immediately prior to commencing their final 24 points of study. The award of Honours is available on the basis of distinguished achievement in LLB580 Honours Thesis in Law, considered together with overall performance in LLB582 Legal Research Methods for Honours and two units from LAW452/LLB452 Corporations Law, LAW450/LLB450 Civil Procedure, LAW468/LLB468 Ethics and Professional Responsibility and LLB580 Honours Thesis in Law completed in the Honours year. Students must have achieved a specified WGPA in Murdoch Law units before they may be permitted to enrol in LAW480 LLB580 and enrol in the Honours award. Students should seek advice and further information from the Academic Chair for Law or the Law School Office.

### Award with Distinction:

Graduation with Distinction or Higher Distinction is awarded on the basis of a high level of academic performance in Murdoch University Law units of Law + Business (Combined). The award with Distinction and High Distinction is not available to students who achieve Honours.

## LAW + ARTS [COMBINED] (LLB+BA)

Business Law

Bachelor of Laws (LLB) + Bachelor of Arts (BA)

Course Codes: B1370 H1279

Duration: 5 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)

Murdoch offers combined degrees which combine Law and another bachelor degree in an integrated course of study. This allows students seeking a Law degree to gain a range of opportunities for the study of disciplines other than Law which are greater than those for students within the Law degree studied on its own.

Murdoch offers a combined degree in Law and Arts in an integrated course of study. The combined Bachelor of Laws and Bachelor of Arts allows students to study Law and Arts units from a selected major in a complementary fashion offering both depth and breadth across two degrees.

### Admission Requirements (Onshore):

90 ATAR or equivalent

English competence. International students demonstrating English

### Award with Distinction

Students who have completed the four-year Bachelor of Laws at a high standard may be awarded their degree with Distinction or High Distinction.

### Honours

The award of Honours is available on the basis of distinguished achievement in LLB580 Honours Thesis in Law considered together with overall performance in LLB582 Legal Research Methods for Honours and the remaining units in the student's Honours programme of study. Student LLB580 The award of Honours is available on the basis of distinguished achievement in Honours Thesis in Law considered together with overall performance in Legal Research Methods for Honours and the remaining units in the student's Honours programme of study. Students must have achieved a specified WGPA in Murdoch Law units before they may be permitted to enrol in Honours Thesis in Law and in the Honours award.

LLB580 Honours Thesis in Law - 12 points  
MURDOCH: H-internal, Y-internal

LLB582 Legal Research Methods for Honours - 3 points  
MURDOCH: H-internal, Y-internal

Students must complete the following units to count as part of their Honours program of study. Note that all three units are compulsory and must be completed as part of the degree.

LLB450 Civil Procedure - 3 points  
MURDOCH: S1-internal

LLB452 Corporations Law - 3 points  
MURDOCH: S1-internal

LLB468 Ethics and Professional Responsibility - 3 points  
MURDOCH: S1-internal, S2-internal

## LAW + BUSINESS [COMBINED] (LLB+BBUS)

Criminology

Bachelor of Laws (LLB) + Bachelor of Business (BBus)

Course Codes: B1325 H1249

Duration: 5 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Some units only: University of Macerata (Macerata, Italy) ['IMACERATA'] (internal) (language of instruction: English) (some Specified Electives only)
- Some units only: Geneva (Geneva, Switzerland) (internal) (language of instruction: English) (some Specified Electives only)

Restriction: Enrolment is subject to restriction due to competitive admission requirements.

Murdoch offers combined degrees which combine Law and another bachelor degree in an integrated course of study. This allows students seeking a Law degree to gain a range of opportunities for the study of disciplines other than law which are greater than those for students within the Law degree studied on its own.

Combined degrees include the Bachelor of Laws with Bachelor of Arts, Bachelor of Science or Bachelor of Business.

### Admission Requirements (Onshore):

90 ATAR or equivalent

Equivalent of an Academic IELTS overall score of 6.5 with no band less than 6.5.

### Special Requirements:

Students enrolled in Law and Business (LLB/BBus) (course code B1325 H1249) will be exempt from completing BSL165/BUS165 Foundations of Business Law.

### Professional Recognition:

The Murdoch Bachelor of Laws satisfies the University education requirements for the practice of law of the governing bodies of the legal profession of Western Australia. As is the pattern in the rest of Australia, before a candidate may be admitted to the practice of law in this State, certain additional requirements must be satisfied after completion of this formal university training.

### Recommended Double Majors:

Business Information Systems; Chemistry; Computer Science; Environmental Science; Mathematics and Statistics; Sustainable Development; Sustainable Development (OUA)

### Excluded Majors:

Business Law

### Excluded Minors:

Business Law

### Award of Bachelor of Laws with Honours (LLB(Hons)):

Students must apply for entry into Honours immediately prior to commencing their final 24 points of study.

The award of Honours is available on the basis of distinguished achievement in LLB580 Honours Thesis in Law, considered together with overall performance in LLB582 Legal Research Methods for Honours and two units from LAW452/LLB452 Corporations Law, LAW450/LLB450 Civil Procedure, LAW468/LLB468 Ethics and Professional Responsibility and LLB580 Honours Thesis in Law completed in the Honours year. Students must have achieved a specified WGPA in Murdoch Law units before they may be permitted to enrol in LAW480 LLB580 and enrol in the Honours award.

Students should seek advice and further information from the Academic Chair for Law or the Law School Office.

### Award with Distinction:

Graduation with Distinction or Higher Distinction is awarded on the basis of a high level of academic performance in Murdoch University Law units of Law + Business (Combined). The award with Distinction and High Distinction is not available to students who achieve Honours.

## Course Structure - 120 credit points

A combined degree, where one of the degrees is Law, may take longer than 5 years (10 semesters) to complete.

### Part I - 24 credit points

#### Year 1 - 24 credit points

#### Transition Unit - 3 credit points

BJU100 Australian Legal System - 3 points  
MURDOCH: S1-internal, S2-internal

#### Breadth Unit for Degree - 3 credit points

BBS150 Transforming Business - 3 points

#### Core Units - 18 credit points

#### Low Units - 9 credit points

LLB152 Torts - 3 points  
MURDOCH: S2-internal

## LAW + BUSINESS [COMBINED] (LLB+BBUS)

Business Law

Bachelor of Laws (LLB) + Bachelor of Business (BBUS)

Course Codes: B1369

Duration: 5 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)

Murdoch offers combined degrees which combine Law and another bachelor degree in an integrated course of study. This allows students seeking a Law degree to gain a range of opportunities for the study of disciplines other than Law which are greater than those for students within the Law degree studied on its own.

Murdoch offers a combined degree in Law and Business in an integrated course of study. The combined Bachelor of Laws and Bachelor of Business allows students to study Law and Business units in a complementary fashion offering both depth and breadth, together with a nuanced understanding of the business principles across key functional areas.

#### **Admission Requirements (Onshore):**

90 ATAR or equivalent

English competence. International students demonstrating English competence via IELTS need a score of 6.5, with no individual band less than 6.5.

#### **Special Requirements:**

Students enrolled in Law and Business (LLB/BBus) (course code B1369) will be exempt from completing BSL165/BUS165 Foundations of Business Law.

#### **Employment Prospects:**

Areas of employment include government, corporations, law firms, private and not for profit organisations

#### **Professional Accreditation:**

The Australian Legal Practice Board, plus the Ministry of Law in Singapore and the Malaysian and Indian Bar Council accredits the Murdoch LLB

#### **Professional Recognition:**

The Murdoch Bachelor of Laws satisfies the University education requirements for the practice of law of the governing bodies of the legal profession of Western Australia. As is the pattern in the rest of Australia, before a candidate may be admitted to the practice of law in this State, certain additional requirements must be satisfied after completion of this formal university training.

#### **Main Research Areas:**

Graduates may go on to research in Law or a range of Business and Governance disciplines

#### **Award of Bachelor of Laws with Honours (LLB(Hons)):**

Students must apply for entry into Honours immediately prior to commencing their final 24 points of study. The award of Honours is available on the basis of distinguished achievement in LLB580 Honours Thesis in Law, considered together with overall performance in LLB582 Legal Research Methods for Honours and two units from LAW452/LLB452 Corporations Law, LAW450/LLB450 Civil Procedure, LAW468/LLB468 Ethics and Professional Responsibility and LLB580 Honours Thesis in Law completed in the Honours year. Students must have achieved a specified WGPA in Murdoch Law units before they may be permitted to enrol in LAW480 LLB580 and enrol in the Honours award. Students should seek advice and further information from the Academic Chair for Law or the Law School Office.

#### **Award with Distinction:**

Graduation with Distinction or Higher Distinction is awarded on the basis of a high level of academic performance in Murdoch University Law units of Law + Business (Combined). The award with Distinction and High Distinction is not available to students who achieve Honours.

### Award with Distinction

Students who have completed the four-year Bachelor of Laws at a high standard may be awarded their degree with Distinction or High Distinction.

### Honours

The award of Honours is available on the basis of distinguished achievement in LLB580 Honours Thesis in Law considered together with overall performance in LLB582 Legal Research Methods for Honours and the remaining units in the student's Honours programme of study. Student LLB580 The award of Honours is available on the basis of distinguished achievement in Honours Thesis in Law considered together with overall performance in Legal Research Methods for Honours and the remaining units in the student's Honours programme of study. Students must have achieved a specified WGPA in Murdoch Law units before they may be permitted to enrol in Honours Thesis in Law and in the Honours award.

LLB580 Honours Thesis in Law - 12 points  
MURDOCH: H-internal, Y-internal

LLB582 Legal Research Methods for Honours - 3 points  
MURDOCH: H-internal, Y-internal

Students must complete the following units to count as part of their Honours program of study. Note that all three units are compulsory and must be completed as part of the degree.

LLB450 Civil Procedure - 3 points  
MURDOCH: S1-internal

LLB452 Corporations Law - 3 points  
MURDOCH: S1-internal

LLB468 Ethics and Professional Responsibility - 3 points  
MURDOCH: S1-internal, S2-internal

## LAW + COMMERCE [COMBINED] (LLB+BCOM)

Criminology

Bachelor of Laws (LLB) + Bachelor of Commerce (BCom)

Course Codes: B1371 H1280

Duration: 5 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)

Murdoch offers combined degrees which combine Law and another bachelor degree in an integrated course of study. This allows students seeking a Law degree to gain a range of opportunities for the study of disciplines other than Law which are greater than those for students within the Law degree studied on its own.

Murdoch offers a combined degree in Law and Commerce in an integrated course of study. The combined Bachelor of Laws and Bachelor of Commerce allows students to study Law and Commerce units in a complementary fashion offering both depth and breadth, together with a nuanced understanding of commerce principles across key functional areas.

### Admission Requirements (Onshore):

90 ATAR or equivalent

English competence. International students demonstrating English competence via IELTS need a score of 6.5, with no individual band less than 6.5.

### Special Requirements:

Students enrolled in Law and Business (LLB/BCom) (course code B1371) will be exempt from completing BSL165/BUS165 Foundations of Business Law.

### Employment Prospects:

Areas of employment include government, corporations, law firms, private and not for profit organisations

### Professional Accreditation:

The Australian Legal Practice Board, plus the Ministry of Law in Singapore and the Malaysian and Indian Bar Council accredits the Murdoch LLB

### Professional Recognition:

The Murdoch Bachelor of Laws satisfies the University education requirements for the practice of law of the governing bodies of the legal profession of Western Australia. As is the pattern in the rest of Australia, before a candidate may be admitted to the practice of law in this State, certain additional requirements must be satisfied after completion of this formal university training.

### Main Research Areas:

Graduates may go on to research in Law or a range of Business and Governance disciplines

### Award of Bachelor of Laws with Honours (LLB(Hons)):

Students must apply for entry into Honours immediately prior to commencing their final 24 points of study. The award of Honours is available on the basis of distinguished achievement in LLB580 Honours Thesis in Law, considered together with overall performance in LLB582 Legal Research Methods for Honours and two units from LAW452/LLB452 Corporations Law, LAW450/LLB450 Civil Procedure, LAW468/LLB468 Ethics and Professional Responsibility and LLB580 Honours Thesis in Law completed in the Honours year. Students must have achieved a specified WGPA in Murdoch Law units before they may be permitted to enrol in LAW480 LLB580 and enrol in the Honours award. Students should seek advice and further information from the Academic Chair for Law or the Law School Office.

**Award with Distinction:**

Graduation with Distinction or Higher Distinction is awarded on the basis of a high level of academic performance in Murdoch University Law units of Law + Business (Combined). The award with Distinction and High Distinction is not available to students who achieve Honours.

## **LAW + CRIMINOLOGY [COMBINED] (BCRIM+LLB)**

Business Law

*Bachelor of Criminology (BCrim) + Bachelor of Laws (LLB)*

Course Codes: B1346 H1273

Duration: 5 years full-time or part-time equivalent

### **Availability:**

- Murdoch campus (internal)
- Some units only: University of Macerata (Macerata, Italy) ['IMACERATA'] (internal) (some Specified Electives only)
- Some units only: Geneva (Geneva, Switzerland) (internal) (some Specified Electives only)

Murdoch offers combined degrees which combine Law and another bachelor degree in an integrated course of study. This allows students seeking a Law degree to gain a range of opportunities for the study of disciplines other than law which are greater than those for students within the Law degree studied on its own. Combined degrees include the Bachelor of Laws with Bachelor of Arts, Bachelor of Criminology, Bachelor of Science or Bachelor of Business.

### **Admission Requirements (Onshore):**

90 ATAR or equivalent

English competence. International students demonstrating English competence via IELTS need a score of 6.5, with no individual band less than 6.5.

### **Professional Recognition:**

The Murdoch Bachelor of Laws satisfies the University education requirements for the practice of law of the governing bodies of the legal profession of Western Australia. As is the pattern in the rest of Australia, before a candidate may be admitted to the practice of law in this State, certain additional requirements must be satisfied after completion of this formal university training.

### **Excluded Majors:**

Legal Studies

## **Course Structure - 120 credit points**

### **Year 1 - 24 credit points**

#### **Murdoch Spine: Career Learning - 3 credit points**

MSP100 Career Learning: Managing Your Career - 3 points  
MURDOCH: S1-external, S2-external

#### **Law Core Units - 12 credit points**

BJU100 Australian Legal System - 3 points  
MURDOCH: S1-internal, S2-internal

LLB130 Criminal Law and Procedure - 3 points  
MURDOCH: S2-internal

LLB152 Torts - 3 points  
MURDOCH: S2-internal

LLB120 Legal Writing for Lawyers - 3 points  
MURDOCH: S1-internal, S2-internal

#### **Criminology Major Core Units - 9 credit points**

Choose from the Crime Science or the Criminal Behaviour major.  
Refer to the Year 1 Core Unit requirements of the selected

Criminology major.

### **Year 2 - 24 credit points**

#### **Murdoch Spine: Career Learning - 3 credit points**

Select from the following:

MSP200 Building Enterprise Skills - 3 points  
MURDOCH: S1-external, S2-external

### **Award with Distinction**

Students who have completed the four-year Bachelor of Laws at a high standard may be awarded their degree with Distinction or High Distinction.

### **Honours**

The award of Honours is available on the basis of distinguished achievement in

LLB580 Honours Thesis in Law considered together with overall performance in

LLB582 Legal Research Methods for Honours and the remaining units in the student's Honours programme of study. Students must have achieved a specified WGPA in Murdoch Law units before they may be permitted to enrol in Honours Thesis in Law and in the Honours award.

LLB580 Honours Thesis in Law - 12 points  
MURDOCH: H-internal, Y-internal

LLB582 Legal Research Methods for Honours - 3 points  
MURDOCH: H-internal, Y-internal

Students must complete the following units to count as part of their Honours program of study. Note that all three units are compulsory and must be completed as part of the degree.

LLB450 Civil Procedure - 3 points  
MURDOCH: S1-internal

LLB452 Corporations Law - 3 points  
MURDOCH: S1-internal

LLB468 Ethics and Professional Responsibility - 3 points  
MURDOCH: S1-internal, S2-internal

## LAW + GLOBAL SECURITY [COMBINED] (LLB+BGS)

Criminology

Bachelor of Laws (LLB) + Bachelor of Global Security (BGS)

Course Codes: B1365 H1277

Duration: 5 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Some units only: University of Macerata (Macerata, Italy) ['IMACERATA'] (internal)
- Some units only: Geneva (Geneva, Switzerland) (internal)

Murdoch offers a combined degree in Law and Global Security in an integrated course of study. The combined Bachelor of Laws and Bachelor of Global Security allows students to study Law and Global Security in a complementary fashion offering both depth and breadth, together with a nuanced understanding of the security challenges of the Indo-Pacific (including Australia), their political policy and legal contexts, and potential resolutions. Transnational crime, policing and international law are also a focus of the combined program.

### Admission Requirements (Onshore):

90 ATAR or equivalent

English competence.

### Employment Prospects:

Law and Justice related fields, Legal Practitioner, Federal, State or Local Government, Legal Advisor, Security Analyst, Intelligence Agencies, NGOs.

### Professional Accreditation:

The Australian Legal Practice Board, plus the Ministry of Law in Singapore and the Malaysian and Indian Bar Council accredits the Murdoch LLB.

### Professional Recognition:

The Murdoch Bachelor of Laws satisfies the University education requirements for the practice of law of the governing bodies of the legal profession of Western Australia. As is the pattern in the rest of Australia, before a candidate may be admitted to the practice of law in this State, certain additional requirements must be satisfied after completion of this formal university training.

## LAW + INTERNATIONAL BUSINESS [COMBINED] (LLB+BIB)

Business Law

Bachelor of Laws (LLB) + Bachelor of International Business (BIB)

Course Codes: B1372 H1278

Duration: 5 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)

Murdoch offers combined degrees which combine Law and another bachelor degree in an integrated course of study. This allows students seeking a Law degree to gain a range of opportunities for the study of disciplines other than Law which are greater than those for students within the Law degree studied on its own.

Murdoch offers a combined degree in Law and International Business in an integrated course of study. The combined Bachelor of Laws and Bachelor of International Business allows students to study Law and Business units in a complementary fashion offering both depth and breadth, together with the opportunity to complete study overseas.

### Admission Requirements (Onshore):

90 ATAR or equivalent

English competence. International students demonstrating English competence via IELTS need a score of 6.5, with no individual band less than 6.5.

### Special Requirements:

Students enrolled in Law and Business (LLB/BIB) (course code B1372) will be exempt from completing BSL165/BUS165 Foundations of Business Law.

### Employment Prospects:

Areas of employment include government, corporations, law firms, private and not for profit organisations

### Professional Accreditation:

The Australian Legal Practice Board, plus the Ministry of Law in Singapore and the Malaysian and Indian Bar Council accredits the Murdoch LLB

### Professional Recognition:

The Murdoch Bachelor of Laws satisfies the University education requirements for the practice of law of the governing bodies of the legal profession of Western Australia. As is the pattern in the rest of Australia, before a candidate may be admitted to the practice of law in this State, certain additional requirements must be satisfied

after completion of this formal university training.

**Main Research Areas:**

Graduates may go on to research in Law or a range of Business and Governance disciplines

**Award of Bachelor of Laws with Honours (LLB(Hons)):**

Students must apply for entry into Honours immediately prior to commencing their final 24 points of study. The award of Honours is available on the basis of distinguished achievement in LLB580 Honours Thesis in Law, considered together with overall performance in LLB582 Legal Research Methods for Honours and two units from LAW452/LLB452 Corporations Law, LAW450/LLB450 Civil Procedure, LAW468/LLB468 Ethics and Professional Responsibility and LLB580 Honours Thesis in Law completed in the Honours year. Students must have achieved a specified WGPA in Murdoch Law units before they may be permitted to enrol in LAW480 LLB580 and enrol in the Honours award. Students should seek advice and further information from the Academic Chair for Law or the Law School Office.

**Award with Distinction:**

Graduation with Distinction or Higher Distinction is awarded on the basis of a high level of academic performance in Murdoch University Law units of Law + Business (Combined). The award with Distinction and High Distinction is not available to students who achieve Honours.

## LAW + PSYCHOLOGY [COMBINED] (LLB+BA)

Business Law

Bachelor of Laws (LLB) + Bachelor of Arts (BA)

Course Codes: B1354 H1275

Duration: 5 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Some units only: University of Macerata (Macerata, Italy) ['IMACERATA'] (internal) (some Specified Electives only)
- Some units only: Geneva (Geneva, Switzerland) (internal) (some Specified Electives only)

Murdoch offers combined degrees, which combine Law, and another bachelor degree in an integrated course of study. This allows students seeking a Law degree to gain a range of opportunities for the study of disciplines other than Law, which are greater than those for students within the Law degree studied on its

own. Combined degrees include the Bachelor of Laws with Bachelor of Criminology, Bachelor of Arts, Bachelor of Communication, Bachelor of Science or Bachelor of Business.

### Admission Requirements (Onshore):

90 ATAR or equivalent

Equivalent of an Academic IELTS overall score of 6.5 with no band less than 6.5.

### Employment Prospects:

Law & Justice, Health Sciences, Human Resources, Management, Marketing, Neuroscience, Clinical neuropsychology, Local and Federal Government, Private Practice

### Professional Accreditation:

The LLB is accredited by the Australian Legal Practice Board, plus the Ministry of Law in Singapore and the Malaysian and Indian Bar Council

### Professional Recognition:

The Murdoch Bachelor of Laws satisfies the University education requirements for the practice of law of the governing bodies of the legal profession of Western Australia. As is the pattern in the rest of Australia, before a candidate may be admitted to the practice of law in this State, certain additional requirements must be satisfied after completion of this formal university training.

The Bachelor of Arts in Psychology is accredited by the Australian Psychology Accreditation Council (APAC). With the addition of a fourth year of study, such as the Graduate Diploma or Honours program, students will be eligible for provisional registration with the Psychology Board of Australia.

### Other Information:

Students may exit with a Bachelor of Laws (Honours) if they have completed the required Honours Units to an appropriate level. Students who have completed the four-year Bachelor of Laws at a high standard may be awarded their degree with Distinction or High Distinction.

## Course Structure - 120 credit points

## **LAW + PSYCHOLOGY [COMBINED] (LLB+BSC)**

Business Law

*Bachelor of Laws (LLB) + Bachelor of Science (BSc) in Psychology*

Course Codes: B1355 H1276

Duration: 5 years full-time or part-time equivalent

### **Availability:**

- Murdoch campus (internal)
- Some units only: University of Macerata (Macerata, Italy) ['IMACERATA'] (internal)
- Some units only: Geneva (Geneva, Switzerland) (internal)

Murdoch offers combined degrees which combine Law and another bachelor degree in an integrated course of study. This allows students seeking a Law degree to gain a range of opportunities for the study of disciplines other than Law, which are greater than those for students within the Law degree studied on its own. Combined degrees include the Bachelor of Laws with Bachelor of Criminology, Bachelor of Arts, Bachelor of Science or Bachelor of Business.

### **Admission Requirements (Onshore):**

90 ATAR or equivalent

Equivalent of an Academic IELTS overall score of 6.5 with no band less than 6.5.

### **Employment Prospects:**

Law & Justice, Health Sciences, Human Resources, Management, Marketing, Neuroscience, Clinical neuropsychology, Local and Federal Government, Private Practice.

### **Professional Accreditation:**

The LLB is accredited by the Australian Legal Practice Board, plus the Ministry of Law in Singapore and the Malaysian and Indian Bar Council.

### **Professional Recognition:**

The Murdoch Bachelor of Laws satisfies the University education requirements for the practice of law of the governing bodies of the legal profession of Western Australia. As is the pattern in the rest of Australia, before a candidate may be admitted to the practice of law in this State, certain additional requirements must be satisfied after completion of this formal university training.

The Bachelor of Science in Psychology is accredited by the

Australian Psychology Accreditation Council (APAC). With the addition of a fourth year of study, such as the Graduate Diploma or Honours program, students will be eligible for provisional registration with the Psychology Board of Australia.

### **Other Information:**

Students may exit with a Bachelor of Laws (Honours) if they have completed the required Honours Units to an appropriate level. Students who have completed the four-year Bachelor of Laws at a high standard may be awarded their degree with Distinction or High Distinction.

## **Course Structure - 120 credit points**

Note: students must refer to study plans to ensure units are taken in the correct order.

## LAW + SCIENCE [COMBINED] (LLB+BSC)

Criminology

Bachelor of Laws (LLB) + Bachelor of Science (BSc)

Course Codes: B1324 H1250

Duration: 5 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Some units only: University of Macerata (Macerata, Italy) ['IMACERATA'] (internal) (language of instruction: English) (some Specified Electives only)
- Some units only: Geneva (Geneva, Switzerland) (internal) (language of instruction: English) (some Specified Electives only)

*Restriction: Enrolment is subject to restriction due to competitive admission requirements.*

Murdoch offers combined degrees which combine Law and another bachelor degree in an integrated course of study. This allows students seeking a Law degree to gain a range of opportunities for the study of disciplines other than law which are greater than those for students within the Law degree studied on its own.

Combined degrees include the Bachelor of Laws with Bachelor of Arts, Bachelor of Science or Bachelor of Business.

### Admission Requirements (Onshore):

90 ATAR or equivalent

Equivalent of an Academic IELTS overall score of 6.5 with no band less than 6.5.

### Professional Recognition:

The Murdoch Bachelor of Laws satisfies the University education requirements for the practice of law of the governing bodies of the legal profession of Western Australia. As is the pattern in the rest of Australia, before a candidate may be admitted to the practice of law in this State, certain additional requirements must be satisfied after completion of this formal university training.

### Recommended Double Majors:

Business Information Systems; Chemistry; Computer Science; Environmental Science; Mathematics and Statistics; Sustainable Development; Sustainable Development (OUA)

### Award of Bachelor of Laws with Honours (LLB(Hons)):

Students must apply for entry into Honours immediately prior to commencing their final 24 points of study.

The award of Honours is available on the basis of distinguished achievement in LLB580 Honours Thesis in Law, considered together with overall performance in LLB582 Legal Research Methods for Honours and two units from LAW452/LLB452 Corporations Law, LAW450/LLB450 Civil Procedure, LAW468/LLB468 Ethics and Professional Responsibility and LLB580 Honours Thesis in Law completed in the Honours year. Students must have achieved a specified WGPA in Murdoch Law units before they may be permitted to enrol in LAW480 LLB580 and enrol in the Honours award.

Students should seek advice and further information from the Academic Chair for Law or the Law School Office.

### Award with Distinction:

Graduation with Distinction or Higher Distinction is awarded on the basis of a high level of academic performance in Murdoch University Law units of Law + Science (Combined). The award with Distinction and High Distinction is not available to students who achieve Honours.

### Course Structure - 120 credit points

A combined degree, where one of the degrees is Law, may take longer than 5 years (10 semesters) to complete.

## Part I - 24 credit points

### Year 1 - 24 credit points

#### Transition Unit - 3 credit points

BJU100 Australian Legal System - 3 points  
MURDOCH: S1-internal, S2-internal

#### Breadth Unit for Degree - 3 credit points

BSC150 What is Science? - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

### Core Units - 18 credit points

#### Law Units - 9 credit points

LLB152 Torts - 3 points  
MURDOCH: S2-internal

### Award with Distinction

Students who have completed the four-year Bachelor of Laws at a high standard may be awarded their degree with Distinction or High Distinction.

### Honours

The award of Honours is available on the basis of distinguished achievement in LLB580 Honours Thesis in Law considered together with overall performance in LLB582 Legal Research Methods for Honours and the remaining units in the student's Honours programme of study. Students must have achieved a specified W GPA in Murdoch Law units before they may be permitted to enrol in LLB580 Honours Thesis in Law and in the Honours award.

LLB580 Honours Thesis in Law - 12 points  
MURDOCH: H-internal, Y-internal

LLB582 Legal Research Methods for Honours - 3 points  
MURDOCH: H-internal, Y-internal

Students must complete the following units to count as part of their Honours program of study. Note that all three units are compulsory and must be completed as part of the degree.

LLB450 Civil Procedure - 3 points  
MURDOCH: S1-internal

LLB452 Corporations Law - 3 points  
MURDOCH: S1-internal

LLB468 Ethics and Professional Responsibility - 3 points  
MURDOCH: S1-internal, S2-internal

## LAW - GRADUATE ENTRY (LLB)

Criminology

Bachelor of Laws (LLB)

Course Codes: B1340

Duration: 3 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Some units only: University of Macerata (Macerata, Italy) ['IMACERATA'] (internal) (some Specified Electives only)
- Some units only: Geneva (Geneva, Switzerland) (internal) (some Specified Electives only)

Restriction: Enrolment is subject to restriction due to competitive admission requirements.

The Bachelor of Laws at Murdoch provides you with the necessary skills in research, writing and advocacy to prepare you for legal practice and/or leadership positions in the legal, business, government and community sectors. You will learn how to find and apply the law, to understand the principles and theories upon which it is based, and how to analyse it in the context of social policy. As a Murdoch student you have the opportunity to gain experience in Murdoch's legal clinic with real clients. Murdoch Law has an international focus and offers its students the opportunity to study some of its electives in other countries.

### Admission Requirements (Onshore):

90 ATAR or equivalent; plus a recognised Bachelor degree (AQF level7) in any discipline.

Equivalent of an Academic IELTS overall score of 6.5 with no band less than 6.5.

### Special Requirements:

European Summer Program in Law and International Human Rights Program:

The School of Law is offering a selection of specified elective units as part of its European Summer Program in Law, hosted at the University of Macerata, Italy, and its International Human Rights Program in Geneva, Switzerland. These programs will be run subject to sufficient enrolments.

Enrolment in these programs is by application to the Program Director. Students are required to pay an application fee when submitting their application. Students enrolling in the program are responsible for their own airfares, accommodation, meals and incidental expenses during the program. Students are also required to pay a fee for course materials and access to the library, Internet and other facilities at the host location.

Students in the program must possess a passport valid for at least six months from the date of departure from Perth, with eligibility for a visa to enter the host country; Permanent Residents may also require a visa for re-entry into Australia.

Students are covered by Murdoch University for travel insurance. Students are advised to be aware of Australian Department of Foreign Affairs and Trade (DFAT) travel advisories prior to their departure via the following website: <http://www.smartraveller.gov.au/> All students must complete the University's online Travel Register prior to departure.

Students interested in the European Summer Program or the International Human Rights programs are encouraged to contact the School of Law office for further information.

**Part-time Study:**

Students in the degree may study on a part-time basis. It should be noted that, in some circumstances, enrolment in less than 12 points in a semester may mean that students will not meet the formal prerequisite requirements for units which they may wish to study in subsequent semesters.

**Employment Prospects:**

Solicitor, Barrister, Corporate in-house counsel, Community Legal Centres, Not for for-profit organisations, Legal Aid, working in business, local or federal government or the community sector

**Professional Accreditation:**

The Murdoch Law degree is accredited by the Ministry of Law in Singapore, the Malaysian Bar Council and the Indian Bar Council.

**Professional Recognition:**

The Murdoch Bachelor of Laws satisfies the University education requirements for the practice of law of the governing bodies of the legal profession of Western Australia. As is the pattern in the rest of Australia, before a candidate may be admitted to the practice of law in this State, certain additional requirements must be satisfied after completion of this formal university training.

**Excluded Majors:**

Business Law

**Award of Bachelor of Laws with Honours (LLB (Hons)):**

The School of Law offers an option for those students wishing to undertake Honours through a program undertaken after the completion of the Bachelor of Laws degree,

Students must have achieved a specified WGPA in their Law degree units before they may be permitted to enrol in the post-degree Honours Program. To take out the LLB with Honours they will need to complete the 24 point Honours program, consisting of LLB582 Legal Research Methods for Honours, LLB583 Advanced Supervised Legal Research and a choice of electives up to 6 points - in addition to the LLB580 Honours Thesis in Law. The award of Honours is available on the basis of sufficient achievement across all units undertaken in the student's Honours Program. Students should seek advice and further information from the Chair of the Law Honours Sub-Committee.

**Award with Distinction:**

Students who have completed the LLB at a high standard may be eligible to have their degree awarded with Distinction or High Distinction. See current University policy on award of degrees with Distinction or High Distinction.

**Further Information:**

Students with a completed undergraduate degree will be given advanced standing of 24 credit points for graduate entry into the Bachelor of Laws, including preclusion from the two Breadth units where the undergraduate degree is sufficiently different from the Law degree. This will require completion of 72 credit points of Law units including the Bachelor of Laws Transition unit and Research Skills units. Students who have completed the equivalent of 48 credit points of a \*\*Law degree will be given Advanced Standing of 48 credit points, comprising a maximum of 15 credit points at 100 level (Part I) and 33 credit points at 200 to 400 level (Part II), for entry into the Bachelor of Laws (LLB). \*\*Law degree refers to 'being a Law degree that would, once conferred, satisfy the academic requirements of practicing law in that jurisdiction'. In keeping with its character as a professional preparation, a significant proportion of the Law degree is obligatory. This gives all students a basic understanding of the legal system and an introduction to the abilities demanded by the professional practice of law. At the same time, students will be provided with opportunities to practise these abilities in simulated professional settings such as the Law School's Clinical Education Centre at Rockingham. Students will build on this foundation through

advanced unit offerings in such areas as corporate and commercial law, environmental law, family law, international law, alternative dispute resolution and human rights law. Students in the degree may study on a part-time basis. It should be noted that, in some circumstances, enrolment in less than 12 points in a semester may mean that students will not meet the formal prerequisite requirements for units which they may wish to study in subsequent semesters.

### **Award with Distinction**

Students who have completed the LLB at a high standard may be eligible to have their degree awarded with Distinction or High Distinction. See current University policy on award of degrees with Distinction or High Distinction.

## LAW HONOURS (LLB(HONS))

Business Law

Bachelor of Laws Honours (LLB(Hons))

Course Codes: H1267

Duration: 1 year full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)

The aim of Honours is to extend the student's grasp of the principles and practice of their subject, and to develop the ability for independent research.

An Honours qualification of 2A is normally required for admission to higher research degree study.

### Admission Requirements (Onshore):

Completion of a Bachelor Degree (AQF level 7) or equivalent in the same discipline or cognate area with a Distinction average, subject to the availability of a suitable supervisor and approval by the Honours Academic Chair. Students interested in Honours enrolment are advised to contact the Law School Honours Academic Chair before application to discuss supervision of their potential research.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### Apply Online:

Applications can be made online at <http://goto.murdoch.edu.au/OnlineApplicationsHonours>

### Employment Prospects:

Legal, Government, private sector

### Entry Requirements:

Students must have achieved a specified WGPA in their Law degree units before they may be permitted to enrol in the Honours Program. The award of Honours is available on the basis of sufficient achievement across all units undertaken in the student's Honours Program. Students should seek advice and further information from the Chair of the Law Honours Sub-Committee.

## Course Structure - 24 credit points

### Coursework - 12 credit points

#### Core Units - 6 credit points

LLB582 Legal Research Methods for Honours - 3 points  
MURDOCH: H-internal, Y-internal

LLB583 Advanced Supervised Legal Research - 3 points  
MURDOCH: S1-internal, S2-internal, SUM-internal, W-internal

#### Specified Electives - 6 credit points

Students must choose up to 6 points of credit from any 500 level electives available. Where possible, students should enrol in units related to their Honours topic.

Clinical Practical units will also be available to students for enrolment as part of their Honours Program. These Clinical Practical units are a required for admission to practice in Law.

### Thesis - 12 credit points

LLB580 Honours Thesis in Law - 12 points  
MURDOCH: H-internal, Y-internal

## MANAGEMENT

### MANAGEMENT (BBUS)

Economics

Bachelor of Business (BBus) in Management

Course Codes: B1367

Duration: 3 years available both full-time and part-time

### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

### Parent Major:

Bachelor of Business

The major in Management will enable students' to develop the skills and knowledge to lead and manage people, budgets, and projects. Being a manager is about getting work done, through other people. Managers direct the work of others to ensure the efficiency and effectiveness of activities throughout organisations.

Managers have varied roles; which includes defining goals, establishing strategy, planning and organising who is doing what and when, motivating employees, communicating and monitoring performance.

A Bachelor of Business provides a broad understanding of individual, organisational and societal issues. You will have the practical skills to identify business opportunities, analyse problems and implement solutions and you will be able to demonstrate a knowledge of business principles across key functional areas. You will have depth of knowledge in one or more business disciplines: accounting, banking, business law, finance, hospitality and tourism management, human resources management, international business, management and marketing.

English competence.

### Employment Prospects:

Areas of employment include government, private and not-for-profit organisations.

### Recommended Double Majors:

Accounting; Banking; Business Law; Finance; Global Business and Politics; Hospitality and Tourism Management; International Business; Marketing

### Excluded Majors:

Management

### Excluded Minors:

Management

## Course Structure - 72 credit points

Where a course core unit is listed in a major structure, an elective unit may be required. Please contact your Student Advisor for further advice.

## MANAGEMENT (BBUS)

Business

Bachelor of Business (BBUS) in Management

Course Codes: B1318

Duration: 3 years full-time or part-time equivalent

### Availability:

- Kaplan Higher Education Institute and Kaplan Higher Education Academy (Singapore) ['KAPLAN-SGP'] (internal) (language of instruction: English)
- Murdoch University Dubai (UAE) ['DUBAI-ISC'] (internal) (language of instruction: English)

### Parent Major:

Bachelor of Business

Management refers to the process of employing resources to achieve organisational goals and customer needs. The study of management explores a wide range of relevant issues, theories and perspectives to better prepare people to understand the complexities and responsibilities of managerial life in the twenty-first century.

A Bachelor of Business provides a broad understanding of individual, organisational and societal issues. You will have the practical skills to identify business opportunities, analyse problems and implement solutions and you will be able to demonstrate a knowledge of business principles across key functional areas. You will have depth of knowledge in one or more business disciplines: accounting, banking, business law, economics, finance, hospitality and tourism management, human resources management, international business, management, and marketing.

### Admission Requirements (Onshore):

As per normal undergraduate admission requirements.

### Admission Requirements (Offshore):

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### Employment Prospects:

Areas of employment include government, private and not-for-profit organisations.

### Recommended Double Majors:

Accounting; Banking; Business Law; Finance; Hospitality and Tourism Management; Human Resources Management; Marketing

## Course Structure - 72 credit points

### Year 1 - 24 credit points

#### Murdoch Spine: Career Learning - 3 credit points

BBS100 Academic Skills for Business - 3 points  
MURDOCH: S1-internal, S1-external

## MANAGEMENT (BCOM)

Economics

Bachelor of Commerce (BCom) in Management

Course Codes: B1359

Duration: 3 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

#### Parent Major:

Bachelor of Commerce

The major in Management will enable students' to develop the skills and knowledge to lead and manage people, budgets, and projects. Being a manager is about getting work done, through other people. Managers direct the work of others to ensure the efficiency and effectiveness of activities throughout organisations. Managers have varied roles; which includes defining goals, establishing strategy, planning and organising who is doing what and when, motivating employees, communicating and monitoring performance.

A Murdoch Bachelor of Commerce graduate is future enabled with a global mindset. Murdoch's Commerce degree provides you with the knowledge and skills to succeed in an ever changing world. The degree is workplace-focused, enabling you to develop your critical thinking and creative problem solving skills by working on real organisational projects, learning from professionals and through a range of internship opportunities.

The Bachelor of Commerce offers ten majors across a broad range

of industry. The course is flexible allowing students to choose up to two majors, a major and a two minors or a major, a minor and a range of electives. Majors include; accounting, banking, business law, finance, hospitality and tourism management, human resources management, international business, management, global business and politics, and marketing.

Students studying a BCom may be eligible to enrol in Murdoch University's MasterClass Program. MasterClass gives students the opportunity to complete a postgraduate qualification whilst studying for an undergraduate degree. To participate in the MasterClass Program students must have completed 1 year of a degree (24 credit points), and maintained a GPA of 3.0 or more (or equivalent). In addition, to the academic requirements students may be required to take part in a competitive selection process.

#### **Admission Requirements (Onshore):**

Minimum ATAR of 75

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Employment Prospects:**

Areas of employment include government, private and not-for-profit organisations.

#### **Recommended Double Majors:**

Accounting; Banking; Business Law; Finance; Global Business and Politics; Hospitality and Tourism Management; International Business; Marketing

#### **Excluded Majors:**

Management

#### **Excluded Minors:**

Management

## **MANAGEMENT HONOURS (BBUS(HONS))**

College of Arts, Business, Law and Social Sciences

Bachelor of Business Honours (BBus(Hons)) in Management

Course Codes: H1255

Duration: 1 year full-time or part-time equivalent

#### **Availability:**

- Murdoch campus (internal)

The aim of Honours is to extend the student's grasp of the principles and practice of their subject, and to develop the ability for independent research.

An Honours qualification of 2A is normally required for admission

to higher research degree study.

#### **Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average in units relating to the planned Honours study and a Distinction average overall. Subject to availability of a suitable supervisor and approval by the Dean of School.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Apply Online:**

Applications can be made online at  
<http://goto.murdoch.edu.au/OnlineApplicationsHonours>

### **Course Structure - 24 credit points**

#### **Coursework - 12 credit points**

##### **Core Units - 9 credit points**

MBS516 Advanced Honours Topic A - 3 points  
MURDOCH: S1-internal, S2-internal, Y-internal

MBS519 Honours Thesis - 12 points  
MURDOCH: S1-internal, S2-internal, Y-internal

## **MARINE BIOLOGY**

### **MARINE BIOLOGY (BSC)**

Environmental and Conservation Sciences

*Bachelor of Science (BSc) in Marine Biology*

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

#### **Availability:**

- Murdoch campus (internal)

#### **Parent Major:**

Bachelor of Science (Non-IT Majors)

Murdoch's Marine Biology major provides students with a detailed understanding of the biota and ecological processes of marine environments. Students study the diversity of marine life, as well as the interactions between species and between the biota and the physical environment. There is a strong emphasis on fundamental biological principles and how these underpin successful marine management, coupled with extensive opportunities for field work. Specialised units cover fish, wildlife populations and aquaculture. Students are encouraged to combine marine biology with a second minor or major to broaden their skills and to enhance employment opportunities.

Murdoch's Bachelor of Science is a flexible degree which gives you

the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

#### **Admission Requirements (Onshore):**

As per normal undergraduate admission requirements. There are no prerequisites for admission but it is highly desirable for students to have undertaken ATAR: Chemistry or WACE: Chemistry 3A/3B and at least ATAR: Mathematics Applications or TEE: Discrete Mathematics or WACE: Mathematics 2C/2D. Students not undertaking these recommended subjects will need to take additional units in their first year at university.

English competence.

#### **Employment Prospects:**

Graduates from marine biology programs find jobs in:

- \* Marine policy and planning in government (local, state and Commonwealth)
- \* Marine and coastal environmental groups and consultancies.
- \* Industry sectors such as aquaculture, fisheries and marine-based tourism.
- \* University and Government funded marine research institutions (incl. SARDI Aquatic Sciences, as well as and local, interstate and international Universities).

#### **Professional Recognition:**

Graduates are eligible for membership of the Australian Marine Sciences Association

#### **Recommended Double Majors:**

Conservation and Wildlife Biology; Environmental Management and Sustainability; Environmental Science; Genetics and Molecular Biology; Marine Science

#### **Recommended Minors:**

Applied Statistics; Ecosystem Management; Environmental Issues; Resource Management; Sustainability, Ecosystems and Community Development; Sustainable Development

#### **Excluded Minors:**

Marine Biology

#### **Main Research Areas:**

Staff teaching into Marine Biology contribute to ERA areas in Ecology, Zoology, Environmental Sciences, Environmental Science and Management, Plant Biology, and Fisheries Sciences

### **Major Prerequisites**

#### **Chemistry Background**

Students who achieved a final scaled score of 50 percent or more in Chemistry 3A/3B or Chemistry ATAR within the past three years should seek an exemption from their Academic Chair for CHE140 Fundamentals of Chemistry. Students who have completed previous chemistry not stated above should also consult their Academic Chair for clarification of their enrolment requirements.

### **Course Structure - 72 credit points**

#### **Part I - 24 credit points**

##### **Year 1 - 24 credit points**

##### **Transition Unit - 3 credit points**

BSC100 Building Blocks for Science Students - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

## **MARINE BIOLOGY HONOURS (BSC(HONS))**

College of Science, Health, Engineering and Education

*Bachelor of Science Honours (BSc(Hons)) in Marine Biology*

Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

### **Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

The aim of Honours is to extend the student's grasp of the principles and practice of their subject, and to develop the ability for independent research.

An Honours qualification of 2A is normally required for admission to higher research degree study.

### **Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Credit average (GPA 2); subject to availability of a suitable supervisor and approval by the School Dean. Students interested in enrolling in Honours are advised to contact the Academic Chair before application to discuss

supervision of their potential research project.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### **Apply Online:**

Applications can be made online at

<http://goto.murdoch.edu.au/OnlineApplicationsHonours>

### **Employment Prospects:**

The Marine Biology Honours degree prepares graduates for a range of careers in which the ability to plan, implement and analyse a research project, as well as communicate the findings, are important. Graduates will find employment in fisheries, eco-tourism, research management, and as teachers or technical officers in schools, colleges and universities.

### **Main Research Areas:**

A wide range of disciplines is available for study including marine vertebrates, marine invertebrates, ecology, physiology and eco-tourism, marine plants, climate change impacts, fisheries.

## **Course Structure - 24 credit points**

### **Coursework - 3 credit points**

VLS683 Advanced Research Methods for Scientists - 3 points

MURDOCH: S1S-internal, S1S-external, S2N3-internal, S2N3-external

### **Thesis - 21 credit points**

VLS570 Honours Thesis in Marine Biology - 21 points

MURDOCH: H-internal, H-external, S1-internal, S1-external, S2-internal, S2-external, Y-internal, Y-external

---

## **MARINE SCIENCE**

### **See also:**

Environmental Science

---

## **MARINE SCIENCE (BSC)**

Conservation Science

*Bachelor of Science (BSc) in Marine Science*

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

### **Availability:**

- Murdoch campus (internal)
- Some units only: Murdoch campus (external)

Restriction: Enrolment is subject to restriction due to constraints on unit enrolments.

### **Parent Major:**

Bachelor of Science (Non-IT Majors)

Murdoch University offers a Marine Science major at undergraduate level to enable students to develop an understanding of the complex physical, chemical, biological and ecological processes in the ocean. Students learn to assess the state of the marine environment as well as identify and mitigate impacts. Specialised units cover marine biodiversity, marine biology, oceanography, marine ecology and students also develop skills in coastal and marine management.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements. There are no prerequisites for admission but it is highly desirable for students to have undertaken ATAR: Chemistry or WACE: Chemistry 3A/3B and at least ATAR: Mathematics Applications or TEE: Discrete Mathematics or WACE: Mathematics 2C/2D. Students not undertaking these recommended subjects will need to take additional units in their first year at university.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

Students undertaking units in Marine Science will not be required to kill any vertebrate animal but they will be required to work with fresh tissue from dead animals in certain units.

**Employment Prospects:**

Through a combination of required and elective units, students can direct their studies towards employment opportunities in marine environmental management, fisheries, aquaculture, the offshore oil and gas industry, tourism and recreation, marine biotechnology, biodiversity conservation and marine ecology.

**Recommended Double Majors:**

Biological Sciences; Conservation and Wildlife Biology; Environmental Science

**Recommended Minors:**

Applied Statistics; Fisheries Science; Marine Biology

**Main Research Areas:**

Marine biology and ecology, fisheries science, coastal and marine management, oceanography, marine pollution, marine biodiversity conservation, marine biotechnology, hydrodynamics, air-sea interaction.

**Course Commencement:**

Students are advised that a Semester 1 intake is preferred. A Semester 2 start will require 3.5 years to complete.

**Major Prerequisites****Chemistry Background**

Students who achieved a final scaled score of 50 percent or more in Chemistry 3A/3B or Chemistry ATAR within the past three years should seek an exemption from their Academic Chair for CHE140 Fundamentals of Chemistry. Students who have completed previous chemistry not stated above should also consult their Academic Chair for clarification of their enrolment requirements.

**Mathematics Background**

Students need to have completed one of the following within the past three years:

Mathematics Applications ATAR (or Mathematics 2C/2D) with a final scaled score of 55 percent or more

OR

MAS164 Fundamentals of Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous mathematics not stated above should consult the Academic Chair for clarification of their enrolment requirements.

**Course Structure - 72 credit points****Part I - 24 credit points****Year 1 - 24 credit points****Transition Unit - 3 credit points**

BSC100 Building Blocks for Science Students - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Breadth Unit for Degree - 3 credit points**

BSC150 What is Science? - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Core Units - 15 credit points**

BIO180 Introduction to Marine Biology - 3 points  
MURDOCH: S1-internal

MAS183 Statistical Data Analysis - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**General Electives - 3 credit points**

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Part II - 48 credit points****University-Wide Breadth Units - 6 credit points**

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Year 2 - 21 credit points****Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

**For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC201 Psychology: Measurement, Design and Analysis - 3 points  
MURDOCH: S1-internal

**For Primary Majors in the Health Sciences, as listed**

Primary Major in Chiropractic Science, Exercise Physiology, Movement Science, or Sport and Health Science:

BSC206 Introduction to Research Methodology and Evidence Based Practice - 3 points  
MURDOCH: S2-internal

**For All Other Primary Majors excluding Information Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Core Units - 12 credit points**

BIO244 Animal Diversity - 3 points  
MURDOCH: S2-internal

BIO254 Marine Botany - 3 points  
MURDOCH: S1-internal

ENV244 Oceanography and Marine Pollution - 3 points  
 <span data-type="offering" data-unit="ENV244">MURDOCH:  
 S2-internal (quota of 50 places)</span>

ENV242 Atmospheric Science - 3 points  
 MURDOCH: S1-internal, S1-external

### **General Electives - 6 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

### **Year 3 - 21 credit points**

#### **Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

#### **For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC302 Advanced Quantitative Research Methods - 3 points  
 MURDOCH: S2-internal

#### **For Primary Majors in the Health Sciences, as listed**

Primary major in Chiropractic Science, Movement Science, Sport and Health Science:

BSC306 Research and Evidence Based Practice - 3 points  
 MURDOCH: S1-internal

#### **For All Other Primary Majors excluding Information Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

### **Core Units - 6 credit points**

BIO377 Marine Ecology - 3 points  
 MURDOCH: S1-internal

ENV333 Coastal and Marine Management - 3 points  
 <span data-type="offering" data-unit="ENV333">MURDOCH:  
 S2-internal (quota of 60 places)</span>

### **General Electives - 12 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**MARINE SCIENCE HONOURS (BSC(HONS))**

College of Science, Health, Engineering and Education

Bachelor of Science Honours (BSc(Hons)) in Marine Science

Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

The aim of the Honours year is to extend the student's grasp of the principles and practice of their subject, to develop ability for independent research, and to facilitate their entry into industry employment.

An Honours qualification of at least 2A is normally required for admission to higher research degree study.

**Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Credit average (GPA 2); subject to availability of a suitable supervisor and approval by the School Dean.

Students interested in enrolling in Honours are advised to contact the Academic Chair before application to discuss supervision of their potential research project.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Apply Online:**

Applications can be made online at <http://goto.murdoch.edu.au/OnlineApplicationsHonours>

**Employment Prospects:**

Employment opportunities exist in marine environmental management, fisheries, aquaculture, the offshore oil and gas industry, tourism and recreation, oceanography, marine biotechnology, biodiversity conservation and marine ecology.

**Main Research Areas:**

Marine biology and ecology, fisheries science, air-sea interaction, coastal and marine management, environmental management, pollution, marine conservation, marine biotechnology, oceanography, hydrodynamics.

**Course Structure - 24 credit points**

**Coursework - 3 credit points**

VLS683 Advanced Research Methods for Scientists - 3 points  
MURDOCH: S1S-internal, S1S-external, S2N3-internal, S2N3-external

**Thesis - 21 credit points**

VLS555 Honours Thesis in Marine Science - 21 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external, Y-internal, Y-external

### MARKETING (BBUS)

Economics

*Bachelor of Business (BBus) in Marketing*

Course Codes: B1367

Duration: 3 years available both full-time and part-time

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

**Parent Major:**

Bachelor of Business

The major in Marketing will enable students' to develop the skills and knowledge to provide value for customers, organisations and the community. You will learn about understanding market trends, and developing sustainable competitive strategies for products and services to satisfy customers' profitability. Typical job

destinations are in brand management, retail and distribution management, marketing communications, market research and development of marketing strategy plans. Units offered cover a range of interesting topics such as Digital and Social Marketing, Services, Relationship and Retail Marketing, Global Marketing, and Consumer Behaviour.

A Bachelor of Business provides a broad understanding of individual, organisational and societal issues. You will have the practical skills to identify business opportunities, analyse problems and implement solutions and you will be able to demonstrate a knowledge of business principles across key functional areas. You will have depth of knowledge in one or more business disciplines: accounting, banking, business law, finance, hospitality and tourism management, human resources management, international business, management and marketing.

English competence.

**Employment Prospects:**

Companies, government departments and not for profit organisations have marketing departments. Job categories within marketing departments include: product and brand management, market research and analysis, advertising and promotion, online communications and distribution planning. A marketing major also prepares graduates for careers in commercial consulting and business administration in all industry sectors.

**Professional Recognition:**

Students completing the Marketing major are eligible for membership of the Australian Marketing Institute.

**Recommended Double Majors:**

Accounting; Banking; Finance; Global Business and Politics; Hospitality and Tourism Management; Human Resources Management; International Business; Management

**Excluded Majors:**

Marketing

**Course Structure - 72 credit points**

Where a course core unit is listed in a major structure, an elective unit may be required. Please contact your Student Advisor for further advice.

**MARKETING (BBUS)**

Business

Bachelor of Business (BBus) in Marketing

Course Codes: B1318

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Kaplan Higher Education Institute and Kaplan Higher Education Academy (Singapore) ['KAPLAN-SGP'] (internal) (language of instruction: English)
- Murdoch University Dubai (UAE) ['DUBAI-ISC'] (internal) (language of instruction: English)

**Parent Major:**

Bachelor of Business

Marketing is about providing value for customers, organisations and the community. It is about understanding market trends, and developing sustainable competitive strategies for products and services to satisfy customers' profitability. The Marketing major provides the required knowledge and skills, which all types of employers (private, public and voluntary sectors) look for. Typical job destinations are in brand management, retail and distribution management, marketing communications, market research and development of marketing strategy plans. Units offered cover a number of interesting topics such as Services Marketing, International Marketing, Media Communications and Consumer Behaviour. All marketing theory is brought to life by case studies and strategic marketing projects (capstone 3rd year).

A Bachelor of Business provides a broad understanding of individual, organisational and societal issues. You will have the practical skills to identify business opportunities, analyse problems and implement solutions and you will be able to demonstrate a knowledge of business principles across key functional areas. You will have depth of knowledge in one or more business disciplines: accounting, banking, business law, economics, finance, hospitality and tourism management, human resources management, international business, management, and marketing.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

**Admission Requirements (Offshore):**

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Employment Prospects:**

Companies, government departments and not for profit organisations have marketing departments. Job categories within marketing departments include: product and brand management, market research and analysis, advertising and promotion, online communications and distribution planning. A marketing major also prepares graduates for careers in commercial consulting and business administration in all industry sectors.

**Professional Recognition:**

Students completing the Marketing major are eligible for membership of the Australian Marketing Institute.

**Recommended Double Majors:**

Accounting; Banking; Finance; Hospitality and Tourism Management; Human Resources Management; International Business; Management

## **MARKETING (BCOM)**

Business

Bachelor of Commerce (BCom) in Marketing

Course Codes: B1359

Duration: 3 years full-time or part-time equivalent

#### **Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

#### **Parent Major:**

Bachelor of Commerce

The major in Marketing will enable students' to develop the skills and knowledge to provide value for customers, organisations and the community. You will learn about understanding market trends, and developing sustainable competitive strategies for products and services to satisfy customers' profitability. Typical job destinations are in brand management, retail and distribution management, marketing communications, market research and development of marketing strategy plans. Units offered cover a range of interesting topics such as Digital and Social Marketing, Services, Relationship and Retail Marketing, Global Marketing, and Consumer Behaviour.

A Murdoch Bachelor of Commerce graduate is future enabled with a global mindset. Murdoch's Commerce degree provides you with the knowledge and skills to succeed in an ever changing world. The degree is workplace-focused, enabling you to develop your critical

thinking and creative problem solving skills by working on real organisational projects, learning from professionals and through a range of internship opportunities.

The Bachelor of Commerce offers ten majors across a broad range of industry. The course is flexible allowing students to choose up to two majors, a major and a two minors or a major, a minor and a range of electives. Majors include; accounting, banking, business law, finance, hospitality and tourism management, human resources management, international business, management, global business and politics, and marketing.

Students studying a BCom may be eligible to enrol in Murdoch University's MasterClass Program. MasterClass gives students the opportunity to complete a postgraduate qualification whilst studying for an undergraduate degree. To participate in the MasterClass Program students must have completed 1 year of a degree (24 credit points), and maintained a GPA of 3.0 or more (or equivalent). In addition, to the academic requirements students may be required to take part in a competitive selection process.

#### **Admission Requirements (Onshore):**

Minimum ATAR of 75

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Employment Prospects:**

Companies, government departments and not for profit organisations have marketing departments. Job categories within marketing departments include: product and brand management, market research and analysis, advertising and promotion, online communications and distribution planning. A marketing major also prepares graduates for careers in commercial consulting and business administration in all industry sectors.

#### **Professional Recognition:**

Students completing the Marketing major are eligible for membership of the Australian Marketing Institute.

#### **Recommended Double Majors:**

Accounting; Banking; Finance; Global Business and Politics; Hospitality and Tourism Management; Human Resources Management; International Business; Management

#### **Excluded Majors:**

Marketing

#### **Excluded Minors:**

Marketing

### **Course Structure - 72 credit points**

Where a course core unit is listed in a major structure, an elective unit may be required. Please contact your Student Advisor for further advice

#### **Year 1 - 24 credit points**

##### **Murdoch Spine: Career Learning - 3 credit points**

MSP100 Career Learning: Managing Your Career - 3 points  
MURDOCH: S1-external, S2-external

##### **Core Units - 15 credit points**

BUS122 Business in Society - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

BUS123 Management in a Global Environment - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

BUS124 Global Marketing - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

BUS163 Introduction to Accounting - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

BUS171 Foundations of Economics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

#### **Major Units - 3 credit points**

Refer to Major structure

#### **Options - 3 credit points**

Major 2 /Co-Major /Minor /General Elective

### **Year 2 - 24 credit points**

#### **Murdoch Spine: Career Learning - 3 credit points**

Select from the following:

MSP200 Building Enterprise Skills - 3 points  
MURDOCH: S1-external, S2-external

MSP201 Real World Learning - 3 points  
MURDOCH: S1-external, S2-external, SUM-external, W-external, Y-external

## MARKETING HONOURS (BBUS(HONS))

College of Arts, Business, Law and Social Sciences

*Bachelor of Business Honours (BBus(Hons)) in Marketing*

Course Codes: H1255

Duration: 1 year full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)

The aim of Honours is to extend the student's grasp of the principles and practice of their subject, and to develop the ability for independent research.

An Honours qualification of 2A is normally required for admission to higher research degree study.

### Admission Requirements (Onshore):

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average in units relating to the planned Honours study and a Distinction average overall. Subject to availability of a suitable supervisor and approval by the Dean of School.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### Apply Online:

Applications can be made online at  
<http://goto.murdoch.edu.au/OnlineApplicationsHonours>

## Course Structure - 24 credit points

### Coursework - 12 credit points

#### Core Units - 9 credit points

MBS516 Advanced Honours Topic A - 3 points  
MURDOCH: S1-internal, S2-internal, Y-internal

MBS512 Advanced Honours Topic B - 3 points  
MURDOCH: S1-internal, S2-internal, Y-internal

MBS517 Advanced Honours Research Preparation - 3 points  
MURDOCH: S1-internal, S2-internal

#### Specified Electives - 3 credit points

Select from the following:

MBS619 Qualitative Organisational Research - 3 points  
<span data-type="offering" data-unit="MBS619">MURDOCH: S1-internal (closed), S1-external (closed)</span>

MBS659 Quantitative Research for Business - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

#### Thesis - 12 credit points

MBS519 Honours Thesis - 12 points  
MURDOCH: S1-internal, S2-internal, Y-internal

## MATHEMATICS AND STATISTICS

### MATHEMATICS AND STATISTICS (BSC)

Information Technology, Mathematics and Statistics

*Bachelor of Science (BSc) in Mathematics and Statistics*

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

### Parent Major:

Bachelor of Science (Non-IT Majors)

The focus of the Mathematics and Statistics major is on mathematical and statistical training for future employment in business, industry or government. Students may concentrate on mathematical modelling, with special emphasis given to methods and applications in the life and environmental sciences and engineering, or on applied statistics, with emphasis on methods and applications in the life and health sciences (biostatistics), the environment, commerce and industry, or students may wish to combine units from both areas. The major is designed to produce practical mathematicians and statisticians with a flexible outlook, a mix of technical skills, and an awareness of the modern uses of mathematics and statistics.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

### Admission Requirements (Onshore):

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### Special Requirements:

Students completing the major externally should note that access to a suitable computer and software packages is required for some of the units.

### Employment Prospects:

This major trains students for future employment in banking, insurance, research and development, industry and government, in the computing, industrial mathematics, statistics and biostatistics areas. It provides an excellent preparation for careers in law, the health sciences, teaching and engineering when combined with studies in those areas. A shortage of numerate graduates makes mathematics and statistics graduates highly employable.

### Recommended Double Majors:

Biological Sciences; Biomedical Science; Chemistry; Computer Science; Environmental Science; Physics and Nanotechnology

### Excluded Minors:

Applied and Computational Mathematics; Applied Statistics

### Main Research Areas:

Biostatistics, experimental design, fluid mechanics, harmonic analysis, industrial modelling, numerical analysis, robust statistics, signal processing.

### Major Prerequisites

#### Mathematics Background

Students who have not achieved a final grade of Satisfactory in Mathematics Specialist ATAR (or Mathematics Specialist 3C/3D) may need to complete up to two prerequisite units depending on their mathematics background.

Mathematics Methods ATAR or Mathematics 3C/3D  
and  
Mathematics Specialist ATAR or Mathematics Specialist 3C/3D  
OR

Mathematics Methods ATAR or Mathematics 3C/3D  
and  
MAS182 Applied Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

OR

Mathematics Applications ATAR or Mathematics 2C/2D  
and  
MAS164 Fundamentals of Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

and  
MAS182 Applied Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous mathematics not stated above should consult the Academic Chair for clarification of their enrolment requirements.

## Course Structure - 72 credit points

### Part I - 24 credit points

#### Year 1 - 24 credit points

##### Transition Unit - 3 credit points

BSC100 Building Blocks for Science Students - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

##### Breadth Unit for Degree - 3 credit points

BSC150 What is Science? - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

##### Core Units - 9 credit points

MAS162 Foundations of Discrete Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

MAS161 Calculus and Matrix Algebra - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

MAS183 Statistical Data Analysis - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

##### General Electives - 9 credit points

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

### Part II - 48 credit points

#### University-Wide Breadth Units - 6 credit points

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

#### Year 2 - 21 credit points

##### Research Skills Unit - 3 credit points

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

##### For Primary Major in Cognitive Neuroscience and Health Psychology

BSC201 Psychology: Measurement, Design and Analysis - 3 points  
MURDOCH: S1-internal

##### For Primary Majors in the Health Sciences, as listed

Primary Major in Chiropractic Science, Exercise Physiology, Movement Science, or Sport and Health Science:

BSC206 Introduction to Research Methodology and Evidence Based Practice - 3 points  
MURDOCH: S2-internal

##### For All Other Primary Majors excluding Information Technology

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

##### Core Units - 9 credit points

MAS220 Mathematical Methods - 3 points  
MURDOCH: S1-internal, S1-external

Select one unit from the following, paying regard to planned 300-level unit choices:

MAS222 Probability and Statistical Inference - 3 points  
MURDOCH: S1-internal, S1-external

MAS223 Applied Statistics - 3 points  
MURDOCH: S2-internal, S2-external

MAS224 Biostatistical Methods - 3 points  
MURDOCH: S1-internal, S1-external

Select an additional unit from the following, paying regard to planned 300-level unit choices:

MAS221 Mathematical Modelling - 3 points  
MURDOCH: S2-internal, S2-external

MAS222 Probability and Statistical Inference - 3 points  
MURDOCH: S1-internal, S1-external

MAS223 Applied Statistics - 3 points  
MURDOCH: S2-internal, S2-external

MAS224 Biostatistical Methods - 3 points  
MURDOCH: S1-internal, S1-external

MAS225 Discrete Mathematics and Management Science - 3 points  
MURDOCH: S2-internal, S2-external

##### General Electives - 9 credit points

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

#### Year 3 - 21 credit points

##### Research Skills Unit - 3 credit points

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

##### For Primary Major in Cognitive Neuroscience and Health Psychology

BSC302 Advanced Quantitative Research Methods - 3 points  
MURDOCH: S2-internal

##### For Primary Majors in the Health Sciences, as listed

Primary major in Chiropractic Science, Movement Science, Sport and Health Science:

BSC306 Research and Evidence Based Practice - 3 points  
MURDOCH: S1-internal

##### For All Other Primary Majors excluding Information Technology

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

#### **Core Units - 9 credit points**

Select from the following:

MAS351 Environmental and Biological Modelling - 3 points  
MURDOCH: S1-internal, S1-external

MAS352 Time Series Analysis - 3 points  
MURDOCH: S1-internal, S1-external

MAS353 Statistical Design and Data Analysis - 3 points  
MURDOCH: S2-internal, S2-external

MAS354 Modelling and Simulation - 3 points  
MURDOCH: S2-internal, S2-external

#### **General Electives - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

## **MATHEMATICS AND STATISTICS HONOURS (BSC(HONS))**

College of Science, Health, Engineering and Education

*Bachelor of Science Honours (BSc(Hons)) in Mathematics and Statistics*  
Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

#### **Availability:**

- Murdoch campus (internal)

The aim of Honours is to provide training in research and the development of higher-level skills. The student's grasp of the principles and practice of their subject will be extended and they will develop ability for independent research.

Successful completion of the Honours course is required for admission to research degrees (i.e. Masters or PhD degrees).

#### **Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average; subject to availability of a suitable supervisor and approval by the Associate Dean (Learning and Teaching) of the School.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Apply Online:**

Applications can be made online at  
<http://goto.murdoch.edu.au/OnlineApplicationsHonours>

### **Course Structure - 24 credit points**

#### **Coursework - 12 credit points**

MAS514 Research Methods in Mathematics and Statistics - 3 points  
MURDOCH: S1-internal, S2-internal

MAS511 Honours Topic in Statistics - 3 points  
MURDOCH: S1-internal, S2-internal

MAS512 Honours Topic in Mathematics - 3 points  
MURDOCH: S1-internal, S2-internal

MAS513 Honours Topic in Numerical Analysis - 3 points

MURDOCH: S1-internal, S2-internal

### Thesis - 12 credit points

MAS519 Honours Thesis in Mathematics and Statistics - 12 points  
MURDOCH: S1-internal, S2-internal

## MINERAL SCIENCE

### See also:

Extractive Metallurgy

### MINERAL SCIENCE (BSC)

Chemistry

*Bachelor of Science (BSc) in Mineral Science*

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

#### Parent Major:

Bachelor of Science (Non-IT Majors)

Mineral extraction processes bridge applied science and engineering disciplines. Mineral scientists focus on the fundamental science of these processes. A Mineral Science degree offers the opportunity to train in interdisciplinary sciences by taking units in cognate disciplines.

This degree also caters for students with interests in mineral science, who wish to meet the requirements of double major degrees with Chemistry, Environmental Science or other disciplines such as Law and Management, or to continue towards a Bachelor of Engineering Honours in Chemical and Metallurgical Engineering degree. In addition, the three-year Bachelor of Science in Mineral Science degree is suitable for students wishing to develop the ability for creative, independent research by completing an additional one year research project to gain an Honours in Mineral Science degree, which is required for admission to the higher research degrees (i.e. Masters or PhD).

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

#### Admission Requirements (Onshore):

As per normal undergraduate admission requirements.

It is recommended that students entering this major have completed WACE Chemistry 3A/3B or Chemistry; ATAR, Physics 3A/3B and Mathematics: Specialist 3C/3D.

Applicants having other backgrounds will be considered for admission, but may need make-up units in first year, and therefore may need more than one year to complete Part I.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### Special Requirements:

This course can be completed internally or externally. Students enrolling in units that have a practical component must make allowance for on-campus attendance to complete the practical work. The on-campus sessions for external students are generally held in a one week block for each unit; the dates are published in each unit guide.

#### Employment Prospects:

Graduates can expect to find employment in mineral processing and metal extraction plants throughout Australia and overseas as plant and project metallurgists, mill superintendents, operations managers, consultants and researchers.

#### Professional Accreditation:

Recognised by the Australasian Institute of Mining and Metallurgy.

#### Professional Recognition:

Graduates are eligible for professional membership of the Australasian Institute of Mining and Metallurgy.

#### Recommended Double Majors:

Chemistry; Environmental Science; Mathematics and Statistics

#### Main Research Areas:

Chemistry; science; physics; mathematics; mineral; minerals; metal; metals; process; metallurgy; industrial; industrial process; extractive metallurgy; mining; geology; hydrometallurgy; pyrometallurgy.

### Major Prerequisites

#### Chemistry Background

Students may need to complete prerequisite units depending on their background in chemistry and their final scaled score in Chemistry 3A/3B or Chemistry ATAR within the past three years.

Chemistry 3A/3B or Chemistry ATAR with a final scaled score of 50 percent or more

OR

CHE140 Fundamentals of Chemistry - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous chemistry studies not stated above should consult the Academic Chair for clarification of their enrolment requirements.

#### Mathematics Background

Students may need to complete one prerequisite unit depending on their background in mathematics with either a final scaled score of 60 percent or more in Mathematics Methods ATAR (or Mathematics 3C/3D) or a C grade in Mathematics Specialist ATAR (or Mathematics: Specialist 3C/3D) within the past three years.

Students without this background will need to complete as a bridging unit:

MAS164 Fundamentals of Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous mathematics not stated above should consult the Academic Chair for clarification of their enrolment requirements.

#### Physics Background

Students may need to complete prerequisite units depending on their background in physics and their final scaled score in Physics 3A/3B within the past three years.

Physics 3A/3B with a final scaled score of 60 percent or more

OR

PEN120 General Physics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous physics not stated above should consult the Academic Chair for clarification of their enrolment requirements.

**Course Structure - 72 credit points****Part I - 24 credit points****Year 1 - 24 credit points****Transition Unit - 3 credit points**

BSC100 Building Blocks for Science Students - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Breadth Unit for Degree - 3 credit points**

BSC150 What is Science? - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Core Units - 15 credit points**

ENG193 Introduction to the Minerals Industry - 3 points  
MURDOCH: S1-internal, S1-external

CHE144 Foundations of Chemistry - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

MAS161 Calculus and Matrix Algebra - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

MAS182 Applied Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

PEN152 Principles of Physics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**General Electives - 3 credit points**

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Part II - 48 credit points****University-Wide Breadth Units - 6 credit points**

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Year 2 - 21 credit points****Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

**For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC201 Psychology: Measurement, Design and Analysis - 3 points  
MURDOCH: S1-internal

**For Primary Majors in the Health Sciences, as listed**

Primary Major in Chiropractic Science, Exercise Physiology, Movement Science, or Sport and Health Science:

BSC206 Introduction to Research Methodology and Evidence Based Practice - 3 points  
MURDOCH: S2-internal

**For All Other Primary Majors excluding Information Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Core Units - 9 credit points**

ENG202 Engineering Thermodynamics - 3 points  
MURDOCH: S1-internal, S1-external

ENG205 Process Mineralogy - 3 points  
MURDOCH: S1-internal, S1-external

ENG224 Principles of Unit Operations - 3 points  
MURDOCH: S1-internal, S1-external

**General Electives - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Year 3 - 21 credit points****Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

**For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC302 Advanced Quantitative Research Methods - 3 points  
MURDOCH: S2-internal

**For Primary Majors in the Health Sciences, as listed**

Primary major in Chiropractic Science, Movement Science, Sport and Health Science:

BSC306 Research and Evidence Based Practice - 3 points  
MURDOCH: S1-internal

**For All Other Primary Majors excluding Information Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Core Units - 9 credit points**

ENG324 Principles of Mineral Processing - 3 points  
MURDOCH: S1-internal, S1-external

ENG325 Pyrometallurgy - 3 points  
MURDOCH: S1-internal, S1-external

ENG326 Hydrometallurgy - 3 points  
MURDOCH: S2-internal, S2-external

**General Electives - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

## **MINERAL SCIENCE HONOURS (BSC(HONS))**

College of Science, Health, Engineering and Education

Bachelor of Science Honours (BSc(Hons)) in Mineral Science

Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

#### **Availability:**

- Murdoch campus (internal)

Students who have completed the three year BSc (Mineral Science) major may enrol in this Honours year. The Honours year is used to extend a student's grasp of the principles and practice of mineral

science by undertaking a rigorous, research-based project.

Mentoring by a member of staff enables Honours students to develop the ability for creative, independent research. Students are expected to be involved in the entire research process from concept through to writing and presenting the data obtained, along the way developing skills in advanced chemical technique, project management, high-level problem solving and communication of research findings to peers.

Successful completion of the Honours course is required for admission to research degrees (i.e. Masters or PhD degrees).

#### **Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average; subject to availability of a suitable supervisor and approval by the Associate Dean (Learning and Teaching) of the School.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Apply Online:**

Applications can be made online at

<http://goto.murdoch.edu.au/OnlineApplicationsHonours>

#### **Employment Prospects:**

Graduates can expect to find employment in a range of areas associated with the Minerals Industry. Honours graduates are favourably looked upon by employers as successful completion of a year long project provides concrete evidence of chemical, project management, problem solving, and communication skills.

#### **Professional Recognition:**

Graduates may qualify for graduate membership of the Australasian Institute of Mining and Metallurgy.

## **Course Structure - 24 credit points**

Students will undertake a major research project and thesis on a topic related to hydrometallurgy, pyrometallurgy or mineral processing and some advanced coursework.

### **Coursework - 6 credit points**

CHE576 Literature Review - 3 points

MURDOCH: S1-internal, S2-internal

VLS683 Advanced Research Methods for Scientists - 3 points

MURDOCH: S1S-internal, S1S-external, S2N3-internal, S2N3-external

### **Thesis - 18 credit points**

ENG539 Honours Thesis in Mineral Science - 18 points

MURDOCH: H-internal, Y-internal

---

## **MISCELLANEOUS**

### **DOUBLE DEGREE FIVE YEAR**

Administration

Course Codes: B1281

Duration: 5 years full-time or part-time equivalent

#### **Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

This course is intended to accommodate students who need to be formally enrolled in a double degree structure rather than registered with the University as intending to complete the requirements of two courses and two awards on completion. Students in the course must enrol in the two primary majors which

reflect the courses they will complete. Students who require enrolment in this course must apply for transfer.

For further information, students should refer to individual course entries.

**Admission Requirements (Onshore):**

Direct admission is not available.

**Course Structure - 120 credit points**

Please refer to individual course structures.

**DOUBLE DEGREE FOUR YEAR**

Administration

Course Codes: B1280

Duration: 4 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

This course is intended to accommodate students who need to be formally enrolled in a double degree structure rather than registered with the University as intending to complete the requirements of two courses and two awards on completion. Students in the course must enrol in the two primary majors which reflect the courses they will complete. Students who require enrolment in this course must apply for transfer.

For further information, students should refer to individual course entries.

**Admission Requirements (Onshore):**

Direct admission is not available.

**Course Structure - 96 credit points**

Please refer to individual course structures.

**MOLECULAR BIOLOGY**

**See also:**

Biological Sciences

**GENETICS AND MOLECULAR BIOLOGY (BSC)**

Biomedical Science

Bachelor of Science (BSc) in Genetics and Molecular Biology

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Some units only: Murdoch campus (external)

**Parent Major:**

Bachelor of Science (Non-IT Majors)

The Genetics and Molecular Biology major is concerned with the structure and function of the molecules that are fundamental to life: DNA, RNA, proteins and metabolites. It provides the basis for the in depth study of organism function from genes through to phenotype, using cutting edge technologies. It also focuses on the importance of understanding the 'omics, including genomics, as well as the software tools needed to solve problems at the molecular level. These techniques have widespread application in all aspects of modern biology, including medicine, forensic science,

conservation biology and agriculture.

From the perspective of the fundamental disciplines of biochemistry and microbiology, the Genetics and Molecular Biology major at Murdoch provides in-depth study of modern molecular science and introduces students to the scientific techniques associated with gene and protein expression, and gene manipulation.

Students contemplating careers in medical research are strongly recommended to undertake a Genetics and Molecular Biology/Biomedical Science double major. This is also good preparation for entry into Graduate Medicine.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements. There are no prerequisites for admission but it is highly desirable for students to have studied TEE Chemistry or ATAR Chemistry and Mathematics Applications ATAR.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

Students undertaking units in Genetics and Molecular Biology will not be required to kill any vertebrate animal but they will be required to work with fresh tissue from dead animals in certain units.

**Employment Prospects:**

Geneticists and molecular biologists are in high demand in hospitals, research organisations such as the CSIRO and medical research centres, university and agriculture departments and in biotechnology and food processing companies.

**Recommended Double Majors:**

Biological Sciences; Biomedical Science; Conservation and Wildlife Biology; Forensic Biology and Toxicology

**Excluded Minors:**

Molecular Biology

**Major Prerequisites**

**Chemistry Background**

Students who achieved a final scaled score of 60 percent or more in ATAR Chemistry or Chemistry within the past three years should seek an exemption from their Academic Chair for CHE140 Fundamentals of Chemistry. Students who have completed previous chemistry not stated above should also consult their Academic Chair for clarification of their enrolment requirements.

**Course Structure - 72 credit points**

**Part I - 24 credit points**

**Year 1 - 24 credit points**

**Transition Unit - 3 credit points**

BSC100 Building Blocks for Science Students - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Breadth Unit for Degree - 3 credit points**

BSC150 What is Science? - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Core Units - 15 credit points**

BMS101 Introduction to the Human Body - 3 points

MURDOCH: S1-internal

CHE140 Fundamentals of Chemistry - 3 points

MURDOCH: S1-internal, S1-external, S2-internal, S2-external

CHE144 Foundations of Chemistry - 3 points

MURDOCH: S1-internal, S1-external, S2-internal, S2-external

MAS183 Statistical Data Analysis - 3 points

MURDOCH: S1-internal, S1-external, S2-internal, S2-external

BIO152 Cell Biology - 3 points

MURDOCH: S2-internal

### General Electives - 3 credit points

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

## Part II - 48 credit points

### University-Wide Breadth Units - 6 credit points

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

### Year 2 - 21 credit points

#### Research Skills Unit - 3 credit points

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

#### For Primary Major in Cognitive Neuroscience and Health Psychology

BSC201 Psychology: Measurement, Design and Analysis - 3 points

MURDOCH: S1-internal

#### For Primary Majors in the Health Sciences, as listed

Primary Major in Chiropractic Science, Exercise Physiology, Movement Science, or Sport and Health Science:

BSC206 Introduction to Research Methodology and Evidence Based Practice - 3 points

MURDOCH: S2-internal

#### For All Other Primary Majors excluding Information Technology

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

### Core Units - 9 credit points

BIO282 Molecular Biology - 3 points

MURDOCH: S1-internal

BIO246 Microbiology - 3 points

MURDOCH: S1-internal

OR

BMS212 Medical Microbiology - 3 points

MURDOCH: S1-internal

BIO247 Biochemistry - 3 points

MURDOCH: S2-internal

### General Electives - 9 credit points

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

### Year 3 - 21 credit points

#### Research Skills Unit - 3 credit points

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

#### For Primary Major in Cognitive Neuroscience and Health Psychology

BSC302 Advanced Quantitative Research Methods - 3 points

MURDOCH: S2-internal

#### For Primary Majors in the Health Sciences, as listed

Primary major in Chiropractic Science, Movement Science, Sport and Health Science:

BSC306 Research and Evidence Based Practice - 3 points

MURDOCH: S1-internal

#### For All Other Primary Majors excluding Information Technology

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

### Core Units - 9 credit points

BIO356 Genetics and Evolution - 3 points

MURDOCH: S1-internal

BIO394 Genetic Engineering - 3 points

MURDOCH: S1-internal

BIO378 Systems Biology - 3 points

MURDOCH: S2-internal

### General Electives - 9 credit points

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

### Recommended General Elective

VLS300 Group Projects in Veterinary and Life Sciences - 3 points

MURDOCH: AW3-external, AW4-external, S1-internal, S1-external, S2-internal, S2-external, ST3-internal, ST3-external, SUM-internal, SUM-external, W-internal, W-external

## MOLECULAR BIOLOGY HONOURS (BSC(HONS))

College of Science, Health, Engineering and Education

Bachelor of Science Honours (BSc(Hons)) in Molecular Biology

Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

The aim of the Honours year is to extend the student's grasp of the principles and practice of their subject, to develop ability for independent research, and to facilitate their entry into industry employment.

An Honours qualification of at least 2A is normally required for admission to higher research degree study.

#### Admission Requirements (Onshore):

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Credit average (GPA 2); subject to availability of a suitable supervisor and approval by the School Dean.

Students interested in enrolling in Honours are advised to contact the Academic Chair before application to discuss supervision of their potential research project.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### Apply Online:

Applications can be made online at <http://goto.murdoch.edu.au/OnlineApplicationsHonours>

## Course Structure - 24 credit points

### Coursework - 3 credit points

VLS683 Advanced Research Methods for Scientists - 3 points  
MURDOCH: S1S-internal, S1S-external, S2N3-internal, S2N3-external

### Thesis - 21 credit points

VLS530 Honours Thesis in Molecular Biology - 21 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external, Y-internal, Y-external

## NURSING

### NURSING (BNURS)

Nursing

Bachelor of Nursing (BNurs) in Nursing

Course Codes: B1335

Duration: 3 years full-time or part-time equivalent, requiring study in both summer and winter terms. Students must complete within 6 years to be eligible for Nursing registration.

#### Availability:

- Murdoch campus (internal)
- Mandurah campus (internal)

Restriction: Enrolment is subject to restriction due to limited equipment and facilities, and professional recognition requirements.

#### Parent Major:

Bachelor of Nursing

This course will prepare graduates for registration as a Registered Nurse within Australia and allow professional practice in a variety of clinical settings. The course provides a learning environment that encourages a caring therapeutic relationship between the nurse and people in health and illness, supported through holistic evidence-based nursing practice. Workplace consolidation of theory to practice and experiential and simulated learning opportunities will be features of the course in developing highly competent and sought after graduates.

This course will prepare graduates for registration as a Registered

Nurse within Australia and allow professional practice in a variety of clinical settings. The course provides a learning environment that encourages a caring therapeutic relationship between the nurse and people in health and illness, supported through holistic evidence-based nursing practice. Workplace consolidation of theory to practice and experiential and simulated learning opportunities will be features of the course in developing highly competent and sought after graduates.

This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

#### **Admission Requirements (Onshore):**

As per normal undergraduate admission requirements, plus a clear National Police Clearance and English language competencies as described below. Recommended subjects are: Human Biological Science ATAR, Maths Applications ATAR, and Chemistry ATAR.

1. ATAR pathway students will require a scaled mark of 50 or more in English, English Literature or English as an additional language or dialect (ATAR English) or equivalent English, OR
2. Alternative pathway students, including course transfers, must have English as their primary language and have attended and satisfactorily completed at least six years of primary and secondary education taught and assessed in English in a recognised country, including at least two years between years 7 and 12. Recognised countries include, Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom and United States of America; OR
3. Demonstrated English competence via IELTS with a minimum overall score of 6.5 and a minimum score of 6.5 in each of the four components (listening, reading, writing and speaking) or an equivalent score in either the TOEFL iBT, PTE Academic or the OET English language tests.

#### **Special Requirements:**

A National Police Clearance is required as well as a level of health suitable to meet the requirements of such a course and to meet safe nursing practice. On commencement, students will be required to meet WA Department of Health vaccination requirements, students will be required to provide copies of a current CPR certificate, Working with Children Card, Department of Health WA Criminal Screening Card and Manual Handling Certificate and successful completion of the School of Health Professions Maths Competency.

Potential students who have medical conditions, disabilities or who are concerned about their ability to meet the practical requirements of the course, should review the Inherent Requirements for Nursing on the Murdoch website prior to enrolling.

Students are required to have access to a smart device that is capable of using app-based software systems.

#### **Employment Prospects:**

There is a shortage of registered nurses nationwide. A strong professional education in the essential areas of acute, chronic and preventative health care across the lifespan will facilitate job selection in Australia and many overseas countries where Australian nurses are sought.

#### **Professional Accreditation:**

This course is accredited by the Australian Nursing and Midwifery Accreditation Council (ANMAC)

#### **Professional Recognition:**

Graduates from this course will be eligible to apply to the Nurses and Midwives Board of Australia for registration in the category of Registered Nurse. At point of application to the Nurses and Midwives Board of Australia, graduates will need to provide proof of having met an IELTS score of at least 7 in each band, if their primary or secondary education took place in a country where English is not the native language. Results from tests completed more than two (2) years prior to application for registration will not

be accepted.

For further information, students can go to:  
[www.nursingmidwiferyboard.gov.au](http://www.nursingmidwiferyboard.gov.au)

Students should note that the course must be completed within six years of commencement to be eligible for registration.

#### **Main Research Areas:**

Nursing principles and practice.

#### **Campus Transfer:**

Students wishing to apply for a campus transfer at any time during their Bachelor of Nursing course must make a formal application through the Student Centre using the Nursing course transfer form. Applications are open from May to June and October to November via

<http://our.murdoch.edu.au/Student-life/Get-organised/Useful-forms/>  
This form must be accompanied by a statement regarding the reason for your request, along with supporting evidence (eg medical certificate, evidence of either hardship or compassionate grounds, change of address etc). Applications can only be considered if there are vacancies at the campus you wish to transfer to.

**NURSING HONOURS (BNURS(HONS))**

Nursing

Bachelor of Nursing Honours (BNurs(Hons))

Course Codes: H1258

Duration: 1 year full-time or part-time equivalent, commencing Semester 1 only

**Availability:**

- Murdoch campus (internal)
- Mandurah campus (internal)

The Bachelor of Nursing with Honours assists students to gain a greater depth of understanding in their chosen area of interest whilst developing the ability for independent research. This is achieved through undertaking coursework in research methodology in addition to a research project.

**Admission Requirements (Onshore):**

Completion of a Bachelor Degree in Nursing (AQF Level 7) with a Distinction average; subject to availability of a suitable supervisor and approval by the Associate Dean (Learning and Teaching) of the School of Health Professions.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**PHILOSOPHY****PHILOSOPHY (BA)**

Communications

Bachelor of Arts (BA) in Philosophy

Course Codes: B1356

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

**Parent Major:**

Bachelor of Arts

Philosophy is the foundation of all other disciplines. It focuses on the very scope and limits of human understanding and deals with the most fundamental knowledge of the world and ourselves. All systematic enquiry is ultimately grounded in philosophy. It is the art of clear thinking, the ability to address the most fundamental questions in life and an understanding of how to revise our conceptual frameworks in order to elicit change in the world, which set up philosophy students to become competent thinkers, leaders, and innovators who make a real impact. The Philosophy program at Murdoch introduces students to the major strands of philosophical thought as well as offering three special focus areas: ethics and

political philosophy, 20th century European philosophy, and history of metaphysics.

The Bachelor of Arts at Murdoch is a degree unlike any other in Australia. It embraces new directions in teaching and practice-based learning to train the thinkers and researchers of the 21st century. So many of the biggest and most vital issues we face today are about human society and the human condition. How can we understand who we are, how we want to live, or what kind of society we want to create, without the insights, knowledge and skills provided by the humanities? Our degree is different because we teach our students to put these into practice in a way that is recognised and valued by employers. Our graduates are empowered to be the agile and creative thinkers who will thrive in a rapidly changing world. They are able to think creatively, communicate effectively, manage projects, exercise highly-developed analytical and interpersonal skills, and they possess an in-depth knowledge of contemporary societal issues and trends. These are professional skills which are recognised and valued universally. In short, you can study what you love and get a job too!

#### **Admission Requirements (Onshore):**

As per normal undergraduate admission requirements

English competence.

#### **Special Requirements:**

There may be a reduction of choice of units if completing this course in the external mode.

#### **Employment Prospects:**

Philosophy develops critical faculties, broadens intellectual horizons, enhances critical thinking abilities and fine-tunes writing skills. It provides excellent preparation for a wide variety of careers where analysis and communication are important. The skills students gain will be directly applicable in areas including policy development, research and evaluation, project design and coordination, change management, administration roles in state, federal and local government, online learning development and technology, journalism and media, professional writing, equal opportunity, access/transition to education programs and the not-for-profit sector - just to name a few. By combining Philosophy with vocationally-based degrees such as Law, Computer Science, Environmental Science, Psychology, Theology, Education, Theatre and Drama, and even Commerce and Economics, students can pursue a specific career with added intellectual focus, further enhancing their graduate prospects.

#### **Recommended Double Majors:**

English and Creative Writing; History; Law; Terrorism and Counterterrorism Studies

#### **Recommended Minors:**

Creative Writing; Modern History; Social Justice in Contemporary Culture

#### **Excluded Minors:**

Ethics; Philosophy

#### **Main Research Areas:**

ethics, political philosophy, environmental philosophy, philosophy of economics, applied ethics, hermeneutics, metaphysics, phenomenology, history of ideas

#### **Languages and Writing Skills:**

Philosophy students are strongly encouraged to include a writing unit in their selection of a secondary area of study. It is also recommended that students consider studying a language other than English, with Indonesian and Japanese available at Murdoch within the Bachelor of Arts.

## PHOTOGRAPHY

### PHOTOGRAPHY (BCRMEDIA)

Communications

Bachelor of Creative Media (BCrMedia) in Photography

Course Codes: B1343

Duration: 3 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)

#### Parent Major:

Bachelor of Creative Media

The Photography major provides students with a comprehensive set of practical photographic and digital imaging skills in combination with theoretical knowledge to enable them as photographers to develop their vision and progress their career as creative professionals. Students will have their creative practice informed and enriched by an in-depth study of the power and meaning of image within a cultural-historical context. Throughout the major students develop a thorough understanding of critical photographic design and theory and learn how to apply this at a practical level in their work. Students will develop strong technical photographic and lighting skills through the rigorous development of numerous photographic graphic design projects. In addition, students will be equipped with contemporary network and marketing skills key to their success as creative producers.

In the Bachelor of Creative Media you will develop a broad understanding of your field and the skills you need to be successful in the creative media industries. The degree blends study in the creative disciplines with work-integrated learning. As a creative media graduate, you will understand the commercial context and changing nature of the creative industries, and your role as a creative professional within them. You will have the opportunity to build a portfolio of creative works throughout your degree, and showcase your creative potential.

#### Admission Requirements (Onshore):

As per normal undergraduate admission requirements.

English competence. Students demonstrating English competence via IELTS need an overall score of 6.0 with no individual band less than 6.0.

#### Special Requirements:

There are compulsory on-campus components in this major.

#### Employment Prospects:

Graduates of this major will be well suited to careers in a range of industries and fields such as fashion, publications, advertising, professional photographic agencies, corporations, art, journalism, government, etc.

#### Professional Recognition:

Upon entering industry application can be made to join various industry associations such as AIPP (Australian Institute of Professional Photographers), CAMS Media (Photography) Accreditation Program or APS (Australian Photographic Society).

**Recommended Double Majors:**

Global Media and Communication; Journalism; Screen Production; Strategic Communication

**Course Structure - 72 credit points****Year 1 - 24 credit points****Murdoch Spine: Career Learning - 3 credit points**

MSP100 Career Learning: Managing Your Career - 3 points  
MURDOCH: S1-external, S2-external

**Course Core Unit - 3 credit points**

CRE100 Foundation in Creative Media - 3 points  
MURDOCH: S1-internal, S2-internal

**Course Specified Electives - 6 credit points**

Specified electives list indicating recommendations for particular majors where appropriate. Choose two units from this list:

**Course Specified Electives - 6 credit points**

Choose two units from this list, excluding those units in your major:

SCR102 Introduction to Documentary - 3 points  
MURDOCH: S2-internal  
(recommended for Screen Production)

RAD105 Introduction to Radio - 3 points  
MURDOCH: S2-internal  
(recommended for Screen Production or Sound)

COM104 Digital Newsgathering and Reporting - 3 points  
MURDOCH: S2-internal  
(recommended for Screen Production)

COM109 Introduction to Digital Media Skills - 3 points  
MURDOCH: S1-internal, S2-internal  
(recommended for Graphic Design)

GAD172 Drawing - 3 points  
MURDOCH: S1-internal, S2-internal  
(recommended for Games Art and Design)

SCR100 Introduction to the Screen - 3 points  
MURDOCH: S1-internal

SCR101 Screen Production 1 - 3 points  
MURDOCH: S1-internal, S2-internal

SOU169 Introduction to Sound Studies - 3 points  
MURDOCH: S1-internal

SOU101 Introduction to Audio Production - 3 points  
MURDOCH: S2-internal

PHO101 Digital Imaging - 3 points  
MURDOCH: S2-internal

GRD118 Introduction to Graphic Design - 3 points  
MURDOCH: S2-internal

GAD154 Introduction to Games Art and Design - 3 points  
MURDOCH: S1-internal, S2-internal

GAD164 3D Modelling - 3 points  
MURDOCH: S1-internal, S2-internal

**Major Core Units - 6 credit points**

PHO124 Photography 1 - 3 points  
MURDOCH: S1-internal, S2-internal

PHO101 Digital Imaging - 3 points  
MURDOCH: S2-internal

**General Electives or Second Major - 6 credit points**

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider

using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Year 2 - 24 credit points****Murdoch Spine: Career Learning - 3 credit points**

Select from the following:

MSP200 Building Enterprise Skills - 3 points  
MURDOCH: S1-external, S2-external

MSP201 Real World Learning - 3 points  
MURDOCH: S1-external, S2-external, SUM-external, W-external, Y-external

COM203 Consulting and Freelancing - 3 points  
MURDOCH: S2-internal

CRE301 Client Consultancy - 3 points  
MURDOCH: H-internal, H-external, S1-internal, S1-external, S2-internal, S2-external, SUM-internal, SUM-external, W-internal, W-external, Y-internal, Y-external

CRE325 Creative Media Professional Placement - 3 points  
MURDOCH: S1-internal, S2-internal, SUM-internal, W-internal

COM313 Campus Radio - 3 points  
MURDOCH: S1-internal

**Course Specified Electives - 3 credit points**

Specified electives list indicating recommendations for particular majors where appropriate. Choose one unit from this list in either year 2 or year 3:

SCR222 Directing and Producing - 3 points  
<span data-type="offering" data-unit="SCR222">MURDOCH: S2-internal (closed)</span>  
(recommended for Screen Production)

RAD374 Popular Music - 3 points  
MURDOCH: S2-internal  
(recommended for Screen Production; recommended for Sound)

PHO202 Photo Documentary - 3 points  
MURDOCH: S2-internal  
(recommended for Screen Production)

GAD232 Critical Games, Play and Design - 3 points  
MURDOCH: S2-internal  
(recommended for Graphic Design)

GAD261 Games Art - 3 points  
MURDOCH: S1-internal

GAD241 Animation - 3 points  
MURDOCH: S1-internal

GAD210 Technical Art and Games Engine Scripting - 3 points  
MURDOCH: S2-internal

GRD263 Web Design - 3 points  
MURDOCH: S1-internal

GRD201 Publication Design - 3 points  
MURDOCH: S2-internal

GRD202 Brand and Identity Design - 3 points  
MURDOCH: S1-internal

PHO203 Photography 2 - 3 points  
MURDOCH: S1-internal

PHO204 Visual Literacy - 3 points  
MURDOCH: S1-internal

SCR200 Writing for the Screen - 3 points  
MURDOCH: S1-internal

SCR201 Screen Production 2 - 3 points  
MURDOCH: S1-internal

SCR204 Documentary Production - 3 points  
MURDOCH: S2-internal

#### Major Core Units - 9 credit points

PHO203 Photography 2 - 3 points  
MURDOCH: S1-internal

PHO204 Visual Literacy - 3 points  
MURDOCH: S1-internal

PHO202 Photo Documentary - 3 points  
MURDOCH: S2-internal

#### General Electives or Second Major - 9 credit points

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

#### Year 3 - 24 credit points

##### Murdoch Spine: Career Learning - 3 credit points

Select from the following:

MSP201 Real World Learning - 3 points  
MURDOCH: S1-external, S2-external, SUM-external, W-external, Y-external

CRE312 Creative Media Projects 2 - 3 points  
MURDOCH: S2-internal

##### Course Core Units - 3 credit points

CRE311 Creative Media Projects 1 - 3 points  
MURDOCH: S1-internal

##### Major Core Units - 9 credit points

PHO306 Photographic Studio - 3 points  
MURDOCH: S1-internal

PHO305 Photographic Culture - 3 points  
MURDOCH: S2-internal

PHO312 Media Projects - 3 points  
MURDOCH: S2-internal

#### General Electives or Second Major - 9 credit points

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

## PHYSICS AND NANOTECHNOLOGY

### PHYSICS AND NANOTECHNOLOGY (BSC)

Chemistry

Bachelor of Science (BSc) in Physics and Nanotechnology

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

#### Parent Major:

Bachelor of Science (Non-IT Majors)

Physics has a long and distinguished history. It underpins our modern technology and can be found at the cutting edge of science in the field of nanotechnology.

The Physics and Nanotechnology major combines an essential core

of classical and modern physics with units that provide the background for working in the rapidly developing area of nanoscience and nanotechnology. The three-year course covers mechanics and waves, quantum theory, electromagnetism, thermodynamics, the physics of materials and applications of nanotechnology. Study of these areas provides an understanding of natural processes, energy and materials not just at the macroscopic scale but also at the nanoscopic scale.

Students have the opportunity to extend their analytical and problem solving skills to related disciplines in areas such as Computer Science, Chemistry, Biology, Mathematical Modelling, Mathematics and Statistics, Ocean Science, Environmental Science, Sustainable/Renewable Energy or Science Communication. An additional year of study leads to an Honours degree, offering enhanced employment prospects and is the entry point into a Masters or Doctoral research degree.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

#### Admission Requirements (Onshore):

As per normal undergraduate admission requirements. Students who have not completed the necessary mathematics or physics at WACE-level may be required to complete introductory units in first year.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### Special Requirements:

Computer access with a CD-ROM drive or Internet access is essential. Email is essential.

#### Employment Prospects:

Graduates find employment in a wide variety of fields including universities, research institutions, government agencies and private companies in areas such as pure research, research and development, education, quality control, health and medical physics, environmental monitoring, meteorology and astronomy.

#### Professional Recognition:

This degree has been accredited by the Australian Institute of Physics. Students who have completed this degree can apply to the Academic Chair for membership to the Australian Institute of Physics and the Institute of Physics (UK).

#### Recommended Double Majors:

Chemistry; Computer Science; Mathematics and Statistics

#### Excluded Minors:

Physics

#### Main Research Areas:

Renewable energy, surface physics, thin films, and nanotechnology with applications in medicine, resources, environment and energy.

#### Major Prerequisites

##### Chemistry Background

Students may need to complete prerequisite units depending upon their background in chemistry and their final scaled score in Chemistry 3A/3B or Chemistry ATAR within the past three years.

Chemistry 3A/3B or Chemistry ATAR with a final scaled score of 50 percent or more

OR

CHE140 Fundamentals of Chemistry - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous chemistry not stated above should consult their Academic Chair for clarification of their enrolment requirements.

### **Mathematics Background**

Students may need to complete a prerequisite unit depending on their background in mathematics and their final scaled score in Mathematics Specialist ATAR or Mathematics Specialist units or the equivalent Applicable Mathematics and Calculus within the past four years.

Students need to achieve a Pass in  
MAS182 Applied Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

OR

Mathematics Methods ATAR (or Mathematics 3A/3B/3C/3D)

OR

Students who achieve a minimum C grade in Mathematics Specialist ATAR (or Mathematics: Specialist 3C/3D) TEE Calculus with a final scaled score of 55 percent or more may seek an exemption from MAS182 Applied Mathematics from their Academic Chair.

Students who do not meet the prerequisite conditions for MAS182 Applied Mathematics will need a PASS in

MAS164 Fundamentals of Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous mathematics not stated above should consult the Academic Chair for clarification of their enrolment requirements.

### **Physics Background**

Students may need to complete one prerequisite unit depending on their background in physics and their final scaled score in WACE Physics 3A/3B within the past four years.

Students must achieve a C grade in Physics 3A/3B

OR

TEE Physics with a final scaled score of 60 percent or more

OR

PEN120 General Physics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Students who have completed previous physics not stated above should consult the Academic Chair for clarification of their enrolment requirements.

## **Course Structure - 72 credit points**

### **Part I - 24 credit points**

#### **Year 1 - 24 credit points**

##### **Transition Unit - 3 credit points**

BSC100 Building Blocks for Science Students - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

##### **Breadth Unit for Degree - 3 credit points**

BSC150 What is Science? - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

##### **Core Units - 15 credit points**

PEN152 Principles of Physics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external  
(Students who have not completed Physics 3A/3B will be required to undertake PEN120 General Physics prior to completing this unit.)

MAS161 Calculus and Matrix Algebra - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external  
(Students who have not completed Mathematics: Specialist 3C/3D will be required to undertake MAS182 Applied Mathematics prior to completing this unit.)

ENG192 Energy, Mass and Flow - 3 points  
MURDOCH: S2-internal, S2-external

MAS182 Applied Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

CHE144 Foundations of Chemistry - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

### **General Electives - 3 credit points**

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

## **Part II - 48 credit points**

### **University-Wide Breadth Units - 6 credit points**

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

### **Year 2 - 21 credit points**

#### **Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

#### **For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC201 Psychology: Measurement, Design and Analysis - 3 points  
MURDOCH: S1-internal

#### **For Primary Majors in the Health Sciences, as listed**

Primary Major in Chiropractic Science, Exercise Physiology, Movement Science, or Sport and Health Science:

BSC206 Introduction to Research Methodology and Evidence Based Practice - 3 points  
MURDOCH: S2-internal

#### **For All Other Primary Majors excluding Information Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

### **Core Units - 12 credit points**

PEN231 Modern Physics - 3 points  
MURDOCH: S1-internal, S1-external

PEN202 Thermodynamics for Physics and Nanotechnology - 3 points  
MURDOCH: S2-internal, S2-external

PEN261 Applications of Nanotechnology - 3 points  
MURDOCH: S1-internal, S1-external

MAS220 Mathematical Methods - 3 points  
MURDOCH: S1-internal, S1-external

### General Electives - 6 credit points

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

### Year 3 - 21 credit points

#### Research Skills Unit - 3 credit points

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

#### For Primary Major in Cognitive Neuroscience and Health Psychology

BSC302 Advanced Quantitative Research Methods - 3 points  
MURDOCH: S2-internal

#### For Primary Majors in the Health Sciences, as listed

Primary major in Chiropractic Science, Movement Science, Sport and Health Science:

BSC306 Research and Evidence Based Practice - 3 points  
MURDOCH: S1-internal

#### For All Other Primary Majors excluding Information Technology

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

#### Core Units - 12 credit points

PEN317 Physics of Materials - 3 points  
MURDOCH: S2-internal, S2-external

MAS221 Mathematical Modelling - 3 points  
MURDOCH: S2-internal, S2-external

OR

MAS351 Environmental and Biological Modelling - 3 points  
MURDOCH: S1-internal, S1-external

PEN332 Electromagnetism - 3 points  
MURDOCH: S1-internal, S1-external

PEN363 Experimental Physics and Nanotechnology - 3 points  
MURDOCH: S2-internal, S2-external

### General Electives - 6 credit points

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

### Research Skills Unit List

#### Animal Health Major

BSC200 Research in the Physical and Life Sciences - 3 points  
Not available this year

MAS223 Applied Statistics - 3 points  
MURDOCH: S2-internal, S2-external

MAS224 Biostatistical Methods - 3 points  
MURDOCH: S1-internal, S1-external

BIO282 Molecular Biology - 3 points  
MURDOCH: S1-internal

## **PHYSICS AND NANOTECHNOLOGY HONOURS (BSC(HONS))**

College of Science, Health, Engineering and Education

*Bachelor of Science Honours (BSc(Hons)) in Physics and Nanotechnology*

Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

### **Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

The aim of Honours is to provide training in research and the development of higher-level skills. The student's grasp of the principles and practice of their subject will be extended and they will develop ability for independent research.

Successful completion of the Honours course is required for admission to research degrees (i.e. Masters or PhD degrees).

**Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average; subject to availability of a suitable supervisor and approval by the Associate Dean (Learning and Teaching) of the School.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Apply Online:**

Applications can be made online at <http://goto.murdoch.edu.au/OnlineApplicationsHonours>

**Professional Accreditation:**

Australian Institute of Physics.

**Professional Recognition:**

Institute of Physics (IOP)

**Main Research Areas:**

Applied physics, nanotechnology and energy research.

**Course Structure - 24 credit points**

**Coursework - 9 or 12 credit points**

VLS683 Advanced Research Methods for Scientists - 3 points  
MURDOCH: S1S-internal, S1S-external, S2N3-internal, S2N3-external

PEN530 Advanced Topics in Physics and Nanotechnology: Theoretical - 3 points  
MURDOCH: S1-internal, S1-external

PEN523 Advanced Topics in Physics and Nanotechnology: Experimental - 3 points  
MURDOCH: S2-internal, S2-external

If completing 12 credit points, select from any 500-level unit in the relevant discipline, approved by the Academic Chair.

**Thesis - 12 or 15 credit points**

PEN589 Honours Thesis in Physics and Nanotechnology - 12 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external, Y-internal, Y-external

OR

PEN599 Honours Thesis in Physics and Nanotechnology - 15 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external, Y-internal, Y-external

---

## POLITICS AND INTERNATIONAL STUDIES

**See also:**

International Business  
Security, Terrorism and Counterterrorism

## GLOBAL POLITICS AND POLICY HONOURS (BA(HONS))

College of Arts, Business, Law and Social Sciences

Bachelor of Arts Honours (BA(Hons)) in Politics and International Studies

Course Codes: H1256

Duration: 1 year full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)

The aim of Honours is to extend the student's grasp of the principles and practice of their subject, and to develop ability for independent research.

An Honours qualification of 2A is normally required for admission to higher research degree study.

**Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average; subject to availability of a suitable supervisor and approval by the Associate Dean Learning and Teaching.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Apply Online:**

Applications can be made online at <http://goto.murdoch.edu.au/OnlineApplicationsHonours>

**Course Structure - 24 credit points**

**Coursework - 12 credit points**

**Core Units - 9 credit points**

POL501 Honours Research Seminar - 6 points  
MURDOCH: S1-internal, S1-external

POL500 Honours Topic in Global Politics and Policy - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external, SUM-internal, SUM-external

**Elective Unit - 3 credit points**

A 500-level unit, or a second enrolment in POL500 Honours Topic in Global Politics and Policy - 3 points, chosen in consultation with the Honours supervisor and Academic Chair.

**Thesis - 12 credit points**

POL579 Honours Thesis in Global Politics and Policy - 12 points  
MURDOCH: S1-internal, S2-internal

---

## PSYCHOLOGY

## DIPLOMA OF PSYCHOLOGICAL STUDIES

Exercise Science

Course Codes: A1003

Duration: 1 year full-time or part-time equivalent

**Availability:**

- Murdoch University Dubai (UAE) ['DUBAI-ISC'] (internal) (language of instruction: English)

The Diploma of Psychological Studies is designed to provide students with a broad introduction to the field of psychology in a supportive, student-centred learning environment. It will prepare students for further study or for an entry level professional career.

Students will explore a broad range of subject areas relating to psychology as practice, study and science. They will have a better understanding of career planning and management, as well as develop literacy skills that will enhance their academic and professional communication and language capabilities. The knowledge and skills gained through completing the Diploma will be directly transferable to either entry-level employment/work settings and/or to further learning in an academic setting.

**Admission Requirements (Onshore):**

Successful completion of Year 12 with minimum ATAR of 50 or Foundation Program or AQF Certificate IV

**Admission Requirements (Offshore):**

Successful completion of GCE A levels with 2 passes (E or better)  
International Baccalaureate - Aggregate score of 21 or above  
Other - successful completion of one of the following:  
. A recognised post-secondary (post high school course);  
. University preparation (foundation) studies;  
. One year of study at a recognised tertiary or higher education institute;  
. 2 units completed at an Australian University or Open University Australia (OUA).  
Full list of country specific academic entry requirements can be provided.

IELTS 5.5 (no band less than 5.5)  
TOEFL Ibt 60 (no band less than 18)  
PTE 46 (writing no less than 46)

**Professional Accreditation:**

No

**Professional Recognition:**

No

**Additional Academic Progress Requirements:**

Students need to successfully complete 24 credit points comprising 6 core units and 2 General Electives.

**Course Structure - 24 credit points**

**Course Core - 24 credit points**

MFP1001 Language Enhancement - 3 points  
DUBAI-ISC: TMD-internal, TSD-internal

MSP1001 Career Learning: Managing Your Career - 3 points

PSY1731 Introduction to Psychological Research Methods - 3 points  
DUBAI-ISC: TSD-internal

**General Electives - 6 credit points**

**Additional Academic Progress Requirements**

Students need to successfully complete 24 credit points comprising 6 core units and 2 General Electives.

**HUMAN BEHAVIOUR**

Chiropractic

**Availability:**

- Murdoch campus (internal)

This major is designed to allow you to follow your specific interests

across social, developmental, cognitive or health psychology, to support your future practice in a broad range of industries. It focuses on the study of human behaviour and mental processes. At Murdoch, we teach the established basis of psychological knowledge and methods integrated with the latest developments in the field. The major is intended for students who are interested in understanding human behaviour, but who do not intend to register in the future as a practising psychologist. Psychology encompasses many aspects of human behaviour from individual differences in personality and intelligence, to emotions, motivations, memory, thought processes and interpersonal relationships. In this major, students can choose which of these topics they wish to explore.

**Admission Requirements (Onshore):**

Not for direct entry. This major is designed to be taken as a second or additional major only.

English competence.

**Main Research Areas:**

Psychology

**Major Structure - 24 credit points**

**Core Units - 6 credit points**

PSY101 Introduction to Cultural Psychology - 3 points  
MURDOCH: S1-internal

## PSYCHOLOGY (BA)

Chiropractic

Bachelor of Arts (BA) in Psychology

Course Codes: B1338

Duration: 3 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Murdoch University Dubai (UAE) ['DUBAI-ISC'] (internal)

### Parent Major:

Bachelor of Arts (Psychology Major)

Psychology is the study of human behaviour and mental processes. At Murdoch, we teach the established basis of psychological knowledge and methods integrated with the latest developments in the field.

Psychology encompasses many aspects of human behaviour from individual differences in personality and intelligence, to emotions, motivations, memory, thought processes and interpersonal relationships. Psychology is also an applied discipline, aligned to a professional career as a 'psychologist'.

A degree in psychology equips students with broad theoretical and practical knowledge of psychology as well as job-ready skills in analysis, writing, research, communication, and teamwork.

The Bachelor of Arts (Psychology) provides the option for students to undertake minors in related areas of study including criminal psychology, human resources, and ethics.

Psychology is the study of human behaviour and mental processes. At Murdoch, we teach the established basis of psychological knowledge and methods integrated with the latest developments in the field.

Psychology encompasses many aspects of human behaviour from individual differences in personality and intelligence, to emotions, motivations, memory, thought processes and interpersonal relationships. Psychology is also an applied discipline, aligned to a professional career as a 'psychologist'.

A degree in psychology equips students with broad theoretical and practical knowledge of psychology as well as job-ready skills in analysis, writing, research, communication, and teamwork.

The Bachelor of Arts (Psychology) provides the option for students to undertake minors in related areas of study including criminal psychology, human resources, and ethics.

### Admission Requirements (Onshore):

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### Employment Prospects:

Psychology will be of special interest to those wishing to enter the psychology profession and also to students envisaging a practical or academic career in such fields as management, human resources, marketing, law, criminology, media studies, etc.

### Professional Accreditation:

Australian Psychology Accreditation Council (APAC).

### Professional Recognition:

This 3-year course is accredited by the Australian Psychology Accreditation Council (APAC) for the Murdoch campus delivery only. Currently one additional year of study is necessary to achieve the minimum 4-year academic qualification standard for provisional registration as a psychologist in Australia, recognised by the Psychology Board of Australia.

### Recommended Minors:

Criminological Psychology; Human Resources Management

### Excluded Majors:

Psychology

### Excluded Minors:

Neuroscience; Social and Developmental Psychology

### Main Research Areas:

Psychology

### Further Study:

A fourth year of study is available in the form of an honours year BA(Hons) or Graduate Diploma in Psychology.

## Course Structure - 72 credit points

## PSYCHOLOGY (KAPLAN, SINGAPORE) (BA)

Counselling

Bachelor of Arts (BA) in Psychology (Kaplan, Singapore)

Course Codes: B1338

Duration: 3 years full-time or part-time equivalent

##### Availability:

- Kaplan Higher Education Institute and Kaplan Higher Education Academy (Singapore) ['KAPLAN-SGP'] (internal) (language of instruction: English)

##### Parent Major:

Bachelor of Arts (Psychology Major)

Psychology is the study of human behaviour and mental processes. At Murdoch, we teach the established basis of psychological knowledge and methods integrated with the latest developments in the field.

Psychology encompasses many aspects of human behaviour from individual differences in personality and intelligence, to emotions, motivations, memory, thought processes and interpersonal relationships. Psychology is also an applied discipline, aligned to a professional career as a 'psychologist'.

A degree in psychology equips students with broad theoretical and practical knowledge of psychology as well as job-ready skills in analysis, writing, research, communication, and teamwork.

Psychology is the study of human behaviour and mental processes. At Murdoch, we teach the established basis of psychological knowledge and methods integrated with the latest developments in the field.

Psychology encompasses many aspects of human behaviour from individual differences in personality and intelligence, to emotions, motivations, memory, thought processes and interpersonal relationships. Psychology is also an applied discipline, aligned to a

professional career as a 'psychologist'.

A degree in psychology equips students with broad theoretical and practical knowledge of psychology as well as job-ready skills in analysis, writing, research, communication, and teamwork.

The Bachelor of Arts (Psychology) provides the option for students to undertake minors in related areas of study including criminal psychology, human resources, and ethics.

#### **Admission Requirements (Offshore):**

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Employment Prospects:**

Psychology will be of special interest to those wishing to enter the psychology profession and also to students envisaging a practical or academic career in such fields as management, human resources, marketing, law, criminology, media studies, etc.

#### **Professional Accreditation:**

Australian Psychology Accreditation Council (APAC). Students who wish to proceed to fourth and later years of study and/or be eligible for professional registration must complete three extra units mandated by the Australian Psychology Accreditation Council (APAC). Details are included in the structure of the major.

#### **Professional Recognition:**

This 3-year course is accredited by the Australian Psychology Accreditation Council (APAC). Currently one additional year of study is necessary to achieve the minimum 4-year academic qualification standard for provisional registration as a psychologist in Australia, recognised by the Psychology Board of Australia.

## **Course Structure - 72 credit points**

### **Part I - 24 credit points**

#### **Year 1 - 24 credit points**

##### **Transition Unit - 3 credit points**

BAR100 Academic Learning Skills - 3 points

OR (for Kaplan and Dubai students only)

BBS100 Academic Skills for Business - 3 points

##### **Breadth Unit for Degree - 3 credit points**

BAR150 Ideas and Identity - 3 points

OR (for Kaplan students only)

BBS150 Transforming Business - 3 points

OR (Dubai students only)

MSP100 Career Learning: Managing Your Career - 3 points

##### **Core Units - 9 credit points**

PSY141 Introduction to Psychological Science - 3 points  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

PSY101 Introduction to Cultural Psychology - 3 points  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

PSY173 Introduction to Psychological Research Methods - 3 points  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

##### **General Electives - 9 credit points**

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and

minors will be included in the major's description.

## **Part II - 48 credit points**

### **University-Wide Breadth Units - 6 credit points**

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

#### **Year 2 - 21 credit points**

##### **Research Skills Unit - 3 credit points**

BSC201 Psychology: Measurement, Design and Analysis - 3 points  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

##### **Core Units - 9 credit points**

PSY285 Psychology: Social Bases of Behaviour - 3 points  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

##### **General Electives - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

### **Additional Professional Accreditation Requirements**

Students who wish to proceed to fourth and later years of study and/or be eligible for professional registration must complete the following units mandated by the Australian Psychology Accreditation Council (APAC)

PSY388 Psychology: Abnormal Behaviour - 3 points  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

PSY251 Psychology: Biological Bases of Behaviour - 3 points  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

PSY294 Psychology: Cognitive Processes - 3 points  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

## PSYCHOLOGY HONOURS (BA(HONS))

College of Arts, Business, Law and Social Sciences

Bachelor of Arts Honours (BA(Hons)) in Psychology

Course Codes: H1256

Duration: 1 year full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)

The aim of Honours is to extend the students' grasp of the principles and practice of their subject, and to develop their ability to conduct independent research.

The Honours course provides units in research design and the opportunity to carry out a piece of empirical research under supervision. The thesis and poster reporting the empirical research represent more than half of the (Honours) fourth year work.

An Honours qualification of 2A (or suitable equivalent) is normally required for admission to higher research degree study.

### Admission Requirements (Onshore):

Completion of a Bachelor Degree (AQF Level 7) with a major in psychology with a 3.0 GPA in Psychology units; subject to availability of supervisors and approval by the Academic Chair of the Honours program.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### Apply Online:

Applications can be made online at <http://goto.murdoch.edu.au/OnlineApplicationsHonours>

### Employment Prospects:

Psychology degrees will be of special interest not only to those desiring to enter the psychology profession but also to students envisaging employment and careers in fields which require a good understanding of human behaviour. Such careers may include health, education, ergonomics and human resource management.

### Professional Recognition:

This is fully accredited by the Australian Psychology Accreditation Council (APAC), and recognised by the Australian Psychological Society (APS).

### Further Study:

Successful completion of the Honours course (or suitable equivalent) is required for admission to research degrees (i.e. Masters or PhD degrees).

## Course Structure - 24 credit points

### Coursework - 9 credit points

PSY501 Psychology: Honours Seminar - 3 points  
MURDOCH: S1-internal

PSY598 Advanced Psychological Assessment - 3 points  
MURDOCH: S1-internal

## PUBLIC RELATIONS

### See also:

Journalism

### PUBLIC RELATIONS (BA)

Creative Media, Arts and Design

Bachelor of Arts (BA) in Public Relations

Course Codes: B1316 B1316A

Duration: 3 years full-time or part-time equivalent

#### Availability:

- Kaplan Higher Education Institute and Kaplan Higher Education Academy (Singapore) ['KAPLAN-SGP'] (internal) (language of instruction: English)

#### Parent Major:

Bachelor of Arts

This major aims to prepare students for careers in public relations and communications. It explores Australian and international theories and practices, with an emphasis on ethical communication and engagement with a diverse range of stakeholders. The major offers a combination of theoretical and practical components. Students are introduced to communication and public relations theory and are expected to develop critical thinking, evaluative and analytical skills. Communication skills including writing, public speaking, team work and conflict management are taught in addition to the research and evaluation of public relations strategies.

In the Bachelor of Arts you will develop a broad understanding of your field and proficiency in producing written and oral arguments and creative artefacts in response to social, human and natural phenomena. You will also develop a critical appreciation of the perspectives of others. As an Arts graduate you will be able to think critically and creatively, apply knowledge and information, and communicate effectively. These are professional skills which are critical across a range of industries. You will also be able to pursue further study in the fields of social research, the humanities and/or the creative arts.

#### Admission Requirements (Onshore):

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### Employment Prospects:

Graduates may follow careers in public relations and specialised areas such as public affairs, community relations, media liaison and online communication.

#### Recommended Double Majors:

Communication and Media Studies; Journalism; Web Communication

## SCREEN PRODUCTION

### SCREEN PRODUCTION (BCRMEDIA)

Creative Media, Arts and Design

Bachelor of Creative Media (BCrMedia) in Screen Production

Course Codes: B1343

Duration: 3 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)

#### Parent Major:

Bachelor of Creative Media

This major teaches and prepares students to be film-makers. Students will learn current screen industry practices and their theoretical principles, including scriptwriting, producing, directing, cinematography, digital video editing, sound recording and design, post-production digital compositing, and photographic skills. Units cover a mix of screen practice and image theory. Students over the course of their program will complete productions in drama, documentary and factual film. Students will engage in the film-making formats of documentary, drama, music-video, experimental, webisodes, television studio, and more.

In the Bachelor of Creative Media you will develop a broad understanding of your field and the skills you need to be successful in the creative media industries. The degree blends study in the creative disciplines with work-integrated learning. As a creative media graduate, you will understand the commercial context and changing nature of the creative industries, and your role as a creative professional within them. You will have the opportunity to build a portfolio of creative works throughout your degree, and showcase your creative potential.

#### Admission Requirements (Onshore):

As per normal undergraduate admission requirements.

English competence. Students demonstrating English competence via IELTS need an overall score of 6.0 with no individual band less than 6.0.

#### Employment Prospects:

Graduates can expect to find employment in a wide range of fields, from the creative industries (online, advertising, television, music, film and documentary) to management, administration, public policy, media research. Graduates will also have had ample opportunities to be familiar with a range of film and video crew functions such as screen-writing, producing, directing, editing, production design, digital compositing, lighting, cinematography, sound recording and design etc.

#### Professional Recognition:

Murdoch University is a member of the Australian Screen Production Education and Research Association.

#### Recommended Double Majors:

English and Creative Writing; Games Art and Design; Global Media and Communication; Journalism; Sound; Strategic Communication

#### Main Research Areas:

Media studies; Australian indigenous media; creative industries; film; cinema; television; sound; new media; digital video; documentary; YouTube

## SECURITY, TERRORISM AND COUNTERTERRORISM

### BACHELOR OF GLOBAL SECURITY (BGS)

Global Studies

Bachelor of Global Security (BGS)

Course Codes: B1363

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

The Bachelor of Global Security provides understandings of contemporary challenges to security, including terrorism, political violence, transnational crime, global poverty and climate change, and analyses their political, historical and social context. Graduates will have the skills to respond to such challenges in the short-term, and develop robust solutions. Such skills are highly sought after in many public and private sector organisations - security, law enforcement and defence agencies and consultancies, and organisations concerned with aid, human security, development, and human rights.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements. A minimum ATAR of 70 is required.

**Admission Requirements (Offshore):**

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

None

**Employment Prospects:**

Security Policymaking, Security Consultancies (public and private), Security Agencies, Law Enforcement, Defence Forces, Foreign Affairs, and Aid and other Non-Governmental Organisations engaged in operations in high-risk areas.

**Main Research Areas:**

Security, Human Security, Security Policy, Terrorism, Counter-terrorism, Foreign Relations, Political Economy, Asian Politics, Middle-Eastern Politics, Public Policy

## TERRORISM AND COUNTERTERRORISM STUDIES (BGS)

Global Studies

*Bachelor of Global Security (BGS) in Terrorism and Counterterrorism Studies*

Course Codes: B1363

Duration: 3 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)
- OUA (Australia) (external) (commencing 2020)

#### Parent Major:

Bachelor of Global Security

Terrorism, and efforts to counter it, has come to reshape national and global politics in the 21st Century. In this major, students will explore the meaning, evolution and complex causes of terrorism and political violence. Students will gain specialised knowledge of various counter-terrorism strategies, policies and politics adopted by governments and security agencies in response to these threats. The major equips students with specialised analytical skills to analyse contexts in which terrorism occurs and evaluate counter terrorism policies and strategies.

The Bachelor of Global Security provides understandings of contemporary challenges to security, including terrorism, political violence, transnational crime, global poverty and climate change, and analyses their political, historical and social context. Graduates will have the skills to respond to such challenges in the short-term,

and develop robust solutions. Such skills are highly sought after in many public and private sector organisations - security, law enforcement and defence agencies and consultancies, and organisations concerned with aid, human security, development, and human rights.

#### Admission Requirements (Onshore):

As per normal undergraduate admission requirements. A minimum ATAR of 70 is required.

#### Admission Requirements (Offshore):

As per normal undergraduate admission requirements.

English competence.

#### Employment Prospects:

Security policymaking, Security Consultancies (public and private), Security Agencies, Intelligence, Law Enforcement, Border Protection, Defence Forces, Foreign Affairs, Aid and Non-governmental Organisations

#### Recommended Double Majors:

Crime Science; Criminal Behaviour; Legal Studies

#### Recommended Minors:

Community Development; International Aid and Development; Public Policy

#### Main Research Areas:

Security, Human Security, Security Policy, Terrorism, Counter-Terrorism, Violent Extremism, Political Violence, Conflict, Policing, International Relations, Political Economy, Asian Politics, Middle-Eastern Politics, Public Policy

#### Mobility:

The Major offers the potential for a number of mobility options. Existing programs include the ACICIS Professional Practicums (offered in Summer) and ACICIS semester-long programs such as those in International Relations (Bandung) and Indonesian Business, Law and Society (Yogyakarta) - all of which are eligible for New Colombo Plan funding.

In addition, Dr Jacqui Baker and Dr Ian Wilson are members of a newly established WA working group (facilitated by the WA State Government) to explore research and teaching opportunities around security, terrorism and counterterrorism studies with partner universities in East Java. This is fully supported by the Indonesian Ministry of Education Directorate General of Higher Education (DIKTI) which has funds on offer to facilitate exchange and collaboration. Funding is also available from WA. The working group includes several public universities (including ECU), some with an emphasis upon social sciences and others with an IT focus (cyber-security). The opportunities this offers complement existing international study options.

Together, these options strengthen the regional expertise which is a distinctive feature of the major, and which is a highly sought after graduate attribute of employers such as the Australian Federal Police.

## SOCIOLOGY

### SOCIOLOGY (BA)

Global Studies

Bachelor of Arts (BA) in Sociology

Course Codes: B1356

Duration: 3 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)
- Some units only: Murdoch campus (external)

#### Parent Major:

Bachelor of Arts

In an increasingly complex global world, understanding social change and your part in this is of vital importance. With this in mind, Sociology provides you with knowledge that is academically sound, socially useful and vocationally relevant. Central to how we practice Sociology at Murdoch is our interest in developing pioneering ways of understanding the dynamic relationship between individuals and the global societies they are part of. On top of exploring the patterns, ideas and findings of Sociology in various texts you will be encouraged to think as an active sociologist.

Sociology helps us to grasp the connections between the personal and the social in a global context. It helps us understand how changes in the structure of society, the material world (eg. Technology), the economy, cultural systems of beliefs and values, and access to power, influence us as members of society. Sociology is particularly interested in class, gender, ethnicity, and religion. Sociological knowledge and skills are increasingly important in a wide range of professions and occupations, and provide a broader perspective for understanding the world.

The Bachelor of Arts at Murdoch is a degree unlike any other in Australia. It embraces new directions in teaching and practice-based learning to train the thinkers and researchers of the 21st century. So many of the biggest and most vital issues we face today are about human society and the human condition. How can we understand who we are, how we want to live, or what kind of society we want to create, without the insights, knowledge and skills provided by the humanities? Our degree is different because we teach our students to put these into practice in a way that is recognised and valued by employers. Our graduates are empowered to be the agile and creative thinkers who will thrive in a rapidly changing world. They are able to think creatively, communicate effectively, manage projects, exercise highly-developed analytical and interpersonal skills, and they possess an in-depth knowledge of contemporary societal issues and trends. These are professional skills which are recognised and valued universally. In short, you can study what you love and get a job too!

#### **Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Special Requirements:**

There may be a reduction of choice of units if completing this course in the external mode.

#### **Employment Prospects:**

Sociology is uniquely suited to helping students develop skills needed for successful careers related to social life, social change, diverse communities, and their interactions. Studying sociology fosters creativity, innovation, critical thinking, problem solving, and communication skills. It provides a foundation for understanding the globalising world and equips you with tools for imagining solutions to difficult social problems.

The breadth, adaptability, and utility of sociology mean there are numerous employment opportunities. The following list is illustrative and there are other career options: Advocacy; Case management; Childcare; Community development; Criminal investigations/justice; Elementary or secondary education; Human resources/Personnel; Research agencies; Law enforcement; Non-profit agencies; Police officers; Rehabilitation counselling; Social work; Sustainable development; Special Education; Youth/Elderly services; Urban Planning.

#### **Recommended Double Majors:**

Community Development; International Aid and Development; Sustainable Development; Tourism and Events

#### **Recommended Minors:**

Asian Studies; Australian Indigenous Studies; Modern History; Public Policy; Religion

#### **Main Research Areas:**

Social change and social equity, humanitarian work, food studies, social policy, gender inequalities, multiculturalism, diversity and inequality, (global) institutions

**SOUND****SOUND (BCRMEDIA)**

Communications

*Bachelor of Creative Media (BCrMedia) in Sound*

Course Codes: B1343

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)

**Parent Major:**

Bachelor of Creative Media

Sound incorporates the way sound is used both in media and in everyday life. In music recording, film sound, game sound, radio and industrial sound design professionals create the recognisable sounds of the modern world and create new sounds. This major focuses on the practice of contemporary sound design and production, combining a mix of theory and production in areas such as popular music, sound for film and games, studio recording, music technology, live sound and radio sound design.

In the Bachelor of Creative Media you will develop a broad understanding of your field and the skills you need to be successful in the creative media industries. The degree blends study in the creative disciplines with work-integrated learning. As a creative media graduate, you will understand the commercial context and changing nature of the creative industries, and your role as a creative professional within them. You will have the opportunity to build a portfolio of creative works throughout your degree, and showcase your creative potential.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

English competence. Students demonstrating English competence via IELTS need an overall score of 6.0 with no individual band less than 6.0.

**Special Requirements:**

This course is only available to internal students at the Murdoch campus since it is a production-based course which utilises the facilities at this campus.

**Employment Prospects:**

Music recording, editing, mixing and remixing; film and television sound recording, sound editing, sound mixing and sound design; sound design for interactive media, games and theatre; industrial sound design, radio production.

**Professional Recognition:**

Murdoch University is a member of the Australian Screen Production Education and Research Association.

**Recommended Double Majors:**

Screen Production

**Main Research Areas:**

Sound for film and television, sound design, music technology, recording studios, sound in interactive media.

---

**SPORT AND HEALTH SCIENCE (BSC)**

Counselling

*Bachelor of Science (BSc) in Sport and Health Science*

Course Codes: B1317 B1317A

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)

**Parent Major:**

Bachelor of Science (Non-IT Majors)

Sport, and in particular Exercise Science, is a growing discipline within Australia and worldwide. The Sport and Health Science major focuses on the sub-disciplines of Exercise Physiology and Sports Psychology. Students will develop knowledge and skills in both theoretical and practical settings that will enable them to prescribe exercise to healthy populations, including elite athletes, while understanding the psychological background to exercise and sport.

Murdoch's Bachelor of Science is a flexible degree which gives you the opportunity to build deep understanding and practical experience as well as to supplement your studies by engaging with industry and the community on relevant problems. You can even

undertake studies through another discipline to broaden your understanding of the way in which science operates in relation to social, business, health and policy environments.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

A Working with Children Check will be required for some practical placements.

Students who are completing Movement Science as a second major will complete EXS309 Exercise Science Practicum in place of the third year breadth unit.

**Employment Prospects:**

The range of workplace settings include: University sport science labs; academies of sport; institutes of sport; professional and amateur sporting clubs; and fitness clubs.

**Professional Accreditation:**

Students who wish to register with Exercise and Sports Science Australia as an Exercise Scientist or enter into the Graduate Diploma in Clinical Exercise Physiology to become an Accredited Exercise Physiologist will be required to take a second major in Movement Science.

**Main Research Areas:**

Sports Science, Exercise and Health Science, Biomechanics, Motor Control.

**Course Structure - 72 credit points****Part I - 24 credit points****Year 1 - 24 credit points****Transition Unit - 3 credit points**

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Part II - 48 credit points****University-Wide Breadth Units - 6 credit points**

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Year 2 - 21 credit points****Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

**For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC201 Psychology: Measurement, Design and Analysis - 3 points  
MURDOCH: S1-internal

**For Primary Majors in the Health Sciences, as listed**

Primary Major in Chiropractic Science, Exercise Physiology, Movement Science, or Sport and Health Science:

BSC206 Introduction to Research Methodology and Evidence Based Practice - 3 points  
MURDOCH: S2-internal

**For All Other Primary Majors excluding Information Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Core Units - 9 credit points**

EXS201 Sport and Exercise Psychology - 3 points  
MURDOCH: S1-internal

EXS202 Exercise Physiology I - 3 points  
MURDOCH: S1-internal

EXS203 Health, Fitness and Performance Assessment - 3 points  
MURDOCH: S1-internal

**General Electives - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Year 3 - 21 credit points****Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

**For Primary Major in Cognitive Neuroscience and Health Psychology**

BSC302 Advanced Quantitative Research Methods - 3 points  
MURDOCH: S2-internal

**For Primary Majors in the Health Sciences, as listed**

Primary major in Chiropractic Science, Movement Science, Sport and Health Science:

BSC306 Research and Evidence Based Practice - 3 points  
MURDOCH: S1-internal

**For All Other Primary Majors excluding Information Technology**

Select from the Research Skills Unit List recommended for each major. A unit cannot be used to satisfy both this Research Skills Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Core Units - 9 credit points**

EXS302 Exercise Physiology II - 3 points  
MURDOCH: S2-internal

EXS301 Advanced Sport and Exercise Psychology - 3 points  
MURDOCH: S2-internal

EXS303 Exercise, Programming and Prescription - 3 points  
MURDOCH: S1-internal

Students who wish to register with Exercise and Sport Science Australia or enter into the BSc (Exercise Physiology) to become an Accredited Exercise Physiologist will be required to take a second major in Movement Science, and enrol in EXS309 Exercise Science Practicum - 3 points in lieu of the 3rd Year University Wide Breadth unit.

**General Electives - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Research Skills Unit List****Animal Health Major**

BSC200 Research in the Physical and Life Sciences - 3 points  
Not available this year

MAS223 Applied Statistics - 3 points  
MURDOCH: S2-internal, S2-external

MAS224 Biostatistical Methods - 3 points  
MURDOCH: S1-internal, S1-external

BIO282 Molecular Biology - 3 points  
MURDOCH: S1-internal

## STRATEGIC COMMUNICATION

---

### STRATEGIC COMMUNICATION (BCOMMUN)

Communications

Bachelor of Communication (BCommun) in Strategic Communication

Course Codes: B1342

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Murdoch University Dubai (UAE) ['DUBAI-ISC'] (internal)

**Parent Major:**

Bachelor of Communication

Do you want to be a strategic communicator in a diverse and global world? Do you want to put learning into practice? In this major, you will learn how to communicate and engage with various stakeholders, audiences and publics by:

- \* Managing social media
- \* Enacting digital platforms
- \* Writing for traditional and social media
- \* Developing public relations (PR) and communications strategies for real life organisations
- \* Applying skills to a diverse range of contexts including web communication, creative production and news media
- \* Creating and producing content
- \* Cultivating creativity, innovation and entrepreneurial skills
- \* Conducting research, analysis and evaluation.

You will explore Australian and international theories and practices, with an emphasis on ethical communication and critical thinking.

In the Bachelor of Communication you will learn how modern communication works across the globe and be able to apply that knowledge to seek employment in this field. You will be introduced to key concepts and practices in communication, and will develop digital media skills and critical thinking skills that you can apply as a professional communicator. You will be able to write and present professionally, take a global perspective on issues, argue effectively, act ethically and work cooperatively. Students can choose to concentrate on majors in Global Media and Communication, Strategic Communication or Journalism (or a combination). These fields offer you the opportunity to create media productions, deal with clients, tackle communication issues and work with industry.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

English competence. Students demonstrating English competence via IELTS need an overall score of 6.0 with no individual band less than 6.0.

**Employment Prospects:**

Graduates may follow careers in strategic communication, public relations and specialised areas such as social media management, public affairs, community relations, media liaison, health communication, corporate communication, government communication, not-for-profit communication, advocacy, stakeholder and community engagement, content planning and creation, web, digital and online communication.

**Professional Accreditation:**

The Major has been designed in accordance with requirements for accreditation by the Public Relations Institute of Australia (PRIA).

**Recommended Double Majors:**

Global Media and Communication; Human Resources Management; Journalism; Management; Marketing; Tourism and Events

**Main Research Areas:**

Strategic communication, Communication, Public relations, International public relations, Social media, Digital and web communication, Storytelling, Media Relations, Critical communication, History of Public Relations, Public Relations in contemporary society

### Course Structure - 72 credit points

#### Year 1 - 24 credit points

**Murdoch Spine: Career Learning - 3 credit points**

MSP100 Career Learning: Managing Your Career - 3 points  
MURDOCH: S1-external, S2-external  
DUBAI-ISC: TJD-internal, TMD-internal, TSD-internal

**Course Core Units - 9 credit points**

The following four units are required to be completed by all students. At least one of these units will be specified in your major. You must complete the remaining units from the list below to satisfy the Course requirements. Where you choose to do two majors of the Bachelor of Communication, you will be required to choose the remaining units from the list below.

COM100 Thinking Communication - 3 points  
MURDOCH: S1-internal, S1-external

COM101 Social Media - 3 points  
MURDOCH: S2-internal  
DUBAI-ISC: TMD-internal

COM105 Critical Web Literacy - 3 points  
MURDOCH: S1-internal  
DUBAI-ISC: TMD-internal

COM109 Introduction to Digital Media Skills - 3 points  
MURDOCH: S1-internal, S2-internal  
DUBAI-ISC: TJD-internal, TSD-internal

**Major Core Units - 6 credit points**

COM107 Strategic Communication - 3 points  
MURDOCH: S1-internal, S1-external  
DUBAI-ISC: TJD-internal, TSD-internal

COM109 Introduction to Digital Media Skills - 3 points  
MURDOCH: S1-internal, S2-internal  
DUBAI-ISC: TJD-internal, TSD-internal

GRD118 Introduction to Graphic Design - 3 points  
MURDOCH: S2-internal

NOTE: Students must complete GRD118 if they wish to take GRD263 Web Design as a specified elective option in Year 3.

#### **General Electives or Second Major - 6 credit points**

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

#### **Year 2 - 24 credit points**

##### **Murdoch Spine: Career Learning - 3 credit points**

Select from the following:

MSP200 Building Enterprise Skills - 3 points  
MURDOCH: S1-external, S2-external  
DUBAI-ISC: TMD-internal, TSD-internal

MSP201 Real World Learning - 3 points  
MURDOCH: S1-external, S2-external, SUM-external, W-external, Y-external

COM203 Consulting and Freelancing - 3 points  
MURDOCH: S2-internal  
DUBAI-ISC: TJD-internal, TSD-internal

##### **Course Core Unit - 3 credit points**

COM200 Communication Research - 3 points  
MURDOCH: S1-internal  
DUBAI-ISC: TMD-internal

##### **Major Core Units - 9 credit points**

COM202 Content Creation - 3 points  
MURDOCH: S1-internal  
DUBAI-ISC: TJD-internal, TSD-internal

COM215 Public Relations in Society - 3 points  
MURDOCH: S1-internal  
DUBAI-ISC: TMD-internal

COM214 Communication Strategy and Planning - 3 points  
MURDOCH: S2-internal  
DUBAI-ISC: TJD-internal, TSD-internal

##### **General Electives or Second Major - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

#### **Year 3 - 24 credit points**

##### **Murdoch Spine: Career Learning - 3 credit points**

Select from the following:

MURDOCH: S1-internal

DUBAI-ISC: TJD-internal, TSD-internal

GRD263 Web Design - 3 points

MURDOCH: S1-internal

##### **General Electives or Second Major - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

## **SUSTAINABILITY**

### **SUSTAINABLE DEVELOPMENT (BA)**

Global Studies

*Bachelor of Arts (BA) in Sustainable Development*

Course Codes: B1356

Duration: 3 years full-time or part-time equivalent

#### **Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

#### **Parent Major:**

Bachelor of Arts

This course aims to train the next generation of sustainability leaders for world-changing work in Australia and overseas. You'll explore the environmental, economic, social and cultural dimensions of sustainability, and develop a wide range of much-needed green skills. Areas covered include urban and rural sustainability, sustainability ethics and economics, and sustainable lifestyles and behaviour change. The emphasis is on giving you the sustainability expertise needed to 'make a difference' within communities and regions and at the global level.

The Bachelor of Arts at Murdoch is a degree unlike any other in Australia. It embraces new directions in teaching and practice-based learning to train the thinkers and researchers of the 21st century. So many of the biggest and most vital issues we face today are about human society and the human condition. How can we understand who we are, how we want to live, or what kind of society we want to create, without the insights, knowledge and skills provided by the humanities? Our degree is different because we teach our students to put these into practice in a way that is recognised and valued by employers. Our graduates are empowered to be the agile and creative thinkers who will thrive in a rapidly changing world. They are able to think creatively, communicate effectively, manage projects, exercise highly-developed analytical and interpersonal skills, and they possess an in-depth knowledge of contemporary societal issues and trends. These are professional skills which are recognised and valued universally. In short, you can study what you love and get a job too!

#### **Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Employment Prospects:**

There are increasing employment opportunities for graduates who are knowledgeable, skilled and passionate about sustainable development, at federal, state and local government, in non-government organisations, international agencies, corporations, local business and the media.

#### **Recommended Double Majors:**

Conservation and Wildlife Biology; Environmental Management and Sustainability

#### **Excluded Minors:**

Environmental Issues

### **Course Structure - 72 credit points**

#### **Course Core - 24 credit points**

##### **100 Level Units - 9 credit points**

## **SUSTAINABLE DEVELOPMENT HONOURS (BA(HONS))**

College of Arts, Business, Law and Social Sciences

*Bachelor of Arts Honours (BA(Hons)) in Sustainable Development*

Course Codes: H1256

Duration: 1 year full-time or part-time equivalent

#### **Availability:**

- Murdoch campus (internal)

The aim of Honours is to extend the student's grasp of the principles and practice of their subject, and to develop ability for independent research.

An Honours qualification of 2A is normally required for admission to higher research degree study.

#### **Admission Requirements (Onshore):**

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average; subject to availability of a suitable supervisor and approval by the Associate Dean (Learning and Teaching) of the School.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Apply Online:**

Applications can be made online at <http://goto.murdoch.edu.au/OnlineApplicationsHonours>

### **Course Structure - 24 credit points**

#### **Coursework - 12 credit points**

##### **Core Units - 9 credit points**

POL501 Honours Research Seminar - 6 points  
MURDOCH: S1-internal, S1-external

SUS500 Honours Topic in Sustainable Development - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external,  
SUM-internal, SUM-external

### **Elective Units - 3 credit points**

Select from the following:

SUS512 Sustainability, Ecology and Communities - 3 points  
MURDOCH: S1-internal, S1-external

SUS523 Cities and Sustainability - 3 points  
MURDOCH: S1-internal, S1-external

COD505 Community, Industry and Local Government - 3 points  
MURDOCH: S2-internal, S2-external

Or another 500-level unit chosen in consultation with the Honours supervisor and Academic Chair.

### **Thesis - 12 credit points**

SUS501 Honours Thesis in Sustainable Development - 12 points  
MURDOCH: S1-internal, S2-internal

## **THEATRE AND DRAMA**

### **THEATRE AND DRAMA (BA)**

Creative Media, Arts and Design

*Bachelor of Arts (BA) in Theatre and Drama*

Course Codes: B1356

Duration: 3 years full-time or part-time equivalent

#### **Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

#### **Parent Major:**

Bachelor of Arts

Theatre and Drama Studies is an exciting major that introduces students to a range of important theatrical, performative and dramatic texts, and equips them to be original, versatile and innovative artists. It also provides students with the skills to read these texts critically and creatively. During the major students will develop a thorough understanding of the role and function of dramatic texts and performances in a range of different social and cultural contexts. They will also learn about the important theoretical and philosophical frameworks supporting these texts. Students who undertake this major will also be guided in the development of skills in acting, writing, producing and designing the texts studied. Upon completion of the major, graduates will be skilled and confident in their ability to create their own work in a theoretically-informed practice.

The Bachelor of Arts at Murdoch is a degree unlike any other in Australia. It embraces new directions in teaching and practice-based learning to train the thinkers and researchers of the 21st century. So many of the biggest and most vital issues we face today are about human society and the human condition. How can we understand who we are, how we want to live, or what kind of society we want to create, without the insights, knowledge and skills provided by the humanities? Our degree is different because we teach our students to put these into practice in a way that is recognised and valued by employers. Our graduates are empowered to be the agile and creative thinkers who will thrive in a rapidly changing world. They are able to think creatively, communicate effectively, manage projects, exercise highly-developed analytical and interpersonal skills, and they possess an in-depth knowledge of contemporary societal issues and trends. These are professional skills which are

recognised and valued universally. In short, you can study what you love and get a job too!

#### **Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

English competence.

#### **Special Requirements:**

## **TOURISM AND EVENTS**

### **TOURISM AND EVENTS (BA)**

Global Studies

*Bachelor of Arts (BA) in Tourism and Events*

Course Codes: B1316 B1316A

Duration: 3 years full-time or part-time equivalent

#### **Availability:**

- Kaplan Higher Education Institute and Kaplan Higher Education Academy (Singapore) ['KAPLAN-SGP'] (internal) (language of instruction: English)

#### **Parent Major:**

Bachelor of Arts

Tourism and events, including festivals, are important social, political and economic phenomena in many parts of the world. The uniqueness of this degree is that it is offered from within the Social Sciences and is developed within the framework of tourism for sustainable development. Graduates of this degree will enter the workforce with knowledge of the wider tourism system, policy

issues relating to tourism and events, and a wide understanding of the nature of socio/cultural, environmental and economic impacts of tourism and events.

In the Bachelor of Arts you will develop a broad understanding of your field and proficiency in producing written and oral arguments and creative artefacts in response to social, human and natural phenomena. You will also develop a critical appreciation of the perspectives of others. As an Arts graduate you will be able to think critically and creatively, apply knowledge and information, and communicate effectively. These are professional skills which are critical across a range of industries. You will also be able to pursue further study in the fields of social research, the humanities and/or the creative arts.

#### **Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

#### **Admission Requirements (Offshore):**

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Employment Prospects:**

Tourism and hospitality industry as tourism managers, events coordinators, event planners; local government in community development through tourism management and event planning, promotion and organising; state and federal government in tourism management and event development, promotion and evaluation.

#### **Recommended Double Majors:**

Public Relations; Sustainable Development

#### **Excluded Minors:**

Events

### **Course Structure - 72 credit points**

#### **Part I - 24 credit points**

##### **Year 1 - 24 credit points**

##### **Transition Unit - 3 credit points**

BAR100 Academic Learning Skills - 3 points

##### **Breadth Unit for Degree - 3 credit points**

BAR150 Ideas and Identity - 3 points

##### **Core Units - 6 credit points**

TOU101 Introduction to Tourism Systems - 3 points

TOU102 Travel and Tourism in Society - 3 points  
KAPLAN-SGP: TMA-internal

##### **General Electives - 12 credit points**

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

#### **Part II - 48 credit points**

##### **University-Wide Breadth Units - 6 credit points**

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

##### **Year 2 - 21 credit points**

##### **Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

#### **For Primary Major in Social and Developmental Psychology**

BSC201 Psychology: Measurement, Design and Analysis - 3 points  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

#### **For All Other Primary Majors**

BAR200 Developing Research Skills and Methods - 3 points  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

#### **Core Units - 6 credit points**

TOU221 Sustainable Tourism - 3 points  
KAPLAN-SGP: TMA-internal

POL246 Public Policy Analysis - 3 points  
KAPLAN-SGP: TJA-internal, TSA-internal

#### **General Electives - 12 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

#### **Year 3 - 21 credit points**

##### **Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

#### **For Primary Major in Social and Developmental Psychology**

BSC302 Advanced Quantitative Research Methods - 3 points  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

#### **For All Other Primary Majors**

 KAPLAN-SGP: TMA-internal

## TOURISM AND EVENTS HONOURS (BA(HONS))

College of Arts, Business, Law and Social Sciences

*Bachelor of Arts Honours (BA(Hons)) in Tourism and Events*

Course Codes: H1256

Duration: 1 year full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)

The aim of Honours is to extend the student's grasp of the principles and practice of their subject, and to develop the ability for independent research.

An Honours qualification of 2A is normally required for admission to higher research degree study.

#### Admission Requirements (Onshore):

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Distinction average; subject to availability of a suitable supervisor and approval by the Associate Dean (Learning and Teaching) of the School.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### Apply Online:

Applications can be made online at  
<http://goto.murdoch.edu.au/OnlineApplicationsHonours>

### Course Structure - 24 credit points

#### Coursework - 12 credit points

ART604 Advanced Research Methods - 3 points  
 MURDOCH: S1-internal, S1-external, S2-internal, S2-external

ART503 Honours Seminar in Arts - 3 points  
 MURDOCH: S1-internal, S1-external, S2-internal, S2-external

ART555 Honours Topic - 6 points  
 MURDOCH: S1-internal, S1-external, S2-internal, S2-external

### Thesis - 12 credit points

TOU569 Honours Thesis in Tourism and Events - 12 points  
 MURDOCH: S1-internal, S2-internal

## VETERINARY SCIENCE

### VETERINARY SCIENCE (BSC+DVM)

Veterinary Medicine

*Bachelor of Science (BSc) in Veterinary Biology + Doctor of Veterinary Medicine (DVM)*

Course Codes: B1330 B1341

Duration: 5 years full-time

#### Availability:

- Murdoch campus (internal)

Restriction: Enrolment is subject to restriction due to constraints on unit enrolments.

Veterinary Science is a major health profession with its own system of education, registration, organisation and ethics. Veterinarians are highly trained in skills of diagnosing, treating and preventing health problems in pets, domestic livestock, wildlife and laboratory animals. Additional areas of interest for veterinarians are increasing the productivity of animals and maintaining standards of food production and safety, animal research and public health.

This integrated five-year course of study leads to a registrable professional qualification in veterinary medicine. A degree of Bachelor of Science is completed after the first six semesters of the course and is a prerequisite for entry to the six trimesters of study that leads to the degree of Doctor of Veterinary Medicine (DVM).

There is an entry quota.

This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

#### Admission Requirements (Onshore):

Students will be admitted into the five-year veterinary course either directly from secondary school for high ranking school-leavers or after completing prior university study.

Students with prior university study in a relevant discipline may be granted advanced standing for the first year, and enter into second year, commencing on campus in January.

Australian students who have completed some tertiary study, and all international students, are selected on the following:

- \* Academic standing from previous university study (or school study for international school leavers);
- \* A 500-word typed and signed personal statement, and
- \* Evidence of recent, relevant, refereed animal-related experience, such as work experience with veterinarians.

Recommended Preparation: Chemistry ATAR is strongly recommended and Mathematics: Methods ATAR, Physics ATAR and Biology ATAR are also recommended.

Equivalent of an Academic IELTS overall score of 7.0 with no band less than 7.0.

#### Special Requirements:

Veterinary Science is an animal-based course. Students are required to participate in practical work involving living and dead animals and/or tissues from animals throughout the course.

**Professional Recognition:**

Graduates are eligible for registration to practice veterinary medicine without further examination in Australia and a number of other countries including Great Britain, New Zealand, Malaysia, South Africa, Singapore and Hong Kong. The DVM degree is recognised by the American Veterinary Medical Association which, after passing the appropriate National or State licensing examinations, makes Murdoch graduates eligible to practice in the USA and Canada.

**Excluded Majors:**

Animal Health; Crop and Pasture Science

**Additional Academic Progress Requirements:**

Progression between years

Students must successfully complete all required Part I units in the first year of the BSc (Veterinary Biology) course, at the first attempt, to be guaranteed progression into the second year.

Students will not be permitted to enter the DVM component of the course until they have completed all units and unit components from the BSc (Veterinary Biology), or equivalent, and are eligible for the award of the BSc.

Students will not be eligible to enter the final year of the veterinary course without passing or having advanced standing for all units comprising the previous years of the veterinary course.

**Unit Fails and Withdrawals**

In the BSc component, students may fail no more than one unit in each year set of units (that is, the units normally undertaken in each calendar year of the course under standard full-time enrolment), regardless of whether these are completed in the same calendar year. Students who fail more than one unit in any year set of units, or who fail more than one unit in any one calendar year, will be excluded from the course after a formal interview process with the Academic Chair.

In the DVM component, students may fail no more than two units in each year set of units (that is, the units normally undertaken in each calendar year of the course under standard full-time enrolment), regardless of whether these are completed in the same calendar year. Students who fail more than two units from any year set of units, or who fail more than two units in any one calendar year, will be excluded from the course after a formal interview process with the Academic Chair.

A fail in any unit means that the unit will need to be repeated, whilst maintaining the minimal academic progression for completion of that component. Permission to overload will not be given to students who have failed a core unit.

Students have the option of withdrawing from a unit but should first discuss this with the relevant Academic Chair. Students who withdraw after the Census Date, or who fail a unit, can apply for retrospective withdrawal.

Students failing units, withdrawing from units or obtaining retrospective withdrawal from units but NOT taking a period of intermission/approved leave must maintain the following minimal academic progression:

i) Students must complete the 2nd and 3rd years of the BSc in 3 or less calendar years.

ii) Students must complete the DVM component of the veterinary course in 4 or less calendar years.

Students taking a period of intermission/approved leave must maintain the following minimal academic progression:

i) Students must complete the 2nd and 3rd years of the BSc in 4 or less calendar years, including any period(s) of intermission/approved leave.

ii) Students must complete the DVM component of the veterinary course in 4 or less calendar years, including any period(s) of intermission/approved leave. Students can withdraw after the start of a teaching period, or be granted retrospective withdrawal, from a unit only once.

Students attempting a unit for the second time must pass the unit at the first attempt. If a student withdraws after the start of a teaching period, or is granted retrospective withdrawal, from the same unit a second time, they will not be permitted a third enrolment in the unit.

Second year BSc students with advanced standing, or those repeating 2nd year units after failure, or withdrawal after the start of a teaching period, or retrospective withdrawal, may apply to the Academic Chair for permission to take one or two units from the 3rd year set of units in order to maintain a balanced load.

**Award with Distinction:**

Students who have completed the five year BSc/DVM at a high standard may be awarded their degree with Distinction. This is determined on the basis of overall marks in all core units over the five year course.

**Doctor of Veterinary Medicine:**

Students receive a BSc (Veterinary Biology) after the first six semesters of study and then progress into six trimesters, taken over two years, which leads to the integrated of Bachelor of Science (Veterinary Biology) and Doctor of Veterinary Medicine (DVM) which is a registrable veterinary qualification.

The latter years are directed towards the acquisition of knowledge and skills required to diagnose, prevent and treat disease in animals and to optimise animal health and productivity.

Students may not progress into the Doctor of Veterinary Medicine component of the course until they have completed all units and unit components from Veterinary Biology (BSc), or equivalent, and are eligible for the award of the BSc.

**Course Structure - 144 credit points****Veterinary Biology (BSc)**

The Veterinary Biology degree encompasses both normal and abnormal aspects of vertebrate structure and function. The first year comprises units which introduce the scientific process, analysis of data and the form and function of the animal body; units in the second year include information on animal development, structure, function, metabolism and an introduction to the principles of infectious disease; units in the third year cover animal nutrition and toxicology, animal behaviour, welfare and ethics, public health and epidemiology, pathology and the production of disease, and an introduction to veterinary practice, surgery and anaesthesia.

A degree of Bachelor of Science (Veterinary Biology) is completed after two years of Part II studies. It is a basis for an extra 'side-step' year of research work in some aspect of veterinary biology, leading to an honours degree. However, it is expected that most students will proceed directly into the final two years to complete the DVM in the minimum time (5 years).

**Background**

Chemistry ATAR is strongly recommended and Mathematics: Methods ATAR, Physics ATAR and Biology ATAR are also recommended.

**Course Structure - 72 credit points**

**Part I - 24 credit points****Year 1 - 24 credit points****Transition Unit - 3 credit points**

BSC100 Building Blocks for Science Students - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

### Additional Academic Progress Requirements

Progression between years

Students must successfully complete all required Part I units in the first year of the BSc (Veterinary Biology) course, at the first attempt, to be guaranteed progression into the second year.

Students will not be permitted to enter the DVM component of the course until they have completed all units and unit components from the BSc (Veterinary Biology), or equivalent, and are eligible for the award of the BSc.

Students will not be eligible to enter the final year of the veterinary course without passing or having advanced standing for all units comprising the previous years of the veterinary course.

Unit Fails and Withdrawals

In the BSc component, students may fail no more than one unit in each year set of units (that is, the units normally undertaken in each calendar year of the course under standard full-time enrolment), regardless of whether these are completed in the same calendar year. Students who fail more than one unit in any year set of units, or who fail more than one unit in any one calendar year, will be excluded from the course after a formal interview process with the Academic Chair.

In the DVM component, students may fail no more than two units in each year set of units (that is, the units normally undertaken in each calendar year of the course under standard full-time enrolment), regardless of whether these are completed in the same calendar year. Students who fail more than two units from any year set of units, or who fail more than two units in any one calendar year, will be excluded from the course after a formal interview process with the Academic Chair.

A fail in any unit means that the unit will need to be repeated, whilst maintaining the minimal academic progression for completion of that component. Permission to overload will not be given to students who have failed a core unit.

Students have the option of withdrawing from a unit but should first discuss this with the relevant Academic Chair. Students who withdraw after the Census Date, or who fail a unit, can apply for

retrospective withdrawal.

Students failing units, withdrawing from units or obtaining retrospective withdrawal from units but NOT taking a period of intermission/approved leave must maintain the following minimal academic progression:

i) Students must complete the 2nd and 3rd years of the BSc in 3 or less calendar years.

ii) Students must complete the DVM component of the veterinary course in 4 or less calendar years.

Students taking a period of intermission/approved leave must maintain the following minimal academic progression:

i) Students must complete the 2nd and 3rd years of the BSc in 4 or less calendar years, including any period(s) of intermission/approved leave.

ii) Students must complete the DVM component of the veterinary course in 4 or less calendar years, including any period(s) of intermission/approved leave.

Students can withdraw after the start of a teaching period, or be granted retrospective withdrawal, from a unit only once.

Students attempting a unit for the second time must pass the unit at the first attempt. If a student withdraws after the start of a teaching period, or is granted retrospective withdrawal, from the same unit a second time, they will not be permitted a third enrolment in the unit.

Second year BSc students with advanced standing, or those repeating 2nd year units after failure, or withdrawal after the start of a teaching period, or retrospective withdrawal, may apply to the Academic Chair for permission to take one or two units from the 3rd year set of units in order to maintain a balanced load.

## VETERINARY BIOLOGY HONOURS (BSC(HONS))

College of Science, Health, Engineering and Education

*Bachelor of Science Honours (BSc(Hons)) in Veterinary Biology*

Course Codes: H1257

Duration: 1 year full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

The aim of the Honours year is to extend the student's grasp of the principles and practice of their subject, to develop ability for independent research.

An Honours qualification of 2A is normally required for admission to higher research degree study.

Successful completion of the Honours course is required for admission to higher research degrees (i.e. Masters or PhD degrees).

### Admission Requirements (Onshore):

Completion of a Bachelor Degree (AQF Level 7) or equivalent in the same discipline or cognate area with a Credit average (GPA 2); subject to availability of a suitable supervisor and approval by the School Dean.

Students interested in enrolling in Honours are advised to contact the Academic Chair before application to discuss supervision of their potential research project.

Equivalent of an Academic IELTS overall score of 6.0 with no band

less than 6.0.

4

**WEB COMMUNICATION**

**WEB COMMUNICATION (BA)**

Communications

Bachelor of Arts (BA) in Web Communication

Course Codes: B1316 B1316A

Duration: 3 years full-time or part-time equivalent

**Availability:**

- Kaplan Higher Education Institute and Kaplan Higher Education Academy (Singapore) ['KAPLAN-SGP'] (internal)

**Parent Major:**

Bachelor of Arts

Web Communication combines an exciting mix of web design, digital marketing and public relations. Students will learn how to design and develop strategies for web communication campaigns using a range of digital media including, social media, websites, mobile technology, games, video and online news media. Students will learn all about conveying information and ideas using networks such as Facebook, Twitter and YouTube, powerful search engines such as Google and Yahoo and well-designed and written websites and blogs to deliver creatively planned strategic outcomes for organisations.

In the Bachelor of Arts you will develop a broad understanding of your field and proficiency in producing written and oral arguments and creative artefacts in response to social, human and natural phenomena. You will also develop a critical appreciation of the perspectives of others. As an Arts graduate you will be able to think critically and creatively, apply knowledge and information, and communicate effectively. These are professional skills which are critical across a range of industries. You will also be able to pursue further study in the fields of social research, the humanities and/or the creative arts.

**Admission Requirements (Onshore):**

As per normal undergraduate admission requirements.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Employment Prospects:**

Graduates will be able to undertake a range of creative production and strategic roles such as: web communications specialist; online PR and marketing consultant; SEO strategist; web-content strategist; e-commerce specialist; web producer; e-marketer; web studio account manager; and social media strategist, just to name a few.

**Professional Recognition:**

Murdoch University is a member of the Australian Screen

Production Education and Research Association.

**Recommended Double Majors:**

Journalism; Public Relations

**Main Research Areas:**

Online communication; online media production; online marketing and PR.

**Course Structure - 72 credit points**

**Part I - 24 credit points**

**Year 1 - 24 credit points**

**Transition Unit - 3 credit points**

BAR100 Academic Learning Skills - 3 points

**Breadth Unit for Degree - 3 credit points**

BAR150 Ideas and Identity - 3 points

**Core Units - 9 credit points**

PRO107 Introduction to Public Relations - 3 points

IDD118 Introduction to Graphic Design - 3 points

PRO101 Introduction to Social Media - 3 points

**General Electives - 9 credit points**

Select from any 100-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

**Part II - 48 credit points**

**University-Wide Breadth Units - 6 credit points**

Select from the prescribed list of University-Wide Breadth Units. A unit cannot be used to satisfy both this Breadth Unit requirement and the requirements of a major or minor. If taken at 100 level the unit(s) will be attributed to Part I. Note that no more than 30 credit points at Part I may be credited towards course completion requirements.

**Year 2 - 21 credit points**

**Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

**For Primary Major in Social and Developmental Psychology**

BSC201 Psychology: Measurement, Design and Analysis - 3 points

KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

**For All Other Primary Majors**

BAR200 Developing Research Skills and Methods - 3 points

KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

**Core Units - 9 credit points**

WEB278 Web Strategy - 3 points

KAPLAN-SGP: TJA-internal, TSA-internal

WEB263 Web Design - 3 points

KAPLAN-SGP: TJA-internal, TSA-internal

CMS201 Screen: Small, Medium and Large - 3 points

KAPLAN-SGP: TMA-internal

**General Electives - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and

minors will be included in the major's description.

### **Year 3 - 21 credit points**

#### **Research Skills Unit - 3 credit points**

The Research Skills unit to be taken will depend on the student's Primary Major enrolment. Select from the following.

#### **For Primary Major in Social and Developmental Psychology**

BSC302 Advanced Quantitative Research Methods - 3 points  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

#### **For All Other Primary Majors**

BAR300 Advanced Research in the Arts - 3 points  
KAPLAN-SGP: TMA-internal

#### **Core Units - 9 credit points**

WEB303 Business of Freelancing - 3 points  
KAPLAN-SGP: TJA-internal, TSA-internal

OR

WEB325 Web Communication Professional Placement - 3 points  
Not available this year

WEB302 Web Metrics - 3 points  
KAPLAN-SGP: TJA-internal, TSA-internal

WEB301 Web Communication Project - 3 points  
KAPLAN-SGP: TMA-internal

#### **General Electives - 9 credit points**

Select from any 200- to 400-level units offered by the University, subject to individual unit prerequisites. Students are advised to consider using General Elective points to meet the requirements of a second major or minor. Any recommended double majors and minors will be included in the major's description.

MAS353 Statistical Design and Data Analysis - 3 points  
MURDOCH: S2-internal, S2-external

#### Specified Electives - 3 or 6 credit points

Select from the following units. If a Part I Specified Elective was taken then select one unit, otherwise complete both.

MAS223 Applied Statistics - 3 points  
MURDOCH: S2-internal, S2-external

MAS224 Biostatistical Methods - 3 points  
MURDOCH: S1-internal, S1-external

## APPLIED AND COMPUTATIONAL MATHEMATICS

### Information Technology, Mathematics and Statistics

#### Excluded Majors:

Mathematics and Statistics

#### Minor Structure - 12 credit points

##### Core Units - 6 credit points

MAS182 Applied Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

OR

MAS161 Calculus and Matrix Algebra - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

MAS220 Mathematical Methods - 3 points  
MURDOCH: S1-internal, S1-external

OR

MAS221 Mathematical Modelling - 3 points  
MURDOCH: S2-internal, S2-external

OR

MAS225 Discrete Mathematics and Management Science - 3 points  
MURDOCH: S2-internal, S2-external

#### Specified Electives - 6 credit points

Select from the following with at least one unit at 300 level:

MAS162 Foundations of Discrete Mathematics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external  
DUBAI-ISC: TJD-internal, TSD-internal  
OUA: OUA1-external, OUA3-external

MAS220 Mathematical Methods - 3 points  
MURDOCH: S1-internal, S1-external

MAS221 Mathematical Modelling - 3 points  
MURDOCH: S2-internal, S2-external

MAS225 Discrete Mathematics and Management Science - 3 points  
MURDOCH: S2-internal, S2-external

MAS351 Environmental and Biological Modelling - 3 points  
MURDOCH: S1-internal, S1-external

MAS354 Modelling and Simulation - 3 points  
MURDOCH: S2-internal, S2-external

---

## ASIAN STUDIES

### *Global Studies*

### **Minor Structure - 12 credit points**

#### **100 Level Units - 3 credit points**

##### **Core Unit**

AST102 Asian Centuries - 3 points  
MURDOCH: S1-internal, S1-external, S2-external

#### **200 Level Units - 3 credit points**

##### **Core Unit - 3 credit points**

AST281 Contemporary Asia: Media, Politics and Popular Culture - 3 points  
MURDOCH: S2-internal, S2-external

#### **Specified Electives - 6 credit points**

Select from the following:

AST288 Women and Men in Asian Societies - 3 points  
MURDOCH: S2-internal, S2-external

AST250 Society, Culture and Ecology in Asia - 3 points  
MURDOCH: S1-internal, S1-external

AST384 Asian Studies Project - 3 points  
MURDOCH: S1-external, S2-external, SUM-external, W-external

Up to 6 points of Murdoch based Indonesian or Japanese language units OR 12 points from Semester in Indonesia or Semester in Japan may be credited to the Asian Studies minor.

---

## AUSTRALIAN INDIGENOUS STUDIES

### *Creative Media, Arts and Design*

### **Minor Structure - 12 credit points**

#### **100 Level Units - 3 credit points**

##### **Core Units - 3 credit points**

AIS110 Introduction to Indigenous Popular Culture - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

#### **200 Level Units - 6 credit points**

##### **Core Units - 3 credit points**

AIS204 Indigenous Australia and the Nation - 3 points  
MURDOCH: S1-internal, S1-external

#### **Specified Electives - 3 credit points**

Select from the following:

AIS206 Country, Nature and Identity: Indigenous Sustainability - 3 points  
MURDOCH: S1-internal, S1-external

AIS256 Reading Reconciliation - 3 points  
MURDOCH: S2-internal, S2-external

#### **300 Level Units - 3 credit points**

##### **Core Unit - 3 credit points**

AIS307 Indigeneity, Critical Theory and Social Justice - 3 points  
MURDOCH: S2-internal, S2-external

Please Note:

Students enrolled in the Bachelor of Laws (or the Bachelor of Laws combined with another degree) may substitute for one of the 200 level requirements in this minor:

LLB203 Indigenous Peoples, Law and Society - 3 points  
MURDOCH: S1-internal

---

## BANKING

### *Accounting*

#### **Excluded Majors:**

Banking

### **Minor Structure - 12 credit points**

#### **Core Units - 12 credit points**

BUS140 Introduction to Finance - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Or

BUS130 Foundational Mathematics for Business - 3 points  
DUBAI-ISC: TMD-internal

BUS288 Treasury Management - 3 points  
MURDOCH: S1-internal, S1-external  
DUBAI-ISC: TJD-internal, TSD-internal  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

BUS307 Commercial Banking - 3 points  
MURDOCH: S2-internal, S2-external  
KAPLAN-SGP: TMA-internal

BUS308 Credit and Lending Decisions - 3 points  
MURDOCH: S1-internal, S1-external  
KAPLAN-SGP: TJA-internal, TSA-internal

---

## BIOINFORMATICS

### *Biomedical Science*

### **Minor Structure - 12 credit points**

#### **Core Units - 12 credit points**

MAS183 Statistical Data Analysis - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

MAS224 Biostatistical Methods - 3 points  
MURDOCH: S1-internal, S1-external

BIO309 Omics Technologies and Bioinformatics - 3 points  
MURDOCH: S1-internal

BIO311 Interactive Data Analytics and Visualisation - 3 points  
MURDOCH: S2-internal

---

## BIOMEDICAL SCIENCE

### *Biomedical Science*

#### **Excluded Majors:**

Biomedical Science

### **Minor Structure - 12 credit points**

#### **Part I - 3 credit points**

##### **Core Unit - 3 credit points**

BMS107 Foundations of Vertebrate Form and Function - 3 points

MURDOCH: S2-internal

**Part II - 9 credit points****Core Units - 9 credit points**

BMS206 Biomedical Physiology - 3 points  
MURDOCH: S1-internal

BMS212 Medical Microbiology - 3 points  
MURDOCH: S1-internal

BMS314 Pathological Basis of Disease - 3 points  
MURDOCH: S1-internal

**BUSINESS LAW****Criminology****Excluded Majors:**

Business Law; Business Law; Law + Business [Combined]

**Minor Structure - 12 credit points****Part I - 3 credit points****Core Unit - 3 credit points**

BSL165 Foundations of Business Law - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external  
DUBAI-ISC: TJD-internal, TSD-internal

**Part II - 9 credit points****Specified Electives - 9 credit points**

Select from the Specified Elective Unit List below.

BSL201 Finance Law - 3 points  
MURDOCH: S1-internal, S1-external  
DUBAI-ISC: TJD-internal, TSD-internal  
KAPLAN-SGP: TJA-internal, TSA-internal

BSL202 Workplace Law - 3 points  
MURDOCH: S2-internal, S2-external  
DUBAI-ISC: TJD-internal, TSD-internal  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

BSL203 Marketing and Advertising Law - 3 points  
MURDOCH: S1-internal, S1-external  
KAPLAN-SGP: TJA-internal, TSA-internal

BSL204 Tourism and Hospitality Law - 3 points  
MURDOCH: S1-internal, S1-external  
KAPLAN-SGP: TJA-internal, TSA-internal

BSL305 Company Law - 3 points  
MURDOCH: S2-internal, S2-external  
KAPLAN-SGP: TMA-internal

BSL391 Alternative Dispute Resolution - 3 points  
MURDOCH: S2K-internal, S2K-external  
KAPLAN-SGP: TMA-internal

**COMMUNITY DEVELOPMENT****Global Studies****Excluded Majors:**

Community Development

**Minor Structure - 12 credit points****100 Level Units - 3 credit points****Core Unit - 3 credit points**

COD125 Introduction to Community Development - 3 points

MURDOCH: S1-internal, S1-external

**200 and 300 Level Units - 9 credit points**

Select from the following:

COD201 Stories of Doing Community Work - 3 points  
MURDOCH: S2-internal, S2-external

COD214 Social Policy and Community Action - 3 points  
MURDOCH: S1-internal, S1-external

COD302 Creative Ways to Work with Community - 3 points  
MURDOCH: S2-internal, S2-external

SUS310 Sustainable Urban Communities - 3 points  
MURDOCH: S1-internal, S1-external

**COMPUTER FORENSICS AND COMPUTER SECURITY****Information Technology****Excluded Majors:**

Cyber Security and Forensics

**Excluded Minors:**

Computer Forensics and Information Security Policy

**Minor Structure - 12 credit points****Part I - 3 credit points****Core Unit - 3 credit points**

ICT171 Introduction to Server Environments and Architectures - 3 points  
MURDOCH: S1-internal, S1-external  
DUBAI-ISC: TJD-internal, TSD-internal

**Part II - 9 credit points****Core Units - 9 credit points**

ICT287 Computer Security - 3 points  
MURDOCH: S1-internal, S1-external  
DUBAI-ISC: TMD-internal  
KAPLAN-SGP: TMA-internal

ICT378 Cyber Forensics and Information Technology - 3 points  
MURDOCH: S1-internal, S1-external  
DUBAI-ISC: TSD-internal  
KAPLAN-SGP: TJA-internal, TSA-internal

ICT379 Security Architectures and Systems Administration - 3 points  
MURDOCH: S2-internal, S2-external  
DUBAI-ISC: TSD-internal  
KAPLAN-SGP: TJA-internal, TSA-internal

**COMPUTER FORENSICS AND INFORMATION SECURITY POLICY****Information Technology****Excluded Majors:**

Cyber Security and Forensics

**Excluded Minors:**

Computer Forensics and Computer Security

**Minor Structure - 12 credit points****Part I - 6 credit points****Core Units - 6 credit points**

ICT158 Introduction to Information Systems - 3 points

MURDOCH: S2-internal, S2-external  
DUBAI-ISC: TMD-internal

ICT171 Introduction to Server Environments and Architectures - 3 points  
MURDOCH: S1-internal, S1-external  
DUBAI-ISC: TJD-internal, TSD-internal

## Part II - 6 credit points

### Core Units - 6 credit points

ICT378 Cyber Forensics and Information Technology - 3 points  
MURDOCH: S1-internal, S1-external  
DUBAI-ISC: TSD-internal  
KAPLAN-SGP: TJA-internal, TSA-internal

ICT380 Information Security Policy and Governance - 3 points  
MURDOCH: S1-internal, S1-external  
DUBAI-ISC: TMD-internal  
KAPLAN-SGP: TMA-internal

---

## CREATIVE WRITING

### Creative Media, Arts and Design

#### Excluded Majors:

English and Creative Writing

### Minor Structure - 12 credit points

#### 100 Level Units - 3 credit points

##### Specified Elective - 3 credit points

Select from the following:  
EGL123 Texting I: Introduction to Literature, Writing and Performance - 3 points  
MURDOCH: S1-internal, S1-external

EGL124 Texting II: Introduction to Literature, Writing and Performance - 3 points  
MURDOCH: S2-internal, S2-external

#### 200 Level Units - 6 credit points

##### Core Units - 6 credit points

EGL220 Creative Writing: Extended Project - 3 points  
MURDOCH: S2-internal, S2-external

EGL249 The Short Story: Approaches to Writing and Reading - 3 points  
MURDOCH: S1-internal, S1-external

#### 300 Level Units - 3 credit points

##### Core Units

EGL321 Cosmopolitan Literature: Communicating Creatively across the Globe - 3 points  
MURDOCH: S2-internal, S2-external

---

## CRIME SCIENCE

### Criminology

#### Excluded Majors:

Crime Science

### Minor Structure - 12 credit points

#### Part I - 3 credit points

CHE103 Introduction to Forensic Science - 3 points  
MURDOCH: S1-internal

OR

CRM100 Introduction to Criminology - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

## Part II - 9 credit points

CRM201 Policing and Crime Prevention - 3 points  
MURDOCH: S1-internal, S1-external

BIO388 Forensic Science and Miscarriages of Justice - 3 points  
MURDOCH: W-internal

CRM301 Crime Science - 3 points  
MURDOCH: SS5-internal

---

## CRIMINOLOGICAL PSYCHOLOGY

### Law and Criminology

#### Excluded Majors:

Criminal Behaviour

### Minor Structure - 12 credit points

#### Part I

##### Core Units - 3 credit points

CRM100 Introduction to Criminology - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

#### Part II

##### Specified Electives - 9 credit points

Select three (3) units from the following:

CRM203 Criminal Behaviour - 3 points  
MURDOCH: S2-internal, S2-external

CRM388 Treatment of Criminal Behaviour - 3 points  
<span data-type="offering" data-unit="CRM388">MURDOCH: UA4-internal (quota of 30 places)</span>

CRM302 Children and Crime - 3 points  
MURDOCH: S2-internal, S2-external

CRM389 Psychology and Law - 3 points  
MURDOCH: S1-internal, S1-external

---

## CRITICAL AND HUMAN SECURITY

### Global Studies

### Minor Structure - 12 credit points

#### Part I - 3 credit points

##### Core Units - 3 credit points

POL134 Global Justice - 3 points  
MURDOCH: S2-internal, S2-external

#### Part II - 9 credit points

##### Core Units - 9 credit points

POL234 Terrorism in a Globalised World - 3 points  
MURDOCH: S1-internal, S1-external

POL334 Middle East Politics and Security - 3 points  
MURDOCH: S2-internal, S2-external

POL338 Politics and Security in South-East Asia: Terrorists, Gangsters and the State - 3 points  
MURDOCH: S2-internal, S2-external

---

## ECONOMICS

### Economics

#### Minor Structure - 12 credit points

##### Core Units - 12 credit points

BUS171 Foundations of Economics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external  
DUBAI-ISC: TMD-internal

BUS291 Microeconomics A - 3 points  
MURDOCH: S1-internal, S1-external  
KAPLAN-SGP: TMA-internal

BUS289 Macroeconomics A - 3 points  
MURDOCH: S1-internal, S1-external  
KAPLAN-SGP: TMA-internal

BUS292 Econometrics - 3 points  
MURDOCH: S2-internal, S2-external  
KAPLAN-SGP: TJA-internal, TSA-internal

EDN235 Teaching English and Literacy in Early Childhood and Primary - 3 points  
MURDOCH: S1E-internal, S1E-external

EDN461 Language and Literacies in the Early Years - 3 points  
MURDOCH: S1E-internal, S1E-external

EDN328 Teaching English and Literacy to Students with Learning Difficulties and Disabilities - 3 points  
MURDOCH: S1E-internal, S1E-external

---

## ENVIRONMENTAL ISSUES

### Conservation Science

#### Excluded Majors:

Environmental Management and Sustainability; Sustainable Development

#### Excluded Minors:

Sustainable Development

#### Minor Structure - 12 credit points

##### Part I - 3 credit points

##### Core Unit - 3 credit points

ENV102 Foundations of the Environment - 3 points  
MURDOCH: S2-internal, S2-external

##### Part II - 9 credit points

##### Core Units - 9 credit points

ENV245 Global and Regional Sustainability - 3 points  
MURDOCH: S2-internal, S2-external

ENV246 Protected Area Management and Planning - 3 points  
MURDOCH: S1-internal, S1-external

SUS203 Sustainability, Ecology and Communities - 3 points  
MURDOCH: S1-internal, S1-external

---

## EQUINE SCIENCE

### Agricultural Sciences

#### Minor Structure - 12 credit points

##### Part I - 6 credit points

##### Core Units - 6 credit points

BMS107 Foundations of Vertebrate Form and Function - 3 points  
MURDOCH: S2-internal

BIO152 Cell Biology - 3 points  
MURDOCH: S2-internal

##### Part II - 6 credit points

##### Core Units - 6 credit points

ANS365 Equine Physiology and Behaviour - 3 points  
MURDOCH: S1-internal

ANS366 Equine Nutrition and Health - 3 points  
MURDOCH: S2-internal

5

---

## ECOSYSTEM MANAGEMENT

### Conservation Science

#### Excluded Majors:

Environmental Science

#### Minor Structure - 12 credit points

##### Part I - 3 credit points

##### Specified Electives - 3 credit points

Select from the following:

BIO103 Environmental Biology - 3 points  
MURDOCH: S1-internal, S1-external

BIO180 Introduction to Marine Biology - 3 points  
MURDOCH: S1-internal

##### Part II - 9 credit points

##### Core Units - 9 credit points

ENV241 Ecology - 3 points  
MURDOCH: S2-internal, S2-external

ENV246 Protected Area Management and Planning - 3 points  
MURDOCH: S1-internal, S1-external

ENV332 Managing Wetlands and Water - 3 points  
MURDOCH: S2-internal, S2-external

---

## ENGLISH AND LITERACY EDUCATION

### Education

#### Excluded Minors:

Inclusive Education

#### Minor Structure - 12 credit points

##### Part I - 3 credit points

##### Core Units - 3 credit points

EDN111 Language for Learning and Teaching - 3 points  
MURDOCH: S1E-internal, S1E-external

##### Part II - 9 credit points

##### Core Units - 9 credit points

## ETHICS

### Communications

#### Excluded Majors:

Philosophy

#### Excluded Minors:

Philosophy

### Minor Structure - 12 credit points

#### 100 Level Units - 3 credit points

##### Specified Elective - 3 credit points

Select from the following:

PHL130 Introduction to Philosophy - 3 points  
MURDOCH: S2-internal, S2-external

PHL131 Critical and Creative Thinking - 3 points  
MURDOCH: S1-internal, S1-external

#### 200 Level Units - 9 credit points

##### Specified Electives - 9 credit points

Select from the following:

PHL206 Ethics, Responsibility and Justice - 3 points  
MURDOCH: S1-internal, S1-external

PHL216 Wellbeing and the Good Life - 3 points  
Not available this year

PHL210 Applied Ethics: Environment, Animals and Society - 3 points  
Not available this year

PHL204 Philosophy, Politics, Economics - 3 points  
MURDOCH: S2-internal, S2-external

## EVENTS

### Global Studies

#### Excluded Majors:

Tourism and Events

### Minor Structure - 12 credit points

#### 100 Level Units - 3 credit points

##### Core Unit - 3 credit points

TOU101 Introduction to Tourism Systems - 3 points  
MURDOCH: S1-internal, S1-external

#### 200 Level Units - 6 credit points

TOU221 Sustainable Tourism - 3 points  
MURDOCH: S1-internal, S1-external  
KAPLAN-SGP: TMA-internal

TOU232 Festivals and Events - 3 points  
MURDOCH: S1-internal, S1-external  
KAPLAN-SGP: TJA-internal, TSA-internal

#### 300 Level Units - 3 credit points

##### Core Unit - 3 credit points

TOU324 Events, Policy and Evaluation - 3 points  
MURDOCH: S1-internal, S1-external  
KAPLAN-SGP: TJA-internal, TSA-internal

## FINANCE

### Business

### Minor Structure - 12 credit points

#### Core Units - 12 credit points

BUS140 Introduction to Finance - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Or

BUS130 Foundational Mathematics for Business - 3 points  
DUBAI-ISC: TMD-internal

BUS288 Treasury Management - 3 points  
MURDOCH: S1-internal, S1-external  
DUBAI-ISC: TJD-internal, TSD-internal  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

BUS212 Introduction to International Finance - 3 points  
MURDOCH: S1-internal, S1-external

Or

BUS330 International Finance - 3 points  
MURDOCH: S2-internal, S2-external  
DUBAI-ISC: TJD-internal, TSD-internal  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

BUS329 Investment Analysis - 3 points  
MURDOCH: S1-internal, S1-external  
DUBAI-ISC: TMD-internal  
KAPLAN-SGP: TMA-internal

## FISHERIES SCIENCE

### Conservation Science

#### Excluded Minors:

Resource Management

### Minor Structure - 12 credit points

#### Part I - 3 credit points

##### Specified Electives - 3 credit points

Select from the following:

BIO103 Environmental Biology - 3 points  
MURDOCH: S1-internal, S1-external

BIO180 Introduction to Marine Biology - 3 points  
MURDOCH: S1-internal

#### Part II - 9 credit points

##### Core Units - 6 credit points

BIO249 Fish and Wildlife Populations - 3 points  
MURDOCH: S1-internal

ENV303 GIS for Environmental Management and Planning - 3 points

<span data-type="offering" data-unit="ENV303">MURDOCH: S2-internal (quota of 70 places) (closed as the offering has reached capacity), S2-external (quota of 20 places) (closed as the offering has reached capacity)</span>

##### Specified Electives - 3 credit points

Select from the following:

MAS223 Applied Statistics - 3 points  
MURDOCH: S2-internal, S2-external

MAS353 Statistical Design and Data Analysis - 3 points  
MURDOCH: S2-internal, S2-external

---

## FORENSIC BIOLOGY

### Biomedical Science

#### Excluded Majors:

Forensic Biology and Toxicology

### Minor Structure - 12 credit points

#### Part I - 6 credit points

##### Core Units - 6 credit points

CHE103 Introduction to Forensic Science - 3 points  
MURDOCH: S1-internal

BMS101 Introduction to the Human Body - 3 points  
MURDOCH: S1-internal

#### Part II - 6 credit points

##### Core Units - 6 credit points

BMS213 Forensic Anatomy and Anthropology - 3 points  
MURDOCH: S1-internal

BIO388 Forensic Science and Miscarriages of Justice - 3 points  
MURDOCH: W-internal

---

## GAMES DESIGN

### Information Technology, Mathematics and Statistics

#### Excluded Majors:

Games Software Design and Production

### Minor Structure - 12 credit points

#### Part I - 3 credit points

##### Core Unit - 3 credit points

ICT159 Foundations of Programming - 3 points  
MURDOCH: S1-internal, S1-external  
DUBAI-ISC: TJD-internal, TMD-internal, TSD-internal  
OUA: OUA1-external, OUA3-external

#### Part II - 9 credit points

##### Core Units - 9 credit points

ICT288 Virtual Realities and Games Software Design - 3 points  
MURDOCH: S1-internal, S1-external  
KAPLAN-SGP: TJA-internal, TSA-internal

ICT365 Software Development Frameworks - 3 points  
MURDOCH: S2-internal, S2-external  
KAPLAN-SGP: TMA-internal

ICT367 Virtual Realities and Games Software Production - 3 points  
KAPLAN-SGP: TSA-internal

---

## GENDER STUDIES

### Global Studies

### Minor Structure - 12 credit points

#### 200 Level Units - 6 credit points

##### Core Units - 6 credit points

POL226 Sex and Gender Matters - 3 points  
MURDOCH: S2-external

AST288 Women and Men in Asian Societies - 3 points  
MURDOCH: S2-internal, S2-external

#### 300 Level Units - 6 credit points

##### Core Units - 6 credit points

AIS307 Indigeneity, Critical Theory and Social Justice - 3 points  
MURDOCH: S2-internal, S2-external

COM304 Communicating Global Issues - 3 points  
MURDOCH: S1-internal, S1-external

---

## GLOBAL POLITICS

### Global Studies

#### Excluded Majors:

Global Politics and Policy

### Minor Structure - 12 credit points

#### 100 Level Units

##### Core Units - 3 credit points

POL161 Understanding International Politics - 3 points  
MURDOCH: S2-internal, S2-external

#### 200 and 300 Level Units

##### Core Units - 9 credit points

POL298 International Political Economy - 3 points  
MURDOCH: S1-internal, S1-external  
KAPLAN-SGP: TJA-internal, TSA-internal

POL332 Administering Global Governance and Global Business - 3 points  
MURDOCH: S2-internal, S2-external

POL341 Global Politics and Policy Research Paper - 3 points  
MURDOCH: S2-internal, S2-external

---

## HUMAN ANATOMY

### Biomedical Science

### Minor Structure - 12 credit points

#### Part I - 6 credit points

##### Core Units - 6 credit points

BMS101 Introduction to the Human Body - 3 points  
MURDOCH: S1-internal

CHI108 Human Anatomy I - 3 points  
MURDOCH: S2-internal

#### Part II - 6 credit points

##### Specified Electives - 6 credit points

Select from the following:

BMS213 Forensic Anatomy and Anthropology - 3 points  
MURDOCH: S1-internal

CHI255 Human Anatomy II - 3 points  
MURDOCH: S1-internal

CHI234 Human Anatomy III - 3 points  
MURDOCH: S2-internal

## HUMAN RESOURCES MANAGEMENT

### Economics

#### Excluded Majors:

Hospitality and Tourism Management; Human Resources Management; Hospitality and Tourism Management; Human Resources Management

### Minor Structure - 12 credit points

#### Part I - 3 credit points

##### Core Units - 3 credit points

BUS123 Management in a Global Environment - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external  
Or

BUS176 Foundations of Management and Governance - 3 points  
DUBAI-ISC: TJD-internal, TSD-internal

#### Part II - 9 credit points

##### Core Units - 9 credit points

BUS293 Organisational Theory and Behaviour - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external  
DUBAI-ISC: TJD-internal, TSD-internal  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

BUS226 Talent Acquisition - 3 points  
MURDOCH: S1-internal, S1-external  
Or

BUS297 Principles of Human Resources Management - 3 points  
KAPLAN-SGP: TJA-internal, TSA-internal

BUS371 Talent Management - 3 points  
Not available this year  
Or

BUS340 Advanced Human Resource Perspectives - 3 points  
MURDOCH: S1-internal, S1-external  
KAPLAN-SGP: TMA-internal

## INCLUSIVE EDUCATION

### Education

#### Excluded Minors:

Mathematics and Numeracy Education; English and Literacy Education

### Minor Structure - 12 credit points

#### Part II - 12 credit points

##### Core Units - 12 credit points

EDN449 Inclusive Education - 3 points  
MURDOCH: S2E-internal, S2E-external

EDN329 Teaching Mathematics and Numeracy to Students with Learning Difficulties - 3 points  
MURDOCH: S2E-internal, S2E-external

EDN328 Teaching English and Literacy to Students with Learning Difficulties and Disabilities - 3 points  
MURDOCH: S1E-internal, S1E-external

EDN330 Teaching Students with High Incidence Disabilities - 3 points  
MURDOCH: SB2-internal, SB2-external

## INDONESIAN

### Global Studies

#### Excluded Majors:

Indonesian

### Minor Structure - 12 credit points

#### 100 Level Units - 6 credit points

##### Core Units - 6 credit points

IND101 Indonesian 1 - 3 points  
MURDOCH: S1-internal, S1-external, W-external

IND102 Indonesian 2 - 3 points  
MURDOCH: S2-internal, S2-external

#### 200 Level Units - 6 credit points

##### Core Units - 6 credit points

IND201 Indonesian 3 - 3 points  
MURDOCH: AU3-internal, AU3-external

IND202 Indonesian 4 - 3 points  
MURDOCH: AU1-internal, AU1-external

5

## INNOVATION AND CREATIVITY

### Curriculum Plus

### Minor Structure - 12 credit points

#### Core Units - 6 credit points

ICR101 The Innovator's Mindset - 3 points  
MURDOCH: S2-internal

ICR201 Foundations of Entrepreneurship - 3 points  
MURDOCH: S2-internal, S2-external

#### Specified Electives - 6 credit points

Select from the following:

Environmental Design and Innovation - 3 points  
ICR202 Environmental Design and Innovation - 3 points  
Not available this year

ICR203 Social Innovation and Entrepreneurship - 3 points  
Not available this year

MSP201 Real World Learning - 3 points  
MURDOCH: S1-external, S2-external, SUM-external, W-external, Y-external

## INTERNATIONAL AID AND DEVELOPMENT

### Global Studies

### Minor Structure - 12 credit points

#### 100 Level Units - 3 credit points

##### Core Unit - 3 credit points

SUS100 Introduction to Sustainable Development - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

#### 200 and 300 Level Units - 9 credit points

##### Core Units - 9 credit points

SUS207 Overseas Aid and International Development - 3 points  
MURDOCH: S1-internal, S1-external

POL201 Global Justice, Aid and Security - 3 points  
MURDOCH: S2-internal, S2-external

POL226 Sex and Gender Matters - 3 points  
MURDOCH: S2-external

---

## INTERNATIONAL BUSINESS

### Economics

### Minor Structure - 12 credit points

#### Core Units - 12 credit points

BUS123 Management in a Global Environment - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

BUS219 International Business - 3 points  
MURDOCH: S1-internal, S1-external

BUS211 International Logistics - 3 points  
MURDOCH: S1-internal, S1-external

BUS338 Global Strategic Management - 3 points  
MURDOCH: S2-internal, S2-external

---

## JAPANESE

### Global Studies

#### Excluded Majors:

Japanese

### Minor Structure - 12 credit points

#### 100 Level Units - 6 credit points

##### Core Units - 6 credit points

JPN101 Japanese 1 - 3 points  
MURDOCH: S1-internal

JPN102 Japanese 2 - 3 points  
MURDOCH: S2-internal

#### 200 Level Units - 6 credit points

##### Core Units - 6 credit points

JPN201 Japanese 3 - 3 points  
MURDOCH: AU3-internal

JPN202 Japanese 4 - 3 points  
MURDOCH: AU1-internal

---

## LAW AND JUSTICE

### Business Law

#### Excluded Majors:

Legal Studies

### Minor Structure - 12 credit points

#### Part I

##### Core Units - 6 credit points

Select two units from the following:

BJU150 Law in Context - 3 points  
MURDOCH: S1-internal, S1-external

CRM100 Introduction to Criminology - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

LEG100 Law, Justice and Social Policy - 3 points  
MURDOCH: S2-internal, S2-external

#### Part II

##### Core Units - 6 credit points

Select two units from the following:

LEG323 Social and Welfare Law - 3 points  
MURDOCH: S2-internal, S2-external

LEG391 Alternative Dispute Resolution - 3 points  
MURDOCH: S2K-internal, S2K-external

LEG211 Legal Costs Assessment - 3 points

LEG203 Indigenous Peoples, Law and Society - 3 points  
MURDOCH: S1-internal, S1-external

---

## LITERATURE

### Creative Media, Arts and Design

#### Excluded Majors:

English and Creative Writing

### Minor Structure - 12 credit points

#### 100 Level Units - 3 credit points

##### Specified Electives - 3 credit points

Select from the following:

EGL123 Texting I: Introduction to Literature, Writing and Performance - 3 points  
MURDOCH: S1-internal, S1-external

EGL124 Texting II: Introduction to Literature, Writing and Performance - 3 points  
MURDOCH: S2-internal, S2-external

#### 200 Level Units - 6 credit points

##### Core Unit - 3 credit points

EGL244 Shakespeare and His Contemporaries: Page and Stage - 3 points  
MURDOCH: S1-internal, S1-external

##### Specified Electives - 3 credit points

Select from the following:

EGL248 The Novel: Transforming the Real - 3 points  
MURDOCH: S1-internal, S1-external

EGL235 Australian Literature and Film - 3 points  
MURDOCH: S2-internal, S2-external

EGL249 The Short Story: Approaches to Writing and Reading - 3 points  
MURDOCH: S1-internal, S1-external

#### 300 Level Units - 3 credit points

##### Core Unit - 3 credit points

EGL321 Cosmopolitan Literature: Communicating Creatively across the Globe - 3 points  
MURDOCH: S2-internal, S2-external

## MANAGEMENT

### Business

#### Excluded Majors:

Management; Management

### Minor Structure - 12 credit points

#### Core Units - 12 credit points

BUS123 Management in a Global Environment - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Or

BUS176 Foundations of Management and Governance - 3 points  
DUBAI-ISC: TJD-internal, TSD-internal

BUS230 Change Management - 3 points  
MURDOCH: S2-internal, S2-external

Or

BUS298 Organisation Development and Change - 3 points  
DUBAI-ISC: TMD-internal  
KAPLAN-SGP: TMA-internal

BUS338 Global Strategic Management - 3 points  
MURDOCH: S2-internal, S2-external

Or

BUS349 Strategic Management - 3 points  
DUBAI-ISC: TJD-internal, TSD-internal  
KAPLAN-SGP: TJA-internal, TSA-internal

BUS334 Business Analytics and Decision Making - 3 points  
MURDOCH: S1-internal, S1-external  
DUBAI-ISC: TMD-internal  
KAPLAN-SGP: TMA-internal

BIO249 Fish and Wildlife Populations - 3 points  
MURDOCH: S1-internal

## MARKETING

### Economics

#### Excluded Majors:

Marketing

### Minor Structure - 12 credit points

#### Core Units - 12 credit points

BUS124 Global Marketing - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

Or

BUS183 Foundations of Marketing - 3 points  
DUBAI-ISC: TMD-internal

BUS299 Consumer Behaviour - 3 points  
MURDOCH: S2-internal, S2-external  
DUBAI-ISC: TMD-internal  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

BUS359 Digital and Social Media Marketing - 3 points  
MURDOCH: S1-internal, S1-external  
Or

BUS302 Integrated Marketing Communications - 3 points  
DUBAI-ISC: TJD-internal, TSD-internal  
KAPLAN-SGP: TJA-internal, TSA-internal

BUS370 Cross Cultural Marketing - 3 points  
MURDOCH: S2-internal, S2-external  
Or

BUS343 International Marketing - 3 points  
DUBAI-ISC: TJD-internal, TSD-internal  
KAPLAN-SGP: TJA-internal, TSA-internal

5

## MARINE BIOLOGY

### Conservation Science

#### Excluded Majors:

Conservation and Wildlife Biology; Marine Biology

### Minor Structure - 12 credit points

#### Part I - 3 credit points

##### Specified Electives - 3 credit points

Select from the following:

BIO180 Introduction to Marine Biology - 3 points  
MURDOCH: S1-internal

BIO103 Environmental Biology - 3 points  
MURDOCH: S1-internal, S1-external

#### Part II - 9 credit points

##### Core Units - 9 credit points

ENV241 Ecology - 3 points  
MURDOCH: S2-internal, S2-external

##### Specified Electives - 6 credit points

Select from the following:

BIO377 Marine Ecology - 3 points  
MURDOCH: S1-internal

BIO393 Tropical Marine Biology - 3 points  
<span data-type="offering" data-unit="BIO393">MURDOCH:  
W-internal (quota of 40 places) (closed as the offering has reached  
capacity)</span>

## MATHEMATICS AND NUMERACY EDUCATION

### Education

#### Excluded Minors:

Inclusive Education

### Minor Structure - 12 credit points

#### Part I

##### Core Units - 3 credit points

EDN114 Thinking Mathematically - 3 points  
MURDOCH: S2E-internal, S2E-external

#### Part II - 9 credit points

##### Core Units - 9 credit points

EDN351 Teaching Mathematics in Early Childhood and Primary -  
3 points  
MURDOCH: S1E-internal, S1E-external

EDN462 Mathematics and Numeracy in the Early Years - 3 points  
MURDOCH: S1E-internal, S1E-external

EDN329 Teaching Mathematics and Numeracy to Students with  
Learning Difficulties - 3 points  
MURDOCH: S2E-internal, S2E-external

## MODERN HISTORY

### Global Studies

#### Excluded Majors:

History

### Minor Structure - 12 credit points

#### 100 Level Units - 3 credit points

##### Specified Elective - 3 credit points

Select from the following:

HIS101 The Silk Roads - 3 points  
MURDOCH: S1-internal, S1-external

HIS182 Making of the Modern World - 3 points  
MURDOCH: S2-internal, S2-external

#### 200 Level Units - 9 credit points

##### Specified Electives - 9 credit points

Select from the following:

HIS200 The Empire Strikes Back: Imperialism and Colonialism in Modern History - 3 points  
MURDOCH: S2-internal, S2-external

HIS257 Spies, Saboteurs and Secret Agents - 3 points

HIS259 Europe Under the Dictators - 3 points  
MURDOCH: S1-internal, S1-external

HIS205 The Vietnam Wars - 3 points

HIS211 Modern Japan - 3 points  
MURDOCH: S1-internal, S1-external

HIS212 Vision Splendid: An Alternative History of Australia - 3 points

HIS243 Cold War 1945 - 1991: A Global History - 3 points  
Not available this year

HIS244 Modern Southeast Asian History - 3 points  
MURDOCH: S2-internal, S2-external

HIS204 Crime and Punishment Since 1700 - 3 points  
Not available this year

HIS250 Hollywood and History - 3 points  
MURDOCH: S1-internal, S1-external

HIS258 Soldiers and Civilians: War in the Pacific 1941-1945 - 3 points  
MURDOCH: S2-internal, S2-external

HIS206 Tudors and Treachery: Religion, Politics, and Society in sixteenth-century England - 3 points  
MURDOCH: S2-internal, S2-external

HIS245 The Second World War in Europe - 3 points  
MURDOCH: S1-internal, S1-external

## MOLECULAR BIOLOGY

### Forensic Science

#### Excluded Majors:

Clinical Laboratory Science; Forensic Biology and Toxicology; Genetics and Molecular Biology

### Minor Structure - 12 credit points

#### Part I - 6 credit points

#### Core Units - 6 credit points

BIO152 Cell Biology - 3 points  
MURDOCH: S2-internal

CHE140 Fundamentals of Chemistry - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

#### Part II - 6 credit points

##### Core Units - 6 credit points

BIO282 Molecular Biology - 3 points  
MURDOCH: S1-internal

BIO394 Genetic Engineering - 3 points  
MURDOCH: S1-internal

## NATURE BASED TOURISM

### Environmental and Conservation Sciences

### Minor Structure - 12 credit points

#### Part I

##### Core Units - 3 credit points

TOU101 Introduction to Tourism Systems - 3 points  
MURDOCH: S1-internal, S1-external

#### Part II - 9 credit points

##### Core Units - 6 credit points

ENV278 Nature-Based Tourism - 3 points  
MURDOCH: S1-internal, S1-external

ENV246 Protected Area Management and Planning - 3 points  
MURDOCH: S1-internal, S1-external

##### Specified Electives - 3 credit points

Select from the following:

BIO257 Australian Biodiversity - 3 points  
MURDOCH: S2-internal

AIS206 Country, Nature and Identity: Indigenous Sustainability - 3 points  
MURDOCH: S1-internal, S1-external

AIS206 Country, Nature and Identity: Indigenous Sustainability - 3 points  
MURDOCH: S1-internal, S1-external

TOU221 Sustainable Tourism - 3 points  
MURDOCH: S1-internal, S1-external  
KAPLAN-SGP: TMA-internal

## NETWORK DESIGN

### Information Technology

#### Excluded Majors:

Internetworking and Network Security

### Minor Structure - 12 credit points

#### Part I - 3 credit points

##### Core Unit - 3 credit points

ICT169 Foundations of Data Communications - 3 points  
MURDOCH: S2-internal, S2-external  
DUBAI-ISC: TJD-internal, TSD-internal

#### Part II - 9 credit points

##### Core Units - 9 credit points

ICT291 Network Design and Implementation - 3 points  
MURDOCH: S1-internal

ICT369 Wireless and Interactive Networks - 3 points  
MURDOCH: S2-internal

ICT372 Advanced Network Design and Implementation - 3 points  
MURDOCH: S2-internal

## NETWORK SECURITY

### Information Technology

#### Excluded Majors:

Internetworking and Network Security

### Minor Structure - 12 credit points

#### Part I - 6 credit points

##### Core Unit - 6 credit points

ICT169 Foundations of Data Communications - 3 points  
MURDOCH: S2-internal, S2-external  
DUBAI-ISC: TJD-internal, TSD-internal

ICT171 Introduction to Server Environments and Architectures - 3 points  
MURDOCH: S1-internal, S1-external  
DUBAI-ISC: TJD-internal, TSD-internal

#### Part II - 6 credit points

##### Core Units - 6 credit points

ICT291 Network Design and Implementation - 3 points  
MURDOCH: S1-internal

ICT377 Network Security - 3 points  
MURDOCH: S1-internal

## NEUROSCIENCE

### Counselling

#### Excluded Majors:

Psychology

### Minor Structure - 12 credit points

#### Part I - 3 credit points

##### Core Unit - 3 credit points

PSY173 Introduction to Psychological Research Methods - 3 points  
MURDOCH: S2-internal  
DUBAI-ISC: TMD-internal, TSD-internal  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

#### Part II - 9 credit points

##### Core Units - 9 credit points

PSY388 Psychology: Abnormal Behaviour - 3 points  
MURDOCH: S2-internal  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

PSY294 Psychology: Cognitive Processes - 3 points  
MURDOCH: S2-internal  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

PSY251 Psychology: Biological Bases of Behaviour - 3 points  
MURDOCH: S1-internal  
DUBAI-ISC: TSD-internal  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

## ORGANIC AND BIOLOGICAL CHEMISTRY

### Chemistry

#### Excluded Majors:

Chemistry

### Minor Structure - 12 credit points

#### Core Units - 9 credit points

CHE145 Introduction to Chemical Concepts - 3 points  
MURDOCH: S2-internal, S2-external

CHE205 Organic and Biological Chemistry I - 3 points  
MURDOCH: S2-internal, S2-external

CHE308 Organic and Biological Chemistry II - 3 points  
MURDOCH: S1-internal, S1-external

#### Specified Electives - 3 credit points

Select from the following:

CHE207 Chemical Analysis - 3 points  
MURDOCH: S1-internal, S1-external

CHE309 Advanced Projects in Chemistry and Mineral Science - 3 points  
MURDOCH: S1-internal, S2-internal, SUM-internal

BIO247 Biochemistry - 3 points  
MURDOCH: S2-internal

## PHARMACOLOGY

### Forensic Science

### Minor Structure - 12 credit points

#### Specified Elective - 3 credit points

Select from the following:

BIO152 Cell Biology - 3 points  
MURDOCH: S2-internal

OR

BMS107 Foundations of Vertebrate Form and Function - 3 points  
MURDOCH: S2-internal

#### Core Unit - 3 credit points

BMS317 Human Pharmacology - 3 points  
MURDOCH: S1-internal

#### Specified Electives - 6 credit points

Select one unit from the three following units:

BIO247 Biochemistry - 3 points  
MURDOCH: S2-internal

OR

BMS206 Biomedical Physiology - 3 points  
MURDOCH: S1-internal

OR

VET272 Comparative Mammalian Biochemistry - 3 points  
MURDOCH: S1-internal

Select one of the two following units:

BRD202 Drugs in Society - 3 points  
MURDOCH: S2-internal, S2-external

OR

BIO367 Forensic Toxicology - 3 points  
MURDOCH: S2-internal

---

## PHILOSOPHY

### *Creative Media, Arts and Design*

#### **Excluded Majors:**

Philosophy

#### **Excluded Minors:**

Ethics

### **Minor Structure - 12 credit points**

#### **100 Level Units - 3 credit points**

##### **Specified Electives - 3 credit points**

Select from the following: PHL130 Introduction to Philosophy - 3 points  
MURDOCH: S2-internal, S2-external

PHL131 Critical and Creative Thinking - 3 points  
MURDOCH: S1-internal, S1-external

#### **200 Level Units - 9 credit points**

##### **Specified Electives - 9 credit points**

Select from the following: PHL217 Meaning and Interpretation - 3 points  
MURDOCH: S1-internal, S1-external

PHL205 Metaphysics: Conceptual Engineering - 3 points  
MURDOCH: S1-internal, S1-external

PHL209 Artificial Minds vs Real Thoughts - 3 points  
MURDOCH: S1-internal, S1-external

PHL222 Science, Power, Knowledge - 3 points  
MURDOCH: S2-internal, S2-external

PHL207 Existentialism - 3 points  
Not available this year

PHL221 Film and Philosophy - 3 points  
MURDOCH: S2-internal, S2-external

---

## PHYSICS

### *Chemistry*

#### **Excluded Majors:**

Physics and Nanotechnology

#### **Prerequisites**

##### **Mathematics Background**

MAS161 Prerequisites:  
Applied Mathematics OR a final scaled score of 55% or more in TEE Calculus or equivalent OR a final scaled score of 55% or higher in ATAR Mathematics Specialist (or WACE Mathematics: Specialist 3C/3D).

#### **Prerequisites**

##### **Physics Background**

PEN152 Prerequisites:  
Concurrent enrolment in MAS182 Applied Mathematics or MAS161 Calculus and Matrix Algebra; plus a final scaled score of 60% or more in WACE Physics 3A/3B or a pass in PEC/PEN120 General Physics.

### **Minor Structure - 12 credit points**

#### **100 Level Units - 6 credit points**

##### **Core Units - 6 credit points**

MAS161 Calculus and Matrix Algebra - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

PEN152 Principles of Physics - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

#### **200 Level Units - 3 credit points**

##### **Core Units - 3 credit points**

PEN231 Modern Physics - 3 points  
MURDOCH: S1-internal, S1-external

#### **200 and 300 Level Units - 3 credit points**

##### **Specified Electives - 3 credit points**

Select from the following:

PEN332 Electromagnetism - 3 points  
MURDOCH: S1-internal, S1-external

PEN202 Thermodynamics for Physics and Nanotechnology - 3 points  
MURDOCH: S2-internal, S2-external

---

## PLANT BIOLOGY

### *Conservation Science*

### **Minor Structure - 12 credit points**

#### **Part I - 3 credit points**

##### **Specified Electives - 3 credit points**

Select from the following:

BIO180 Introduction to Marine Biology - 3 points  
MURDOCH: S1-internal

BIO103 Environmental Biology - 3 points  
MURDOCH: S1-internal, S1-external

#### **Part II - 9 credit points**

##### **Core Units - 3 credit points**

BIO245 Plant Evolution, Radiation and Adaptation - 3 points  
MURDOCH: S1-internal

##### **Specified Electives - 6 credit points**

Select from the following:

BIO254 Marine Botany - 3 points  
MURDOCH: S1-internal

BIO257 Australian Biodiversity - 3 points  
MURDOCH: S2-internal

ENV334 Environmental Restoration - 3 points  
<span data-type="offering" data-unit="ENV334">MURDOCH: S1-internal (quota of 60 places), S1-external (quota of 60 places)</span>

## PROFESSIONAL ACCOUNTING

### Business

### Minor Structure - 12 credit points

#### Core Units - 12 credit points

BUS286 Corporate Finance - 3 points  
MURDOCH: S2-internal, S2-external  
DUBAI-ISC: TMD-internal  
KAPLAN-SGP: TMA-internal

BSL305 Company Law - 3 points  
MURDOCH: S2-internal, S2-external  
KAPLAN-SGP: TMA-internal

BUS303 Taxation - 3 points  
MURDOCH: S1-internal, S1-external  
KAPLAN-SGP: TJA-internal, TSA-internal

BUS306 Auditing - 3 points  
MURDOCH: S2-internal, S2-external  
KAPLAN-SGP: TMA-internal

## PUBLIC POLICY

### Global Studies

#### Excluded Majors:

Global Politics and Policy

### Minor Structure - 12 credit points

#### 100 Level Units - 3 credit points

#### Core Units - 3 credit points

POL133 Politics, Power and Policy - 3 points  
MURDOCH: S2-internal, S2-external

#### 200 and 300 Level Units - 9 credit points

#### Core Units - 9 credit points

POL246 Public Policy Analysis - 3 points  
MURDOCH: S2-internal, S2-external  
KAPLAN-SGP: TJA-internal, TSA-internal

POL332 Administering Global Governance and Global Business - 3 points  
MURDOCH: S2-internal, S2-external

POL341 Global Politics and Policy Research Paper - 3 points  
MURDOCH: S2-internal, S2-external

## RADIO

### Communications

### Minor Structure - 12 credit points

#### Minor Core Units - 12 credit points

RAD105 Introduction to Radio - 3 points  
MURDOCH: S2-internal

COM206 Broadcast Presentation - 3 points  
MURDOCH: S2-internal

COM313 Campus Radio - 3 points  
MURDOCH: S1-internal

RAD301 Creative Radio - 3 points  
MURDOCH: S2-internal

## RELIGION

### Creative Media, Arts and Design

### Minor Structure - 12 credit points

#### 100 Level Units - 3 credit points

#### Core Units - 3 credit points

REL102 Religion and Popular Culture - 3 points  
MURDOCH: S2-internal, S2-external

#### 200 Level Units - 9 credit points

#### Specified Electives - 9 credit points

HIS206 Tudors and Treachery: Religion, Politics, and Society in sixteenth-century England - 3 points  
MURDOCH: S2-internal, S2-external

SOC209 Religion and Society - 3 points  
MURDOCH: S1-internal, S1-external

REL204 The Bible: Fact or Fiction? - 3 points  
Not available this year

REL205 Gods and Government in the Graeco-Roman World - 3 points  
Not available this year

REL207 Biblical Hebrew I - 3 points  
MURDOCH: S1-internal

REL208 Biblical Hebrew II - 3 points  
MURDOCH: S2-internal

REL209 New Testament Greek I - 3 points  
Not available this year

REL210 New Testament Greek II - 3 points  
Not available this year

## RESOURCE MANAGEMENT

### Conservation Science

#### Excluded Majors:

Environmental Management and Sustainability

#### Excluded Minors:

Fisheries Science

### Minor Structure - 12 credit points

#### Part I - 3 credit points

#### Specified Electives - 3 credit points

Select from the following:

BIO103 Environmental Biology - 3 points  
MURDOCH: S1-internal, S1-external

BIO180 Introduction to Marine Biology - 3 points  
MURDOCH: S1-internal

#### Part II - 9 credit points

#### Core Units - 9 credit points

BIO249 Fish and Wildlife Populations - 3 points  
MURDOCH: S1-internal

ENV303 GIS for Environmental Management and Planning - 3 points

<span data-type="offering" data-unit="ENV303">MURDOCH: S2-internal (quota of 70 places) (closed as the offering has reached capacity), S2-external (quota of 20 places) (closed as the offering has reached capacity)</span>

ENV246 Protected Area Management and Planning - 3 points  
MURDOCH: S1-internal, S1-external

## SECURITY, TERRORISM AND COUNTERTERRORISM

*Global Studies*

### Minor Structure - 12 credit points

#### Part I - 3 credit points

**Core Unit - 3 credit points**

POL192 Perspectives on Security and Terrorism - 3 points  
MURDOCH: S1-internal, S1-external

#### Part II - 9 credit points

**Core Units - 9 credit points**

POL234 Terrorism in a Globalised World - 3 points  
MURDOCH: S1-internal, S1-external

POL236 US Policies and Global Security - 3 points  
MURDOCH: S1-internal, S1-external

POL202 Policing and the Politics of Counterterrorism - 3 points  
MURDOCH: S2-internal, S2-external

## SOCIAL AND DEVELOPMENTAL PSYCHOLOGY

*Exercise Science*

**Excluded Majors:**

Psychology

### Minor Structure - 12 credit points

#### Part I - 3 credit points

**Core Unit - 3 credit points**

PSY101 Introduction to Cultural Psychology - 3 points  
MURDOCH: S1-internal  
DUBAI-ISC: TJD-internal  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

#### Part II - 9 credit points

**Core Units - 9 credit points**

PSY286 Psychology: Human Development - 3 points  
MURDOCH: S1-internal  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

PSY285 Psychology: Social Bases of Behaviour - 3 points  
MURDOCH: S2-internal  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

PSY287 Psychology: Evolved Social Cognition - 3 points  
MURDOCH: S1-internal  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

OR

PSY393 Psychology: The Developing Mind - 3 points  
MURDOCH: S1-internal  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

## SOCIOLOGY

*Global Studies*

### Minor Structure - 12 credit points

**100 Level Units - 3 credit points**

**Core Units - 3 credit points**

SOC134 Introduction to Sociology - 3 points  
MURDOCH: S1-internal, S1-external

**200 Level Units - 9 credit points**

**Core Units - 6 credit points**

BRD201 Food Matters - 3 points  
MURDOCH: S2-internal, S2-external

SOC203 Youth Identities - 3 points  
MURDOCH: S2-internal, S2-external

**Specified Electives - 3 credit points**

Select from the following:

SOC209 Religion and Society - 3 points  
MURDOCH: S1-internal, S1-external

COD214 Social Policy and Community Action - 3 points  
MURDOCH: S1-internal, S1-external

SUS207 Overseas Aid and International Development - 3 points  
MURDOCH: S1-internal, S1-external

AIS307 Indigeneity, Critical Theory and Social Justice - 3 points  
MURDOCH: S2-internal, S2-external

POL226 Sex and Gender Matters - 3 points  
MURDOCH: S2-external

## SPORT PSYCHOLOGY

*Chiropractic*

### Minor Structure - 12 credit points

#### Part I - 3 credit points

**Core Unit - 3 credit points**

PSY172 Introduction to Psychological Health and Wellbeing - 3 points  
MURDOCH: S2-internal

#### Part II - 9 credit points

**Core Units - 9 credit points**

PSY391 Psychology: Individual Differences and Performance - 3 points  
MURDOCH: S1-internal  
KAPLAN-SGP: TJA-internal, TMA-internal, TSA-internal

EXS201 Sport and Exercise Psychology - 3 points  
MURDOCH: S1-internal

EXS301 Advanced Sport and Exercise Psychology - 3 points  
MURDOCH: S2-internal

## SUSTAINABILITY, ECOSYSTEMS AND COMMUNITY DEVELOPMENT

### Global Studies

#### Minor Structure - 12 credit points

##### 100 Level Units - 3 credit points

###### Core Unit - 3 credit points

BIO103 Environmental Biology - 3 points  
MURDOCH: S1-internal, S1-external

##### 200 and 300 Level Units - 9 credit points

###### Core Units - 6 credit points

SUS203 Sustainability, Ecology and Communities - 3 points  
MURDOCH: S1-internal, S1-external

COD302 Creative Ways to Work with Community - 3 points  
MURDOCH: S2-internal, S2-external

###### Specified Elective - 3 credit points

Select from the following:

BIO257 Australian Biodiversity - 3 points  
MURDOCH: S2-internal

ENV241 Ecology - 3 points  
MURDOCH: S2-internal, S2-external

ENG300 Environmental Technology for Sustainability - 3 points  
MURDOCH: S2-internal, S2-external

## SUSTAINABLE DEVELOPMENT

### Global Studies

#### Excluded Minors:

Environmental Issues

#### Minor Structure - 12 credit points

##### 100 Level Units - 3 credit points

###### Core Unit - 3 credit points

SUS100 Introduction to Sustainable Development - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

##### 200 Level Units - 6 credit points

###### Core Units - 6 credit points

SUS203 Sustainability, Ecology and Communities - 3 points  
MURDOCH: S1-internal, S1-external

ENV245 Global and Regional Sustainability - 3 points  
MURDOCH: S2-internal, S2-external

##### 300 Level Units - 3 credit points

###### Specified Elective - 3 credit points

Select from the following:

SUS305 Economics of Sustainability - 3 points  
MURDOCH: W-internal, W-external

SUS310 Sustainable Urban Communities - 3 points  
MURDOCH: S1-internal, S1-external

## TEACHING ENGLISH

### Education

#### Excluded Minors:

Teaching Health; Teaching Physical Education

#### Minor Structure - 6 credit points

##### Year 1 - 6 credit points

###### Core Units - 6 credit points

EDN591 Teaching English Years 7-10 - 3 points  
MURDOCH: S1E-internal, S1E-external

EDN691 Teaching English Years 11-12 - 3 points

## TEACHING HEALTH

### Education

#### Excluded Minors:

Teaching English; Teaching Humanities and Social Sciences;  
Teaching Mathematics; Teaching Science

#### Minor Structure - 6 credit points

##### Year 1 - 6 credit points

###### Core Units - 6 credit points

EDN592 Teaching Health Years 7-10 - 3 points  
MURDOCH: S1E-internal

EDN692 Teaching Health Years 11-12 - 3 points

## TEACHING HUMANITIES AND SOCIAL SCIENCES

### Education

#### Excluded Minors:

Teaching Health; Teaching Physical Education

#### Minor Structure - 6 credit points

##### Year 1 - 6 credit points

###### Core Units - 6 credit points

EDN593 Teaching Humanities and Social Sciences Years 7-10 - 3 points  
MURDOCH: S1E-internal, S1E-external

EDN693 Teaching Humanities and Social Sciences Years 11-12 - 3 points

## TEACHING INDONESIAN IN PRIMARY SCHOOLS

### Education

#### Excluded Minors:

Teaching Japanese in Primary Schools

#### Minor Structure - 18 credit points

##### Part I

###### Core Units - 6 credit points

IND101 Indonesian 1 - 3 points

MURDOCH: S1-internal, S1-external, W-external

IND102 Indonesian 2 - 3 points  
MURDOCH: S2-internal, S2-external

## Part II

### Core Units - 12 credit points

IND201 Indonesian 3 - 3 points  
MURDOCH: AU3-internal, AU3-external

IND202 Indonesian 4 - 3 points  
MURDOCH: AU1-internal, AU1-external

IND203 Indonesian 5 - 3 points  
MURDOCH: S2-internal, S2-external

EDN375 Teaching Second/Foreign Languages - 3 points  
MURDOCH: S1E-internal, S1E-external

## TEACHING JAPANESE IN PRIMARY SCHOOLS

Education

### Excluded Minors:

Teaching Indonesian in Primary Schools

### Minor Structure - 18 credit points

#### Part I

##### Core Units - 6 credit points

JPN101 Japanese 1 - 3 points  
MURDOCH: S1-internal

JPN102 Japanese 2 - 3 points  
MURDOCH: S2-internal

#### Part II

##### Core Units - 12 credit points

JPN201 Japanese 3 - 3 points  
MURDOCH: AU3-internal

JPN202 Japanese 4 - 3 points  
MURDOCH: AU1-internal

JPN203 Japanese 5 - 3 points  
MURDOCH: S2-internal

EDN375 Teaching Second/Foreign Languages - 3 points  
MURDOCH: S1E-internal, S1E-external

## TEACHING MATHEMATICS

Education

### Excluded Minors:

Teaching Health; Teaching Physical Education

### Minor Structure - 6 credit points

#### Year 1 - 6 credit points

##### Core Units - 6 credit points

EDN594 Teaching Mathematics Years 7-10 - 3 points  
MURDOCH: S1E-external

EDN694 Teaching Mathematics Years 11-12 - 3 points

## TEACHING PHYSICAL EDUCATION

Education

### Excluded Minors:

Teaching English; Teaching Mathematics; Teaching Humanities and Social Sciences; Teaching Science

### Minor Structure - 6 credit points

#### Year 1 - 6 credit points

##### Core Units - 6 credit points

EDN596 Teaching Physical Education Years 7-10 - 3 points  
MURDOCH: S1E-internal

EDN696 Teaching Physical Education Years 11-12 - 3 points

## TEACHING SCIENCE

Education

### Excluded Minors:

Teaching Health; Teaching Physical Education

### Minor Structure - 6 credit points

#### Year 1 - 6 credit points

##### Core Units - 6 credit points

EDN595 Teaching Science Years 7-10 - 3 points  
MURDOCH: S1E-internal, S1E-external

EDN695 Teaching Science Years 11-12 - 3 points

## THEATRE

Creative Media, Arts and Design

### Excluded Majors:

Theatre and Drama

### Minor Structure - 12 credit points

#### 100 Level Units - 3 credit points

##### Core Units - 3 credit points

Select from the following:

EGL123 Texting I: Introduction to Literature, Writing and Performance - 3 points  
MURDOCH: S1-internal, S1-external

EGL124 Texting II: Introduction to Literature, Writing and Performance - 3 points  
MURDOCH: S2-internal, S2-external

#### 200 Level Units - 6 credit points

##### Specified Electives - 6 credit points

Select from the following:

EGL255 Theatre in Society - 3 points  
MURDOCH: S1-internal

EGL253 Acting and Performance - 3 points  
MURDOCH: S1-internal

EGL254 Making Contemporary Theatre - 3 points  
MURDOCH: S2-internal

#### 300 Level Units - 3 credit points

**Core Unit - 3 credit points**

EGL353 Acting and Producing for Stage - 3 points  
MURDOCH: S2-internal

**TOURISM***Global Studies***Minor Structure - 12 credit points****100 Level Units - 3 credit points****Core Units - 3 credit points**

TOU102 Travel and Tourism in Society - 3 points  
MURDOCH: S2-internal, S2-external  
KAPLAN-SGP: TMA-internal

**200 Level Units - 6 credit points****Core Unit - 3 credit points**

TOU221 Sustainable Tourism - 3 points  
MURDOCH: S1-internal, S1-external  
KAPLAN-SGP: TMA-internal

**Specified Electives - 3 credit points**

Select from the following:

TOU230 Cultural Tourism Interpretation - 3 points  
MURDOCH: S2-internal, S2-external

TOU231 Indigenous Tourism Issues - 3 points  
Not available this year

ENV278 Nature-Based Tourism - 3 points  
MURDOCH: S1-internal, S1-external

**300 Level Units - 3 credit points****Core Unit - 3 credit points**

TOU322 Tourism and Events Project - 3 points  
MURDOCH: S2-internal, S2-external  
KAPLAN-SGP: TMA-internal

**WASTE AND WATER MANAGEMENT***Chemical and Metallurgical Engineering***Minor Structure - 12 credit points****Part I - 3 credit points****Core Units - 3 credit points**

ENV102 Foundations of the Environment - 3 points  
MURDOCH: S2-internal, S2-external

**Part II - 9 credit points****Core Units - 9 credit points**

Select from the following:

ENG221 Pollution and its Control - 3 points  
MURDOCH: S2-internal

ENG300 Environmental Technology for Sustainability - 3 points  
MURDOCH: S2-internal, S2-external

ENG341 Water Conservation and Auditing - 3 points  
MURDOCH: S1-internal, S1-external

ENG459 Sustainable Urban Water Systems - 3 points  
MURDOCH: S1-internal

**WEB DEVELOPMENT***Information Technology***Excluded Majors:**

Mobile and Web Application Development

**Minor Structure - 12 credit points****Part I - 3 credit points****Core Unit - 3 credit points**

ICT159 Foundations of Programming - 3 points  
MURDOCH: S1-internal, S1-external  
DUBAI-ISC: TJD-internal, TMD-internal, TSD-internal  
OUA: OUA1-external, OUA3-external

**Part II - 9 credit points****Core Units - 9 credit points**

ICT286 Web and Mobile Computing - 3 points  
MURDOCH: S2-internal, S2-external  
KAPLAN-SGP: TMA-internal

ICT375 Advanced Web Programming - 3 points  
MURDOCH: S1-internal, S1-external  
KAPLAN-SGP: TSA-internal

ICT376 Mobile Application Development - 3 points  
MURDOCH: S2-internal, S2-external

**WILDLIFE CONSERVATION***Environmental and Conservation Sciences***Excluded Majors:**

Conservation and Wildlife Biology

**Minor Structure - 12 credit points****Part I - 3 credit points****Specified Electives - 3 credit points**

Select from the following:

BIO180 Introduction to Marine Biology - 3 points  
MURDOCH: S1-internal

BIO103 Environmental Biology - 3 points  
MURDOCH: S1-internal, S1-external

**Part II - 9 credit points****Core Units - 9 credit points**

ENV241 Ecology - 3 points  
MURDOCH: S2-internal, S2-external

BIO375 Conservation Biology - 3 points  
MURDOCH: S1-internal

BIO376 Wildlife Biology - 3 points  
MURDOCH: S2-internal

# Graduate Courses

## Cancellation of Courses, Majors, Minors and Units

The University reserves the right to cancel, without notice, any course, major, minor or unit if the number of students enrolled falls below limits set by the University or in other unforeseen circumstances.

Group	Course	Offerings
<b>Graduate Coursework Degrees and Professional Doctorates</b>		
<b>Accounting</b>	Master of Professional Accounting (Advanced) (MPA(Adv))	<ul style="list-style-type: none"> <li>• Murdoch campus (internal)</li> <li>• Murdoch campus (external)</li> </ul>
	Master of Professional Accounting (MPA)	<ul style="list-style-type: none"> <li>• Murdoch campus (internal)</li> <li>• Murdoch campus (external)</li> <li>• Kaplan Higher Education Institute and Kaplan Higher Education Academy (Singapore) ['KAPLAN-SGP'] (internal)</li> </ul>
<b>Asian Studies</b>	Graduate Certificate in Asian Studies (GradCertAsianSt)	<ul style="list-style-type: none"> <li>• Not currently available to new admissions</li> <li>• This course is not normally available to international students studying in Australia on a student visa, due to visa regulations. However, exceptions can be made, conditional on undertaking certain units: contact The Student Centre for details. It is available to international students on other visas if visa conditions allow.</li> </ul>
	Graduate Diploma in Asian Language (In-Country) (GradDipAsianLangIn-Country)	<ul style="list-style-type: none"> <li>• Murdoch campus (internal) (this course requires students to reside in Asia for the duration)</li> </ul>
	Graduate Diploma in Asian Studies (GradDipAsianSt)	<ul style="list-style-type: none"> <li>• Not currently available to new admissions</li> </ul>
	Master of Asian Studies (MAsianSt)	<ul style="list-style-type: none"> <li>• Not currently available to new admissions</li> </ul>
<b>Biosecurity</b>	Master of Biosecurity (MBiosec)	<ul style="list-style-type: none"> <li>• Murdoch campus (internal)</li> <li>• Murdoch campus (external)</li> </ul>
<b>Business</b>	Graduate Certificate in Business Analytics (GradCertBusAnalyt)	<ul style="list-style-type: none"> <li>• Murdoch campus (internal)</li> </ul>
	Graduate Certificate in Business Studies (GCBStudies)	<ul style="list-style-type: none"> <li>• Murdoch campus (internal)</li> <li>• Murdoch University Dubai (UAE) ['DUBAI-ISC'] (internal)</li> </ul>
	Graduate Certificate in Negotiation (GradCertNeg)	<ul style="list-style-type: none"> <li>• Murdoch campus (internal)</li> <li>• Murdoch campus (external)</li> </ul>
	Graduate Certificate in Politics, Policy and Global Business (GradCertPPGBus)	<ul style="list-style-type: none"> <li>• Murdoch campus (internal)</li> </ul>
	Master of Business (MBus)	<ul style="list-style-type: none"> <li>• Murdoch campus (internal)</li> <li>• Murdoch campus (external)</li> </ul>
	Master of Business Administration + Master of Human Resources Management (MBA+MHRM)	<ul style="list-style-type: none"> <li>• Murdoch campus (internal)</li> <li>• Murdoch campus (external)</li> <li>• Kaplan Higher Education Institute and Kaplan Higher Education Academy (Singapore) ['KAPLAN-SGP'] (internal)</li> </ul>
	Master of Business Administration + Master of Information Technology (Data Science) (MBA+MIT)	<ul style="list-style-type: none"> <li>• Murdoch campus (internal)</li> <li>• Murdoch campus (external)</li> </ul>

## ACCOUNTING

### MASTER OF PROFESSIONAL ACCOUNTING (ADVANCED) (MPA(ADV))

Business

Master of Professional Accounting (Advanced) (MPA(Adv))

Course Codes: M1274

Duration: 2 years full-time (over 4 semesters) or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

Restriction: All graduate courses are subject to restriction.

Accounting is an integral part of the management and governance of any enterprise. It acts as a decision-making aid by providing the information necessary for planning, control and performance evaluation. The stakeholders of an entity rely on the accounting information to assist in a variety of decisions including the acquisition or sale of shares, lending of funds and the provision of services or goods. This course is aimed at students from any discipline seeking to acquire an accredited accounting qualification.

**Admission Requirements (Onshore):**

Recognised Bachelor's degree or higher, or equivalent training, or professional training. Students who have completed a degree with an accounting major from an Australian university will not be considered for admission.

English competence.

**Professional Accreditation:**

CPA Australia, Institute of Chartered Accountants in Australia and New Zealand (CAANZ). Students can satisfy entry requirements for admission to membership of the professional accounting bodies, including Associate membership of CPA Australia, and direct entry into the Institute of Chartered Accountants in Australia CA Programme. Students granted Advanced Standing must discuss their enrolment and selection of units with the Academic Chair as their Advanced Standing may affect their ability to satisfy the admission requirements to the professional accounting bodies on completion of their degree

### Course Structure - 48 credit points

**Core Units - 42 credit points**

MBS538 Organisational Behaviour and Management - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external, SUM-internal, SUM-external

MBS539 Accounting for Managers - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external, SUM-internal, SUM-external

## ASIAN STUDIES

### GRADUATE CERTIFICATE IN ASIAN STUDIES (GRADCERTASIANST)

Global Studies

Graduate Certificate in Asian Studies (GradCertAsianSt)

Course Codes: C1120

Duration: 1 semester full-time or part-time equivalent (depending on unit selection)

#### Availability:

- Not currently available to new admissions
- This course is not normally available to international students studying in Australia on a student visa, due to visa regulations. However, exceptions can be made, conditional on undertaking certain units: contact The Student Centre for details. It is available to international students on other visas if visa conditions allow.

*Restriction: All graduate courses are subject to restriction.*

This course provides the opportunity to study Asian culture, society, politics, media and environment. It is available to graduates of any discipline and aims to develop cultural literacy concerning the Asian region, of particular importance for teachers, journalists, aid workers, diplomats and other professionals whose careers require cross-cultural competence.

Graduates of the certificate may apply for admission to the Research Masters with Training (Asian Studies), or one of the Coursework Masters in Community Development, Sustainable Development or Development Studies. Students may be eligible for advanced standing.

#### Admission Requirements (Onshore):

Recognised Bachelor's degree or higher in any discipline, or satisfactory preparation through previous study or professional experience.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### Special Requirements:

There may be limited choice of units if completing this course in the external mode. Access to adequate library resources and to the Internet is essential for external students.

#### Employment Prospects:

Teaching, overseas aid and development, journalism, diplomacy.

#### Main Research Areas:

Asia Research Centre

### Course Structure - 12 credit points

#### Core Units - 12 credit points

Select from the following:

JPN543 Semester in Japan - 12 points

OR

IND543 Semester in Indonesia - 12 points

OR

Select at least three units from the following:

AST558 Gender in Asian Societies - 3 points

JPN514 Postwar Japan - 3 points

AST530 Nations, Narratives, Cultures in Contemporary Asia - 3 points

AST556 Perceptions of South-East Asian Society - 3 points

AST531 Rise of Asia and Modern History - 3 points

One of the following units may be credited to the Graduate Certificate in Asian Studies:

SUS512 Sustainability, Ecology and Communities - 3 points

AST650 Culture, Communities and Sustainability in Asia - 3 points

## GRADUATE DIPLOMA IN ASIAN LANGUAGE (IN-COUNTRY) (GRADDIPASIANLANGIN-COUNTRY)

Global Studies

Graduate Diploma in Asian Language (In-Country)  
(GradDipAsianLangIn-Country)

Course Codes: G1072

Duration: 1 year full-time

### Availability:

- Murdoch campus (internal) (this course requires students to reside in Asia for the duration)

Restriction: All graduate courses are subject to restriction.

For political, economic, environmental and cultural reasons, Japan and Indonesia will play an increasingly important role in contemporary global change. The Graduate Diploma in Asian Language (In-Country) offers the opportunity to study the literature, media, religion, history, politics, economics, sociology and anthropology of Japan or Indonesia in the relevant language while enrolled in a university in the selected country. This provides the opportunity to develop advanced language skills, experiential knowledge of the region, while building personal networks in the community.

### Admission Requirements (Onshore):

AQF Level 7 (Bachelors) degree with 3 years of study in the relevant Asian language, or equivalent.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### Special Requirements:

This course requires the student to complete studies at a university in Asia while residing in Asia.

### Employment Prospects:

This course is intended to serve the career development needs of those seeking to work in areas such as teaching, foreign affairs, law, public service, business, and the media who require a broad interdisciplinary background in the Asian cultural, political and economic context.

### Main Research Areas:

Asian studies, contemporary Asia, international relations, intercultural relations

### Study Environment:

Study is undertaken in an intensive, immersion environment, unavailable at undergraduate environment in Australia.

### Graduate Certificate in Asian Studies:

The Graduate Certificate in Asian Studies may be substituted for one semester of in-country study in Japan or Indonesia to satisfy partial requirements for the Diploma in Asian Studies.

## Course Structure - 24 credit points

### Core Units

IND543 Semester in Indonesia - 12 points  
MURDOCH: S1-internal, S2-internal

plus a further enrolment in

IND543 Semester in Indonesia - 12 points  
MURDOCH: S1-internal, S2-internal

OR

JPN543 Semester in Japan - 12 points  
MURDOCH: S1-internal, S2-internal

plus a further enrolment in

JPN543 Semester in Japan - 12 points  
MURDOCH: S1-internal, S2-internal

## GRADUATE DIPLOMA IN ASIAN STUDIES (GRADDIPASIANST)

Global Studies

Graduate Diploma in Asian Studies (GradDipAsianSt)

Course Codes: G1064

Duration: 1 year full-time or part-time equivalent subject to unit availability

### Availability:

- Not currently available to new admissions

Restriction: All graduate courses are subject to restriction.

For political, economic, environmental and cultural reasons, the countries of East and South-East Asia will play an increasingly important role in contemporary global change. The Graduate Diploma in Asian Studies offers the opportunity to study the literature, media, religion, history, politics, economics, sociology and anthropology of the Asian region.

### Admission Requirements (Onshore):

Recognised Bachelor's degree or higher, or equivalent training, or satisfactory preparation through previous study or professional experience.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### Employment Prospects:

This course is intended to serve the career development needs of teachers and members of other professional groups in the areas of foreign affairs, law, public service, business, and journalism who require a broad interdisciplinary background in the Asian cultural, political and economic context.

### Further Study:

Graduates of the certificate may apply for admission to the Research Masters with Training (Asian Studies), or one of the coursework Masters in Community Development, Sustainable Development or Development Studies. Students may be eligible for advanced standing.

## Course Structure - 24 credit points

### Core Units - 24 credit points

Students may take an Asian language unit as one of the core units, however the Academic Chair must be consulted to establish level of study.

With the approval of the Academic Chair, students with the relevant proficiency in either Indonesian or Japanese language may enrol in the semester in that country. Subject to Academic Chair approval, students may complete 12 or 24 points in country.

Select from the units below, with at least 9 points from the Asian Society and Culture list.

### Asian Society and Culture - 9 credit points

AST558 Gender in Asian Societies - 3 points

AST530 Nations, Narratives, Cultures in Contemporary Asia - 3 points

AST531 Rise of Asia and Modern History - 3 points

JPN514 Postwar Japan - 3 points

AST556 Perceptions of South-East Asian Society - 3 points

AST650 Culture, Communities and Sustainability in Asia - 3 points

### Language

JPN543 Semester in Japan - 12 points  
(Academic Chair must approve enrolment.)

IND543 Semester in Indonesia - 12 points

Students may also select an undergraduate-level unit in language and should consult with the Academic Chair to determine the appropriate level.

### Theoretical Comparative and Applied Context.

Select from the following:

AST612 Anthropology and Its Others - 3 points

COD545 Community Development Theory and Practice - 3 points

SUS512 Sustainability, Ecology and Communities - 3 points

SUS523 Cities and Sustainability - 3 points

Students from non-English language backgrounds may substitute the unit

TLC501 Communication Skills for Postgraduate Study - 3 points

for one of the Specified Electives in the Theoretical, Comparative and Applied Context Stream.

---

## MASTER OF ASIAN STUDIES (MASIANST)

Global Studies

Master of Asian Studies (MASianSt)

Course Codes: M1216

Duration: 2 years full-time or part-time equivalent

### Availability:

- Not currently available to new admissions

Restriction: All graduate courses are subject to restriction.

The countries of East and South-East Asia will play an increasingly important role in global change in the twenty-first century. This course is intended to provide graduates of any discipline with training in the culture, politics, economics, history and environment of the Asian region.

### Admission Requirements (Onshore):

Recognised Bachelor's degree or higher in any discipline, or equivalent training, or satisfactory preparation through previous study or professional experience.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### Employment Prospects:

This course is intended to serve the career development needs of teachers and members of other professional groups in the areas of foreign affairs, law, public service, business, and journalism who require a broad interdisciplinary background in the Asian cultural, political and economic context.

### Project/Dissertation:

The Masters offers a coursework-only program or a combination of coursework with a 3- or 6-point project or 12-point dissertation in the research stream.

### External Study:

Many of the units are available in the external mode, including the Indonesian language units.

## Course Structure - 48 credit points

University regulations require completion of a minimum of 24 points at 600-level and a maximum of 24 points at 500-level for a 48-point Masters by Coursework degree.

### Year 1 - 24 credit points

#### Specified Electives - 24 credit points

Select from the following lists, with at least 9 points from Asian Society and Culture.

#### Asian Society and Culture - 9 credit points

Select from the following:

AST530 Nations, Narratives, Cultures in Contemporary Asia - 3 points

AST531 Rise of Asia and Modern History - 3 points

AST556 Perceptions of South-East Asian Society - 3 points

JPN514 Postwar Japan - 3 points

AST558 Gender in Asian Societies - 3 points

#### Theoretical, Comparative and Applied Context

Select from the following:

COD545 Community Development Theory and Practice - 3 points

EDN519 International Education: Issues and Practices - 3 points

SUS512 Sustainability, Ecology and Communities - 3 points

EDN546 Dynamics of Cultural Diversity in the Workplace and the Community - 3 points

Students from non-English language backgrounds may substitute the unit

TLC501 Communication Skills for Postgraduate Study - 3 points

for one of the Specified Electives in the Theoretical, Comparative and Applied Context Stream.

### Language

With the approval of the Academic Chair, students with the relevant proficiency in either Indonesian or Japanese language may enrol in the semester in that country. Subject to Academic Chair approval, students may complete 12 or 24 points in country.

Asian Language units may also be taken, subject to Academic Chair approval.

JPN543 Semester in Japan - 12 points

IND543 Semester in Indonesia - 12 points

or 6 points from undergraduate Asian Language units according to assessed competence.

### Year 2 - 24 credit points

#### Core Units - 12 or 18 credit points

##### Research Methods Unit - 3 credit points

ART604 Advanced Research Methods - 3 points

OR

SWM516 Policy Research and Evaluation - 3 points

##### Theory Unit - 3 credit points

AST612 Anthropology and Its Others - 3 points

##### Capstone Unit - 6 or 12 credit points

AST632 Asian Studies Project - 6 points

OR

ART607 In-Country Studies Indonesia - 6 points

OR

AST634 Asian Studies Dissertation - 12 points

**Specified Electives - 6 to 12 credit points**

Select units from the following lists.

**Asian Society and Culture**

AST650 Culture, Communities and Sustainability in Asia - 3 points

JPN652 Japanese Advanced Language Project - 3 points

IND652 Indonesian Advanced Language Project - 3 points

**Global Context**

SUS611 Resilient Regions: People and Practice - 3 points

MBS651 Leading and Managing Nonprofit Organisations - 3 points

MCM604 People, Corporates and Globalisation - 3 points

MCM605 Public Relations, Communication and Culture - 3 points

EDU616 Teaching, Learning and Working in Culturally Diverse Environments - 3 points

---

**BIOSECURITY****See also:**

Plant Biosecurity

---

**MASTER OF BIOSECURITY (Mbiosec)**

Agricultural Sciences

Master of Biosecurity (Mbiosec)

Course Codes: M1248

Duration: 1.5 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

Restriction: All graduate courses are subject to restriction.

Biosecurity is a growing field of activity for many professionals involved in agriculture, the environment and international and domestic trade. This growth is driven by the need to maintain agricultural and environmental integrity in a world where, due to ever increasing levels of trade and human movement, exotic organisms pose major and ongoing threats. Biosecurity is central to the management of these threats, with a continuum of activities involving risk analysis, quarantine and surveillance to stop the entry of exotic organisms, rapid emergency response in the event of an exotic incursion, and then the management of pest and disease organisms if they permanently establish and impact on trade.

This course has been developed in consultation with representatives from Canada, United States, New Zealand and Australia. Students graduating from the course can do so with the knowledge that their degree will meet the highest level of industry requirement. This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

**Admission Requirements (Onshore):**

Completion of an AQF level 7 qualification, in the plant, food, ecological, environmental or animal sciences or an equivalent field as determined by the Academic Chair, or the Graduate Certificate or Graduate Diploma in Plant Biosecurity.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

Internet access is required for all students.

**Employment Prospects:**

Graduates will be able to pursue careers in biosecurity, quarantine and pest management, acting in technical, research and administrative roles, with organisations such as the State Departments of Agriculture, State and Federal Biosecurity Agencies, Plant or Animal Health Australia and private industry, or their international counterparts.

**Professional Recognition:**

Graduates will be eligible to apply for membership to societies such as the Australian Entomological Society, the Australian Plant Pathology Society, the Australian Ecological Society, the Australian Institute of Agricultural Science, the Australian Society of Horticultural Sciences and the Australian Society for Risk Analysis.

**Main Research Areas:**

Detection, diagnostics, risk analysis, risk mitigation, communication

**Course Structure - 36 credit points****Core Units - 24 credit points**

## MASTER OF BUSINESS (MBUS)

Accounting

Master of Business (MBus)

Course Codes: M1290

Duration: 2 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

Restriction: All graduate courses are subject to restriction.

The Master of Business offers an innovative curriculum design which provides students with options to develop specialist multidisciplinary skills and knowledge to manage the current and future world of work. A key feature of the

degree is the multiple entry and exit points, and flexibility for students to enter, exit and reengage with their learning when it suits them.

#### **Admission Requirements (Onshore):**

Admission for this course includes a number of recognised pathways.  
 Pathway 1: Direct entry to Master of Business (48-points).  
 Recognised Bachelor's degree (AQF Level 7 or equivalent) or higher; AND evidence of professional work experience; OR satisfactory preparation for the course through previous study or professional experience.  
 Successful applicants will be required to meet with the Academic Chair or representative to develop a bespoke study plan which identifies specialist discipline nested Graduate Certificate options.  
 Pathway 2: Alternative entry via Nested Graduate Certificate Award. Entry into these awards are as stipulated in the Handbook.  
 After successful completion of one or two of the specialist discipline nested Graduate Certificates (equivalent to AQF Level 8) students will be made a direct offer into the Master of Business by the Academic Chair.  
 It is also possible to enter in the Master of Business via completion of previous AQF level 8 (or equivalent) qualifications (up to 24 points).

#### **Admission Requirements (Offshore):**

Admission for this course includes a number of recognised pathways.  
 Pathway 1: Direct entry to Master of Business (48-points).  
 Recognised Bachelor's degree (AQF Level 7 or equivalent) or higher; AND evidence of professional work experience; OR satisfactory preparation for the course through previous study or professional experience.  
 Successful applicants will be required to meet with the Academic Chair or representative to develop a bespoke study plan which identifies specialist discipline nested Graduate Certificate options.

## MASTER OF BUSINESS ADMINISTRATION (GLOBAL) (MBA(GLOBAL))

Business

Master of Business Administration (Global) (MBA(Global))

Course Codes: M1279

Duration: 2 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

Restriction: All graduate courses are subject to restriction.

The MBA (Global) is designed to offer leading-edge national and international business administration knowledge and skills, with a simultaneous focus on opportunities to acquire high level industry experience through professional placements or applied research projects.

### Admission Requirements (Onshore):

To qualify for this course, applicants should:

- (i) have a Bachelors Degree (AQF 7) or equivalent; OR
- (ii) Alternative entry via Portfolio to contain:

? Curriculum Vitae

? Valid GMAT score or Graduate Record Examinations (GRE)

? A Written statement of no more than 800 words. The statement should address reasons why enrolment in the course will enhance the applicant's early career professional portfolio

With the option of an interview for alternative entry applicants at the discretion of the School.

No work experience is necessary, but if you have two or more years of work experience you may apply for the Master of Business Administration.

English competence. Students demonstrating English competence via IELTS need an overall score of 6.0 with no individual band less than 6.0.

### Employment Prospects:

Students of Murdoch's MBA (Global) graduate with both business administration expertise and an impressive portfolio of CV-building professional experiences and networks, acquired through the completion of a professional business practicum or an applied business research project. These highly skilled, experienced and connected Murdoch MBA graduates are well placed to pursue rewarding careers and leadership roles in businesses, government and non-government organisations (NGOs) within Australia or internationally.

### Main Research Areas:

global management, economics, accounting/finance, marketing, entrepreneurship, business ethics, leadership, sustainability

### Employability:

Students who want to complete their MBA early in their career have the opportunity to select the MBA (Global) which is designed specifically for recent graduates and/or those with limited professional work experience. The MBA (Global) provides early career professionals with the opportunity to engage in learning activities that equip them with the career management tools needed to succeed.

### Advanced Standing:

Applicants with a Graduate Certificate Business Administration may gain entry into this course and be awarded up to 12 points of Advanced Standing for 500-level units to be determined in consultation with the Academic Chair.

## Course Structure - 48 credit points

OR

MBS659 Quantitative Research for Business - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

## MASTER OF BUSINESS ADMINISTRATION (MBA)

Accounting

Master of Business Administration (MBA)

Course Codes: M1256

Duration: 12 months in accelerated mode or 18 months (with study over three semesters) or part-time equivalent.

### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)
- Kaplan Higher Education Institute and Kaplan Higher Education Academy (Singapore) ['KAPLAN-SGP'] (internal) (language of instruction: English)
- Kaplan Myanmar University College (Yangon, Myanmar) ['KAPLAN-MMR'] (internal)
- Murdoch University Dubai (UAE) ['DUBAI-ISC'] (internal) (language of instruction: English)

Restriction: All graduate courses are subject to restriction.

The Master of Business Administration (MBA) is oriented to the needs of today's and tomorrow's business leaders. The course develops specialist knowledge and skills in creating and managing global businesses, leadership, strategy, accounting, organisational behaviour, economics and finance, marketing, entrepreneurship and innovation.

The MBA can be completed within a year of full-time study in a compressed format, or can be taken over a longer period of time if preferred. There are several intake periods each year.

### Admission Requirements (Onshore):

Recognised Bachelor's degree or higher and evidence of two years of work experience; or satisfactory preparation for the course through previous study or professional experience.

### Admission Requirements (Offshore):

Recognised Bachelor's degree or higher and evidence of two years of work experience; or satisfactory preparation for the course through previous study or professional experience.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### Employment Prospects:

This course equips graduates with professional expertise in business administration that is highly prized by employers world-wide. Murdoch MBA graduates are well-placed to pursue rewarding careers and leadership roles within business, government and non-government organisations (NGOs).

### Main Research Areas:

management, economics, accounting, finance, marketing, entrepreneurship, business ethics

## Course Structure - 36 credit points

## MASTER OF BUSINESS ADMINISTRATION + MASTER OF HEALTHCARE MANAGEMENT (MHCM+MBA)

Accounting

Master of Health Care Management (MHCM) + Master of Business Administration (MBA)

Course Codes: M1296

Duration: 2 years full-time or part-time equivalent

### Availability:

- Murdoch campus (external)
- Some units only: Murdoch campus (internal)

Restriction: All graduate courses are subject to restriction.

The MBA/MHCM combined degree is oriented to the needs of today's and tomorrow's healthcare professionals. It offers a depth of expertise in two domains - health care and business/management - and hence a skill set appropriate to the needs of this expanding sector. This 'fit-for purpose' qualification provides not only existing healthcare professionals in public and private sector organisations with specialist skills in management, but also the opportunity for managers in non-health care settings to enter the health sector

### Admission Requirements (Onshore):

Undergraduate degree (AQF Level 7 or equivalent) in either a health or business/management discipline. Candidates must be able to demonstrate a portfolio of relevant work experience.

### Admission Requirements (Offshore):

NA

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### Employment Prospects:

Domestic and international health care professional working in public and private hospitals, national and state/provincial departments of health and the like, the health insurance sector, and aged care (public, private and NFPs), specialist managers in health and welfare services. A group which is expected to be particularly interested in the program are Directors of Nursing.

### Professional Accreditation:

Potentially Australasian College of Health Service Management (in the associate fellow membership category) and the Royal Australasian College of Medical Administrators (relevant to medical practitioners).

### Professional Recognition:

Potentially Australasian College of Health Service Management (in the associate fellow membership category) and the Royal Australasian College of Medical Administrators (relevant to medical practitioners).

### Main Research Areas:

Risk Management, Safety and Quality protocols within individual health care settings; Policy

## Course Structure - 48 credit points

## COMMUNICATION AND MEDIA STUDIES

### MASTER OF COMMUNICATION (MCOMMUN)

Creative Media, Arts and Design

Master of Communication (MCommun)

Course Codes: M1277

Duration: 2 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)

Restriction: All graduate courses are subject to restriction.

This course focuses on managing communication within an international context, emphasising the Asia-Pacific. Informed by international scholarship in a range of disciplines and by professional practice, the course will develop students' professional and intellectual skills to prepare them for a career in communication and media related professions, including but not limited to public relations, corporate communication, web communication, media liaison, or consultancy related to the media and creative industries. Its purpose is also to develop students' skills and independent learning ability to future-proof their personal development.

### Admission Requirements (Onshore):

(i) A recognised Bachelor degree (AQF Level 7) in the discipline. Students who have completed a graduate diploma or equivalent (AQF Level 8) in the disciplinary area may apply for advanced standing of up to 12 credit points. In addition, students who have at least one year of full-time relevant workplace experience, such as in public relations, journalism and media and communication sectors, may apply for advanced standing of up to an additional 12 credit points.

OR

(ii) A minimum of ten years' work experience in the media and communication sectors or in a professional capacity, or a minimum of five years' work experience in a managerial role, together with

evidence of ability to carry out research for and/or write professional reports.

English competence.

**Employment Prospects:**

Executive or managerial positions in communication and media related fields, including corporate communications, public relations, media liaison or consultancy in the media and creative industries.

**Main Research Areas:**

Strategic communication, public relations, web communication, journalism, cultural studies, media and communication studies

**COMMUNITY DEVELOPMENT**

**GRADUATE CERTIFICATE IN COMMUNITY DEVELOPMENT (GRADCERTCOMMDEV)**

Global Studies

Graduate Certificate in Community Development (GradCertCommDev)

Course Codes: C1107

Duration: 2 to 3 semesters part-time (due to unit availability)

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)
- International students must commence in Semester 2 only.

Restriction: All graduate courses are subject to restriction.

This course builds upon the student's knowledge of community development theory and practice. In addition, the course provides students with an understanding of the broad range of settings where community development is carried out and the social and policy forces that impact on its application. It is designed for community work practitioners as well as graduates with an interest in moving into emerging fields that embrace community development.

**Admission Requirements (Onshore):**

Recognised Bachelor's degree or higher, or equivalent training though not necessarily in an area directly related to the proposed course, or satisfactory preparation for the course through previous study or professional experience.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

There may be a reduction in choice of units if completing this course in the external mode.

**Employment Prospects:**

This course will enhance practitioners qualifications and open opportunities for those interested in working in industry areas such as community and social services, local government, overseas aid work, economic and social planning, sustainable development and Indigenous governance.

**Main Research Areas:**

Social Policy, Community Studies, Sociology.

**Course Structure - 12 credit points**

**Specified Electives - 12 credit points**

## **GRADUATE DIPLOMA IN COMMUNITY DEVELOPMENT (GRADDIPCOMMDEV)**

Global Studies

*Graduate Diploma in Community Development (GradDipCommDev)*

Course Codes: G1061

Duration: 1 year full-time or part-time equivalent

### **Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

*Restriction: All graduate courses are subject to restriction.*

In addition to building upon students' knowledge of community development theory and practice, the Graduate Diploma in Community Development is designed to develop knowledge of social research and community participatory methods. The course combines the study of community development theory, settings and policy formation with the development of knowledge and skills in community planning, research methods and program evaluation. As part of their studies students will either undertake a placement with a community organisation or carry out a community-based research project.

This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

### **Admission Requirements (Onshore):**

Recognised Bachelor's degree or higher, or equivalent training, though not necessarily in an area directly related to the course, or satisfactory preparation through previous study or professional experience.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### **Special Requirements:**

There may be a reduction in choice of units if completing this course in the external mode.

### **Employment Prospects:**

This course will enhance practitioners qualifications and open opportunities for those interested in social research and working in industry areas such as community and social services, local government, overseas aid work, economic and social planning, sustainable development and Indigenous governance.

### **Main Research Areas:**

Social Policy, Community Studies, Sociology.

## **MASTER OF COMMUNITY DEVELOPMENT (MCOMMDEV)**

Global Studies

*Master of Community Development (MCommDev)*

Course Codes: M1212

Duration: 2 years full-time or part-time equivalent

### **Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

*Restriction: All graduate courses are subject to restriction.*

People involved with government, neighbourhood groups, social action, overseas aid, schools, local councils, sustainability, Indigenous groups, social services, the arts, business and tourism are all talking about community development as a new way of doing things. The Master of Community Development provides you with an understanding of the practice of community development, the broad range of settings in which it is carried out, social research methods and social policy forces that impact on practice. It also involves students undertaking an original, substantive investigation of a community development issue under the supervision of a Murdoch University staff member. This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

### **Admission Requirements (Onshore):**

Recognised Bachelor's degree or higher, or equivalent training, though not necessarily in an area directly related to the course, or

satisfactory preparation through previous study or professional experience.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

There may be a reduction in choice of units if completing this course in the external mode.

**Employment Prospects:**

This course will enhance practitioners' qualifications and open opportunities for those interested in undertaking social research in settings such as community and social services, local government, overseas aid work, economic and social planning, sustainable development and Indigenous governance.

**Main Research Areas:**

Social Policy, Community Studies, Sociology.

**Nested Awards:**

Students can opt out of the Masters and exit with the Graduate Certificate or Graduate Diploma in Community Development subject to satisfying the course requirements.

**Course Structure - 48 credit points**

University regulations require completion of a minimum of 24 points at 600-level and a maximum of 24 points at 500-level for a 48-point Masters by Coursework degree.

**Core Units - 30 to 36 credit points**

*Graduate Certificate in Counselling (GradCertCounsel)*

Course Codes: C1111

*Duration: 1 semester full-time (if commencing in Semester 1 at Murdoch, or if commencing in Semester 2 at Mandurah) or part-time equivalent, depending on unit selection*

**Availability:**

- Murdoch campus (internal)
- Mandurah campus (internal)

*Restriction: All graduate courses are subject to restriction.*

The Graduate Certificate in Counselling provides students with the opportunity to begin developing professional competence and personal readiness for a career in counselling. The course is committed to experiential learning, enabling students to focus on quality of counselling relationships as a key feature of effective counselling practice.

Students who complete the Graduate Certificate in Counselling may apply for admission to the Graduate Diploma or Masters in Counselling and will be exempt from the units already completed which are common to both degrees.

**Admission Requirements (Onshore):**

Completion of a bachelor degree (AQF Level 7) or equivalent in any discipline. Applications based on previous study or professional experience will be considered on a case-by-case basis. The admission process includes both application and interview.

Equivalent of an Academic IELTS overall score of 7.0 with no band less than 7.0.

**Employment Prospects:**

The Graduate Certificate provides an introduction to counselling for people wanting to pursue further training. It also provides the opportunity for people to add counselling skills to existing professional roles in health, education, social services or business. Alternatively people with an existing practice in mental health fields

can enrol in a Graduate Certificate to develop their skills.

**Professional Accreditation:**

The Graduate Certificate is a step towards the Master of Counselling degree which has Professional Accreditation with Psychotherapy & Counselling Federation of Australia PACFA.

**Professional Recognition:**

Employers in a variety of fields, from Counselling, Social Services, Teaching and Nursing, consider the Graduate Certificate as valid for professional development opportunities.

**Further Study:**

Students who successfully complete the Graduate Certificate may apply for admission to the Graduate Diploma or Masters in Counselling.

## GRADUATE DIPLOMA IN COUNSELLING (GRADDIPCOUNSEL)

Counselling

*Graduate Diploma in Counselling (GradDipCounsel)*

Course Codes: G1055

Duration: 1 year full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)

*Restriction: All graduate courses are subject to restriction.*

This course supports students in developing professional competence and personal readiness for a career in counselling. It is committed to experiential learning, with an emphasis on the counselling relationship, the key feature of effective counselling practice. The critical appraisal of counselling literature combined with applied learning across most units provides students with the opportunity to develop a good foundation of theoretical knowledge and elementary hands-on counselling skills.

Students who complete the Graduate Diploma may apply for admission to the Master of Counselling and will be exempt from the units already completed which are common to both degrees.

**Admission Requirements (Onshore):**

Completion of a bachelor degree (AQF Level 7) or equivalent in any discipline. Applications based on previous study or professional experience will be considered on a case-by-case basis. The

admission process includes both application and interview.

Equivalent of an Academic IELTS overall score of 7.0 with no band less than 7.0.

**Employment Prospects:**

The Graduate Diploma provides the opportunity for people to add core counselling knowledge and skills to existing professional roles in health, education, social services or business. Alternatively people with an existing practice in mental health fields can enrol in a Graduate Diploma to further develop their skills. Graduates may be employed in government and non-government counselling organisations working with adults, children, families and couples.

**Professional Accreditation:**

Australian Counselling Association (ACA).  
The Graduate Diploma is a requisite step towards the Master of Counselling degree which has Professional Accreditation with the Psychotherapy and Counselling Federation of Australia (PACFA).

**Professional Recognition:**

Graduates are eligible to apply for a Practising Membership with the Australian Counselling Association (ACA).

**Further Study:**

Students who successfully complete the Graduate Diploma may apply for admission to the Master of Counselling.

**Advanced Standing:**

Up to 12 credit points is available (0.5 years) of advanced standing to students who have a Level 8 Graduate Certificate in Counselling or who have successfully completed a minimum of Level 8 units with learning outcomes equivalent to one or more units comprising the Graduate Diploma in Counselling.

## GRADUATE DIPLOMA IN CREATIVE ARTS THERAPIES (GRADDIPARTTHERAPY)

Chiropractic

Graduate Diploma in Creative Arts Therapies (GradDipArtTherapy)

Course Codes: G1081

Duration: 1 year full-time or part-time equivalent

### Availability:

- Mandurah campus (internal)

Restriction: All graduate courses are subject to restriction.

This course supports students to develop professional competence in counselling specialising in Creative Arts Therapies. The course is committed to experiential learning with an emphasis on the person-centred theoretical framework, and the use of creative arts as a therapeutic modality. The experiential seminar approach will require the making of and engagement in creative arts modalities. A critical appraisal of art therapy and counselling literature combined with applied learning will provide students with the opportunity to develop a foundation in both theoretical knowledge and elementary hands-on art therapy and counselling skills. Students who complete the Graduate Diploma in Creative Arts Therapies may apply for admission to the Masters of Counselling and will be exempt from the units already completed which are common to both degrees.

### Admission Requirements (Onshore):

Completion of a bachelor degree (AQF Level 7) or equivalent in any discipline. The admission process includes both application and interview.

English competence.

### Special Requirements:

Enrolment may be subject to restriction due to limited equipment and facilities, and professional accreditation requirements.

### Employment Prospects:

The Graduate Diploma in Creative Arts Therapies provides the opportunity for people to add core counselling knowledge and skills, along with specific expertise in creative arts therapies to existing professional roles in health, education and social services. People with an existing practice in mental health fields can enrol in the Graduate Diploma in Creative Arts Therapies to further develop their skills.

### Professional Accreditation:

Australian Counselling Association (ACA).

### Professional Recognition:

Graduates will be eligible to register with the Australian Counselling Association (ACA) as a Level 1 Clinician.

## MASTER OF COUNSELLING (MCOUNSEL)

Chiropractic

Master of Counselling (MCounsel)

Course Codes: M1143

Duration: 2 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)

Restriction: All graduate courses are subject to restriction.

The Master of Counselling supports students in developing professional competence and personal readiness for a career in counselling. The course is committed to experiential learning, with an emphasis on the counselling relationship, the key feature of effective counselling practice. All students engage in the critical appraisal of selected counselling literature/research. In the second year students can complete a substantial research project addressing an issue in counselling theory or practice, or complete their award through course work and a smaller research project. Two supervised placements provide students with the opportunity to develop an integrated and professional counselling practice. This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

### Admission Requirements (Onshore):

For direct entry into the Masters of Counselling, applicants should have a three-year degree (AQF Level 7) from a recognised university in an area related to counselling such as psychology, social work, occupational therapy, nursing, education or human services. Preference will be given to applicants who also have experience, either paid or volunteer, in a counselling role. Applicants not selected for the Masters may be admitted to either the Graduate Certificate or Graduate Diploma course and then apply for entry to the Masters level upon successful completion. Applicants are encouraged to apply early. The admission process includes both application and interview.

Equivalent of an Academic IELTS overall score of 7.0 with no band less than 7.0.

### Special Requirements:

Students undertaking clinical placements in CSL 679 and CSL 621 must obtain a current police clearance, working with children check, and be up to date on certain immunisations per Murdoch University's immunisation policy. (See [http://www.murdoch.edu.au/Medical/\\_document/Forms/Murdoch-University-Immunisation-Policy.pdf](http://www.murdoch.edu.au/Medical/_document/Forms/Murdoch-University-Immunisation-Policy.pdf)).

**Employment Prospects:**

On completion of the course graduates will be eligible to be employed in government and non-government counselling organisations working with adults, children, families and couples. They will be ready for employment in settings requiring individual and group therapy competence.

**Professional Accreditation:**

Psychotherapy and Counselling Federation of Australia (PACFA) and Australian Counselling Association (ACA).

**Professional Recognition:**

Graduates are eligible to apply for intern registration with the Psychotherapy and Counselling Federation of Australia (PACFA) and to then work towards clinical registration with PACFA. Graduates are eligible to apply for Level 2 membership with the Australian Counselling Association and then work towards Level 3/4 Clinical membership.

**Nested Awards:**

Students can opt out of the Master of Counselling and exit with either the Graduate Certificate or Graduate Diploma subject to satisfying the relevant course requirements.

**Advanced Standing:**

Up to 24 credit points is available of advanced standing to students who have a Level 8 Graduate Diploma in Counselling or who have successfully completed a minimum of Level 8 units with learning outcomes equivalent to one or more units comprising the Master of Counselling.

**GRADUATE CERTIFICATE IN POLICY AND DEVELOPMENT (GRADCERTPDEV)**

Global Studies

Graduate Certificate in Policy and Development (GradCertPDev)

Course Codes: C1135

Duration: 2 semesters part-time

**Availability:**

- Murdoch campus (internal)
- International students must commence in Semester 1 only.

Restriction: All graduate courses are subject to restriction.

The Graduate Certificate in Policy and Development prepares students for rewarding careers in a variety of settings. Students gain theoretical foundations, analytical and strategic thinking as well as professional knowledge appropriate for work in government, the not-for-profit and private sectors, in Australia and internationally. Students will develop expertise in development policy, policy analysis and management practice across a range of policy settings. This course is designed for recent graduates and those exploring a new career direction.

**Admission Requirements (Onshore):**

Admission to the Graduate Certificate is available to students who have a recognised Bachelor degree in any area.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Employment Prospects:**

Suitable for students looking to work in the public sector, the not-for-profit sector and for professionals who work at the intersection between government and business.

**Course Structure - 12 credit points****Core Units - 12 credit points**

## MASTER OF DEVELOPMENT STUDIES (MDS)

Global Studies

Master of Development Studies (MDS)

Course Codes: M1195

Duration: 2 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)

Restriction: All graduate courses are subject to restriction.

The Master of Development Studies (MDS) is a practical professional degree focussing on the challenges of social, economic, and political development and poverty alleviation. Aimed at students from the developing world and those wanting to work in international development assistance, the MDS concentrates on the nexus of development, politics and governance, social and environmental sustainability, food and health security, international assistance, conflict management, gender relations and other significant issues impacting development.

### Admission Requirements (Onshore):

Admission to the Master degree is available to students who have a Bachelor's degree in any area.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### Employment Prospects:

Suitable for those seeking a career in any aspect of international development, in the public, private or not-for-profit sectors. Students will acquire the knowledge, skills and expertise necessary for careers in international development in a broad range of settings such as regional and international organisations, government agencies, private firms, and non-government organisations involved in development.

### Advanced Standing:

A student's advanced standing is assessed at the time of application, taking into account level of higher study and/or professional experience.

Up to 12 points (0.5 year) of advanced standing is available to students with:

- \* A Bachelor degree with a major in a cognate discipline to the Masters course
- \* Or, a Bachelor degree in an unrelated discipline and a Graduate Certificate or Diploma in a cognate discipline to the Masters course
- \* Or, an Honours degree or equivalent in an unrelated discipline
- \* Or, a Bachelor degree in an unrelated discipline and two years of relevant, documented professional experience.

Up to 24 points (1 year) of advanced standing is available to students with:

- \* An Honours degree or equivalent in a cognate discipline to the Masters course
- \* Or, an Honours degree or equivalent in an unrelated discipline and at least two years of relevant documented professional experience.

## Course Structure - 48 credit points

### Language

Students may take up to two language units in either Indonesian or Japanese. Placement in language units is at the discretion of the Academic Chair, following an assessment of the student's language skills. There may be restrictions for students completing the Masters in 24 points. Please refer to the Handbook for available units in Indonesian or Japanese.

## EARLY CHILDHOOD EDUCATION

### GRADUATE CERTIFICATE IN EARLY CHILDHOOD EDUCATION (GRADCERTEARLYCHILDED)

Education

Graduate Certificate in Early Childhood Education (GradCertEarlyChildEd)

Course Codes: C1046

Duration: 2 to 4 semesters part-time

#### Availability:

- Not currently available to new admissions

Restriction: All graduate courses are subject to restriction.

This course is designed for qualified primary teachers who wish to make early childhood education one of their recognised specialisations. It specifically addresses the early childhood years Kindergarten to Pre-Primary (children aged 4-5 years).

#### Admission Requirements (Onshore):

Recognised Bachelor's degree or higher, or equivalent training. Students who are not qualified teachers but have had at least two years of full-time recent, relevant and satisfactory teaching experience may seek admission to the Certificate, but should note that the course does not constitute an initial teaching qualification.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### Special Requirements:

Prior to placement in any school for Professional Experience, it is mandatory that pre-service teachers complete or obtain several forms and clearances. Information and forms regarding these mandatory requirements can be accessed via the Professional Experience website: <http://www.murdoch.edu.au/School-of-Education/Professional-Experience> Completion and submission of these mandatory requirements is essential before placements can be arranged.

### Course Structure - 12 credit points

#### Core Units - 9 credit points

EDN520 Advanced Principles and Practices in Early Childhood Education - 3 points

EDN522 Integrated Early Childhood Curriculum for Educators - 3 points

EDN538 Designing Early Childhood Learning Environments - 3 points

#### Specified Electives - 3 credit points

Select from the following:

EDN521 Pedagogical Leadership in the Early Years - 3 points

EDN537 Babies and Toddlers: Effective Pedagogies - 3 points

Some students may have already completed some of the above units or their equivalents. Exemptions may be obtained for units already completed, in which case students should substitute from the list of Education Studies units. Applications for exemption should be submitted to the Accreditation Officer.

### GRADUATE CERTIFICATE IN EDUCATION (INTERNATIONAL EDUCATION) (GRADCERTEDINTLED)

Education

Graduate Certificate in Education (International Education)  
(GradCertEdIntlEd)

Course Codes: C1138

Duration: 2 to 3 semesters part-time

#### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

Restriction: All graduate courses are subject to restriction.

This course is designed for teaching professionals. It introduces the history and development of International Education as a field of study. It explores the conceptualisation of international mindedness and the trend to internationalise curriculum. It examines and critiques a range of international curriculum models and practices, and introduces the essential elements of the International Baccalaureate (IB) suite of programmes: Primary Years Programme, Middle Years Programme and Diploma Programme. Students develop a Teaching Portfolio throughout the course and have opportunities to observe and converse with international school teachers. The course is authorised and aligned to the IB Teaching and Learning Certificate.

#### Admission Requirements (Onshore):

Recognised Bachelor's degree or higher, or equivalent training. Students who are not qualified teachers but have had at least two years of full-time recent, relevant and satisfactory teaching experience may seek admission to the Certificate, but should note that the course does not constitute an initial teaching qualification.

English competence.

#### Special Requirements:

This course requires field experience in IB schools, meetings with IB teachers and research into IB (for non-IB experienced teachers). The field experience will occur throughout the three units that comprise the certificate.

Prior to placement in any school for Professional Experience, it is mandatory that pre-service teachers complete or obtain mandatory requirements accessed via the Professional Experience website: <http://www.murdoch.edu.au/School-of-Education/Professional-Experience>

If field experience is undertaken out of Western Australia, the equivalent criminal record checks and registrations must be obtained.

#### Employment Prospects:

International schools throughout the world including International Baccalaureate schools and those schools internationalising the curriculum.

#### Professional Accreditation:

IB Certification is available

#### Professional Recognition:

This course has been authorised by the International Baccalaureate (IB). On completion, students will be eligible to receive a Teaching and Learning Certificate from the International Baccalaureate - <http://www.ibo.org/professional-development/professional-certificates/ib-educator-certificates/>

#### Main Research Areas:

International education; Internationalisation of Education; International schooling; International mindedness

#### Further Study:

Students who successfully complete the Graduate Certificate may apply for admission to the Master of Education (Coursework) and on completion receive the IB Advanced Certificate of Teaching and Learning.

The recent move to elevate Year 7 into high school curriculum means that a lot of Primary teachers need an extra qualification to teach science in high school. They need an understanding of the pedagogy/curriculum of Secondary Science. This course fulfils that need.

The Graduate Certificate in Education (Secondary Science 7 - 10) is designed for qualified teachers who are interested in upskilling in this area. Core units include pedagogy, curriculum, physics and chemistry.

**Admission Requirements (Onshore):**

Recognised Bachelor of Education degree or higher, or equivalent training. Please note that the course does not constitute an initial teaching qualification.

English competence in accordance with Murdoch University graduate English language requirements.

## **GRADUATE DIPLOMA IN EDUCATION (EARLY CHILDHOOD EDUCATION AND CARE) (GRADDIPED(ECE&C))**

Education

Graduate Diploma in Education (Early Childhood Education and Care)  
(GradDipEd(ECE&C))

Course Codes: G1077

Duration: 1 year full-time or part-time equivalent

**Availability:**

- Not currently available to new admissions
- This course is not available to international students studying in Australia on a student visa; it is available to international students on other visas if visa conditions allow.

Restriction: All graduate courses are subject to restriction.

This course is designed for qualified primary school teachers who

wish to make early childhood education and care one of their recognised specialisations. It specifically addresses the early childhood years birth - 5.

**Admission Requirements (Onshore):**

Undergraduate or graduate qualification in primary teaching. Secondary teachers may apply with relevant and recent work experience.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

Prior to placement in any school or child-care centre for Professional Experience, it is mandatory that students complete or obtain several forms and clearances.

Information and forms regarding these mandatory requirements can be accessed via the Professional Experience website:

<http://www.murdoch.edu.au/School-of-Education/Professional-Experience>

Completion and submission of these mandatory requirements is essential before placements can be arranged.

**Employment Prospects:**

Early Childhood Education and Care

**Professional Recognition:**

On completion of the Graduate Diploma in Education (Early Childhood Education and Care), students have a nationally accepted qualification from a recognised university and are eligible for employment in Australian Early Childhood Education and Care sector (working with children aged birth to five years).

**Main Research Areas:**

Early Childhood Education and Care

**Other Information:**

Students who successfully complete the Graduate Diploma in Education (Early Childhood and Care) may apply for admission to the Master of Education (Coursework).

## **MASTER OF EDUCATION (COURSEWORK) (MED)**

Education

Master of Education (MEd)

Course Codes: M1208

Duration: 1.5 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)
- Murdoch University Dubai (UAE) ['DUBAI-ISC'] (internal)

Students should ensure they are familiar with the University's internal regulations, including provisions specifically relevant to their studies. See the University Regulation overview in this Handbook and view legislation online at <http://goto.murdoch.edu.au/legislation/>

Students need to have access to and be able to use computing devices with Internet browsing capability: see <http://goto.murdoch.edu.au/InternetStudy>

(language of instruction: English)

*Restriction: All graduate courses are subject to restriction.*

This is a three semester/ trimester coursework degree designed to provide the education profession and the community in general with leaders capable of addressing critical issues in educational practice, policy and research. It is designed for: teachers, educational administrators, and other education professionals who seek to extend and deepen their expertise in Education; professionals carrying out educational duties in other relevant fields who seek professional development and renewal; and those planning to proceed to the Doctor of Education.

Students undertake a research-based project of 6 points and 30 points of coursework. This is a coursework-classified course and it can be completed in internal or external mode or a combination of modes at the Murdoch campus and completed internally at the Murdoch University International Study Centre (Dubai, U.A.E).

#### **Admission Requirements (Onshore):**

Recognised Bachelor's degree or higher, or equivalent training, and a graduate-entry course in Education requiring at least a half year of full-time study, or part-time equivalent,  
OR three-year Bachelor of Arts in Education.

OR individual applications to be considered on a case-by-case basis. Applicants will need to demonstrate that experience gained in any studies and or professional experience has provided them with the knowledge and skills to undertake the Master of Education.

Applicants with a recognised Bachelor's degree or higher, or equivalent qualification, and a graduate-entry course in Education requiring at least a half year of full-time study, or part-time equivalent, may be eligible for advanced standing of up to 12 points.

Participants applying for credit for professional workplace learning or work completed through accredited professional development courses or continuing education should contact the Academic Chair for advice. Credit may also be granted for Masters-level units completed in other courses at Murdoch or at other higher education institutions with a maximum advanced standing of 12 points.

Equivalent of an Academic IELTS overall score of 6.5 with no band less than 6.0.

#### **Professional Recognition:**

This course does not constitute a teaching qualification and is not accredited by the Teacher Registration Board of Western Australia (TRBWA).

### **Course Structure - 36 credit points**

A minimum of 24 credit points must be at 600 level.

#### **Core Units - 12 credit points**

##### **Project Unit - 6 credit points**

Students should normally complete the Master of Education Project during their final semester/trimester of enrolment.

EDU660 Education Project - 6 points

## MASTER OF EDUCATION (RESEARCH) (MED(RES))

Education

*Master of Education (Research) (MEd(Res))*

Course Codes: M1233

Duration: 1.5 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

Restriction: All graduate courses are subject to restriction.

This is an 18 month research degree designed to provide the education profession and the community in general with leaders capable of addressing critical issues in educational practice, policy and research. It is designed for: teachers, educational leaders and administrators, and other education professionals who seek to extend and deepen their expertise in Education; professionals carrying out educational duties in other relevant fields who seek professional development and renewal; and those planning to proceed to higher degrees. Students undertake a research dissertation (24 points) and 12 points of coursework. This is a research-classified course.

### Admission Requirements (Onshore):

To be eligible for admission as a candidate for a Master of Education (Research) an applicant must have:

- \* a Bachelor Degree in Education (AQF level 7), or equivalent, and satisfy the Graduate Research Manager with evidence of scholarly or professional attainments relevant to the proposed research discipline; or
- \* a Bachelor Degree in a different discipline (AQF level 7) and have successfully completed a graduate course in Education, or equivalent, requiring at least one year of equivalent full-time study (AQF level 8), and satisfy the Graduate Research Manager with evidence of scholarly or professional attainments relevant to the proposed research discipline; or
- \* a Bachelor Degree in a different discipline and satisfy the Graduate Research Manager with evidence of significant scholarly or professional attainments (of at least two years full-time duration or equivalent) in Education equivalent to AQF level 8.

Equivalent of an Academic IELTS overall score of 6.5 with no band less than 6.0.

### Special Requirements:

Internet access is a requirement for all external students.

### Additional Academic Progress Requirements:

In order to progress to the dissertation component of this degree students must achieve a minimum of 65 percent in Research Methodology units and pass the exam; or obtain the permission of

the Academic Chair.

## Course Structure - 36 credit points

A student must normally enrol in a minimum of 6 points per semester of dissertation as a part-time student or 12 points per semester as a full-time student.

All students enrolling in this course will be required to complete a Graduate Program of Study (thesis plan) by the end of enrolment in the first 6 points of EDU700 Research in Education (Research Dissertation). This plan will be submitted through the School of Education's Research and Teaching Assistant to the Research and Development Board for approval.

### Core Units - 30 credit points

EDU610 Introduction to Research for Educators - 6 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

EDU700 Research in Education (Research Dissertation) - 12 points  
MURDOCH: R1-internal, R1-external, R2-internal, R2-external, RAU-internal, RAU-external, RSP-internal, RSP-external  
Full-time students should enrol in this unit for 12 points for each of two semesters; part-time students for 6 points for each of four semesters, or up to the maximum candidature time available.

### Specified Electives - 6 credit points

Select from the methodology units listed below and/or 600-level content units.

EDU701 Advanced Educational Research Seminar - 3 points

EDN781 Mixed Methods and Quantitative Research - 3 points  
MURDOCH: S2-internal, S2-external

EDU743 Advanced Qualitative Approaches to Research - 3 points  
MURDOCH: S1-internal, S1-external

### Additional Academic Progress Requirements

In order to progress to the dissertation component of this degree students must achieve a minimum of 65 percent in Research Methodology units and pass the exam; or obtain the permission of the Academic Chair.

---

## MASTER OF TEACHING (PRIMARY) (MTEACHPRIM)

Education

*Master of Teaching (Primary) (MTeachPrim)*

Course Codes: M1230

Duration: 1.75 full-time or part-time equivalent

### Availability:

- Murdoch campus (internal) (Not available for Semester 2, 2019 intake.)
- Murdoch campus (external) (Not available for Semester 2, 2019 intake.)
- International students must commence in Semester 1 only.

Restriction: All graduate courses are subject to restriction.

The Master of Teaching (Primary) is 1.75 years full-time equivalent (or 2.75 years part-time) initial teaching qualification for graduates who hold a Bachelor's degree in a non-Education field relevant to primary teaching. It offers graduates a professional preparation for teaching in primary schools, or for a wide range of other careers with an education focus. To be eligible, applicants must have at least one year of full-time-equivalent undergraduate study relevant to one or more of the learning areas of the Primary curriculum (i.e. English, Mathematics, the Arts, Science, Humanities and Social Sciences, Health and Physical Education), and meet English language requirements.

Graduates of the Master of Teaching (Primary) are eligible to apply

for registration to teach in Australian primary schools. This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

#### **Admission Requirements (Onshore):**

A recognised Bachelor's degree or higher, with at least one year of full-time equivalent study relevant to one or more of the learning areas of the Primary curriculum (i.e. English, Mathematics, the Arts, Science, Humanities and Social Sciences, Health and Physical Education). Entry to the course is competitive, and requires evidence of consistent and sustained high achievement (grades of credit and above) in a relevant undergraduate bachelor degree.

Students demonstrating English competence via IELTS, or an equivalent English Language proficiency assessment, must have attained an overall IELTS (or equivalent) score of 7.5 (with no score less than 7.0 in any of the four skills areas, and a score of no less than 8 in speaking and listening), on entry.

#### **Special Requirements:**

Enrolment is subject to restriction due to professional recognition requirements.

Prior to placement in any school for Professional Experience, it is mandatory that pre-service teachers complete or obtain several forms and clearances.

Information and forms regarding these mandatory requirements can be accessed via the Professional Experience website: <http://www.murdoch.edu.au/School-of-Education/Professional-Experience>

Completion and submission of these mandatory requirements is essential before placements can be arranged.

A maximum of 25% of total Professional Experience days in the course may be taken overseas.

Part-time study is available for Year One of the course. Students must be available to study full-time in Year Two.

All students who commence an Initial Teacher Education Course from 2017 onwards are required to complete Literacy and Numeracy Tests for Initial Teacher Education (LANTITE), administered by the Australian Council for Educational Research (ACER). Further information is available on the School of Education website.

All students commencing an initial teacher education course from 2019 onwards will be required to successfully complete the SimLab Screening

Evaluation to demonstrate that they meet the 'Fit for Profession' accreditation requirement. Further information is available on the School of Education website.

#### **Employment Prospects:**

Murdoch graduates are employed in government and non-government schools and other education related occupations across Australia and throughout the world.

#### **Professional Accreditation:**

Teacher Registration Board of WA (TRBWA)  
<http://www.trb.wa.gov.au/>

#### **Professional Recognition:**

On successful completion of the course graduates will be able to seek registration from the Teacher Registration Board of Western Australia (TRBWA) and from other accrediting bodies across Australia.

#### **Main Research Areas:**

Consistent with the needs of AITSL contemporary research data underpin the teaching and learning outcomes. Students are

required to undertake research processes to 'understand research principles applicable to the field of education'.

#### **Professional Experience:**

Prior to placement in any school for Professional Experience, it is mandatory that pre-service teachers complete or obtain several forms and clearances.

Information and forms regarding these mandatory requirements can be accessed via the Professional Experience website: <http://www.murdoch.edu.au/School-of-Education/Professional-Experience>

Completion and submission of these mandatory requirements is essential before placements can be arranged.

A maximum of 25% of total Professional Experience days in the course may be taken overseas.

#### **Research Areas:**

Consistent with the needs of AITSL contemporary research data underpin the teaching and learning outcomes. Students are required to undertake research processes to 'understand research principles applicable to the field of education'. Specific unit allocations (EDN616 and 617), to support this learning outcome, are provided in the final year of study and are aligned to the practicum experiences

## **MASTER OF TEACHING (SECONDARY) (MTEACH(SEC))**

Education

*Master of Teaching (Secondary) (MTeach(Sec))*

Course Codes: M1284

Duration: 1.75 full-time or part-time equivalent

### **Availability:**

- Murdoch campus (internal)
- Some units only: Murdoch campus (external)
- International students must commence in School Term 1 only.

*Restriction: All graduate courses are subject to restriction.*

The Master of Teaching (Secondary) is 1.75 years full-time equivalent (or 2.75 years part-time) initial teaching qualification for graduates who hold a Bachelor's degree in a non-Education field relevant to secondary teaching. It offers graduates a professional preparation for teaching in secondary schools, or for a wide range of other careers with an education focus. To be eligible, applicants seeking a major teaching area of focus must have six units of study relevant to the chosen discipline, consistent with the WA secondary school curriculum, with no more than two a first year level and at least two at third year level. To be eligible, applicants seeking a minor teaching area of focus must have four units of study relevant to the chosen discipline, as defined by the WA secondary school curriculum, with no more than two a first year level. Entry to the course is competitive, and requires evidence of consistent and sustained high achievement (grades of credit and above) in a relevant undergraduate bachelor degree.

The Master of Teaching (Secondary) enables students to develop the specialist knowledge, skills and capabilities for successful engagement with the teaching profession. Graduates will have advanced and integrated understanding of the body of knowledge appropriate for secondary school practitioners, and will have acquired the expert, specialised cognitive and technical skills necessary to practice independently in the classroom. Students are supported in becoming effective educators with a strong grounding in learning, teaching and curriculum. Professional Experience is a key component of the degree, and internship arrangements with selected partner schools provide students with opportunities to engage with schools and the broader community throughout the course. The Master of Teaching enables graduates to develop the understandings and capacities to be teacher/researchers, agents for change, and socially just practitioners. The degree provides a foundation for further professional development and scholarship. Graduates of the Master of Teaching (Secondary) are eligible to apply for registration to teach in Australian schools.

### **Admission Requirements (Onshore):**

A recognised Bachelor's degree or higher, with extensive specialised study relevant to the chosen learning areas of the Secondary curriculum (i.e. English, Mathematics, Science, Humanities and Social Sciences, Health and Physical Education). To be eligible, applicants seeking a major teaching area of focus must have six units of study relevant to the chosen discipline, consistent with the WA secondary school curriculum, with no more than two a first year level and at least two at third year level. To be eligible, applicants seeking a minor teaching area of focus must have four units of study relevant to the chosen discipline, as defined by the WA

secondary school curriculum, with no more than two a first year level. Entry to the course is competitive, and requires evidence of consistent and sustained high achievement (grades of credit and above) in a relevant undergraduate bachelor degree.

Students demonstrating English competence via IELTS, or an equivalent English Language proficiency assessment, must have attained an overall IELTS (or equivalent) score of 7.5 (with no score less than 7.0 in any of the four skills areas, and a score of no less than 8 in speaking and listening), on entry.

### **Special Requirements:**

Enrolment is subject to restriction due to professional recognition requirements. Prior to placement in any school for Professional Experience, it is mandatory that pre-service teachers complete or obtain several forms and clearances. Information and forms regarding these mandatory requirements can be accessed via the Professional Experience website:

<http://www.murdoch.edu.au/School-of-Education/Professional-Experience>

Completion and submission of these mandatory requirements is essential before placements can be arranged.

Prior to graduation it is mandatory that students satisfactorily complete ACER (Australian Council for Educational Research) testing of literacy and numeracy (LANTITE).

A maximum of 25% of total Professional Experience days in the course may be taken overseas.

Part-time study is available for Year One of the course only.

Students must be available to study full-time in Year Two.

All students who commence an Initial Teacher Education Course from 2017 onwards are required to complete Literacy and Numeracy Tests for Initial Teacher Education (LANTITE), administered by the Australian Council for Educational Research (ACER). Further information is available on the School of Education website.

All students commencing an initial teacher education course from 2019 onwards will be required to successfully complete the SimLab Screening

Evaluation to demonstrate that they meet the 'Fit for Profession' accreditation requirement. Further information is available on the School of Education website.

### **Employment Prospects:**

Murdoch graduates are employed in government and non-government schools and other education related occupations throughout the world.

### **Professional Accreditation:**

Australian Institute for Teaching and School Leadership (AITSL) Teacher Registration Board of WA (TRBWA) <http://www.trb.wa.gov.au/>

### **Professional Recognition:**

Pending accreditation from the Australian Institute for Teaching and School Leadership (AITSL), and the Teacher Registration Board of WA (TRBWA) <http://www.trb.wa.gov.au/>

### **Main Research Areas:**

Education, teaching, curriculum

### **External Study:**

Not all required units in these majors are offered externally. Some Education units are require intensive sessions on-campus.

### **CREDIT / EXEMPTIONS:**

Students seeking exemptions must be able to provide documentary evidence in support of their application.

Students who have had at least two years of full-time recent relevant and satisfactory teaching experience in an Australian school

context may seek partial exemption from some Professional Experience unit/s. While Murdoch recognises that some students may have prior and/or current teaching experience, it requires that a student's classroom competence be assessed before exemptions from Professional Experience can be given.

Students who have been employed as a teacher and have had at least one year of full-time equivalent recent, relevant and satisfactory teaching experience in an Australian school context may seek exemption from EDN550 - Transition to Teaching.

Students cannot receive exemption from the Final Professional Experience: Secondary Teaching units.

If seeking un-credentialed credit, students must submit a case in writing, with supporting documentary evidence to explain how the outcomes of units have already been achieved through prior experience. All applications for exemption and credit must be directed to the Accreditation Officer.

## DOCTOR OF EDUCATION (EDD)

Education

Doctor of Education (EdD)

Course Codes: D1017

Duration: 3 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

Restriction: All graduate courses are subject to restriction.

The Doctor of Education is an intensive course of study leading to the professional doctorate degree in Education. It consists of coursework and applied research leading to a dissertation.

The purpose of the degree is to provide advanced level study in Education at a high degree of specialisation through applied research in a selected area of practice. On entry to the EdD, each candidate will be assigned a supervisor who will assist in the development of an approved plan of study appropriate to the intended specialisation. For this course, on-campus meetings are available through negotiation.

#### Admission Requirements (Onshore):

Advanced academic study, research preparation and professional experience are required for admission to the course.

To be eligible for admission as a candidate for a Doctor of Education an applicant must have:

Bachelor Degree with at least a 2A Honours normally in the same discipline (AQF level 8); or

a Masters Degree normally in the same discipline (AQF level 9) and satisfy the Graduate Research Manager with evidence of substantive and significant scholarly or professional attainments; or a Bachelor Degree normally in the same discipline (AQF level 7) and satisfy the Graduate Research Manager with evidence of substantive and significant scholarly or professional attainments including satisfactory research preparation the equivalent of AQF level 8 or 9. Students who have a Master of Education degree by coursework or research will be considered on a case-by-case basis for credit.

Equivalent of an Academic IELTS overall score of 6.5 with no band less than 6.0.

#### Employment Prospects:

Graduates are qualified to obtain high-level professional positions in a range of locations in the broad Education industry.

#### Additional Academic Progress Requirements:

In order to progress to the dissertation component of this degree students must achieve a minimum of 65 percent across all units, a minimum of 65 percent in Research Methodology units and pass the exam or permission of the Academic Chair.

#### Main Research Areas:

Education systems (e.g., early childhood education, higher education), curriculum and pedagogy, and specialist studies of education (e.g., learning sciences, educational assessment and evaluation, educational technology and computing, education policy, Aboriginal education).

#### Additional Admission Requirements:

The entry requirements are the equivalent of a Bachelor of Education (or other relevant degree) with honours from a recognised university or equivalent and at least two years of relevant professional experience.

Students with a Master of Education by coursework degree may be asked to complete a small project as part of the first year of the Education Doctorate. At most students may be granted 12 points of credit; those who have a part-completed MEd will also be considered on a case-by-case basis and may be awarded credit on a pro rata basis, provided these studies were undertaken within the last 10 years. Despite the amount of credit which may be awarded for previous studies, students may be requested to enrol in up to 12 points of coursework at the 600-level, which their supervisor or the student considers to be advantageous either for professional development or for the completion of the dissertation. To count as credit towards the EdD, a student must normally pass the units at Credit level or above.

Candidates who do not meet the admission requirements may be offered a place in a preliminary course designed to prepare them for admission to the doctoral course. The specific studies to be completed within a preliminary course would be determined in each case by the School's Research Committee.

## Course Structure - 72 credit points

### Core Units - 60 credit points

#### Research Units - 12 credit points

EDU610 Introduction to Research for Educators - 6 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

EDN781 Mixed Methods and Quantitative Research - 3 points  
MURDOCH: S2-internal, S2-external

EDU743 Advanced Qualitative Approaches to Research - 3 points  
MURDOCH: S1-internal, S1-external

#### Research Dissertation - 48 credit points

EDU900 Research in Education (Research Dissertation) - 12 points

Full-time students should enrol in the thesis for 12 points for each of four semesters and part-time students for 6 points for each of eight semesters, or up to maximum candidature time available.

### Specified Electives - 12 credit points

In consultation with their supervisor, students select up to four 600-level units so as to develop knowledge in the appropriate substantive area and to strengthen research methodology knowledge and skills in preparation for undertaking the thesis project.

Alternatively, students may take EDU701 Advanced Educational Research Seminar - 3 points [], up to 6 points by Independent Study at 600 level, or units at another institution.

### Additional Academic Progress Requirements

In order to progress to the dissertation component of this degree students must achieve a minimum of 65 percent across all units, a minimum of 65 percent in Research Methodology units and pass the exam or permission of the Academic Chair.

## ENERGY STUDIES

### See also:

Energy and the Environment

## GRADUATE CERTIFICATE IN ENERGY AND CARBON STUDIES (GRADCERTENCBST)

Chemical and Metallurgical Engineering

Graduate Certificate in Energy and Carbon Studies (GradCertEnCbSt)

Course Codes: C1137

Duration: 1 semester full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)
- International Online (Australia) ['INT-ONLINE'] (external)

Restriction: All graduate courses are subject to restriction.

The Graduate Certificate in Energy and Carbon Studies is designed to cater for graduates of any discipline who wish to acquire knowledge and skills in the areas of renewable and sustainable energy, as well as energy and carbon management.

### Admission Requirements (Onshore):

Recognised Bachelor's degree (AQF Level 7) or higher, or equivalent training, or satisfactory preparation for the course through previous study or professional experience. Some of the units taken assume some prior knowledge, details of which are given in the description of each unit in the Handbook. The most common of these is the high school Physics prerequisite for units such as Energy in Society, Energy Management, and Energy Systems. Some students may therefore need to complete additional prerequisite units.

English competence.

### Special Requirements:

This course is available to external students anywhere in the world who wish to study off campus using on-line materials. Assistance is provided by tutors by telephone, email or the Internet. External students usually study part-time, completing the certificate over one year or more.

### Employment Prospects:

Graduates can expect to gain employment in power generation companies, renewable energy manufacturing and installation companies, international aid organisations, government departments, energy efficiency, carbon accounting and environmental consultancies, university and private industry research organisations, and local government.

### Professional Recognition:

Students who complete the unit PEN590 Energy Systems as part of this course are eligible for provisional accreditation by the Clean Energy Council for design of stand-alone photovoltaic systems.

### Main Research Areas:

Energy storage, solar cells, wind turbines, biomass, energy policy and economics, sustainable transport, micro-grids, remote area power supply systems, energy efficiency, climate change response.

### Further Study:

Students who successfully complete the Graduate Certificate may apply for admission to the Graduate Diploma in Energy and Carbon Studies.

## Course Structure - 12 credit points

### Core Units - 12 credit points

Select from the following:

PEN592 Energy in Society - 3 points  
MURDOCH: S1-internal, S1-external, S2-external

PEN594 Energy Auditing and Management - 3 points  
MURDOCH: S1-internal, S1-external

PEN590 Energy Systems - 3 points  
MURDOCH: S2-internal, S2-external

PEN597 Climate Change Science and Policy - 3 points  
MURDOCH: S1-internal, S1-external

PEN591 Energy Policy - 3 points  
MURDOCH: S2-internal, S2-external

PEN593 Energy Economics - 3 points  
MURDOCH: S1-internal, S1-external

PEN504 Greenhouse Gas Reporting and Life Cycle Assessment - 3 points  
MURDOCH: S2-internal, S2-external

PEN598 Carbon Management - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

## GRADUATE DIPLOMA IN ENERGY AND CARBON STUDIES (GRADDIPENCBST)

Chemical and Metallurgical Engineering

*Graduate Diploma in Energy and Carbon Studies (GradDipEnCbSt)*

Course Codes: G1079

Duration: 1 year full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)
- International Online (Australia) ['INT-ONLINE'] (external)

Restriction: All graduate courses are subject to restriction.

The Graduate Diploma in Energy and Carbon Studies is intended to provide graduates of any discipline with a one-year course of study that covers the core areas of renewable and sustainable energy, as well as energy and carbon management.

### Admission Requirements (Onshore):

Recognised Bachelor's degree (AQF Level 7) or higher, or equivalent training, or satisfactory preparation for the course through previous study or professional experience. Some of the units taken assume some prior knowledge, details of which are given in the description of each unit in the Handbook. The most common of these is the high school Physics prerequisite for units such as Energy in Society, Energy Management, and Energy Systems. Some students may therefore need to complete additional prerequisite units.

English competence.

### Special Requirements:

Using on-line facilities, students may complete this degree without needing to attend campus. Assistance is provided by tutors who correspond with students by telephone, email or the Internet.

### Employment Prospects:

Graduates can expect to gain employment in power generation companies, renewable energy manufacturing and installation companies, international aid organisations, government departments, energy efficiency, carbon accounting and environmental consultancies, university and private industry research organisations and local government.

### Professional Recognition:

Students who complete the unit PEN590 Energy Systems as part of this course are eligible for provisional accreditation by the Clean Energy Council for design of stand-alone photovoltaic systems.

### Main Research Areas:

Energy storage, solar cells, wind turbines, biomass, energy policy and economics, sustainable transport, micro-grids, remote area power supply systems, energy efficiency, climate change response.

### Further Study:

Students who successfully complete the Graduate Diploma may apply for direct admission to the second year of the Master of Renewable and Sustainable Energy.

## Course Structure - 24 credit points

### Core Units - 24 credit points

PEN592 Energy in Society - 3 points  
MURDOCH: S1-internal, S1-external, S2-external

PEN594 Energy Auditing and Management - 3 points  
MURDOCH: S1-internal, S1-external

PEN597 Climate Change Science and Policy - 3 points  
MURDOCH: S1-internal, S1-external

PEN590 Energy Systems - 3 points

## MASTER OF RENEWABLE AND SUSTAINABLE ENERGY (MRENSUSEN)

Chemical and Metallurgical Engineering

*Master of Renewable and Sustainable Energy (MResSusEn)*

Course Codes: M1268

Duration: 2 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)
- International Online (Australia) ['INT-ONLINE'] (external)

Restriction: All graduate courses are subject to restriction.

This 2 year course offers advanced training in the area of renewable and sustainable energy systems, sustainable energy policy and development, climate change adaptation and resilience, energy efficiency and carbon management. The first year is the Graduate Diploma in Energy and Carbon Studies OR the Graduate Diploma in Energy and the Environment. In the second year students will complete a research dissertation, in the areas of renewable and sustainable energy (including energy efficiency) or in the areas of climate change mitigation and adaptation.

### Admission Requirements (Onshore):

Recognised Bachelor's degree (AQF Level 7) or higher, or equivalent training, or professional experience in a related area. Students may be eligible for advanced standing in the Masters if they have achieved AQF Level 8 in a recognised, cognate discipline. Some of the units taken assume some prior knowledge, details of which are given in the description of each unit in the Handbook. The most common of these is the high school Physics prerequisite for units such as Energy in Society, Energy Management and Energy System. Some students may therefore need to complete additional prerequisite units.

English competence.

**Special Requirements:**

This course is available to external students anywhere in the world who wish to study off campus by using on-line facilities. Assistance is provided by tutors who correspond with students by telephone, email or the Internet.

**Employment Prospects:**

Graduates can expect to gain employment in power generation companies, renewable energy manufacturing and installation companies, international aid organisations, government departments, energy efficiency, carbon accounting and environmental consultancies, university and private industry research organisations and local government.

**Professional Accreditation:**

Students who complete the unit PEN590 Energy Systems as part of this course are eligible for provisional accreditation by the Clean Energy Council for design of stand-alone photovoltaic systems, small wind power systems and micro hydro power systems.

**Main Research Areas:**

Renewable energy in developing countries, energy storage, solar cells, wind turbines, biomass, energy policy and economics, sustainable transport, micro-grids, remote area power supply systems, energy efficiency, climate change response.

**Course Structure - 48 credit points**

**Year 1 - 24 credit points**

**Core Units - 24 credit points**

This structure shows the case where the first year is the Graduate Diploma in Energy and Carbon Studies. Students may also choose the Graduate Diploma in Energy and the Environment as their first year of the Masters. For further information on the structure of the Graduate Diploma in Energy and the Environment, please refer to the Handbook entry for that course.

PEN590 Energy Systems - 3 points  
MURDOCH: S2-internal, S2-external

PEN591 Energy Policy - 3 points  
MURDOCH: S2-internal, S2-external

PEN592 Energy in Society - 3 points  
MURDOCH: S1-internal, S1-external, S2-external

PEN593 Energy Economics - 3 points  
MURDOCH: S1-internal, S1-external

PEN594 Energy Auditing and Management - 3 points  
MURDOCH: S1-internal, S1-external

PEN597 Climate Change Science and Policy - 3 points  
MURDOCH: S1-internal, S1-external

PEN504 Greenhouse Gas Reporting and Life Cycle Assessment - 3 points  
MURDOCH: S2-internal, S2-external

PEN598 Carbon Management - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

**Year 2 - 24 credit points**

**Core Units - 15 credit points**

The second year coursework units include two core units: PEN620, which is the coursework capstone unit of the degree and aims to build student relationships with industry, and PEN624 which is a research unit and involves writing a substantial dissertation. Students are also able to select units from a list of specified electives.

PEN620 Case Studies of Innovative Energy Projects - 3 points  
MURDOCH: S2-internal, S2-external

PEN624 Renewable and Sustainable Energy Dissertation - 12 points  
MURDOCH: H-internal, H-external, Y-internal, Y-external

**Specified Electives - 9 credit points**

Select from the Specified Elective Unit List below.

PEN622 Renewable Energy Resources - 3 points  
MURDOCH: S1-internal, S1-external

PEN621 Renewable Energy Devices - 3 points  
MURDOCH: S1-internal, S1-external

PEN623 Renewable Energy Systems Design - 3 points  
MURDOCH: S1-internal, S1-external

PEN502 Climate Change Impact Assessment - 3 points  
MURDOCH: S1-internal, S1-external, S2-external

PEN503 Climate Change Adaptation and Resilience - 3 points  
MURDOCH: S1-external, S2-internal, S2-external

PEN670 Energy Efficient Buildings - 3 points  
MURDOCH: S1-internal, S1-external

ENV617 Sustainability Assessment - 3 points  
Not available this year

PEN628 Sustainable Energy Development - 6 points  
MURDOCH: S2-internal, S2-external

**ENERGY AND THE ENVIRONMENT**

**See also:**

Energy Studies  
Environmental Science

**GRADUATE DIPLOMA IN ENERGY AND THE ENVIRONMENT (GRADDIPENENV)**

Chemical and Metallurgical Engineering

*Graduate Diploma in Energy and the Environment (GradDipEnEnv)*

Course Codes: G1062

Duration: 1 year full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)
- International Online (Australia) ['INT-ONLINE'] (external) (International offshore students only)

*Restriction: All graduate courses are subject to restriction.*

This diploma is directed to the interface between energy and carbon studies and environmental impact assessment and is intended to provide graduate training for Australian and international professionals working, or wishing to work, in the areas of climate change management or sustainable energy and environmental management. There are two specialisations in this Diploma:

- (i) Climate Change Management
- (ii) Energy, Emissions and Environment

Recent significant changes in the global climate change policy environment have meant a shift to a broader range of adaptation and mitigation practices to counter climate change. This is driving a demand for professionals with climate change skills across the Asia Pacific region and in Australia and the Climate Change Management Specialisation is designed in collaboration with industry to address this demand.

The Energy, Emissions and Environment is specifically targeted to address the ongoing demand for the use of sustainable energy and the need for environmental management of such projects. This specialisation is interdisciplinary in nature, consisting of units drawn from the areas of energy studies and environmental impact assessment. Students can complete the course with a focus upon the

policy and/or the scientific aspects of the environmental management of the energy industry.

**Admission Requirements (Onshore):**

Recognised Bachelor's degree (AQF Level 7) or higher, or equivalent training, or professional experience in a related area.

Some of the units taken assume some prior knowledge, details of which are given in the description of each unit in the Handbook. The most common of these is the high school Physics prerequisite for units such as Energy in Society, Energy Management and Energy Systems. Some students may therefore need to complete additional prerequisite units.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

This course is available to external students anywhere in the world who wish to study off campus by using on-line facilities. Assistance is provided by tutors, using telephone, email, or the Internet.

**Employment Prospects:**

Graduates can expect to gain employment as sustainability, climate change or environmental officers in local government as well as in the corporate sector. Graduates can expect to gain employment in power generation companies, renewable energy manufacturing and installation companies, international aid organisations, government departments, energy efficiency and environmental consultancies, university and private industry research organisations.

**Main Research Areas:**

Renewable energy, remote area power supply systems, components and monitoring, energy management, solar cells, wind turbines, energy policy and economics, environmental impact assessment, climate change and carbon management.

**Further Study:**

Students who successfully complete the Graduate Diploma may apply for direct admission to the one year Master of Environmental Science or direct admission to the second and final year of the Master of Renewable and Sustainable Energy.

### GRADUATE DIPLOMA IN ENGINEERING (GRADDIPENG)

Chemical and Metallurgical Engineering

*Graduate Diploma in Engineering (GradDipEng)*

Course Codes: G1070

Duration: 1 year full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)

Restriction: All graduate courses are subject to restriction.

The Graduate Diploma in Engineering is intended for practising professionals and recent graduates who wish to update their existing qualifications and/or enhance their skills in one of the following three majors:

Major 1: Instrumentation, Control and Industrial Computer Systems Engineering;  
Major 2: Electrical Power and Industrial Computers Systems Engineering; or  
Major 3: Water Treatment and Desalination.

#### Admission Requirements (Onshore):

Entry may be gained through any of three means:

1. Recognised Engineering Bachelor's degree (AQF Level 7) in the specific disciplinary area of the major.
2. Evidence of an appropriate level of industrial experience and possession of a Bachelor's degree (AQF Level 7) in a technical, non-engineering area as judged adequate by the Academic Chair or their designate.
3. Applicants without the necessary qualifications and/or background may be admitted with the caveat that they will be required to pass additional units as part of the course requirements, as judged by the Academic Chair (or equivalent) or their designate. This entry option may increase the required duration to complete the degree.

To gain entry by either means 2 or 3, the applicant should provide educational and industrial experience details by a Curriculum Vitae, tertiary education transcripts, and a personal statement of no more than 300 words detailing why this course has been selected and how any extra-curricular experience has prepared the applicant to complete the course.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0. or equivalent as detailed in MU Postgraduate English requirements

#### Special Requirements:

Successful completion of the Graduate Diploma in Engineering allows the student to progress directly into the start of the second year of the Master of Engineering in the same disciplinary major. Some units in this course are offered in a flexible delivery mode, allowing candidates to complete some of their studies at home or at their workplace. Special Requirements Apply for admission to and participation in the Water Treatment and Desalination Major as follows:  
- Some attendance at on- and off-campus site visits and technology operation sessions will be a requirement.

- Water treatment engineering is a highly quantitative profession requiring a sound grounding in physics, chemistry, fluid mechanics, and mathematics. The coursework assumes a prior understanding of the fundamentals of these disciplines to a level allowing entry into the specifics of water engineering without further general instruction in these disciplines. Consequently, students entering the course must have passed the following units at Murdoch or their equivalent elsewhere:

MAS221 Mathematical Modelling  
ENG201 Fluid Mechanics  
CHE144, Foundations of Chemistry  
PEN152, Principles of Physics

For students with potentially equivalent alternative training, contact the Academic Chair for assessment of equivalency.

#### Employment Prospects:

Graduates in majors 1 and 2 can find employment in the following areas of manufacturing, medical, mining, processing energy supply, communications, electronics, computer systems and defence-related industries. Graduates in major 3 can find employment in municipal water supply and wastewater management, governmental departments of water and natural resources, and private or public irrigation and water resource management entities, mining, manufacturing and other industrial enterprises in which water is extensively used.

#### Professional Recognition:

This course is designed to maintain and/or further the needs of Continuing Professional Education of Engineers in the areas of the specific major.

#### **Availability:**

- Murdoch campus (internal)

*Restriction: All graduate courses are subject to restriction.*

The Master of Engineering is intended for practising professionals who wish to update their existing qualifications and/or enhance their skills in one of the following three majors:

- . Major 1: Instrumentation, Control and Industrial Computer Systems Engineering;
- . Major 2: Electrical Power and Industrial Computers Systems Engineering; or
- . Major 3: Water Treatment and Desalination

**Admission Requirements (Onshore):**

Entry may be gained through any of three means:

1. Recognised Engineering Bachelor's degree (AQF Level 7) in the specific disciplinary area of the major,
2. Evidence of an appropriate level of industrial experience and possession of a Bachelor's degree (AQF Level 7) in a technical, non-engineering area as judged adequate by the Academic Chair or their designate, or
3. Applicants without the necessary qualifications and/or background may be admitted with the caveat that they will be required to pass additional units as part of the course requirements, as judged by the Course Coordinator or their designate. This entry option may increase the required duration to complete the degree.

To gain entry by either means 2 or 3, the applicant should provide educational and industrial experience details by a Curriculum Vitae, tertiary education transcripts, and a personal statement of no more than 300 words detailing why this course has been selected and how any extra-curricular experience has prepared the applicant to complete the course.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0. or equivalent as detailed in MU Postgraduate English requirements

**Special Requirements:**

Some units in this course are offered in a flexible delivery mode, allowing candidates to complete some of their studies at home or at their workplace.

Special Requirements Apply for admission to and participation in the Water Treatment and Desalination Major as follows:

- Some attendance at on- and off-campus site visits and technology operation sessions will be a requirement.
  - Water treatment engineering is a highly quantitative profession requiring a sound grounding in physics, chemistry, fluid mechanics, and mathematics. The coursework assumes a prior understanding of the fundamentals of these disciplines to a level allowing entry into the specifics of water engineering without further general instruction in these disciplines. Consequently, students entering the course must have passed the following units at Murdoch or their equivalent elsewhere:  
MAS221 Mathematical Modelling  
ENG201 Fluid Mechanics  
CHE144, Foundations of Chemistry  
PEN152, Principles of Physics
- For students with potentially equivalent alternative training, contact the Academic Chair for assessment of equivalency.

**Employment Prospects:**

Graduates in majors 1 and 2 can find employment in the following areas of manufacturing, medical, mining, processing energy supply, communications, electronics, computer systems and defence-related industries. Graduates in major 3 can find employment in municipal water supply and wastewater management, governmental departments of water and natural resources, and private or public irrigation and water resource management entities, mining, manufacturing and other industrial enterprises in which water is extensively used.

**Professional Accreditation:**

Provisional accreditation from Engineers Australia will be sought for this course in 2020.

**Professional Recognition:**

This course is designed to maintain and/or further the needs of Continuing Professional Education of Engineers in the areas of the specific major.

**Main Research Areas:**

Control theory, control systems, robotics and automation, industrial

electronics, process control and simulation, signal processing, Circuits and systems, power and energy systems engineering, Water and wastewater treatment processes.

**Course Structure - 48 credit points****Core Units - 15 credit points**

ENG670 Measurement and Uncertainty Analysis - 3 points  
MURDOCH: S2-internal

ENG615 Engineering Masters Project - 12 points  
MURDOCH: H-internal, S1-internal, SS4-internal, SUM-internal, WU3-internal, Y-internal

ENG521 Engineering Professional Practice Preparation - 0 points  
MURDOCH: S1-internal, S2-internal

ENG604 Engineering Professional Practice - 0 points  
MURDOCH: S1-internal, S2-internal, SUM-internal

**Major - 33 credit points**

MC-SP-ICIC Instrumentation, Control and Industrial Computer Systems Engineering - 33 points

OR

MC-SP-EPIC Electrical Power and Industrial Computer Systems Engineering - 33 points

OR

MC-SP-WTD Water Treatment and Desalination - 33 points

**Instrumentation, Control and Industrial Computer Systems Engineering**

ENG691 Hazard, Risk and Project Management - 3 points  
MURDOCH: S1-internal, S2-internal

ENG502 Computer Based Measurement and Control - 3 points  
MURDOCH: S2-internal

ENG508 Instrumentation and Control II - 3 points  
MURDOCH: S2-internal

ENG525 Instrumentation and Control I - 3 points  
MURDOCH: S1-internal

ENG563 Processes, Simulation and Instrumentation - 3 points  
MURDOCH: S1-internal

ENG668 Control System Investigation - 3 points  
MURDOCH: S1-internal

ENG501 PLC Applications - 3 points  
MURDOCH: S1-internal

ENG514 Industrial Signals and Systems - 3 points  
MURDOCH: SUM-internal

ENG564 Instrumentation and Communication - 3 points  
MURDOCH: S2-internal

ENG617 Industrial Computer Systems - 3 points  
MURDOCH: S1-internal, S2-internal

**Electrical Power and Industrial Computer Systems Engineering**

ENG691 Hazard, Risk and Project Management - 3 points  
MURDOCH: S1-internal, S2-internal

ENG502 Computer Based Measurement and Control - 3 points  
MURDOCH: S2-internal

ENG501 PLC Applications - 3 points  
MURDOCH: S1-internal

ENG514 Industrial Signals and Systems - 3 points  
MURDOCH: SUM-internal

ENG564 Instrumentation and Communication - 3 points  
MURDOCH: S2-internal

ENG617 Industrial Computer Systems - 3 points  
MURDOCH: S1-internal, S2-internal

ENG557 Distributed Energy Resources and Demand Response - 3 points  
MURDOCH: S1-internal

ENG556 Power System Modelling and Analysis - 3 points  
MURDOCH: S2-internal

ENG558 Advanced Power Electronics - 3 points  
MURDOCH: S1-internal

ENG682 Advanced Power Systems Protection and Control - 3 points  
MURDOCH: S1-internal

### **Water Treatment and Desalination**

ENG507 Environmental Water Chemistry - 3 points  
MURDOCH: S1-internal

ENG509 Water Regulation, Finance and Management - 3 points  
MURDOCH: S1-internal

ENG524 Process Unit Operations - 3 points  
MURDOCH: S1-internal, S1-external

ENG510 Physicochemical Water Treatment Operations - 3 points  
MURDOCH: S2-internal

ENG515 Biological Water Treatment Operations - 3 points  
MURDOCH: S2-internal

ENG516 Water Engineering Intuition and Analysis - 3 points  
MURDOCH: S1-internal

ENG517 Water Treatment Technology Practical - 3 points  
MURDOCH: S2-internal

ENG601 Desalination Technology and Modelling - 3 points  
MURDOCH: S1-internal

ENG602 Decentralised and Industrial Water Treatment - 3 points  
MURDOCH: S1-internal

ENG603 Advanced Water Treatment Design - 3 points  
MURDOCH: S1-internal

### **Specified Electives - 3 credit points**

Select from the Specified Elective Unit List below. Students must meet the unit-specific prerequisites, if any, for the elective selected.

ENG550 Design Project - 3 points  
MURDOCH: S1-internal, S2-internal, SUM-internal, Y-internal

ICT616 Data Resources Management - 3 points  
MURDOCH: S1-internal, S2-internal

TLC501 Communication Skills for Postgraduate Study - 3 points  
MURDOCH: S1-internal, S2-internal

Students taking the Water Treatment and Desalination major may not take this elective.

PEN590 Energy Systems - 3 points  
MURDOCH: S2-internal, S2-external

Students taking the Water Treatment and Desalination major may not take this elective.

PEN594 Energy Auditing and Management - 3 points  
MURDOCH: S1-internal, S1-external

PEN504 Greenhouse Gas Reporting and Life Cycle Assessment - 3 points  
MURDOCH: S2-internal, S2-external

MBS538 Organisational Behaviour and Management - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external, SUM-internal, SUM-external

MBS673 Entrepreneurship and Innovation Management - 3 points  
MURDOCH: S1-internal, S1-external, SUM-internal, SUM-external

For students taking the Water Treatment and Desalination major only:

ENV536 Engaging with a Sustainable Future - 3 points  
MURDOCH: S2-internal, S2-external

For students taking the Water Treatment and Desalination major only:

ENV554 Land and Water Management - 3 points  
MURDOCH: S1-internal, S1-external

## **ENVIRONMENTAL ASSESSMENT AND MANAGEMENT**

**See also:**  
Environmental Science

### **GRADUATE CERTIFICATE IN ENVIRONMENTAL ASSESSMENT AND MANAGEMENT (GRADCERTENVASSTMAN)**

Environmental and Conservation Sciences

*Graduate Certificate in Environmental Assessment and Management (GradCertEnvAsstMan)*

Course Codes: C1118

Duration: 1 semester full-time or part-time equivalent

#### **Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)
- International students must commence in Semester 1 only.

*Restriction: All graduate courses are subject to restriction.*

Environmental professionals are required to have a clear understanding of the various procedures and activities involved in environmental assessment and management. This course is designed to provide Australian and overseas environmental professionals with an understanding of the policies, procedures and techniques of environmental management through practically-oriented study. The course will be relevant to consultants and to people employed by private and public organisations that are active in environmental practice. The course aims to provide a multidisciplinary education to further develop knowledge and understanding of selected principles and techniques employed in environmental management; it is structured with maximum flexibility to meet the needs of students.

#### **Admission Requirements (Onshore):**

A recognised Bachelor Degree (AQF Level 7) or higher or equivalent training. If the first degree is not related to this area of study then at least two years of relevant work/life experience is required. Most of the units taken assume some prior knowledge, details of which are given in the description of each unit in the Handbook. Some students may therefore need to complete additional prerequisite units.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Special Requirements:**

When studied in the external mode, some attendance is required. Internet access is required for students studying externally; exceptions will be considered on a case-by-case basis.

#### **Employment Prospects:**

This course will be relevant to consultants wishing to practice in this field, and to people employed by private and public organisations that are active in environmental management.

**Further Study:**

Students who successfully complete the Graduate Certificate in Environmental Assessment and Management may apply for admission to the Graduate Certificate in Environmental Science or Master of Environmental Science.

**Course Structure - 12 credit points**

University regulations require completion of units at 500-level or above.

**Core Units - 6 credit points**

ENV556 Principles of Environmental Impact Assessment - 3 points  
MURDOCH: S1-internal, S1-external

ENV557 Environmental Assessment and Management - 3 points  
MURDOCH: S1-internal, S1-external

**Specified Electives - 6 credit points**

Select from the following:

ENV554 Land and Water Management - 3 points  
MURDOCH: S1-internal, S1-external

ENV552 Comparative Environmental Policy and Law - 3 points  
Not available this year

ENV539 Marine Science Topics - 3 points

ENV527 Environmental Science Topics - 3 points  
MURDOCH: S1-internal, S1-external

ENV526 Advanced Ecology - 3 points  
Not available this year

**GRADUATE CERTIFICATE IN PROTECTED AREA ADMINISTRATION (GRADCERTPAADMIN)**

Conservation Science

*Graduate Certificate in Protected Area Administration (GradCertPAAAdmin)*

Course Codes: C1129

*Duration: 1 semester full-time or part-time equivalent; students commencing mid-year will need two semesters minimum enrolment to complete requirements*

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

*Restriction: All graduate courses are subject to restriction.*

This certificate course is designed to provide overseas and Australian middle level to senior protected area managers with up-to-date skills and knowledge in effectively administering protected areas. State-of-the-art information on managing human resources and complex organisations will be provided through practically oriented study. Students will also be able to build their expertise in monitoring, strategic assessment and system planning. This course is relevant to managers employed by public and private organisations managing lands and waters for biodiversity and other values.

**Admission Requirements (Onshore):**

Cognate Bachelor degree or equivalent workplace experience

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

Some units may be delivered in intensive mode. Internet access is required for all students. Most of the units are available in Semester 1 so full-time students will need to undertake their study in this semester.

**Employment Prospects:**

Employment by government park management agencies (e.g. Commonwealth Department of Environment, WA Department of Parks and Wildlife, Parks Victoria), environmental non-government organisations (e.g. Pew Foundation), private reserve managers (e.g. Bush Heritage Australia), Indigenous Protected Areas.

**Professional Recognition:**

The professional outcome is a Certificate in Protected Area Administration addressing key competency requirements identified internationally (by the IUCN WCPA) for protected area managers.

**Main Research Areas:**

Environmental science and management, ecology, business and management.

**GRADUATE CERTIFICATE IN ENVIRONMENTAL SCIENCE (GRADCERTENVSC)**

Conservation Science

*Graduate Certificate in Environmental Science (GradCertEnvSc)*

Course Codes: C1127

**6**

Duration: 1 semester full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external) (some attendance is required in individual units)
- International students must commence in Semester 2 only.

Restriction: All graduate courses are subject to restriction.

The course is designed to provide Australian and international environmental professionals with an introduction to advanced topics and skills in environmental science. The flexibility and interdisciplinary approach of the program gives students the opportunity to further develop problem solving skills. Completion of the Graduate Certificate in Environmental Science provides the opportunity for further study at progressive graduate levels in Environmental Science.

**Admission Requirements (Onshore):**

A recognised Bachelor Degree (AQF Level 7) in Environmental Science, Marine Science, Biological Science, Conservation Science or a closely related field of education.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

This course is available externally, although some attendance is required in individual units.

Internet access is required for students studying externally; exceptions will be considered on a case-by-case basis.

**Employment Prospects:**

This course is relevant to those who wish to practise in environmental science in the public and private sectors, in Australia and overseas.

**Further Study:**

Students who successfully complete the Graduate Certificate in Environmental Science may apply for admission to the Master of Environmental Science.

**Exemption from Coursework Regulations:**

In this course, where appropriate, undergraduate units (between 100- and 400-level) have been included to meet the learning outcomes for the entire course: postgraduate students can expect to be part of a learning community with undergraduate students in these units.

**Course Structure - 12 credit points**

**Core Units - 6 credit points**

ENV558 Environmental Monitoring - 3 points

MURDOCH: S2-internal, S2-external

ENV303 GIS for Environmental Management and Planning - 3 points

<span data-type="offering" data-unit="ENV303">MURDOCH: S2-internal (quota of 70 places) (closed as the offering has reached capacity), S2-external (quota of 20 places) (closed as the offering has reached capacity)</span>

**Specified Electives - 6 credit points**

Select from the following:

**GRADUATE DIPLOMA IN ENVIRONMENTAL SCIENCE (GRADDIPENV)**

Conservation Science

Graduate Diploma in Environmental Science (GradDipEnv)

Course Codes: G1053

Duration: 1 year full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

Restriction: All graduate courses are subject to restriction.

The course provides graduates from wide cognate disciplines training a graduate qualification in environmental science. It offers a broad range of subjects such as ecology, environmental policy and law, environmental monitoring, land and water management and sustainability. Completion of this course provides the opportunity for further study at progressive graduate levels in Environmental Science.

**Admission Requirements (Onshore):**

A recognised Bachelor degree (AQF Level 7) or higher. If the first degree is not related to this area of study then at least two years of relevant work/life experience is required. Most of the units taken assume some prior knowledge, details of which are given in the description of each unit in the Handbook. Some students may therefore need to complete additional prerequisite units.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

When taken in the external mode, some attendance may be required depending on the units selected.

**Employment Prospects:**

This course is relevant to those who wish to practise in environmental science in the public and private sectors in Australia and overseas.

**Main Research Areas:**

Environmental impact assessment, environmental management, applications of spatial data for modelling, monitoring and management

**Further Study:**

Students who successfully complete the Graduate Diploma may apply for direct admission to the one-year Master of Environmental Science

**Exemption from Coursework Regulations:**

In this course, where appropriate, undergraduate units (between 100- and 400-level) have been included to meet the learning outcomes for the entire course: postgraduate students can expect to be part of a learning community with undergraduate students in these units.

**Course Structure - 24 credit points**

**Core Units - 15 credit points**

## MASTER OF ENVIRONMENTAL SCIENCE (MENVSC)

Conservation Science

Master of Environmental Science (MEnvSc)

Course Codes: M1210

Duration: 1 year full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

Restriction: All graduate courses are subject to restriction.

This course provides advanced training in the application of environmental science to problem solving. The course is open to people working as environmental professionals, or seeking to do so, who want to undertake advanced studies in environmental science to broaden their environmental expertise or specialise further in a selected area.

This course facilitates improved awareness of environmental issues from scientific, technical, social and political perspectives, and provides more specific knowledge in areas of particular interest to individual students. This course aims to supply leaders to the environmental professions with the interdisciplinary scientific and policy skills required to deal with today's complex environmental problems. Graduates from the course are well equipped to contribute to continuing improvement in environmental management practices.

### Admission Requirements (Onshore):

Completion of the Graduate Certificate in Environmental Assessment and Management or Graduate Certificate in Environmental Science or Graduate Diploma in Environmental Science (AQF Level 8), or an equivalent graduate course in a closely related field of education; or equivalent training.

Minimum of GPA of 2.0 is required.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### Special Requirements:

Some external units may require on-campus attendance for a short period.

Internet access is required for students studying externally; exceptions will be considered on a case-by-case basis.

### Employment Prospects:

Past students have come from and/or found employment in the public and private sectors, including the consulting industry, in Australia and overseas.

### Course Structure - 24 credit points

University regulations require completion of 600-level units or above for a 24-point Masters by Coursework degree.

### Core Units - 18 credit points

ENV616 Environmental Policy for the 21st Century - 3 points

<span data-type="offering" data-unit="ENV616">MURDOCH: S1-internal (closed), S1-external (closed)</span>

VLS683 Advanced Research Methods for Scientists - 3 points

MURDOCH: S1S-internal, S1S-external, S2N3-internal, S2N3-external

ENV690 Environmental Science Masters Project - 12 points

MURDOCH: H-internal, H-external, Y-internal, Y-external

### Specified Electives - 6 credit points

Select from the following:

ENV617 Sustainability Assessment - 3 points

Not available this year

ENV684 Modelling the Environment - 3 points

MURDOCH: S2-internal, S2-external

ENV680 Climate Change Adaptation: Ecosystems and Societies - 3 points

MURDOCH: S2-internal, S2-external

SUS611 Resilient Regions: People and Practice - 3 points

MURDOCH: SUM-internal, SUM-external

VLS601 Veterinary and Life Sciences Masters Independent Study - 3 points

MURDOCH: S1-internal, S1-external, S2-internal, S2-external, SUM-internal, SUM-external, W-internal, W-external

Other appropriate 600-level units may be substituted with the permission of the Academic Chair.

---

## EXERCISE PHYSIOLOGY

### See also:

Sports Science

## GRADUATE DIPLOMA IN CLINICAL EXERCISE PHYSIOLOGY (GRADDIPCLINEXPHYS)

Counselling

Graduate Diploma in Clinical Exercise Physiology (GradDipClinExPhys)

Course Codes: G1073

Duration: 3 trimesters full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)

Restriction: All graduate courses are subject to restriction.

Exercise Physiology is a mainstream allied health profession concerned with the delivery of exercise, lifestyle, and behavioural modification programs for the prevention and management of chronic disease and injury. Murdoch graduates of the Exercise Physiology course will possess the skills and ability to provide physical activity and behavioural programs for clients with conditions as diverse as cardiovascular disease, diabetes, osteoporosis, depression, cancer, arthritis, respiratory disease and many others.

### Admission Requirements (Onshore):

Entry into this course is restricted to those completing the requirements of an accredited (through ESSA: Exercise and Sports Science Australia) Exercise Science degree with a minimum GPA of 2.0 (or institution equivalent).

Specific to Murdoch University (internal) students: Entry into this course is restricted to those maintaining a minimum GPA of 2.0 (or equivalent course weighted average mark) and completing all units within the BSc (Movement Science) and BSc (Sport and Health Science).

This course does have a quota, therefore the minimum GPA may not guarantee entry into the course and the indicative GPA may vary from year to year.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### Employment Prospects:

Health Setting: Hospital, Medical clinics

Private Employment: Self-employed practitioner

### Professional Accreditation:

Exercise and Sports Science Australia (ESSA): Exercise Physiology.

### Professional Recognition:

Accredited Exercise Physiologist.

### Main Research Areas:

Exercise Physiology, Rehabilitation: Metabolic, Cardiovascular, Musculoskeletal, Neuromuscular

## Course Structure - 24 credit points

### Core Units - 24 credit points

EXS590 Research Methods for Exercise Science - 3 points  
MURDOCH: T2-internal

EXS503 Neuromuscular Rehabilitation - 3 points  
MURDOCH: T1-internal

EXS502 Metabolic Rehabilitation - 3 points  
MURDOCH: T1-internal

EXS501 Cardiopulmonary Rehabilitation - 3 points

EXS505 Clinical Research in Exercise Physiology - 3 points  
MURDOCH: TS23-internal

## EXERCISE SCIENCE

### MASTER OF EXERCISE SCIENCE (RESEARCH) (MEXSC(RES))

Chiropractic

Master of Exercise Science (Research) (MEXSc(Res))

Course Codes: M1275

Duration: 2 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)

Restriction: All graduate courses are subject to restriction.

Exercise Science is a growing discipline within Australia and worldwide. This degree will develop your skills in prescribing exercise to individuals with complex and chronic conditions while developing your research skills. In your first year of study you will undertake an internship within Murdoch's Exercise Science Research program rated as 'Above World Standard' in the most recent round of the Excellence in Research Australia assessment (<http://www.arc.gov.au/era-reports%20>). The culmination of the course is the undertaking of a research project into a specific question in Exercise Science ranging from improving sports performance in elite athletes to the best exercise to improve health outcomes for a range of individuals and pathologies.

This course is designed for:

- \* Graduates of sport and exercise science programs looking to develop clinical and research skills.
- \* Those hoping to proceed to higher degrees but lacking in the conventional background.

This course requires students to undertake work-based training through a compulsory work-based placement as part of their studies.

### Admission Requirements (Onshore):

Minimum Bachelor Degree (AQF level 7 or international equivalent) in Exercise Science, Sport Science or related discipline.

English competence.

### Employment Prospects:

Clinical Exercise Physiology Clinics, Research Institutes, Professional Sporting Teams.

### Main Research Areas:

Exercise Science, Exercise Physiology, Sports Science, Rehabilitation, Biomechanics, Motor Control, Strength and Conditioning, Injury Prevention, diabetes, Performance, Obesity, Physical Activity.

## Course Structure - 48 credit points

### Year 1 - 24 credit points

EXS501 Cardiopulmonary Rehabilitation - 3 points  
MURDOCH: T1-internal

EXS502 Metabolic Rehabilitation - 3 points  
MURDOCH: T1-internal

EXS503 Neuromuscular Rehabilitation - 3 points  
MURDOCH: T1-internal

MURDOCH: T3-internal

EXS590 Research Methods for Exercise Science - 3 points  
MURDOCH: T2-internal

EXS692 Literature Review and Research Proposal in Exercise and Rehabilitation Sciences - 6 points  
MURDOCH: T1-internal

EXS610 Exercise Science Research Practicum - 3 points  
MURDOCH: TS12-placement, TS23-placement, TS31-placement

### Year 2 - 24 credit points

EXS699 Thesis in Exercise Science - 24 points  
MURDOCH: TS13-internal, TS32-internal, YU2-internal

---

## EXTRACTIVE METALLURGY

### See also:

Mineral Science

---

### GRADUATE DIPLOMA IN EXTRACTIVE METALLURGY (GRADDIPEXTMET)

Chemical and Metallurgical Engineering

Graduate Diploma in Extractive Metallurgy (GradDipExtMet)

Course Codes: G1034

Duration: 1 year full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)

Restriction: All graduate courses are subject to restriction.

The Graduate Diploma provides specialised training in the core disciplines of extractive metallurgy - mineral processing, process mineralogy, hydrometallurgy and pyrometallurgy. It has been devised for the benefit of graduates from related fields of study currently working in the minerals industry who now find they need specialised knowledge in extractive metallurgy, and others who wish to prepare for a higher degree in extractive metallurgy (i.e. Masters or PhD).

#### Admission Requirements (Onshore):

Recognised Bachelor's degree (AQF Level 7) or higher, or equivalent training, in a relevant area. Students with alternative satisfactory preparation may also be admitted. Students who do not have equivalent knowledge and background in chemistry, thermodynamics, physics and mathematics will be required to undertake additional preparatory units prior to admission.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### Special Requirements:

This course is best suited for part-time students or overseas students who wish to study for a higher degree in extractive metallurgy. Attendance at on-campus laboratory sessions is a requirement in the practicum unit.

#### Employment Prospects:

Many students taking this qualification will already be employed in the minerals industry as engineers or chemists. Other graduates can expect to find employment in mineral processing and metal extraction plants throughout Australia and overseas.

#### Professional Accreditation:

Recognised by the Australasian Institute of Mining and Metallurgy.

#### Professional Recognition:

Diplomates are eligible for professional membership of the Australasian Institute of Mining and Metallurgy.

## Course Structure - 24 credit points

### Core Units - 24 credit points

ENG193 Introduction to the Minerals Industry - 3 points  
MURDOCH: S1-internal, S1-external

ENG524 Process Unit Operations - 3 points  
MURDOCH: S1-internal, S1-external

ENG565 Mineralogy for Metallurgists - 3 points  
MURDOCH: S2-internal, S2-external

ENG566 Advanced Mineral Processing - 3 points  
MURDOCH: S1-internal, S1-external

ENG527 Extractive Metallurgy I - 3 points  
MURDOCH: S1-internal, S1-external

ENG528 Extractive Metallurgy II - 3 points  
MURDOCH: S2-internal, S2-external

ENG562 Practical Metallurgical Processing - 6 points  
MURDOCH: H-external, Y-external

Or other units with permission of the Academic Chair.

## FOOD SECURITY

### MASTER OF FOOD SECURITY (MFOODSEC)

Agricultural Sciences

Master of Food Security (MFoodSec)

Course Codes: M1237

Duration: 2 semesters full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)
- Some units only: Murdoch campus (external)

Restriction: All graduate courses are subject to restriction.

This course provides a sound understanding of food security, including international frameworks in which food trade operates, and the drivers behind food security. Using case studies, students will explore biosecurity and food policies that underpin food security and trade in a global context. Students will investigate the concept of producing, protecting and providing food, to ensure sustainable food production for present and future generations. The dissertation provides an opportunity for in-depth analysis of an issue of relevance to food security.

#### Admission Requirements (Onshore):

Completion of the Graduate Certificate or Diploma in Plant Biosecurity or an equivalent AQF Level 8 qualification, including honours, in the plant, ecological, environmental or animal sciences. Students with a Bachelor's degree in the plant, ecological, environmental or animal sciences with at least three years of relevant work experience are also eligible for admission as determined by the Academic Chair.

Equivalent of an Academic IELTS overall score of 6.5 with no band less than 6.0.

#### Special Requirements:

Some units may be delivered in intensive mode. Internet access is required for all students.

#### Employment Prospects:

Graduates will be able to pursue careers in fields such as agriculture and international development, acting in policy, technical, research and administrative roles, with organisations such as the State Departments of Agriculture, State and Federal Agriculture or Development Agencies, and private industry, or their international counterparts.

**Professional Recognition:**

Graduates will be eligible to apply for membership to societies such as the Australian Institute of Agricultural Science and the Australian Society of Horticultural Sciences.

**Main Research Areas:**

Food production, protection and provision; biosecurity; agribusiness; sustainability; supply chain analysis.

**Course Structure - 24 credit points****Core Units - 21 credit points**

BIO689 Food Security Masters Dissertation - 12 points  
MURDOCH: H-internal, H-external, S1-internal, S1-external, S2-internal, S2-external, Y-internal, Y-external

BIO639 Global Biosecurity - 3 points  
<span data-type="offering" data-unit="BIO639">MURDOCH: S1-internal (closed), S1-external (closed)</span>

BIO681 Challenges in Food Security - 3 points  
MURDOCH: S2-internal, S2-external

VLS683 Advanced Research Methods for Scientists - 3 points  
MURDOCH: S1S-internal, S1S-external, S2N3-internal, S2N3-external

**Specified Electives - 3 credit points**

Select from the following:

ENV616 Environmental Policy for the 21st Century - 3 points  
<span data-type="offering" data-unit="ENV616">MURDOCH: S1-internal (closed), S1-external (closed)</span>

SWM628 Development and Sustainability - 3 points  
MURDOCH: W-internal

**Admission Requirements (Onshore):**

Evidence of studies at university level (AQF Level 7) in biology or biochemistry or chemistry. Applicants who can show equivalent knowledge through vocational training and/or experience will be considered.

**Admission Requirements (Offshore):**

Evidence of studies at university level (AQF Level 7) in biology or biochemistry or chemistry. Applicants who can show equivalent knowledge through vocational training and/or experience will be considered.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Employment Prospects:**

This course is designed to generate graduates with the skills needed to work with the police and other investigative authorities as Forensic Investigators or Crime Scene Officers.

**Main Research Areas:**

Forensic DNA Analysis; Fingerprinting Technologies; Toxicology and Metabolomics; Bloodstain Pattern Analysis; Wildlife Forensics.

**Course Structure - 12 credit points****Specified Electives - 12 credit points**

BIO685 Crime Scene Investigation II - 3 points  
MURDOCH: S1-internal

**FORENSIC SCIENCE****GRADUATE CERTIFICATE IN FORENSIC SCIENCE (PROFESSIONAL PRACTICE) (GRADCERTFORSC(PROFESSIONALPRACTICE))**

Biomedical Science

Graduate Certificate in Forensic Science (Professional Practice)  
(GradCertForSc(ProfessionalPractice))

Course Codes: C1131

Duration: 1 semester full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)

Restriction: All graduate courses are subject to restriction.

This course provides science graduates or equivalent, with professional training in crime scene investigation and access to elective forensic science discipline-based units which are delivered to best international standards. Students develop the theoretical and practical skills relevant to the forensic investigation of volume and serious crimes. Reconstruction of the different crime scene types and processing by the students is emphasised, as is the collection, processing and interpretation of biological and physical evidence. In addition, as a forensic/ crime scene investigator you will undertake (unit dependent) 'capstone' field trips to a dedicated outdoor facility, to process a mock murder scene and a body recovery exercise. The mock scene processing: interpretation, recording/ documentation, evidence collection sources of contamination, quality assurance procedures and the admissibility of evidence are undertaken as a prelude to your generation of expert witness reports and courtroom testimony.

**GRADUATE DIPLOMA IN FORENSIC SCIENCE (PROFESSIONAL PRACTICE) (GRADDIPFORSC(PROFESSIONALPRACTICE))**

Biomedical Science

Graduate Diploma in Forensic Science (Professional Practice)  
(GradDipForSc(ProfessionalPractice))

Course Codes: G1085

Duration: 1 year full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)

Restriction: All graduate courses are subject to restriction.

This course provides science graduates or equivalent, with professional training in crime scene investigation and the associated forensic science disciplines to international standards. Students develop the theoretical and practical skills relevant to the forensic investigation of volume and serious crimes. In addition to gaining instruction in the core forensic disciplines, training is also provided

in forensic specialisms (pathology, anthropology, disaster victim identification (DVI) entomology, palynology). Reconstruction of the different crime scene types and processing by the students is emphasised, as is the collection, processing and interpretation of biological and physical evidence. In addition, as a forensic/ crime scene investigator you will undertake 'capstone' field trips to a dedicated outdoor facility, to process a mock murder scene and a body recovery exercise. The mock scene processing: interpretation, recording/ documentation, evidence collection sources of contamination, quality assurance procedures and the admissibility of evidence are undertaken as a prelude to your generation of expert witness reports and courtroom testimony.

In addition, as a forensic/ crime scene investigator you will undertake 'capstone' field trips to a dedicated outdoor facility, to process a mock murder scene and a body recovery exercise. The mock scene processing: interpretation, recording/ documentation, evidence collection sources of contamination, quality assurance procedures and the admissibility of evidence are undertaken as a prelude to your generation of expert witness report and courtroom testimony. In the final semester, students will undertake a research based project or dissertation focusing on enhancing the operational needs of the Western Australian and national forensic providers.

#### **Admission Requirements (Onshore):**

A recognised Bachelor Degree (AQF Level 7) with evidence of studies in biology or biochemistry or chemistry, or, completion of the Graduate Certificate in Forensic Science (Professional Practice) (C1131) or Graduate Diploma in Forensic Science (Professional Practice) (G1085) with a GPA of 2.0 or higher.

#### **Admission Requirements (Offshore):**

A recognised Bachelor Degree (AQF Level 7) with evidence of studies in biology or biochemistry or chemistry, or, completion of the Graduate Certificate in Forensic Science (Professional Practice) (C1131) or Graduate Diploma in Forensic Science (Professional Practice) (G1085) with a GPA of 2.0 or higher.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

#### **Employment Prospects:**

This course is designed to generate graduates with advanced skills needed to work with the police and other investigative authorities as Forensic Investigators or Crime Scene Officers.

#### **Main Research Areas:**

Forensic DNA Analysis; Fingerprinting and Impression Evidence Technologies; Toxicology, Drugs of Abuse and Metabolomics; Bloodstain Pattern Analysis; Forensic contamination surveys and prevention procedures.

#### **Nested Awards:**

Students may opt out of the Master of Forensic Science (Professional Practice) and exit with the Graduate Certificate of Forensic Science (Professional Practice) subject to satisfying the course requirements.

## GAMES AND APPS PRODUCTION

### GRADUATE DIPLOMA IN GAMES AND APPS PRODUCTION (GRADDIPGAMESAPPSPROD)

Creative Media, Arts and Design

Graduate Diploma in Games and Apps Production  
(GradDipGamesAppsProd)

Course Codes: G1074

Duration: 2 semesters full-time (if commencing in Semester 1) or part-time equivalent subject to unit availability. Students commencing mid-year (Semester 2) will need 1.5 years minimum enrolment (a total of 3 semesters) to complete requirements.

### Availability:

- Murdoch campus (internal) (no further admissions to be taken for

2019; enrolment suspended)

*Restriction: All graduate courses are subject to restriction.*

The course provides graduates from wide cognate disciplines with knowledge, skills, and experience in developing Games and Apps with a focus on commercial viability and industry best practices, as well as complementary development of business and marketing skills. Completion of this course provides the opportunity for disciplined Games and Apps development within real world contexts, both for commercial and non-commercial environments.

**Admission Requirements (Onshore):**

Recognised Bachelor's degree (AQF Level 7) or higher or equivalent training in a relevant field. If the first degree is not related to this area of study then satisfactory preparation for the course through relevant professional experience is required.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Employment Prospects:**

This course is relevant to those who wish to create interactive multimedia applications for desktop, mobile, and console platforms including games for entertainment or education, data visualisation, and software development for process management, training, or teaching.

**Main Research Areas:**

Games Development, Human-Computer Interaction, Product Design

**HEALTH**

**GRADUATE CERTIFICATE IN HEALTH CARE MANAGEMENT (GRADCERTHCM)**

Nursing

*Graduate Certificate in Health Care Management (GradCertHCM)*

Course Codes: C1116

*Duration: 1 semester full-time (if commencing in Semester 1) or part-time equivalent subject to unit availability. Students commencing mid-year (Semester 2) will need 1.5 years minimum enrolment (a total of 3 semesters) to complete requirements.*

**Availability:**

- Murdoch campus (external)
- Murdoch University Dubai (UAE) ['DUBAI-ISC'] (internal)

*Restriction: All graduate courses are subject to restriction.*

This Certificate aims to cultivate excellence in quality, leadership and management in health professionals working in Quality, Safety, Risk and Middle Management roles in acute, community, mental health, primary and aged care public and private sectors. This course will provide fundamental skills for a range of leadership and management positions within the health service industry.

**Admission Requirements (Onshore):**

Completion of a Bachelor degree (AQF Level 7) or equivalent in a health related discipline. Preparation for the course through previous study or professional experiences will be considered on a case-by-case basis.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Special Requirements:**

Access to adequate library resources and to the Internet is essential for external students.

**Employment Prospects:**

Enhanced quality, safety and management skills acquired will position students to meet consumer expectations of the healthcare system and to fulfil industry demand for increased middle management skills in order to enhance the quality of services. Positions such as Accreditation Coordinator, Quality Manager, Quality and Risk Manager are essential within health services, particularly the private and aged care sectors, for their accreditation. Successful completion of this course will put graduates in a favourable position to fill such roles.

**Main Research Areas:**

Health, quality and management

## GRADUATE CERTIFICATE IN ONE HEALTH (GRADCERTONEHEALTH)

Veterinary Medicine

Graduate Certificate in One Health (GradCertOneHealth)

Course Codes: C1145

Duration: 0.5 full-time or part-time equivalent

### Availability:

- FutureLearn (Australia) ['FTLEARN'] (online)

Restriction: All graduate courses are subject to restriction.

One Health is an ambitious concept seeking to enhance interdisciplinary collaborations across all aspects of health care. It embraces traditionally separate fields including human medical health disciplines, veterinary medicine, public health and health administration, and the interactions of human and animal populations with the environment. Although articulated as a 21st Century concept, the connection between human health and the environment has been understood since ancient times. The subsidiary concept of ecosystem health, which notes that healthy ecosystems are needed to support healthy communities, developed during the 20th Century. The modern synthesis is the recognition that complex health problems such as disease pandemics cannot be prevented or controlled by specialists in one discipline alone, but require contributions from multiple specialists working in collaborative teams.

### Admission Requirements (Onshore):

Bachelor's degree in cognate discipline

### Admission Requirements (Offshore):

Bachelor's degree in cognate discipline

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### Employment Prospects:

Biosecurity, environmental health, public health, food biosecurity

### Main Research Areas:

Veterinary biology, health administration, biosecurity

## MASTER OF HEALTH CARE MANAGEMENT (MHCM)

Nursing

Master of Health Care Management (MHCM)

Course Codes: M1217

Duration: 1.5 years full-time or part-time equivalent

### Availability:

- Murdoch campus (internal)
- Murdoch campus (external)
- Murdoch University Dubai (UAE) ['DUBAI-ISC'] (internal)

Restriction: All graduate courses are subject to restriction.

This course aims to cultivate excellence in quality, leadership and management in health professionals working in Quality, Safety, Risk and Middle Management roles in acute, community, mental health, primary and aged care public and private sectors. Students will, on completion of the course, have the capacity and capability of applying these skills in a range of management positions and become leaders and champions of change. Innovative and creative elective units are designed to allow different disciplines to focus on their areas of speciality.

### Admission Requirements (Onshore):

Completion of a Bachelor degree (AQF Level 7) or equivalent in a health discipline. Preparation for the course through previous study or professional experiences will be considered on a case-by-case basis.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

### Special Requirements:

Access to adequate library resources and to the Internet is essential for external students.

### Employment Prospects:

Enhanced quality, safety and management skills acquired will position students to meet consumer expectations of the healthcare system and to fulfil industry demand for increased middle management skills, mentoring, supervision and coaching skills in order to enhance the quality of services. Positions such as Accreditation Coordinator, Quality Manager, Quality and Risk Manager are essential within health services, particularly the private and aged care sectors, for their accreditation. Successful completion of this course will put graduates in a favourable position to fill such roles.

### Main Research Areas:

Health, quality and management

### Advanced Standing:

Up to 12 credit points of advanced standing is available to students who have completed a Level 8 Graduate Certificate or a Bachelors degree with Honours.

## Course Structure - 36 credit points

University regulations require completion of a minimum of 24 points at 600-level and up to 12 points at 500-level for a 36 point Masters by Coursework degree.

### Core Units - 33 - 36 credit points

SHP501 Safety and Quality in Health Care - 3 points  
MURDOCH: S1-external, S2-external

MURDOCH: S2-external  
OUA: S2-external

### Specified Electives - 0 to 3 credit points

If completing the 6 credit point project, students may select from the following:

SHP638 Health Care Education - 3 points  
Not available this year

SHP641 Clinical Governance - 3 points  
MURDOCH: S1-external

EDU616 Teaching, Learning and Working in Culturally Diverse Environments - 3 points  
MURDOCH: S1-internal, S1-external  
DUBAI-ISC: TJD-internal

Or 600-level units from related coursework Masters, subject to the approval of the Academic Chair.

## HEALTH ADMINISTRATION POLICY AND LEADERSHIP

### MASTER OF HEALTH ADMINISTRATION, POLICY AND LEADERSHIP (MHAPL)

Accounting

Master of Health Administration, Policy and Leadership (MHAPL)

Course Codes: M1267

Duration: 2 years full-time or part-time equivalent

#### Availability:

- Murdoch campus (internal)

Restriction: All graduate courses are subject to restriction.

The Master of Health Administration, Policy and Leadership (HAPL) is a multidisciplinary program providing specialised skills in health policy, administration, management, economics, law, epidemiology, informatics and communications for future health-industry leaders. HAPL is a pan-University program drawing together every School's core expertise in research and teaching. Students will be connecting with the health industry's future employers locally, nationally and internationally. Scholarships, internships and international exchanges are part of the degree, the only one of its kind in Australia.

#### Admission Requirements (Onshore):

A Bachelor's degree (or equivalent) in any field.

Equivalent of an Academic IELTS overall score of 6.0 with no band

less than 6.0.

#### Employment Prospects:

Health is one of Australia's largest industries, with over 1 million people employed nationally. It is also WA's largest single employment sector. International trends suggest that the increasing demand for executives, managers, professionals, administrators and analysts working in the healthcare industry will require specialised multidisciplinary skills and qualifications in health administration, policy, management, economics, law, epidemiology, informatics and communications. Individuals already in the workforce will increasingly need to develop these skills to progress in their career. It is expected that the main employment prospects for graduates of this course will be in the local, national and international health industry, including pharmaceutical and medical devices firms, NGOs, health insurers, regulatory agencies, hospitals and integrated care organisations, primary health organisations, health ministries, departments, and other governmental agencies, as well as universities and commercial research organisations.

#### Professional Accreditation:

Australasian College of Health Service Management (ACHSM)

#### Professional Recognition:

Royal Australasian College of Medical Administrators (RACMA)

#### Main Research Areas:

Health policy, systems, administration, economics, management & leadership, law, informatics, public health.

#### Advanced Standing:

A student's advanced standing is assessed at the time of application, taking into account level of higher study and/or professional experience. Up to 12 points (0.5 year) of advanced standing is available to students with:

a Bachelor degree with a major in a cognate discipline to the Masters course; or

a Bachelor degree in an unrelated discipline and a Graduate Certificate or Diploma in a cognate discipline to the Masters course; or

an Honours degree or equivalent in an unrelated discipline; or a Bachelor degree in an unrelated discipline and two years of relevant, documented professional experience.

Up to 24 points (1 year) of advanced standing is available to students with:

an Honours degree or equivalent in a cognate discipline to the Masters course; or

an Honours degree or equivalent in an unrelated discipline and at least two years of relevant documented professional experience. A student admitted with 24 points of advanced standing may not be able to complete a full specialisation.

### Course Structure - 48 credit points

#### Core Units - 12 credit points

SWM517 Health Policy and Governance - 3 points  
MURDOCH: S1-internal, S1-external, SUM-internal, SUM-external

SWM518 Health Economics and Finance - 3 points  
<span data-type="offering" data-unit="SWM518">MURDOCH: S2-internal, S2-external, W-internal (quota of 60 places), W-external</span>

LLM614 Health Law - 3 points  
MURDOCH: S1-internal

VET656 Public Health and Epidemiology - 3 points  
MURDOCH: S2-internal

#### Specialisation - 12 credit points

Select from one of the following specialisations:

#### Administration and Leadership Specialisation

SWM532 Financial Administration and Budgeting - 3 points

MURDOCH: S1-internal, S1-external

MBS651 Leading and Managing Nonprofit Organisations - 3 points

MURDOCH: S2-internal, S2-external

MBS538 Organisational Behaviour and Management - 3 points

MURDOCH: S1-internal, S1-external, S2-internal, S2-external, SUM-internal, SUM-external

SWM519 Strategic Health Leadership and Management - 3 points

MURDOCH: S1-internal, S1-external

### **Informatics and Analytics Specialisation**

Students seeking to complete the Informatics and Analytics Specialisation are to contact the Chair of Health Administration, Policy and Leadership for enrolment advice.

SWM533 Principles of Health Informatics - 3 points

SWM531 Health Data Analytics - 3 points

MBS603 Data, Metrics, Reporting and Analytics - 3 points

MURDOCH: S2-internal, S2-external

MCM507 Health Communication - 3 points

MURDOCH: S1-internal

### **Policy and Evaluation Specialisation**

SWM516 Policy Research and Evaluation - 3 points

MURDOCH: S1-internal, S1-external

SWM519 Strategic Health Leadership and Management - 3 points

MURDOCH: S1-internal, S1-external

SWM613 Public Policy Perspectives - 6 points

MURDOCH: S2-internal

### **Capstone Experience - 3 to 12 credit points**

Select one option from the following:

#### **Option 1 Supervised Project**

MBS520 Research Preparation for Business - 3 points

MURDOCH: S1-internal, S1-external, S2-internal, S2-external

MBS643 Applied Research Practicum - 6 points

MURDOCH: S1-internal, S2-internal

#### **Option 2 Supervised Thesis**

SWM618 Social Science Research Design - 3 points

MURDOCH: S1-internal

SWM617 Supervised Research Thesis - 6 points

MURDOCH: S1-internal, S2-internal

OR

SWM6171 Supervised Research Thesis - 9 points

MURDOCH: S1-internal, S2-internal

#### **Option 3 Research Internship**

MBS520 Research Preparation for Business - 3 points

MURDOCH: S1-internal, S1-external, S2-internal, S2-external

SWM619 Research Internship - 6 points

MURDOCH: S1-internal, S2-internal

Students undertaking an extended internship of 12 weeks/500 hours for 12 points should enrol in SWM619 Research Internship and

SWM6191 Internship Professional Placement - 6 points

MURDOCH: S1-internal

#### **Option 4 Case Study**

SWM620 Supervised Case Study Project - 3 points

MURDOCH: S1-internal, S1-external, S2-internal, S2-external, SUM-internal, SUM-external

S1-internal, S2-internal (closed), W-internal (closed)

### **Specified Electives - 12 to 21 credit points**

Select from the following units where not already selected for chosen specialisation.

#### **Recommended for Administration and Leadership Specialisation**

MBS555 Human Resource Management Perspectives - 3 points

**HEALTH COMMUNICATION****GRADUATE DIPLOMA IN HEALTH COMMUNICATION (GRADDIPHTHCOMM)**

Communications

*Graduate Diploma in Health Communication (GradDipHthComm)*

Course Codes: G1075

Duration: 1 year full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal) (no further admissions to be taken for 2019; enrolment suspended)

Restriction: All graduate courses are subject to restriction.

In Australia, health communication is a diverse field working across government, non-government, non-profit, private and public organisations and impacting on the health decision-making behaviour of a diverse and complex public. Health communicators work to translate and mediate the myriad discourses within the industry including policy, research, clinical practice and public health. Students will work on real-life projects within this context and will engage with current theory and practice in order to critique health communication campaigns in Australia and internationally.

**Admission Requirements (Onshore):**

Recognised Bachelor's degree in any field, or equivalent training, or satisfactory preparation for the course through previous study or professional experience.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Employment Prospects:**

Health communication is a diverse professional area with employment opportunities available across diverse industries in Australia and internationally. Health communicators are the vital link between policy makers, health providers, clinicians, researchers and public health institutions working at all levels of health intervention, from grass roots community all the way to the international arena. Graduates of this course will be able to seek employment in the health and allied industries in a range of roles including, but not limited to, strategic communications specialists, communications advisors, media advisors, communications consultants, digital communications specialists, community engagement officers, stakeholder managers, government communications advisors, communications policy advisors and public relations managers.

**Main Research Areas:**

Health communication, behaviour change, communication and media studies, public relations, digital health communication

**Course Structure - 24 credit points****Core Units - 18 credit points**

## HUMAN RESOURCES MANAGEMENT

### GRADUATE CERTIFICATE IN HUMAN RESOURCES MANAGEMENT (GRADCERTHRM)

Economics

Graduate Certificate in Human Resources Management (GradCertHRM)

Course Codes: C1108

Duration: 1 semester full-time (Semester 1 commencement only) or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)
- International students must commence in Semester 1 only.

Restriction: All graduate courses are subject to restriction.

This award is a professionally-oriented coursework qualification in Human Resources Management (HRM) and is accredited with the Australian Human Resources Institute (AHRI). It provides students with a foundation of the organisational context and objectives necessary for the development of HR strategy within a legal and governance framework. Graduates of this degree can translate and adapt theory into substantiated ethical and sustainable people management advice.

**Admission Requirements (Onshore):**

Recognised Bachelor's degree or higher; or satisfactory preparation for the course through previous study or professional experience.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Employment Prospects:**

Employment prospects range from specialist to general HR manager roles.

Specialist roles include Training and Development Coordinator, Talent

Management consultant, Employee Relations advisor.

**Professional Accreditation:**

Accredited with the Australian Human Resources Institute (AHRI).

**Main Research Areas:**

Human Resources Management.

**Further Study:**

Students who successfully complete the Graduate Certificate may apply for admission to the Graduate Diploma in Human Resources Management or the MHRM. An offer must be received before enrolling in any further units.

**Advanced Standing:**

Applications will be considered on a one to one basis and applicants are recommended to consult with the academic chair at the time of enrolment if this is a consideration.

### Course Structure - 12 credit points

#### Core Units - 9 credit points

MBS555 Human Resource Management Perspectives - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external

MBS501 Human Resource Management Law - 3 points  
MURDOCH: S1-internal, S1-external

MBS538 Organisational Behaviour and Management - 3 points  
MURDOCH: S1-internal, S1-external, S2-internal, S2-external,  
SUM-internal, SUM-external

### Specified Electives - 3 credit points

Select from the following:

MBS535 Managing, Evaluating and Developing Human Resources - 3 points  
MURDOCH: S1-internal, S1-external

MBS568 Organisational Change, Management and Consultancy - 3 points  
MURDOCH: S2-internal, S2-external

MBS668 Managing Remuneration, Benefits and Motivation - 3 points  
MURDOCH: S2-internal, S2-external

**MASTER OF HUMAN RESOURCES MANAGEMENT (MHRM)**

Economics

Master of Human Resources Management (MHRM)

Course Codes: M1213

Duration: 2 years full-time or part-time equivalent

**Availability:**

- Murdoch campus (internal)
- Murdoch campus (external)

Restriction: All graduate courses are subject to restriction.

Employers understand the need for capable and credentialed Human Resource practitioners to build competitive advantage in the globalised marketplace.

Completing a graduate qualification in Human Resources Management (HRM) signals to the labour market an applied understanding of contemporary HR practice.

The Master of HRM at Murdoch University is a professionally-oriented master degree. It provides the opportunity for students to develop knowledge of the critical components of a productive and sustainable organisational culture; and builds the requisite skills so the HR practitioner can translate and adapt theory into practice in order to offer substantiated strategic people management advice.

The course is accredited with the Australian Human Resources Management Institute; and is delivered in a flexible mode which

allows students to balance work, study and other personal commitments.

**Admission Requirements (Onshore):**

Recognised Bachelor's degree or higher and evidence of two years of work experience; or satisfactory preparation for the course through previous study or professional experience.

Equivalent of an Academic IELTS overall score of 6.0 with no band less than 6.0.

**Employment Prospects:**

Employment prospects range from specialist to general HR manager roles. Specialist roles include Training and Development Manager, Talent Management consultant, Employee Relations Manager, Compensation or Benefit Analyst/Manager, HR Information Systems Manager, Non-profit HR professional.

**Professional Accreditation:**

Accredited with the Australian Human Resources Institute (AHRI).

**Main Research Areas:**

Human resource management.

**Advanced Standing:**

Up to 12 points of advanced standing is available to students with a recognised Graduate qualification in a cognate area or evidence of two or more years relevant work experience. Applications will be considered on a one to one basis and applicants are recommended to consult with the academic chair at the time of enrolment if this is a consideration.

discuss this with the Academic Chair prior to selecting specified  
electives.

**HUMAN RESOURCES AND SAFETY****GRADUATE CERTIFICATE IN HUMAN  
RESOURCES AND SAFETY (GRADCERTHRS)**

Psychology, Counselling, Exercise Science and Chiropractic

*Graduate Certificate in Human Resources and Safety (GradCertHRS)*

Course Codes: C1114

Duration: 1 to 2 years part-time only

**Availability:**

- Not currently available to new admissions

*Restriction: All graduate courses are subject to restriction.*

This Graduate Certificate is relevant to those wishing to apply  
knowledge of organisational psychology in business, industrial and  
other organisational contexts. It is particularly appropriate as a  
second discipline area for graduates in Commerce, Law, Education,  
Sociology, and Environmental or Biological Science who intend  
working in an area requiring knowledge of: Job Assessment  
Methods, Performance Appraisal, Staffing, Human Resource  
Development, Training, Safety, Rehabilitation, Retirement,  
Retrenchment, Management of Change and Organisational Decision  
Making.

Although enrolment is open to graduates in any discipline,  
candidates should possess a functional understanding of statistics  
and research methods. Candidates holding a four-year psychology  
degree and who intend to pursue a career as a Registered  
Psychologist should normally enrol for the Master of Applied  
Psychology. However, those four-year psychology graduates who  
complete the Graduate Certificate, and who subsequently enrol in  
the Masters course will be given credit for relevant units completed.  
(Note that students without a four-year degree in Psychology are  
not eligible for admission to the Master of Applied Psychology).

**Admission Requirements (Onshore):**

No intake for 2019.□

Equivalent of an Academic IELTS overall score of 6.0 with no band  
less than 6.0.

**Employment Prospects:**

This Graduate Certificate is available to graduates of any discipline,  
including psychology, who do not intend to pursue a career as a  
Registered Psychologist but who intend to work in an area where  
knowledge of organisational psychology human resources and  
safety will be of benefit.

**Further Study:**

Students who successfully complete this course may apply for  
admission to the Graduate Diploma in Consultancy Psychology.

**Course Structure - 12 credit points****Core Units - 9 credit points**
